11. Miscellaneous provisions.....	386

RATES FOR MONTHLY FEE-BASED CONTRACTS

1. General provisions related to the subscriber services

1.1. Principles of payment

- 1.1.1. Using Vodafone's monthly fee-based subscriber service, customers can connect to Vodafone's network and retrospectively pay the applicable fees for calls and other services against a bill, while monthly subscription fees and service fees are paid in advance.
- 1.1.2. All prices are denominated in HUF and include VAT, except for the sections where it is indicated otherwise.
- 1.1.3. The billing units of calls are described under the relevant tariffs.
- 1.1.4. Calls initiated at the end of a time zone and continuing into the next time zone are billed according to the charging zone valid at the time of initiating the call. The charges used for rounding to the billing unit are based on the time zone valid at the time of initiating the call.
- 1.1.5. Charging periods are based on the officially scheduled working and non-working days, unless another charging period is required by law. In the latter case, charging periods are modified in line with the legal requirements.
- 1.1.6. Calls are billed at the rates specified in the List of Rates. The usage fee of diverted calls is paid by the Subscriber initiating the call diversion.
- 1.1.7. Charges for the sending of short text messages are given for one message in each case. The receipt of short text messages is free of charge. Prices are not applicable for short text message services subject to special charges. For the current list of SMS-based content services available from Vodafone's network and the relevant rates, visit the Service Provider's website.
- 1.1.8. In those cases when the net value of the gross prices indicated in the list of rates is an infinite decimal, the value is rounded down to two decimal places.
- 1.1.9. Calls and SMS messages with special rate: calls and text messages, whose charges are different from normal tariffs and are not qualified as Premium Rate Services pursuant to section 3.1.2.27 of GTC, among others:
 - Directory assistance service, Special Directory Assistance, Domestic directory assistance service: 11818/11824/11888/11811/11800,
 - Hungarian Automobile Club: 188,
 - Talking clock: 180,
 - Calls to the area code of 21: 21abcdefg,
 - Account balance information: 1751,
 - Voicemail calls.
- 1.1.10. Non-premium rate calls and SMS messages: calls and SMS messages with regular rate to the domestic network that are not calls and SMS messages with special rate and are not qualified as Premium Rate Services pursuant to section 3.1.2.27 of the GTC.
- 1.1.11. Domestic calls within the network shall in all cases mean calls initiated from the Service Provider's network.

1.2. Settlement of accounts with customers

1.2.1. Rates

The following five components belong to the subscribers' settlement, which may be added to their monthly invoice:
Entry fee – a one-off fee item payable upon registration.

Monthly subscription fee and Additional monthly subscription fee - payable monthly in advance.

A precondition of using the mobile radiophone service provided by the Service Provider and joining the Service Provider's system for post-paid Subscribers – with monthly subscription fee – is the payment of the monthly subscription fee and the Additional monthly subscription fee which are payable in advance (unless otherwise provided for by another agreement signed by the Service Provider and the Subscriber). The monthly subscription fee and the Additional monthly subscription fee are payable in advance.

All other charges – traffic charges, one-off and monthly fees of other services – are payable in addition to the above fees. The call charges are payable monthly in arrears.

Fees of other services

A part of the other services used is subject to fee payment, or – depending on the type of the service – is provided for a one-off or monthly fee. The monthly fees – similarly to the monthly subscription fee – are payable in advance.

Additional monthly subscription fee

• All monthly fee items payable for a SIM card of any sort, which are not applicable to airtime minutes or data traffic.

- This item is the following per Customer type:
 - o for Medium and Large Enterprise Subscribers net HUF 2,500/month/SIM card
 - o for Small Enterprise Subscribers gross HUF 3,175 /month/SIM card
 - o for business customers with Flotta tariff package gross HUF 889 /month/SIM card.

1.2.2. Electronic Account Information service

Using an Internet connection, our customers can display their account information (including the detailed list of calls) on the screen of a computer, as well as download and prepare reports about those data. This service can be used by Vodafone customers free of charge.

The Service Provider grants a discount of up to HUF 200 gross on the monthly tariffs if the Subscriber chose electronic invoicing prior to 1 July 2014, and its subscription to the electronic invoicing service is constantly active, furthermore, the Subscriber complies with all the criteria specified in Section 7.1.2.4 of these General Terms and Conditions. Service Provider does not provide a discount of HUF 200 for Subscribers switching to electronic invoicing on 1 July 2014 or thereafter. The Service Provider grants the e-invoice discount to eligible subscriptions for every tariff package with voice service available for all small enterprise subscribers, except: for Tablet packages, Vodafone RED Basic and Plusz packages, tariff packages with e-Pack service, Vállalkozói Fix 2000, Vállalkozói Fix 5000, Vállalkozói Fix 8000, Vállalkozói Osztható 10000, Vállalkozói Osztható 15000, Vállalkozói Osztható 20000, Vállalkozói Osztható 30000, Vállalkozói Osztható 45000, Vállalkozói Osztható 60000, Vállalkozói Osztható 75000, Vállalkozói Osztható 100000, Business Red and Business Red Prémium tariff packages E-bill discount is not provided for these tariff packages.

1.2.3. Settlement of invoices via ATMs

Neither Vodafone nor the ATM operator/bank charges to the customer an extra transaction fee when invoices are paid via cash dispensers (ATMs). Such transactions are regarded as purchase transactions based on the rules applicable to cash card use, and therefore, the banks issuing the cards apply their rates valid for cash card purchases.

2. Rates for tariff packages and options

2.1. Tariff packages currently marketed

2.1.1. Business Kid Watch tariffs for Small Enterprise Subscribers

The following tariff plan is only available for (new and existing) Small Business Subscribers purchasing a post-paid subscription.

The prices indicated in the following tables are gross prices including VAT. In the tariff, calls are billed by 1-minute units.

	Business Kid Watch tariff
Startup expenses	
Registration fee (HUF)	10,000
Monthly fees	
Tariff monthly fee (HUF)	1,500
Internet monthly fee (HUF)	990
Monthly subscription fee (HUF) with contracts of a 2-year fixed term, in total	2,490
Content included in the monthly fee, usable domestically and, according to the applicable Roaming charges, in roaming tariff zone 1 abroad, to standard-rate numbers	
Airtime minutes included, to any domestic network	50
Technical background data traffic that may be used domestically and, according to the applicable Roaming rates, in roaming tariff zone 1 abroad	500 MB
Offered bandwidth in excess of the data traffic included in the monthly subscription fee (download/upload speed – Mbit/s)	0/0
Guaranteed speed	See Section 4.1 of the GTC
Applicable fees in excess of the monthly fee, usable domestically and, according to the applicable Roaming charges, in roaming tariff zone 1 abroad, to standard-rate numbers	
Minute charge to any domestic network (HUF)	40
EU Roaming	Vodafone EU Roaming can be activated free of charge; otherwise, in foreign countries the valid Roaming rates will apply.

Units included in the monthly fee can be used domestically and, according to the applicable Roaming charges, abroad, for calls to standard-rate numbers. Unused minutes and data traffic included in the monthly fee cannot be rolled over to the next month or transferred to other persons or call numbers and cannot be used for other services.

In foreign countries the valid Roaming tariffs shall apply. The detailed terms of the Vodafone EU Roaming service are stated in point 5.5 of this Annex called List of Rates.

The charges of international calls are stated in Section 9 of this Annex called List of Rates.

The fee of the Closed Group option included in the tariff package is covered by a monthly fee of the tariff; it is not billed in addition to the monthly fee. For further details on the Closed Group option, please refer to section 2.2 of this List of Rates, keeping in mind that the Closed Group option can be used for call numbers set in the Kids Watch application. This means that, if the call numbers set in the Kids Watch application are intra-company numbers, i.e. numbers belonging to the Closed Group, then the voice traffic between the members of the group is charged at HUF 0 per minute and, therefore, no minutes are used from the package. If, however, external call numbers are set in the application, then voice traffic is charged by deducting minutes from the package, and thereafter at the minute rate included in the tariffs.

In the Business Kid Watch plans, after using up the data volume included in the monthly fee that can be used domestically and abroad according to the applicable Roaming charges, Internet access is terminated until the end of the billing cycle, so the device cannot forward location data.

To access the Internet until the end of the billing cycle after using up the data volume included in the monthly fee, a supplemental data option must be purchased on the Netinfo page (<http://netinfo.vodafone.hu>). Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, the Internet service will not be available to it until the end of the billing cycle. When the billing cycle ends, the service is restarted.

The data traffic included in the plan or purchased can be accessed exclusively as a technical background service relating to the operation of built-in functions, and cannot be used for web browsing.

In the case of a 2-year fixed-term contract for Business Kid Watch tariffs, if the Subscriber does not sign another 2-year fixed-term contract according to the applicable contract extension rules prior to expiry of the fixed-term contract, following the expiry of the fixed term its contract shall be converted into an indefinite-term contract. After the expiry of the fixed-term contract we provide the service according to the rates set out in the fixed-term contract.

The Business Kid Watch plan is only available upon purchasing the smartwatch device indicated by Vodafone, and the subscription may be used solely with the device purchased in this offer, with the SIM card provided for the service. The SIM card provided with the Business Kid Watch subscription contract may not be used with any other device. In the case of non-intended use (for example, but not exclusively, if the Subscriber uses the service with a device other than the one purchased as part of the offer, or if the Subscriber uses the SIM card provided for the Business Kid Watch plan with another device), Vodafone reserves the right, following prior warning, to convert the subscription to a Small Enterprise Basic Tariff (Section 2.1.4 of this List of Rates annex).

The purpose of the Business Kid Watch service is to supervise the movements of children who are under the Subscriber's legal supervision, to make it easier to contact them and stay in touch with them.

Due to the nature of the service, the smartwatch with which the Business Kid Watch tariff is used can forward geolocation data; on the other hand, a limited number of phone numbers can be called from the smartwatch and calls can be received also from a limited number of phone numbers that can be set in advance via the application that can be downloaded to the smartphone connected to the Kid Child Watch. The phone numbers set can be changed free of charge and any time. More information can be found in the smartwatch user manual and on the Vodafone website (<https://www.vodafone.hu/kisvallalkozasok/tarifak-es-opciok/business-kid-watch>).

Use for any other purpose shall be possible exclusively by notifying and with the consent of the relevant persons; this is the Subscriber's obligation and responsibility. The Subscriber shall bear the exclusive liability arising from unauthorised or illegal use.

PluszAdat (supplemental option)

A supplemental data option (PluszAdat) can be purchased for the specified service packages, whose detailed description is contained in the following table. PluszAdat may be purchased and cancelled on the Netinfo page (<http://netinfo.vodafone.hu>).

Available PluszAdat	Data volume included	Fee (gross)	Service package
Kiegészítő Adat 1GB	1 GB	HUF 2000	Business Kid Watch tariff

If a PluszAdat option is not used up fully until the time of the purchase of the next PluszAdat option, then the unused remaining data traffic of the existing PluszAdat option will be lost. The PluszAdat option is not divisible and may be used until the end of the given billing cycle, under the same terms as those applicable to the data traffic included in the monthly fee of the service package. Any number of PluszAdat options may be purchased in a billing cycle. PluszAdat options are non-renewable options that shall be repurchased in every billing cycle, if needed.

2.1.2. Kid Child Watch plan for Medium and Large Enterprise Subscribers

The following plan is only available for (new and existing) Medium and Large Enterprise business subscribers who sign a post-paid subscription contract.

The prices indicated in the table are net prices not including VAT. In the plan, calls are billed by 1-minute units.

	Kid Child Watch plan
Monthly fees	
Plan monthly fee (HUF)	1,960.63
Internet monthly fee (HUF)	1,428.57
Monthly subscription fee with an indefinite term contract, total (HUF)	3,389.2
Plan monthly fee (HUF)	779.53
Internet monthly fee (HUF)	952.38
Monthly subscription fee with a 2-year fixed-term contract and device, total (HUF)	1,731.91
Content included in the monthly fee, that can be used domestically and, according to the applicable Roaming charges, abroad, to standard-rate numbers	
Minutes included, to any domestic network	50
Technical background data traffic that may be used domestically and, according to the applicable Roaming rates, abroad	500 MB
Offered bandwidth in excess of the data traffic included in the monthly subscription fee (download/upload speed – Mbit/s)	0/0
Guaranteed speed	See section 4.1 of the GTC
Rates applicable to calls to standard-rate numbers, in excess of the monthly fee, domestically and according to applicable Roaming charges, abroad	
Minute charge to any domestic network (HUF)	31.5
EU Roaming	Vodafone EU Roaming can be activated free of charge; otherwise, in foreign countries the valid Roaming rates will apply.

Units included in the monthly fee can be used domestically and, according to the applicable Roaming charges, abroad, for calls to standard-rate numbers. Unused minutes and data traffic included in the monthly fee cannot be rolled over to the next month or transferred to other persons or call members and cannot be used for other services.

In foreign countries the valid Roaming tariffs will apply. The detailed terms of the Vodafone EU Roaming service are stated in point 5.5 of this Annex called List of Rates.

The charges of international calls are stated in Section 9 of this Annex called List of Rates.

The fee of the Closed Group option included in the tariff package is covered by a monthly fee of the tariff; it is not billed in addition to the monthly fee. For further details on the Closed Group option, please refer to section 2.2 of this List of Rates, keeping in mind that the Closed Group option can be used for call numbers set in the Kids Watch application. This means that, if the call numbers set in the Kids Watch application are intra-company numbers, i.e. numbers belonging to the Closed Group, then the voice traffic between the members of the group is charged at HUF 0 per minute and, therefore, no minutes are used from the package. If, however, external call numbers are set in the application, then voice traffic is charged by deducting minutes from the package, and thereafter at the minute rate included in the tariffs.

In the Kid Child Watch plans, after using up the data volume included in the plan that can be used domestically and abroad according to applicable Roaming charges, internet access is terminated until the end of the billing cycle, so the device cannot forward location data.

To access the internet until the end of the billing cycle after using up the data volume included in the monthly fee, a supplemental data option must be purchased on the Netinfo page (<http://netinfo.vodafone.hu>). Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, the Internet service will not be available for it until the end of the billing cycle. When the billing cycle ends, the service is restarted.

The data traffic included in the plan or purchased can be accessed exclusively as a technical background service relating to the operation of built-in functions, and cannot be used for web browsing.

In the case of a 2-year fixed-term contract for Kid Child Watch plans, if the Subscriber does not sign another 2-year fixed-term contract according to the applicable contract extension rules, prior to expiry of the fixed-term contract, following the expiry of the fixed-term contract its contract shall be converted into an indefinite-term contract. After the expiry of the fixed-term contract we provide the service according to the rates set out in the fixed-term contract.

The Kid Child Watch plan is only available by purchasing the smartwatch device indicated by Vodafone, and the subscription may be used solely with the device purchased in this plan, with the SIM card provided for the service. The SIM card provided with the Kid Child Watch plan contract may not be used with any other device. In the case of non-intended use (e.g. but not exclusively, if the Subscriber uses the service with a different device than that purchased as part of the offer, or if the Subscriber uses the SIM card provided for the Kid Child Watch plan with another device), Vodafone reserves the right, following prior warning, to restrict (value of bandwidth offered upon deceleration is 0/0 Mbit/s) or terminate the service or, following prior notice, convert the subscription to a Medium and Large Enterprise Basic Plan (Section 2.1.6 of the List of Rates annex to the GTC).

The purpose of the Kid Child Watch service is to supervise the movements of children who are under the Subscriber's legal supervision, to make it easier to contact them and stay in touch with them.

Due to the nature of the service, the smartwatch with which the Kid Child Watch plan is used can forward geolocation data; a limited number of phone numbers can be called from the smartwatch and calls can be received also from a limited number of phone numbers that can be set in advance via the application that can be downloaded to the smartphone connected to the Kid Child Watch. The phone numbers set can be changed free of charge and any time. More information can be found in the smartwatch user manual and on the Vodafone website (<https://www.vodafone.hu/kisvallalkozasok/tarifak-es-opciok/business-kid-watch>).

Use for any other purpose shall be possible exclusively by notifying and with the consent of the relevant persons; this is the Subscriber's obligation and responsibility. The Subscriber shall bear the exclusive liability arising from unauthorised or illegal use.

PluszAdat (supplemental option)

A supplemental data option (PluszAdat) can be purchased for the specified service packages, whose detailed description is contained in the following table. PluszAdat can be purchased and cancelled by calling the toll-free 1788 customer service line from the Vodafone Magyarország Zrt. network or on the Netinfo webpage (<http://netinfo.vodafone.hu>).

Available PluszAdat	Data volume included	Fee (net)	Service package
PluszAdat 300 MB	300 MB	HUF 714.29	Kid Child Watch plan
PluszAdat 1 GB	1 GB	HUF 1,714.29	

If a PluszAdat option has not been used up fully until the time of the purchase of the next PluszAdat option, then the unused remaining data traffic of the existing PluszAdat option will be lost. The PluszAdat option is not divisible, and may be used until the end of the billing cycle, with the same terms as those applicable to the data traffic included in the monthly fee of the service package. Any number of PluszAdat options can be purchased in a billing cycle. PluszAdat options are non-renewable options that have to be repurchased in every billing cycle, if needed.

Renewable PluszAdat (supplemental option)

The Renewable PluszAdat option for the indicated service packages can be purchased and cancelled by calling the toll-free 1788 customer service line from the Vodafone Magyarország Zrt. network or on the Netinfo webpage (<http://netinfo.vodafone.hu>). The Renewable PluszAdat supplemental option is a renewable option reactivated in every billing cycle, i.e. it will not have to be reordered in every billing cycle.

Available Renewable PluszAdat	Data volume included	Fee (net)	Service package
Renewable PluszAdat 300 MB	300 MB	HUF 476.19/month	Kid Child Watch plan
Renewable PluszAdat 1 GB	1 GB	HUF 1,333.33/month	

If the Renewable PluszAdat option is not completely used up in a given billing cycle, the unused remaining data traffic will be lost. The Renewable PluszAdat supplemental option is not divisible, and may be used until the end of the billing cycle, with the same terms as those applicable to the data traffic included in the monthly fee of the service package. Any number of PluszAdat supplemental options may be purchased in addition to the Renewable PluszAdat supplemental option in a given billing period.

2.1.3. Business Senior Smartwatch (Business Senior Okosóra) tariff for Small, Medium and Large Enterprise Subscribers

The Senior Smartwatch tariff is available from 5 August 2019 for Small, Medium and Large Enterprise Subscribers.

	Business Senior Smartwatch tariff	
	Gross rates	Net rates
Startup expenses		
Registration fee (HUF)*	10,000	7,874.02
Monthly fees		
Service package monthly fee (HUF)	2,000	1,574.8
Internet monthly fee (HUF)	1,490	1,419.05
Monthly subscription fee (HUF) with indefinite-term or 2-year fixed-term contracts, in total	3,490	2,993.85
Content included in the monthly fee, that can be used to the standard-rate number currently assigned to the service - within the country to Hungarian numbers; - from roaming tariff zone 1 to the assigned current Hungarian numbers or numbers in the countries of roaming tariff zone 1 according to the applicable Roaming charges.		
Call (minutes)	100	
Other content included in the monthly fee		
Technical background data traffic that may be used domestically and, according to the applicable Roaming rates, in roaming tariff zone 1	500 MB	
Zárt Csoport (Closed group) option	√	
Offered bandwidth above the data traffic included in the monthly subscription fee (download and upload speed – Mbit/s)	0/0	
Guaranteed speed	according to those set out in section 4.1 of the GTC	
EU Roaming	Vodafone EU Roaming can be activated free of charge; otherwise the applicable Roaming charges apply abroad.	
Applicable fees in excess of the monthly fee to the standard-rate number currently assigned to the service - within the country to Hungarian numbers; - from roaming tariff zone 1 to Hungarian numbers or numbers in the countries of roaming tariff zone 1, according to the applicable Roaming charges.		
Fee per minute (HUF)	40	31.5

In the tariffs, calls are billed by 1-minute units.

Medium and Large Enterprise Subscribers are not charged with the Registration fee upon concluding the Subscription Contract.

Units included in the monthly fee can be used domestically and, according to the applicable Roaming charges, abroad, for calls to the standard-rate number currently assigned to the service. Unused minutes and data traffic included in the monthly fee cannot be rolled over to the next month or transferred to other persons or call numbers and cannot be used for other services.

In foreign countries the valid Roaming tariffs shall apply. The detailed terms of the Vodafone EU Roaming service are stated in point 5.5 of this Annex called List of Rates.

The charges of international calls are contained in Section 9 of this Annex called List of Rates.

The fee of the Closed Group option included in the tariff package is covered by a monthly fee of the tariff; it is not billed in addition to the monthly fee. For further details on the Closed Group option, please refer to section 2.2 of this List of Rates, keeping in mind that the Closed Group option can be used for call numbers set in the Kids Watch application. This means that, if the call numbers set in the Kids Watch application are intra-company numbers, i.e. numbers belonging to the Closed Group, then the voice traffic between the members of the group is charged at HUF 0 per minute and, therefore, no minutes are used from the package. If, however, external call numbers are set in the application, then voice traffic is charged by deducting minutes from the package, and thereafter at the minute rate included in the tariffs.

In the Business Senior Smartwatch plans, after using up the data volume included in the monthly fee that can be used domestically and abroad according to the applicable Roaming charges, Internet access is terminated until the end of the billing cycle.

The fee of the Zárt Csoport option included in the plan is covered by the monthly fee of the tariff and is not billed separately in excess to the monthly fee. Further details regarding the Zárt csoport option are included in Section 2.2 of this List of Rates.

To access the Internet until the end of the billing cycle after using up the data volume included in the monthly fee, a supplemental data option shall be purchased on the Netinfo page (<http://netinfo.vodafone.hu>). Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, the Internet service will not be available to it until the end of the billing cycle. When the billing cycle ends, the service is restarted. The data traffic included in the plan or purchased can be accessed exclusively as a technical background service relating to the operation of built-in functions, and cannot be used for web browsing.

In the case of a 2-year fixed-term contract for Business Senior Smartwatch tariffs, if the Subscriber does not sign another 2-year fixed-term contract according to the applicable contract extension rules prior to expiry of the fixed-term contract, following the expiry of the fixed term its contract shall be converted into an indefinite-term contract. After the expiry of the fixed-term contract we provide the service according to the rates set out in the fixed-term contract.

The Business Senior Smartwatch plan is only available upon purchasing the smartwatch device indicated by Vodafone, and the subscription may be used solely with the device purchased in this offer, with the SIM card provided for the service. The SIM card provided with the Business Senior Smartwatch subscription contract may not be used with any other device. In the case of non-intended use (for example, but not exclusively, if the Subscriber uses the service with a device other than the one purchased as part of the offer, or if the Subscriber uses the SIM card provided for the Business Senior Smartwatch plan with another device), Vodafone reserves the right, following prior warning, to convert the subscription to Small Enterprise Basic Tariff in the case of Small Enterprise Subscribers, and to Medium and Large Enterprise Basic Tariff in the case of Medium and Large Enterprise Subscribers.

If the Subscriber purchases the watch not for its own use, Subscriber obtains the personal data of the natural person using the service other than the Subscriber, and the Subscriber shall only be entitled to access such personal data if the user has given his/her consent thereto. Obtaining the consent shall be Subscriber's obligation and responsibility, the Service Provider shall not be obliged to verify the existence or content thereof.

The purpose of the Business Senior Smartwatch service is to follow the movements of, to locate or make it easier to contact or stay in touch with the user. Due to the nature of the service, the smartwatch with which the Business Senior Smartwatch tariff is used can forward geolocation data; on the other hand, one phone number can be called from the smartwatch, that can be set in advance via the application that can be downloaded to the smartphone connected to the Senior Smartwatch or via the <https://www.vodafone.hu/kisvallalkozasok/tarifak-es-opciok/business-senior-okosora> website. Accepting the contractual terms of the third party (General Terms and Conditions, Terms of Use, Data Protection Guidelines) is essential for the use of the watch and the related application, and for the registration on the website as well as its use. The set phone number can be changed free of charge and any time. More information can be found in the smartwatch user manual and on the Vodafone website (www.vodafone.hu). Use for any other purpose shall be possible exclusively by notifying and with the consent of the relevant persons; this is the Subscriber's obligation and responsibility. The Subscriber shall bear the exclusive liability arising from unauthorised or illegal use. The Business Senior Smartwatch is capable of measuring and transferring the heart rate and blood pressure data of its wearer, however, the measured values are for information purposes only and not deemed data certified by a medical device.

PluszAdat (supplemental option)

A supplemental data option (PluszAdat) can be purchased for the specified service packages, whose detailed description is contained in the following table. PluszAdat may be purchased and cancelled on the Netinfo page (<http://netinfo.vodafone.hu>).

Available PluszAdat	Data volume included	Fee (gross)	Fee (net)	Service package
Kiegészítő Adat 1GB	1 GB	HUF 2,000	HUF 1,574.8	Business Senior Smartwatch tariff

If a PluszAdat option is not used up fully until the time of the purchase of the next PluszAdat option, then the unused remaining data traffic of the existing PluszAdat option will be lost. The PluszAdat option is not divisible and may be used until the end of the given billing cycle, under the same terms as those applicable to the data traffic included in the monthly fee of the service package. Any number of PluszAdat options may be purchased in a billing cycle. PluszAdat options are non-renewable options that shall be repurchased in every billing cycle, if needed.

2.1.4. Base tariff for small enterprises

Kisvállalati Alaptarifa (Base tariff for small enterprises) is the base tariff plan for Subscribers with Kisvállalati (Small Enterprise) tariff package, which will be applied if the Kisvállalati and business tariffs are terminated. The Subscriber may use this service subject to the charges of the Kisvállalati Alaptarifa, unless the parties agree otherwise.

The prices indicated in the table are gross prices including VAT.

	Base tariff for small enterprises
Initial costs	
Entry fee (HUF)	10,000
Monthly fees	
Monthly subscription fee (HUF)	30,000
Part of the monthly fee available for airtime (HUF)	0
Additional monthly subscription fee (HUF)	3,175
Total subscription fee payable monthly (HUF)	33,175
Call charges to any domestic mobile or fixed-line networks (per minute)	
In any time period (HUF)	50
Voicemail calls	
In any time period (HUF)	25
Messaging	
Sending short text messages (SMS) into a domestic mobile network (HUF)	50

In the case of voice calls, billing is done in units of 60 seconds. The billing unit of voicemail calls corresponds to the billing unit of the tariff package. In foreign countries the valid Roaming tariffs will apply.

The following options are available for the above tariff packages:

- Wireless Office 2 option (Zárt Csoport option)
- Fixed-line area option
- All fixed-line areas option

The detailed description of the options is found in section 2.2 of this List of Rates. The Wireless Office 2 option and the Zárt Felhasználói Csoport (Closed User Group) option cannot be chosen together.

2.1.5. Fleet Base tariff

“Flotta Alaptarifa” (Fleet Base tariff) is the base tariff plan for Subscribers with Flotta tariff package, which will be applied if the fleet tariffs are terminated. The Subscriber may use this service subject to the charges of the Flotta Alaptarifa, unless the parties agree otherwise.

In the calculation of liquidated damages, the discounts taken by the Subscriber are defined relative to the Flotta Base Tariff, in comparison to the discounted tariff defined in the Subscription Contract.

The Flotta tariff plan may be terminated if any of the following events occurs:

- a) if it is no longer available among the tariff plans specified in the Fleet Cooperation Agreement, the tariff plan was closed.
- b) if the Fleet Cooperation agreement is terminated for any reason.

The table contains gross prices; all prices include VAT.

	„Flotta Alaptarifa” package
Initial costs	
Entry fee (HUF)	10,000
Total subscription fee payable monthly (HUF)	12,319
Monthly fees	
Monthly subscription fee (HUF)	6,350
Part of the monthly fee available for airtime (HUF)	0
Additional monthly subscription fee (HUF)	889
Call charges to any domestic mobile or fixed-line networks (per minute)	
In any time period (HUF)	25.4
Voicemail calls	
In any time period (HUF)	25
Messaging	
Sending short text messages (SMS) into a domestic mobile network (HUF)	25.4
Option within the Group	
Monthly subscription fee (HUF)	5,080
Part of the monthly fee available for airtime (HUF)	0
Calls within the group in the domestic network any time period (HUF)	10.16

Calls are billed in units of 60 seconds. The billing unit of voicemail calls corresponds to the billing unit of the tariff package. In foreign countries the valid Roaming tariffs will apply.

2.1.6. Medium and Large Enterprise base tariff

Közép- és Nagyvállalati Alaptarifa (Base Tariff for Medium and Large Enterprises) is the base tariff plan for Medium and Large Enterprise Subscribers, which will be applied if the tariffs are terminated. The Subscriber may use this service subject to the charges of the Base Tariff for Medium and Large Enterprises, unless the parties agree otherwise.

The prices indicated in the table are net prices not including VAT.

	Medium and Large Enterprise Base
Initial costs	
Entry fee (HUF)	0
Monthly fees	
Monthly subscription fee (HUF)	4,000
Part of the monthly fee available for airtime (HUF)	0
Additional monthly subscription fee (HUF)	2,500
Data traffic included in the monthly fee	
Data traffic (MB)	0
Call charges to any domestic mobile or fixed-line networks (per minute)	
In any time period (HUF)	20
Voicemail calls	
In any time period (HUF)	19.68
Messaging	
Sending short text messages (SMS) into a domestic mobile network (HUF)	20

In the case of voice calls, billing is done in units of 1 second. The billing unit of voicemail calls corresponds to the billing unit of the tariff package.

The Medium and Large Enterprise base rate does not include any options, and no options are available for it.

2.1.7. Reserved for editing purposes

2.1.8. Reserved for editing purposes

2.1.9. Vodafone Business Smart 3GB and Vodafone Business Smart 5GB plans for Small Enterprise Subscribers

The following plans are only available to (new and existing) Small Enterprise Business Subscribers signing a post-paid subscription contract.

Voice calls are billed on the basis of 1 second. The billing unit of voicemail calls corresponds to the billing unit of the plan.

The prices indicated in the table are gross prices including VAT.

	Vodafone Business Smart 3GB	Vodafone Business Smart 5GB
Startup expenses		
Registration fee (HUF)	10,000	10,000
Monthly fees		
Tariff monthly fee (HUF)	HUF 3,500	HUF 4,000
Internet monthly fee (HUF)	HUF 1,990	HUF 3,490
Monthly subscription fee (HUF) with an indefinite term contract, in total	HUF 5,490	HUF 7,490
Tariff monthly fee (HUF)	HUF 2,500	HUF 3,000
Internet monthly fee (HUF)	HUF 1,990	HUF 3,490
Monthly subscription fee (HUF) with contracts of a 2-year fixed term, in total	HUF 4,490	HUF 6,490
Tariff monthly fee (HUF)	HUF 3,500	HUF 4,000
Internet monthly fee (HUF)	HUF 2,490	HUF 3,990
Monthly subscription fee (HUF) with an indefinite term contract, with divisible Internet, in total	HUF 5,990	HUF 7,990
Tariff monthly fee (HUF)	HUF 2,500	HUF 3,000
Internet monthly fee (HUF)	HUF 2,490	HUF 3,990
Monthly subscription fee (HUF) with contracts of a 2-year fixed term, with divisible Internet, in total	HUF 4,990	HUF 6,990
Content included in the monthly fee, that can be used to standard-rate numbers		
The defined limit may be used: <ul style="list-style-type: none"> from within the country to Hungarian numbers; from roaming tariff zone 1 to Hungarian numbers or numbers in the countries of roaming tariff zone 1 according to the applicable Roaming charges; and for calls initiated within the country to numbers within the area of validity of the Red EU International tariff zone. 	100 minutes	250 minutes
Zárt Csoport (Closed group) option	✓	✓
Data traffic that may be used domestically and, according to the applicable Roaming rates, in roaming tariff zone 1	3 GB	5 GB
Offered bandwidth above the data traffic included in the monthly subscription fee (download/upload speed – Mbit/s)	0/0	0/0
Automatikus Kiegészítő Adat 200 MB option activated once per billing cycle after the data limit is exhausted (HUF)	500	500
Guaranteed speed above the data traffic included in the monthly subscription fee	See Section 4.1 of the GTC	
Vodafone EU Roaming	Vodafone EU Roaming can be activated free of charge; otherwise the applicable Roaming charges apply abroad.	
Applicable fees in excess of the monthly fee, to standard-rate numbers		
- within the country to Hungarian numbers; - from roaming tariff zone 1 to Hungarian numbers or numbers in the countries of roaming tariff zone 1, according to the applicable Roaming charges.		
Minute charge. (HUF)	20	20
SMS (HUF)	20	20
Voicemail call (HUF)	25	25
Applicable fees in excess of the monthly fee, to international standard-rate numbers from the domestic network to numbers of countries within and outside the area of validity of the EU International tariff zone		
Minute charges for calls to numbers of countries within the area of validity of the Red EU International tariff zone (HUF). (HUF)	20	20
Minute charges for calls to numbers of countries outside the area of validity of the Red EU International tariff zone (HUF)	According to the terms and rates of the current GTC, List of Rates, 9. Charges for calls to non-domestic directions (international calls).	
International SMS rate (HUF) to numbers within the area of validity of the Red EU International tariff zone (HUF)	20	20
International SMS rate to numbers in countries outside the RED EU International tariff zone (HUF)	40	40

With Vodafone Business Smart 3GB and Vodafone Business Smart 5GB plans, Business MultiNet (mobile Internet based) plans are available, which can be used only with the service packages above, as secondary SIMs. In case of Vodafone Business Smart 3GB and Vodafone Business Smart 5GB with divisible data traffic (primary SIM), in the associated Business MultiNet plans (secondary SIM), the data traffic may be used domestically, and also in roaming tariff zone 1 according to the applicable Roaming rates, and, if the Vodafone EU Roaming service is activated, abroad, in the territory where the Vodafone EU Roaming service is valid.

Business MultiNet packages:

	Business MultiNet Mifi	Business MultiNet SIM
Startup expenses		
Registration fee (HUF)	10,000	10,000
Monthly fees		
Monthly subscription fee (HUF) with an indefinite-term contract	8,267.72	8,267.72
Monthly subscription fee (HUF) with contracts of a 2-year fixed term	0	0
Data traffic included in the monthly fee	the same as Vodafone Business Smart 3GB and Vodafone Business Smart 5GB plans, shared therewith	
Offered bandwidth above the divisible data traffic per month (download and upload speed – Mbit/s)	0/0	0/0
Guaranteed speed	See Section 4.1 of the GTC	
SMS rates sent domestically and to Hungarian standard-rate numbers in roaming tariff zone 1 according to the applicable Roaming rates (HUF)	30.48	30.48

In the case of Vodafone Business Smart 3GB and Vodafone Business Smart 5GB plans, after using up the data volume included in the monthly fee, Internet access is discontinued until the end of the billing cycle. Guaranteed speed according to Section 4.1 of the GTC.

After using up the data volume included in the monthly fee, or if prior to using up the data volume included in the monthly fee, a supplemental data option or options is/are purchased once or several times on the Netinfo page, after using up the data volume included in such supplemental data option then in the monthly fee, an automatically activated Automatikus Kiegészítő Adat option is associated with the Vodafone Business Smart 3GB and Vodafone Business Smart 5GB plans, once per billing cycle, the fee of which can be found in the tariff table. The data traffic of the Automatikus Kiegészítő Adat option can be used until the end of the given billing cycle, and is not divisible. The Automatikus Kiegészítő Adat option is renewed monthly but is only activated and billed upon continuing data use after the data volume included in the monthly fee or supplemental data option(s) is exhausted. After the data volume included in the Automatikus Kiegészítő Adat option is used up, the Internet service is discontinued.

Before using up the data volume included in the monthly fee, or after using up the data volume included in the Automatikus Kiegészítő Adat option, a Kiegészítő Adat option needs to be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded after the data volume included in the Automatikus Kiegészítő Adat option is exhausted. If the Subscriber has exhausted the data volume included in the plan and the Automatikus Kiegészítő Adat option, the Internet service will not be available to him/her until the end of the billing cycle. When the billing cycle ends, the service is restarted.

The Business MultiNet card only provides data transmission service; no voice services are available thereon. Only customers who have subscriptions for new or existing Vodafone Business Smart 3GB or Vodafone Business Smart 5GB plans are eligible for Business MultiNet tariffs. Maximum 1 Business MultiNet package can be purchased in the offer with a single subscription for Vodafone Business Smart 3GB or Vodafone Business Smart 5GB. The Subscriber is eligible for the Business MultiNet plan, as long as he/she maintains his/her fixed or indefinite-term Business Vodafone Business Smart 3GB or Vodafone Business Smart 5GB subscription. If the primary subscription concluded for the plans is cancelled or changed, we will convert SIM card 2 to Internet Basic tariff.

In the case of the Business MultiNet tariffs, after using up the monthly data traffic limit, a supplemental option needs to be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, the Internet service will not be available to him/her until the end of the billing cycle. When the billing cycle ends, the service is restarted. Guaranteed speed according to Section 4.1 of the GTC.

In the case of the Vodafone Business Smart 3GB and Vodafone Business Smart 5GB plans, the Subscriber, who/which, after having exhausted the data volume included in the plan, divides the divisible supplemental data options that can be ordered by the Subscriber or other users of secondary SIM card belonging to Business MultiNet tariffs as authorized by Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>) for continuing Internet use until account closure, is only able to

monitor his/her own data use, i.e. data use belonging to the primary SIM card, on the Netinfo page (<http://netinfo.vodafone.hu>), for technical reasons, and does not have any information on the specific amount of data traffic of the secondary SIM card that may use the divisible data volume. If the user of the secondary SIM card belonging to the Business MultiNet tariff, who has been duly authorized by the Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>), orders a supplemental data option, the fee of the supplemental data option shall be invoiced to and payable by the Subscriber of the primary SIM card.

The fee of the Zárt Csoport option included in the plan is covered by the monthly fee of the tariff and is not billed separately above the monthly fee. Further details regarding the Zárt Csoport option are included in Section 2.2 of this List of Rates.

Unused minutes and data traffic included in the monthly fee cannot be rolled over to the next month or transferred to other persons or call numbers and cannot be used for other services.

The Conference Call service is not available with Vodafone Business Smart plans.

In foreign countries the valid Roaming tariffs will apply. The detailed description of the Vodafone EU Roaming service is included in Section 5.5 of this Annex called List of Rates.

With the Red EU international service, which is part of the Vodafone Business Smart rates, Subscribers can call the standard-rate numbers of the countries specified in Section 9 of this List of Rates (Red EU International tariff zone) from the Vodafone Hungarian network with the conditions above, and can send standard-rate SMS messages to such numbers with the conditions above.

The charges of international calls outside the Red EU International tariff zone are contained in Section 9 of this Annex called List of Rates.

Egyszeri (One-off) Kiegészítő Adat (supplemental data option)

A supplemental data option (Egyszeri Kiegészítő Adat) can be purchased for the Vodafone Business Smart 3GB and Vodafone Business Smart 5GB plans, the detailed description of which is contained in the following table.

Available Egyszeri Kiegészítő Adat option	Data volume included	Fee (gross)	Service package for which it is available:
Kiegészítő Adat 1GB	1 GB	HUF 2,000	Vodafone Business Smart 3GB Vodafone Business Smart 5GB
Kiegészítő Adat 3 GB	3 GB	HUF 3,000	Vodafone Business Smart 3GB Vodafone Business Smart 5GB
Kiegészítő Adat 5 GB	5 GB	HUF 4,000	Vodafone Business Smart 5GB

The Egyszeri Kiegészítő Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the subscription belongs.

If the supplemental data option is not completely used by the time of purchasing the next supplemental data option, the unused remaining data traffic of the existing supplemental data option will be lost. The Egyszeri Kiegészítő Adat option is not divisible, and may be used until the end of the billing cycle, with the same terms as those applicable to the data traffic included in the monthly fee of the service package. Any number of Egyszeri Kiegészítő Adat options can be purchased in a billing cycle. The Egyszeri Kiegészítő Adat option is a non-renewable option that has to be repurchased in every billing cycle, if needed.

2.1.10.Irodai (Office) tariff package

Irodai (Office) tariff package can exclusively be purchased by Small Enterprise Subscribers concluding (new and existing) post-paid subscriptions if they have or conclude simultaneously with this tariff package at least one Business EU Red, Business EU Group, Business EU, Business RED EU, Business Group EU Vodafone Business RED or Vodafone Business Smart subscription, and subscribe for at least one Fixed-line phone number 1000 or Fixed-line phone number 200 or Fixed-line phone number Basic service.

Irodai tariff package can be maintained for subscriptions involving maximum 30 SIM cards.

Voice calls are billed on the basis of 1 second. The billing unit of voicemail calls corresponds to the billing unit of the tariff package.

The prices indicated in the following table are gross prices including VAT.

In the case of Subscription Contracts concluded before Tuesday, October 24, 2017:

	Irodai (Office) tariff package
Initial costs	
Entry fee (HUF)	10,000
Monthly fees	
Tariff monthly fee (HUF)	2,350
Internet monthly fee (HUF)	124.02
Monthly total subscription fee (HUF) with an indefinite term contract	2,474.02

Content included in the monthly fee	
The monthly fee includes 200 minutes of calls made to domestic standard-rate fixed-line networks at a per-minute rate of (HUF)	0
Mandatory "Closed Group" option	√
Data traffic	20 MB
Offered bandwidth above the data traffic included in the monthly subscription fee (download/upload speed - Mbit/s)	0.031/0.031
Guaranteed speed above the data traffic included in the monthly subscription fee	in accordance with Section 4.1 of the GTC
Domestic charges above the monthly fee	
Per-minute rate for calls made to domestic fixed-line numbers (HUF)	7.50
Charge for calls made within the network of Vodafone Magyarország Zrt. (HUF)	49
Charge for calls made to other domestic mobile networks (HUF)	49
Voicemail calls	
In any time period (HUF)	25
Messaging	
Short Message Service (SMS) message sent to any domestic network (HUF)	49
Charge for International SMS to countries within the area of validity of the RED EU International tariff zone (HUF)	in accordance with Section 9 of the GTC
Charge for International SMS to countries outside the preferential zone (HUF)	98

The fees for the options and services included in the tariff package are covered by the monthly fee for the tariff, and are not billed separately above the monthly fee.

The Service Provider reserves the right to convert the Office Tariff Package subscriptions of the Subscriber to the Small Enterprise Basic Tariff, if the eligibility of the Subscriber for the Office Tariff Package terminates (e.g. due to cancelling the Fixed-line telephone number service).

For further details regarding the Closed Group option see Section 2.2 of the List of Rates. The Office Tariff Package shown in the above table is available by signing an indefinite-term contract or a 2-year fixed-term contract. Airtime or data traffic included in the monthly fee but unused cannot be rolled over to the next billing cycle, or transferred to other persons or telephone numbers, and cannot be used for other services. Discounts can only be used domestically.

For the Office Tariff Package the speed of data traffic above the data volume included in the monthly fee will be slowed down. Maximum slowdown: 0.031 Mbit/s for download/upload.

2.1.11. Medium and Large Enterprise Irodai Tariff package

The Office Tariff Package is available only to (new and existing) Medium and Large Enterprise Subscribers concluding a post-paid subscription, if they have one, or simultaneously with this tariff package concluded at least one Fixed-line telephone number 1000 or Fixed-line telephone number 200 or Fixed-line telephone number basic service.

Voice calls are billed on a per-second basis. The billing unit of voicemail calls corresponds to the billing unit of the tariff package.

The prices indicated in the following table are net prices, exclusive of VAT.

In the case of Subscription Contracts concluded before Tuesday, October 24, 2017:

	Office Tariff Package
Monthly fees	
Tariff monthly fee (HUF)	1,850.39
Internet monthly fee (HUF)	118.11
Total monthly subscription fee (HUF) with an indefinite-term contract	1,968.50
Tariff monthly fee (HUF)	472.44
Internet monthly fee (HUF)	118.11
Total monthly subscription fee (HUF) with a 2-year fixed-term contract	590.55
Supplementary monthly subscription fee (HUF)	2,500
Content included in the monthly fee	
The monthly fee includes 200 minutes of calls made to domestic standard-rate fixed-line networks at a per-minute rate of (HUF)	0
Mandatory "Closed Group" option	√
Data traffic	20 MB
Offered bandwidth above the data traffic included in the monthly subscription fee (download/upload speed - Mbit/s)	0.031/0.031
Guaranteed speed above the data traffic included in the monthly subscription fee	in accordance with Section 4.1 of the GTC
Domestic charges above the monthly fee	
Per-minute rate for calls made to domestic fixed-line numbers (HUF)	5.90
Charge for calls made within the network of Vodafone Magyarország Zrt. (HUF)	38.58
Charge for calls made to other domestic mobile networks (HUF)	38.58
Voicemail calls	
In any time period (HUF)	19.68
Messaging	
Short Message Service (SMS) messages sent to any domestic network (HUF)	38.58
Charge for International SMS to countries within the area of validity of the RED EU International tariff zone (HUF)	in accordance with Section 9 of the GTC
Charge for International SMS to countries outside the preferential zone (HUF)	77.16

For subscription contracts concluded after 24 October 2017:

	Office Tariff Package
Monthly fees	
Tariff monthly fee (HUF)	1,850.39
Internet monthly fee (HUF)	118.11
Total monthly subscription fee (HUF) with an indefinite-term or 2-year fixed-term contract	1,968.50
Supplementary monthly subscription fee (HUF)	2,500
Content included in the monthly fee	
The monthly fee includes 200 minutes of calls made to domestic standard-rate fixed-line networks at a per-minute rate of (HUF)	0
Mandatory "Closed Group" option	√
Data traffic	20 MB
Offered bandwidth above the data traffic included in the monthly subscription fee (download/upload speed - Mbit/s)	0.031/0.031
Guaranteed speed above the data traffic included in the monthly subscription fee	in accordance with Section 4.1 of the GTC
Domestic charges above the monthly fee	
Per-minute rate for calls made to domestic fixed-line numbers (HUF)	5.90
Charge for calls made within the network of Vodafone Magyarország Zrt. (HUF)	38.58
Charge for calls made to other domestic mobile networks (HUF)	38.58
Voicemail calls	
In any time period (HUF)	19.68
Messaging	
Short Message Service (SMS) messages sent to any domestic network (HUF)	38.58
Charge for International SMS to countries within the area of validity of the RED EU International tariff zone (HUF)	in accordance with Section 9 of the GTC
Charge for International SMS to countries outside the preferential zone (HUF)	77.16

The fees of the options and services included in the tariff package are covered by the monthly fee of the tariff and are not billed separately above the monthly fee.

The Service Provider reserves the right to convert the Subscriber's subscriptions for Irodai package to Medium and Large Enterprise Basic Tariffs, without providing prior notice, if the Subscriber's eligibility for Irodai package is terminated (e.g. for cancelling the Fixed-line phone number service).

Further details regarding the Zárt csoport option are included in section 2.2 of this List of Rates. The Irodai tariff package appearing in the above table is available by signing indefinite-term contracts or 2-year fixed-term contracts. Minutes and data traffic included in the monthly fee that are applicable to airtime or traffic, but were not used, cannot be rolled over to the next month, or transferred to other persons or call members, and cannot be used for other services. The allowances are only available domestically.

In case of the Irodai tariff package, the speed of data traffic above the data quantity included in the monthly fee will be slowed down. Maximum value of the slowdown: 0.031 Mbit/s for download and upload.

2.1.12. Telemetry service

2.1.12.1. Telemetry (Internet of Things - IoT) tariff package for Enterprise Subscribers:

In the case of Subscription Contracts concluded before Tuesday, October 24, 2017:

	IoT tariff 30 MB	IOT tariff 50 MB	IOT tariff 100 MB
Initial costs			
Entry fee (HUF)	10 000	10 000	10 000
Monthly fees			
Monthly total subscription fee (HUF) with an indefinite term contract	1.050	1.050	1.050
Monthly total subscription fee (HUF) with contracts of a 1-year fixed term	1.050	1.050	1.050
Monthly total subscription fee (HUF) with contracts of a 2-year fixed term	525	630	735
Content included in the monthly fee			
Domestic data traffic	30MB	50MB	100MB
Guaranteed speed	in accordance with section 4.1 of the GTC		
Billing unit	1kb	1kb	1kb
Other charges			
Standard-rate domestic network SMS (HUF)	25,40	25,40	25,40
Charge for International SMS to countries within the area of validity of the RED EU International tariff zone (HUF)	in accordance with Section 9 of the GTC		
Charge for International SMS to countries outside the preferential zone (HUF)	50,8	50,8	50,8
Call initiation charges to domestic network (HUF)	25,40	25,40	25,40
Domestic data fee after the data volume contained in the monthly fee	0,021 Ft/1kb	0,021 Ft/1kb	0,021 Ft/1kb

For subscription contracts concluded after 24 October 2017:

	IoT tariff 30 MB	IOT tariff 50 MB	IOT tariff 100 MB
Initial costs			
Entry fee (HUF)	10 000	10 000	10 000
Monthly fees			
Total monthly subscription fee (HUF) with an indefinite-term or 2-year fixed-term contract	1050	1050	1050
Content included in the monthly fee			
Domestic data traffic	30MB	50MB	100MB
Guaranteed speed	in accordance with section 4.1 of the GTC		
Billing unit	1kb	1kb	1kb
Other charges			
Standard-rate domestic network SMS (HUF)	25,40	25,40	25,40
Charge for International SMS to countries within the area of validity of the RED EU International tariff zone (HUF)	in accordance with Section 9 of the GTC		
Charge for International SMS to countries outside the preferential zone (HUF)	50,8	50,8	50,8
Call initiation charges to domestic network (HUF)	25,40	25,40	25,40
Domestic data fee after the data volume contained in the monthly fee	0,021 Ft/1Kb	0,021 Ft/1Kb	0,021 Ft/1Kb

The prices indicated in the following tables are gross prices including VAT

The traffic limit included in the monthly fee can be used during any part of the day without time restriction. If the traffic included in the monthly fee is not used up, the remaining part cannot be rolled over to the next billing cycle. Data traffic means the aggregate sum of the domestic and foreign data volume sent and received. Billing unit: 1 KB.

Data traffic while abroad is subject to different charges. In foreign countries the valid Roaming tariffs will apply.

Supplemental data option cannot be purchased for the Telemetry tariff packages; after using up the monthly data traffic limit included in the monthly fee, the fee of data volumes used will be HUF 0.021/1 KB until the closing of the billing period.

2.1.12.2.Vodafone ReadyFleet service for Small Enterprise Subscribers

In the case of Subscription Contracts concluded before Tuesday, October 24, 2017:

	ReadyFleet tariff
Initial costs	
Entry fee (HUF)	10 000
Havi díjak	
Monthly total subscription fee (HUF) with an indefinite term contract	6 350
Monthly total subscription fee (HUF) with contracts of a 1-year fixed term	6 350
Monthly total subscription fee (HUF) with contracts of a 2-year fixed term	3 175
Supplemental options	
Messenger service monthly fee	1 270

Telemetria (telemetry) roaming 15 MB (Eastern Europe)	1 511,3
Content included in the monthly fee	
Domestic data traffic	100MB
Offered bandwidth above the data traffic included in the monthly subscription fee (download /upload, Mbit/s)	0/0
Guaranteed speed	in accordance with section 4.1 of the GTC
Other charges	
SMS fee to domestic networks (HUF)	25,40
Charge for International SMS to countries within the area of validity of the RED EU International tariff zone (HUF)	in accordance with Section 9 of the GTC
Charge for International SMS to countries outside the preferential zone (HUF)	50,80
Standard-rate domestic calls (HUF)	25,40
Fees of other services	
New tool repair (HUF)	6 350
Connection to own meter	Free of charge
Can-BUS connection	Free of charge
Repair beyond warranty	12 700 Ft
Exchange of the device	12 700 Ft
Connection to zone	12 700 Ft
Removal	12 700 Ft
Transfer (at one time, within 15 km)	12 700 Ft
Transfer (at different times or over 15 km)	19 050 Ft

For subscription contracts concluded after 24 October 2017:

	ReadyFleet tariff
Initial costs	
Entry fee (HUF)	10 000
Havi díjak	
Total monthly subscription fee (HUF) with an indefinite-term or 2-year fixed-term contract	6 350
Supplemental options	
Messenger service monthly fee	1 270
Telemetria (telemetry) roaming 15 MB (Western Europe)	857,25
Telemetria (telemetry) roaming 15 MB (Eastern Europe)	1 511,3
Content included in the monthly fee	
Domestic data traffic	100MB
Offered bandwidth above the data traffic included in the monthly subscription fee (download /upload, Mbit/s)	0/0
Guaranteed speed	in accordance with section 4.1 of the GTC
Other charges	
Standard-rate domestic network SMS (HUF)	25,40
Charge for International SMS to countries within the area of validity of the RED EU International tariff zone (HUF)	in accordance with Section 9 of the GTC
Charge for International SMS to countries outside the preferential zone (HUF)	50,8
Standard-rate domestic calls (HUF)	25,40
Fees of other services	
New tool repair (HUF)	6 350
Connection to own meter	Free of charge
Can-BUS connection	Free of charge
Repair beyond warranty	12 700
Exchange of the device	12 700
Connection to zone	12 700
Removal	12 700
Transfer (at one time, within 15 km)	12 700
Transfer (at different times or over 15 km)	19 050

The prices indicated in the following tables are gross prices including VAT

The traffic limit included in the monthly fee can be used during any part of the day without time restriction. If the traffic included in the monthly fee is not used up, the remaining part cannot be rolled over to the next billing cycle. Data traffic means the aggregate sum of the domestic and foreign data volume sent and received. Billing unit: 1 KB.

The ReadyFleet Service is available through a Closed Access Point Name (APN), and business subscribers may use Internet access during international roaming in zone 1 countries at gross HUF 76.6/MB (net 60.31/MB) if they do not have a unique roaming offer.

The purchase of a supplemental data option and excess traffic is not available for the ReadyFleet tariff packages. Continuous contact may be maintained with the driver via the Messenger service developed for dedicated message exchange.

The Telemetria (telemetry) roaming 15 MB (Western Europe) data traffic is available at the following areas and networks: All member states of the European Union, Turkey, Switzerland, Norway, Liechtenstein, Monaco, Iceland. Billing unit of the zone: 1 kB.

The Telemetria (telemetry) roaming 15 MB (Eastern Europe) data traffic is available at the following areas and networks: Albania, Belarus, Bosnia and Herzegovina, Macedonia, Moldova, Montenegro, Russia, Serbia, Turkey, Ukraine. Billing unit of the zone: 1 kB.

If Subscriber simultaneously subscribes to the Telemetria roaming 15MB (Western Europe) and the Telemetria roaming 15MB (Eastern Europe) services, in case Subscriber uses the ReadyFleet service in countries where both telemetry roaming services are applicable, first, the data volume included in the Telemetria roaming 15MB (Western Europe) service will be used. If no more data volume is available in the Telemetria roaming 15MB (Western Europe) service, the data volume included in the Telemetria roaming 15MB (Eastern Europe) will be used.

The Telemetria roaming options can be used by signing to keep the option for a 1-year period.

The traffic outside the preferential zone is HUF 3,175/1 MB, billing is in units of 1 kB.

Vodafone provides 2 (two) years' guarantee for the Telemetric tracking device(s).

If many different devices are installed in a vehicle, the installation costs shall be counted by device.

For a detailed description of the ReadyFleet service, please refer to section 3.1.2.41.2 of the body of the Business GTC.

In case of contracts concluded after 1 June 2019, if the installation fails for causes attributable to the Subscriber and they do not cancel the appointment made with the Subcontractor for installation at least 24 hours before the appointed time in a verifiable manner (in writing by e-mail or by phone), then they shall reimburse the Service Provider for the costs of standby by paying the charges shown in the table below.

If the Subscriber has failed to cancel within the time period specified hereinabove the appointment made for the installation or repair of a device, and the mechanic performing the installation calls at the pre-agreed location where the Subscriber fails to allow the performance of the installation or repair, then the Subscriber shall pay to the Service Provider, in addition to the standby charge, the fuel costs for the distance driven to and from, calculated with the per kilometre charge shown in the table below.

The standby charge and the fuel charge will also be charged if the car in which the device is to be installed is not at the pre-agreed location.

Standby charge	HUF 12,700
Fuel charge	HUF 127/km

2.1.12.3. Vodafone ReadyFleet service for Medium and Large Enterprise Subscribers

In the case of Subscription Contracts concluded before Tuesday, October 24, 2017:

	ReadyFleet tariff

The Telemetria roaming options can be used by signing to keep the option for a 1-year period.

The traffic outside the preferential zone is HUF 2,500/1 MB, billing is in units of 1 kB.

Vodafone provides 2 (two) years' guarantee for the Telemetric tracking device(s).
If many different devices are installed in a vehicle, the installation costs shall be counted by device.

For a detailed description of the ReadyFleet service, please refer to section 3.1.2.41.2 of the body of the Business GTC.

In case of contracts concluded after 1 June 2019, if the installation fails for causes attributable to the Subscriber and they do not cancel the appointment made with the Subcontractor for installation at least 24 hours before the appointed time in a verifiable manner (in writing by e-mail or by phone), then they shall reimburse the Service Provider for the costs of standby by paying the charges shown in the table below.

If the Subscriber has failed to cancel within the time period specified hereinabove the appointment made for the installation or repair of a device, and the mechanic performing the installation calls at the pre-agreed location where the Subscriber fails to allow the performance of the installation or repair, then the Subscriber shall pay to the Service Provider, in addition to the standby charge, the fuel costs for the distance driven to and from, calculated with the per kilometre charge shown in the table below.

The standby charge and the fuel charge will also be charged if the car in which the device is to be installed is not at the pre-agreed location.

Standby charge	HUF 12,700
Fuel charge	HUF 127/km

2.1.13. Vodafone Business RED plans for Small Enterprise Subscribers

The prices indicated in the following tables are gross prices including VAT. In the service packages billing is performed in units of 1 second.

	Vodafone Business RED 5GB	Vodafone Business RED 20GB	Vodafone Business RED Superior	Vodafone Business RED World

With Vodafone Business RED 5GB and Vodafone Business RED 20GB plans, Business MultiNet (mobile Internet based) plans are available, which can be used only with the Vodafone Business RED 5GB and Vodafone Business RED 20GB service packages, as secondary SIMs. In case of Vodafone Business RED 5GB and Vodafone Business RED 20GB plans

with divisible data traffic (primary SIM), in the associated Business MultiNet plans (secondary SIM), the data traffic may be used domestically, and also abroad according to the applicable Roaming rates, and, if the Vodafone EU Roaming service is activated, in the territory where the Vodafone EU Roaming service is valid.

Business MultiNet packages:

	Business MultiNet Mifi	Business MultiNet SIM

Registration fee (HUF)	10,000	10,000
Monthly fees		
Monthly subscription fee (HUF) with an indefinite-term contract	8,267.72	8,267.72
Monthly subscription fee (HUF) with contracts of a 2-year fixed term	0	0
Data traffic included in the monthly fee	the same as Vodafone Business RED 5GB and Vodafone Business RED 20GB plans, shared therewith	
Offered bandwidth above the divisible data traffic per month (download and upload speed – Mbit/s)	0/0	0/0
Guaranteed speed	See Section 4.1 of the GTC	
SMS sent domestically and to Hungarian standard-rate numbers in the EU in roaming tariff zone 1 according to the applicable Roaming rates (HUF)	30.48	30.48

The unlimited airtime minutes and SMS/MMS messages included in the monthly fee of the Vodafone Business RED 5GB, Vodafone Business RED 20GB, Vodafone Business RED Superior and Vodafone Business RED World plans apply to standard-rate calls and sent SMS and MMS messages. Domestic standard-rate directions mean standard-rate calls made to the domestic network of Vodafone and other mobile service providers, standard-rate calls made to domestic fixed-line numbers, as well as standard-rate SMS messages, standard-rate MMS messages, and in case of Business RED service packages – as far as fees are concerned – domestic standard-rate directions also mean calls made to special-rate numbers (e.g. voicemail).

The limitlessness included in the monthly fee of the Vodafone Business RED plans shall apply only to standard-rate and special-rate domestic and standard-rate and special-rate (green numbers) international calls, and to standard-rate and special-rate SMS messages sent to a domestic network and standard-rate and special-rate (green numbers) SMS messages sent to an international network.

The area of the Red EU International tariff zone is defined in Section 9 of this Annex called List of Rates.

The charges of international calls outside the Red EU International tariff zone are contained in Section 9 of this Annex called List of Rates.

In foreign countries the valid Roaming tariffs will apply. The detailed description of the Vodafone EU Roaming service is included in Section 5.5 of this Annex called List of Rates.

The data traffic included in the monthly fee can be used domestically and, according to the applicable Roaming charges, abroad.

In the case of Vodafone Business RED World plan the unlimited data traffic included in the monthly fee may be used in the area of validity of Világ Napijegy. The description of the area of validity of the Világ Napijegy is contained in Section 5.2.2 of this Annex called List of Rates.

The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. Billing unit: 10 Kbyte.

In the case of Vodafone Business RED 5GB and Vodafone Business RED 20GB plans, if the Subscriber does not use up the monthly volume limit included in the monthly fee, the remaining part cannot be rolled over to the next billing cycle. After using up the data volume included in the monthly fee, Internet access is discontinued until the end of the billing cycle. Guaranteed speed according to Section 4.1 of the GTC.

With the Vodafone Business RED Superior and Vodafone Business RED World service packages, Subscribers get 480p video resolution for playing video content. This resolution provides quality optimised for mobile phones; on devices with larger screens, image quality may be less favourable. The optimisation can be cancelled by dialling 1270.

After using up the data volume included in the Vodafone Business RED 5GB and Vodafone Business RED 20GB monthly fee, and if prior to using up the data volume included in the monthly fee, a supplemental data option or options is/are purchased once or several times on the Netinfo page, after using up the data volume included in such supplemental data option then in the monthly fee, an automatically activated Automatikus Kiegészítő Adat option containing 200 MB data traffic is associated with the Vodafone Business RED 5GB and Vodafone Business RED 20GB plans, once per billing cycle, the fee of which can be found in the tariff table. The data traffic of the Automatikus Kiegészítő Adat 200 MB option can be used until the end of the given billing cycle, and is not divisible. The Automatikus Kiegészítő Adat 200 MB option is renewed

monthly but is only activated and billed upon continuing data use after the data volume included in the monthly fee or supplemental data option(s) is exhausted. After the data volume included in the Automatikus Kiegészítő Adat 200 MB option is used up, the Internet service is discontinued.

Before using up the data volume included in the monthly fee, or after using up the domestic data volume included in the Automatikus Kiegészítő Adat option, a Kiegészítő Adat option needs to be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded after the data volume included in the Automatikus Kiegészítő Adat option is exhausted. If the Subscriber has exhausted the data volume included in the plan and the Automatikus Kiegészítő Adat option, the Internet service will not be available to him/her until the end of the billing cycle. When the billing cycle ends, the service is restarted.

The Business MultiNet card only provides data transmission service; no voice services are available thereon. Only customers who have subscriptions for new or existing Vodafone Business RED 5GB or Vodafone Business RED 20GB plans are eligible for Business MultiNet tariffs. Maximum 1 Business MultiNet package can be purchased in the offer with a single subscription for Vodafone Business RED 5GB or Vodafone Business RED 20GB. The Subscriber is eligible for the Business MultiNet package, as long as he/she maintains his/her fixed or indefinite-term Vodafone Business RED 5GB or Vodafone Business RED 20GB subscription. If the primary subscription concluded for the plans is cancelled or changed, we will convert SIM card 2 to Internet Basic tariff.

In the case of the Business MultiNet tariffs, after using up the monthly data traffic limit, a supplemental option needs to be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, the Internet service will not be available to him/her until the end of the billing cycle. When the billing cycle ends, the service is restarted. Guaranteed speed according to Section 4.1 of the GTC.

In the case of the Vodafone Business RED 5GB and Vodafone Business RED 20GB plans, the Subscriber, who/which, after having exhausted the data limit included in the plan, divides the divisible supplemental data options that can be ordered by the Subscriber or other users of secondary SIM card belonging to Business MultiNet tariffs as authorized by Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>) for continuing Internet use until account closure, is only able to monitor his/her own data use, i.e. data use belonging to the primary SIM card, on the Netinfo page (<http://netinfo.vodafone.hu>), for technical reasons, and does not have any information on the specific amount of data traffic of the secondary SIM card that may use the divisible data volume. If the user of the secondary SIM card belonging to the Business MultiNet tariff, who has been duly authorized by the Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>), orders a supplemental data option, the fee of the supplemental data option shall be invoiced to and payable by the Subscriber of the primary SIM card.

The Vodafone Business RED 5GB, Vodafone Business RED 20GB, Vodafone Business RED Superior and Vodafone Business RED World plans can only be used in compliance with the terms of use for Small Enterprise Subscribers, to satisfy the personal communication needs of natural person users (personal use). Intended personal use does not include the following: if the Subscriber or user uses the SIM card pertaining to the plan inserted in a non-mobile phone; making automated calls that do not require the personal involvement of the user; making mass calls (the duration of which exceeds 10% of the total duration of outgoing calls) to automated call receiving devices, equipment (such as, but not exclusively to IVR); making mass calls in order to test, make trial runs or to test the resilience or vulnerability etc. of services, technical instruments or equipment; making calls that regularly exceed 180 minutes per day for the remote monitoring of people, structures, events, etc. (e.g. but not exclusively: asset protection, baby monitoring functions); making calls for establishing machine-to-machine connection (M2M); making or diverting calls in a total duration of more than 24 hours per day; making mass calls or sending bulk SMS of which the Service Provider has reasonable grounds to believe having been made or sent to gain direct benefit by the Subscriber, the User or any other third parties at the expense of the Service Provider. It is strictly prohibited to use the plan with devices that do not have their own display, speaker, microphone and keyboard (including touch-screen keyboard), for example adapter or modem. The service packages shall not be used in an abusive manner, among others, for telemarketing, customer service activities or other business purposes. Abusive use shall include the behaviour of sending SMS and MMS messages in a manner contrary to the conditions of personal use, where the number of SMS/MMS messages sent via the subscription exceeds several hundred per day, or the proportion of the number of SMS/MMS messages sent via the subscription involved and that of their recipients exceeds 10%, or the proportion of the number of SMS/MMS messages and that of the replies to them is lower than 80%, or the SMS/MMS messages are sent by the subscriber typically from one location. In the event of abusive use, or the violation of the conditions of personal use, after prior notice from the Service Provider, the service will be available to the Subscriber according to the conditions of the Small Enterprise Basic Tariff.

The Conference Call service is not available with Vodafone Business RED plans.

Egyszeri Kiegészítő Adat (supplemental option)

A supplemental data option can be purchased for the Vodafone Business RED 5GB and Vodafone Business RED 20GB plans, the detailed description of which is contained in the following table. Supplemental options may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the Business EU Red subscription belongs.

Available Kiegészítő Data option	Data volume included	Fee (gross)	Service package for which it is available:
Kiegészítő Adat 1 GB	1 GB	HUF 2,000	Vodafone Business RED 5GB Vodafone Business RED 20GB
Kiegészítő Adat 3 GB	3 GB	HUF 3,000	Vodafone Business RED 5GB Vodafone Business RED 20GB
Kiegészítő Adat 5 GB	5 GB	HUF 4,000	Vodafone Business RED 5GB Vodafone Business RED 20GB

If an Egyszeri Kiegészítő Adat option is not completely used by the time of purchasing the next Egyszeri Kiegészítő Adat option, the unused remaining data traffic of the existing supplemental data option will be lost. The supplemental data option may be used until the end of the billing cycle, with the same terms as those applicable to the data traffic included in the monthly fee of the service package. Within a billing cycle, any number of Egyszeri Kiegészítő Adat options can be purchased, which is a non-renewable option that has to be repurchased in every billing cycle, if needed.

2.1.14. Vodafone Business RED plans for Medium and Large Enterprise Subscribers

Guaranteed speed	See Section 4.1 of the GTC	
SMS sent domestically and to Hungarian standard-rate numbers in roaming tariff zone 1 according to the applicable Roaming rates (HUF)	24	24

The unlimited airtime minutes and SMS/MMS messages included in the monthly fee of the Vodafone Business RED 5GB, Vodafone Business RED 20GB, Vodafone Business RED Superior and Vodafone Business RED World plans apply to standard-rate calls and sent SMS and MMS messages. Domestic standard-rate directions mean standard-rate calls made to the domestic network of Vodafone and other mobile service providers, standard-rate calls made to domestic fixed-line numbers, as well as standard-rate SMS messages, standard-rate MMS messages, and in case of Business Red service packages – as far as fees are concerned – domestic standard-rate directions also mean calls made to special-rate numbers (e.g. voicemail).

The limitlessness included in the monthly fee of the Vodafone Business RED plans shall apply only to standard-rate and special-rate domestic and standard-rate and special-rate (green numbers) international calls, and to standard-rate and special-rate SMS messages sent to a domestic network and standard-rate and special-rate (green numbers) SMS messages sent to an international network.

The area of the Red EU International tariff zone is defined in Section 9 of this Annex called List of Rates.

The charges of international calls outside the Red EU International tariff zone are contained in Section 9 of this Annex called List of Rates.

In foreign countries the valid Roaming tariffs will apply. The detailed description of the Vodafone EU Roaming service is included in Section 5.5 of this Annex called List of Rates.

The data traffic included in the monthly fee can be used domestically and, according to the applicable Roaming charges, abroad.

In the case of Vodafone Business RED World plan the unlimited data traffic included in the monthly fee may be used in the area of validity of Világ Napijegy. The description of the area of validity of the Világ Napijegy is contained in Section 5.2.2 of this Annex called List of Rates.

The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. Billing unit: 10 Kbyte.

In the case of Vodafone Business RED 5GB and Vodafone Business RED 20GB plans, if the Subscriber does not use up the monthly volume limit included in the monthly fee, the remaining part cannot be rolled over to the next billing cycle. After using up the data volume included in the monthly fee, Internet access is discontinued until the end of the billing cycle. Guaranteed speed according to Section 4.1 of the GTC.

With the Vodafone Business RED Superior and Vodafone Business RED World service packages, Subscribers get 480p video resolution for playing video content. This resolution provides quality optimised for mobile phones; on devices with larger screens, image quality may be less favourable. The optimisation can be cancelled by dialling 1270.

After using up the data volume included in the Vodafone Business RED 5GB and Vodafone Business RED 20GB monthly fee, and if prior to using up the data volume included in the monthly fee, a supplemental data option or options is/are

purchased once or several times on the Netinfo page, after using up the data volume included in such supplemental data option then in the monthly fee, an automatically activated Automatikus Kiegészítő Adat option containing 200 MB data traffic is associated with the Vodafone Business RED 5GB and Vodafone Business RED 20GB plans, once per billing cycle, the fee of which can be found in the tariff table. The data traffic of the Automatikus Kiegészítő Adat 200 MB option can be used until the end of the given billing cycle, and is not divisible. The Automatikus Kiegészítő Adat 200 MB option is renewed monthly but is only activated and billed upon continuing data use after the data volume included in the monthly fee or supplemental data option(s) is exhausted. After the data volume included in the Automatikus Kiegészítő Adat 200 MB option is used up, the Internet service is discontinued.

Before using up the data volume included in the monthly fee, or after using up the domestic data volume included in the Automatikus Kiegészítő Adat option, a Kiegészítő Adat option needs to be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded after the data volume included in the Automatikus Kiegészítő Adat option is exhausted. If the Subscriber has exhausted the data volume included in the plan and the Automatikus Kiegészítő Adat option, the Internet service will not be available to him/her until the end of the billing cycle. When the billing cycle ends, the service is restarted.

The Business MultiNet card only provides data transmission service; no voice services are available thereon. Only customers who have subscriptions for new or existing Vodafone Business RED 5GB or Vodafone Business RED 20GB plans are eligible for Business MultiNet tariffs. Maximum 1 Business MultiNet package can be purchased in the offer with a single subscription for Vodafone Business RED 5GB or Vodafone Business RED 20GB. The Subscriber is eligible for the Business MultiNet package, as long as he/she maintains his/her fixed or indefinite-term Vodafone Business RED 5GB or Vodafone Business RED 20GB subscription. If the primary subscription concluded for the plans is cancelled or changed, we will convert SIM card 2 to Internet Basic tariff.

In the case of the Business MultiNet tariffs, after using up the monthly data traffic limit, a supplemental option needs to be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, the Internet service will not be available to him/her until the end of the billing cycle. When the billing cycle ends, the service is restarted. Guaranteed speed according to Section 4.1 of the GTC.

In the case of the Vodafone Business RED 5GB and Vodafone Business RED 20GB plans, the Subscriber, who/which, after having exhausted the data limit included in the plan, divides the divisible supplemental data options that can be ordered by the Subscriber or other users of secondary SIM card belonging to Business MultiNet tariffs as authorized by Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>) for continuing Internet use until account closure, is only able to monitor his/her own data use, i.e. data use belonging to the primary SIM card, on the Netinfo page (<http://netinfo.vodafone.hu>), for technical reasons, and does not have any information on the specific amount of data traffic of the secondary SIM card that may use the divisible data volume. If the user of the secondary SIM card belonging to the Business MultiNet tariff, who has been duly authorized by the Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>), orders a supplemental data option, the fee of the supplemental data option shall be invoiced to and payable by the Subscriber of the primary SIM card.

The Vodafone Business RED 5GB, Vodafone Business RED 20GB, Vodafone Business RED Superior and Vodafone Business RED World plans can only be used in compliance with the terms of use for Large Enterprise Subscribers, to satisfy the personal communication needs of natural person users (personal use). Intended personal use does not include the following: if the Subscriber or user uses the SIM card pertaining to the plan inserted in a non-mobile phone; making automated calls that do not require the personal involvement of the user; making mass calls (the duration of which exceeds 10% of the total duration of outgoing calls) to automated call receiving devices, equipment (such as, but not exclusively to IVR); making mass calls in order to test, make trial runs or to test the resilience or vulnerability etc. of services, technical instruments or equipment; making calls that regularly exceed 180 minutes per day for the remote monitoring of people, structures, events, etc. (e.g. but not exclusively: asset protection, baby monitoring functions); making calls for establishing machine-to-machine connection (M2M); making or diverting calls in a total duration of more than 24 hours per day; making mass calls or sending bulk SMS of which the Service Provider has reasonable grounds to believe having been made or sent to gain direct benefit by the Subscriber, the User or any other third parties at the expense of the Service Provider. It is strictly prohibited to use the plan with devices that do not have their own display, speaker, microphone and keyboard (including touch-screen keyboard), for example adapter, modem. The service packages shall not be used in an abusive manner, among others, for telemarketing, customer service activities or other business purposes. Abusive use shall include the behaviour of sending SMS and MMS messages in a manner contrary to the conditions of personal use, where the number of SMS/MMS messages sent via the subscription exceeds several hundred per day, or the proportion of the number of SMS/MMS messages sent via the subscription involved and that of their recipients exceeds 10%, or the proportion of the number of SMS/MMS messages and that of the replies to them is lower than 80%, or the SMS/MMS messages are sent by the subscriber typically from one location. In the event of abusive use, or the violation of the conditions of personal use, after prior notice from the Service Provider, the service will be available to the Subscriber according to the conditions of the Medium and Large Enterprise Basic Tariff.

The Conference Call service is not available with Vodafone Business RED plans.

One-time Supplemental Data (supplemental option) in the case of subscription contracts concluded before 30 June 2019

A supplemental data option can be purchased for the Vodafone Business RED 5GB and Vodafone Business RED 20GB plans, the detailed description of which is contained in the following table. Supplemental options may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the Business EU Red subscription belongs.

Available Kiegészítő Data option	Data volume included	Fee (gross)	Service package for which it is available:
Kiegészítő Adat 1 GB	1 GB	HUF 1499.8	Vodafone Business RED 5GB Vodafone Business RED 20GB
Kiegészítő Adat 3 GB	3 GB	HUF 2249.71	Vodafone Business RED 5GB Vodafone Business RED 20GB
Kiegészítő Adat 5 GB	5 GB	HUF 2999.62	Vodafone Business RED 5GB Vodafone Business RED 20GB

If an Egyszeri Kiegészítő Adat option is not completely used by the time of purchasing the next Egyszeri Kiegészítő Adat option, the unused remaining data traffic of the existing supplemental data option will be lost. The supplemental data option may be used until the end of the billing cycle, with the same terms as those applicable to the data traffic included in the monthly fee of the service package. Within a billing cycle, any number of Egyszeri Kiegészítő Adat options can be purchased, which is a non-renewable option that has to be repurchased in every billing cycle, if needed.

One-time Supplemental Data (supplemental option) in the case of subscription contracts concluded after 1 July 2019:

Supplemental data options are available for the Vodafone Business RED 5 GB and Vodafone Business RED 20 GB tariff packages, which are described in detail in the following table. The Supplemental option can be purchased on the Netinfo site (<http://netinfo.vodafone.hu>) from the SIM card and device to which the Business EU Red subscription belongs.

Available Supplemental Data	Data traffic included	Fee (net)	Service package for which it is available:
Supplemental Data 1 GB	1 GB	HUF 1,904.76	Vodafone Business RED 5GB Vodafone Business RED 20GB
Supplemental Data 3 GB	3 GB	HUF 2,857.14	Vodafone Business RED 5GB Vodafone Business RED 20GB
Supplemental Data 5 GB	5 GB	HUF 3,809.52	Vodafone Business RED 5GB Vodafone Business RED 20GB

If a One-time Supplemental Data option is not completely used by the time of purchasing the next One-time Supplemental Data option, the unused remaining data traffic of the existing supplemental data option will be lost. The Supplemental Data option may be used by the end of the given billing cycle, under the same conditions as those applicable to the data traffic included in the monthly fee of the service package. In a billing cycle any number of One-time Supplemental Data options may be purchased, which are non-renewable options that must be repurchased in every billing cycle, if needed.

2.1.15. Reserved for editing purposes

2.2. Options currently marketed

The following options are available subject to the conditions specified for each tariff package; the options may be modified (terminated or ordered) once a month (in each billing period.)

2.2.1. MultiNet options

MultiNet options are options including extra divisible data volume that may be ordered per phone number, which also allow the Subscriber in question to buy Business MultiNet tariffs in addition to the extra data volume.

2.2.1.1. MultiNet options available to Small Enterprise Subscribers

The MultiNet Start, Medium, Premium options are available with the following tariffs offered to Small Enterprise Subscribers: Vállalkozói Osztható 10000, Vállalkozói Osztható 15000, Vállalkozói Osztható 20000, Vállalkozói Osztható 30000, Vállalkozói Osztható 45000, Vállalkozói Osztható 60000, Vállalkozói Osztható 75000, Vállalkozói Osztható 100000, Business Red EU Standard, Business Red EU Premium, Business Red EU Basic, Business Start EU, Business Medium EU, Business Pro EU, Business Group EU.

Maximum 1 MultiNet option can be activated for a single subscription.
The prices indicated in the following tables are gross prices including VAT.

The MultiNet options available with Subscription Contracts concluded after 2 November 2016 are included in the following table:

MultiNet option	Gross monthly fee (HUF) with 2-year fixed-term contract	Gross monthly fee (HUF) with 1-year fixed-term contract	Gross monthly fee (HUF) with an indefinite-term contract	Data quantity included in the option above the monthly fee of the tariff
MultiNet 3 GB	2,472.05	8,267.70	8,267.70	3 GB
MultiNet 10 GB	4,538.98	8,267.70	8,267.70	10 GB
MultiNet 30 GB	7,432.68	8,267.70	8,267.70	30 GB

If the Subscriber does not use up the monthly traffic limit included in the monthly fee, the remaining part cannot be rolled over to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions.

Billing unit: 10 Kbyte.

The MultiNet (mobile internet based) tariff packages included in the following table are available for the MultiNet Start, Medium, Premium options, which may be used by Small Enterprise Subscribers having a Vállalkozói Osztható tariff and an associated Okos Rádás 2000, Okos Rádás 4000, Okos Rádás 5500, Okos Rádás Irodai, Okos Rádás Red EU Standard, Okos Rádás Red EU Premium vagy Business Start EU, Business Medium EU, Business Pro EU tariff package, only with the above MultiNet option, as secondary SIM cards, by dividing the domestic data traffic included in the MultiNet option.

Business MultiNet Base tariffs available after 1 June 2016:

	Business MultiNet Basic Mifi	Business MultiNet Basic SIM
Initial costs		
Entry fee (HUF)	10,000	10,000
Monthly fees		
Monthly subscription fee (HUF) with an indefinite term contract	8,267.70	8,267.70
Monthly subscription fee (HUF) with contracts of a 1-year fixed term	8,267.70	8,267.70
Monthly subscription fee (HUF) with contracts of a 2-year fixed term	413.39	413.39
Domestic data traffic included in the monthly fee	same as in MultiNet option, shared therewith	
Offered bandwidth above monthly divisible data traffic (download/upload, Mbit/s)	0/0	0/0
Guaranteed speed	in accordance with section 4.1 of the GTC	
SMS to any domestic network (HUF)	30.48	30.48

The Business MultiNet card (secondary SIM) only provides data transmission service; no voice services are available thereon. If the primary subscription is cancelled or changed, we will convert SIM card 2 to Internet Base tariff.

In case of a MultiNet option, the Subscriber, who/which shares the domestic data limit included in the tariff (or purchased additionally by the Subscriber or other users of the secondary Business MultiNet tariff) is only able to monitor his own data use on the Netinfo page (<http://netinfo.vodafone.hu>), for technical reasons, i.e., the data use related to the primary SIM card. Accordingly, he does not have any information on the actual extent of the data use of the secondary SIM card (cards) that he may also use the divisible data volume. If the user of secondary Business MultiNet tariff purchases a supplemental option on the Netinfo page (<http://netinfo.vodafone.hu>), the fee of the option shall be paid by the Subscriber of the MultiNet option. The user of secondary MultiNet SIM card can only purchase a supplemental option, if he has been duly authorized by the Subscriber of the MultiNet option on the Netinfo page (<http://netinfo.vodafone.hu>). Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle. Guaranteed speed above the data traffic included in the monthly subscription fee (download/upload Mbit/s) is determined in accordance with section 4.1 of the GTC.

In case of the MultiNet options, Subscriptions having MultiNet options with divisible data traffic (primary SIM) on the roaming networks determined by the Service Provider, and Világ Napijegy on the related Business MultiNet tariff packages (secondary SIM) are billed automatically per SIM card, on the basis of the first billable event generated by the Subscriber on the SIM card (call initiated or received, SMS sent, or data downloaded or uploaded in a roaming environment) on the concerned calendar day, and subsequently the Subscriber can make phone calls, send SMS and use the available data volume on the SIM card in question at favourable rates (section 5.2). Subscribers who are entitled to use the Netinfo page (<http://netinfo.vodafone.hu>) thanks to their tariffs or data option can conduct data traffic abroad up to and from their data limit that is allowed by their tariffs in a domestic relation. Within the validity period, after exhausting the data limit, data options can be purchased, otherwise we will slow down the speed of internet access to 0/0 Mbit/s.

The description and terms of use of the Világ Napijegy (World Daily Ticket) are contained in Section 5.2.2 of this Annex 1.

Kiegészítő Adat (supplemental option) for MultiNet options concluded after 2 November 2016:

Supplemental divisible data option can be purchased for the MultiNet Start, Medium, Premium options, the data quantity of which may be used with the SIM card of the MultiNet option and the SIM card of MultiNet tariff.

Kiegészítő Adat can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and handset to which the MultiNet option or MultiNet subscription belongs.

The fee of the Kiegészítő Adat option is charged in all cases to the voice-based subscription, that is, the package that orders the MultiNet option.

Available Kiegészítő Data option	Domestic data volume included	Fee (gross)
Kiegészítő Adat 500 MB	500 MB	HUF 826.77
Kiegészítő Adat 1 GB	1 GB	HUF 1,653.54
Kiegészítő Adat 5 GB	5 GB	HUF 4,133.87

If a Kiegészítő Adat option is not completely used by the time of purchasing the next Kiegészítő Adat option, the unused remaining data traffic will be lost. The Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of Kiegészítő Adat options can be purchased in a billing cycle. Kiegészítő Adat is a non-renewable option that has to be repurchased in every billing cycle, if needed.

Kiegészítő Adat (supplemental option) for Business MultiNet Basic subscription contracts concluded after 1 June 2016:

Kiegészítő Adat option may be purchased for the Business MultiNet Basic tariff packages anytime within the billing cycle, described in detail in the following table. The Kiegészítő Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the Business MultiNet subscription belongs.

Available Kiegészítő Adat option From 1 June 2016:	Domestic data volume included	Fee (gross)
Kiegészítő Adat 500 MB	500 MB	HUF 826.77.13
Kiegészítő Adat 1 GB	1 GB	HUF 1,653.54
Kiegészítő Adat 5 GB	5 GB	HUF 4,133.87

If a Kiegészítő Adat option is not completely used by the time of purchasing the next Kiegészítő Adat option, the unused remaining data traffic will be lost. The Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of Kiegészítő Adat options can be purchased in a billing cycle. Kiegészítő Adat is a non-renewable option that has to be repurchased in every billing cycle, if needed.

Monthly renewable Kedvezményes (Preferential) Kiegészítő Adat (supplemental option) for Business MultiNet subscription contracts concluded after 1 June 2016:

A monthly renewable Kedvezményes (Preferential) Kiegészítő Adat option may be purchased to the Business MultiNet Basic tariff packages, which supplemental option is a renewable option, reactivated every billing cycle, i.e. it will not have to be reordered. The monthly renewable Kedvezményes Kiegészítő Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the Business MultiNet subscription belongs.

By purchasing the Kedvezményes Kiegészítő Adat option (supplemental option) the Subscriber agrees that during the fixed term associated with its Business MultiNet Basic subscription it shall also maintain the supplemental option, and the option shall not be cancelled during this period due to reasons arising within the Subscriber's scope of interest. If the above conditions are not met, the Subscriber shall pay liquidated damages in the amount of the discount calculated versus the Kiegészítő Adat option available to the Subscriber, as detailed in Section 12.7 of the GTC.

In case of Preferential Kiegészítő Adat 1 GB option, the discount versus Kiegészítő Adat 1 GB (HUF 1,653.54) option is: HUF 826.77 per month.

In case of Preferential Kiegészítő Adat 5 GB option, the discount versus Kiegészítő Adat 5 GB (HUF 4,133.87) option is: HUF 826.77 per month.

In case of Preferential Kiegészítő Adat 10 GB option, the discount versus the proportional fee taking into account the domestic data volume included in the Kiegészítő Adat 5 GB (HUF 4,133.87) option is: HUF 3,307.10 per month.

Available Kedvezményes (Preferential) Kiegészítő Adat option After 1 June 2016	Domestic data volume included	Fee (gross)
Kedvezményes Kiegészítő Adat 1 GB	1 GB	HUF 826.77
Kedvezményes Kiegészítő Adat 5 GB	5 GB	HUF 3,307.10
Kedvezményes Kiegészítő Adat 10 GB	10 GB	HUF 4,960.64

If the monthly renewable Kedvezményes Kiegészítő Adat is not completely used in the given billing period, its unused remaining data traffic will be lost. The monthly renewable Kedvezményes Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of Kiegészítő Adat option may be purchased in addition to the monthly renewable Kedvezményes Kiegészítő Adat option in a given billing period.

2.2.1.2. MultiNet options available to Medium and Large Enterprise Subscribers

The MultiNet options available for Middle and Large Enterprise Subscribers may be used with the commercially available Red and Ready Business service packages, as well as with those Internet options including non-divisible data traffic with which the Netinfo page is allowed to be used.

Maximum 1 MultiNet option can be activated for a single subscription.
The prices indicated in the tables of this section are net prices, not including VAT.

The MultiNet options available with Subscription Contracts concluded after 2 November 2016 are included in the following table:

MultiNet option	Net monthly fee (HUF) with 2-year fixed-term contract	Net monthly fee (HUF) with an indefinite-term contract	Data quantity included in the option above the monthly fee of the tariff
MultiNet 3 GB	2,354.33	7,874	3 GB
MultiNet 10 GB	4,322.83	7,874	10 GB
MultiNet 30 GB	7,078.74	7,874	30 GB

If the Subscriber does not use up the monthly traffic limit included in the monthly fee, the remaining part cannot be rolled over to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. Billing unit: 10 Kbyte.

The Business MultiNet (mobile internet based) tariff packages included in the following table are available for the MultiNet option, which may only be used with the above MultiNet option, as secondary SIM cards, by sharing the domestic data traffic included in the MultiNet option:

Business MultiNet Base tariffs available after 1 June 2016:

	Business MultiNet Basic Mifi	Business MultiNet Basic SIM
Initial costs		
Entry fee (HUF)	-	-
Monthly fees		
Monthly subscription fee (HUF) with an indefinite term contract	7,874	7,874
Monthly subscription fee (HUF) with contracts of a 2-year fixed term	393.7	393.7
Domestic data traffic included in the monthly fee	same as in MultiNet option, shared therewith	
Offered bandwidth above monthly divisible data traffic (download/upload, Mbit/s)	0/0	0/0
Guaranteed speed	in accordance with section 4.1 of the GTC	
SMS to any domestic network (HUF)	24	30.48

The Business MultiNet card (secondary SIM) only provides data transmission service; no voice services are available thereon. If the primary subscription is cancelled or changed, we will convert SIM card 2 to Internet Base tariff.

In case of a MultiNet option, the Subscriber or the User, who/which shares the domestic data limit included in the tariff (or purchased additionally by the Subscriber or other users of the secondary Business MultiNet tariff) is only able to monitor his own data use on the Netinfo page (<http://netinfo.vodafone.hu>), for technical reasons, i.e., the data use related to the primary SIM card. Accordingly, he does not have any information on the actual extent of the data use of the secondary SIM card that he may also use the divisible data volume. If the user of secondary Business MultiNet tariff purchases a supplemental option on the Netinfo page (<http://netinfo.vodafone.hu>), the fee of the option shall be paid by the Subscriber of the MultiNet option. The user of secondary Business MultiNet SIM card can only purchase a supplemental option, if he has been duly authorized by the Subscriber of the MultiNet option on the Netinfo page (<http://netinfo.vodafone.hu>). Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle. Guaranteed speed above the data traffic included in the monthly subscription fee (download/upload Mbit/s) is determined in accordance with section 4.1 of the GTC.

In case of the MultiNet options, Subscriptions having MultiNet options with divisible data traffic (primary SIM) on the roaming networks determined by the Service Provider, and Világ Napijegy on the related Business MultiNet tariff packages (secondary SIM) are billed automatically per SIM card, on the basis of the first billable event generated by the Subscriber on the SIM card (call initiated or received, SMS sent, or data downloaded or uploaded in a roaming environment) on the concerned calendar day, and subsequently the Subscriber can make phone calls, send SMS and use the available data volume on the SIM card in question at favourable rates (section 5.2). Subscribers who are entitled to use the Netinfo page (<http://netinfo.vodafone.hu>) thanks to their tariffs or data option can conduct data traffic abroad up to and from their data limit

that is allowed by their tariffs in a domestic relation. Within the validity period, after exhausting the data limit, data options can be purchased, otherwise we will slow down the speed of internet access to 0/0 Mbit/s.

The description and terms of use of the Világ Napijegy (World Daily Ticket) are contained in Section 5.2.2 of this Annex 1.

Kiegészítő Adat (supplemental option) for MultiNet options concluded after 03 October 2016:

Supplemental divisible data option can be purchased for the MultiNet Start, Medium, Premium options, the data quantity of which may be used with the SIM card of the MultiNet option and the SIM card of MultiNet tariff.

Kiegészítő Adat can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and handset to which the MultiNet option or MultiNet subscription belongs.

The fee of the Kiegészítő Adat option is charged in all cases to the voice-based subscription, that is, the package that orders the MultiNet option.

Available Kiegészítő Data option	Domestic data volume included	Fee (net)
Kiegészítő Adat 500 MB	500 MB	HUF 787.4
Kiegészítő Adat 1 GB	1 GB	HUF 1,574.8
Kiegészítő Adat 5 GB	5 GB	HUF 3,937

If a Kiegészítő Adat option is not completely used by the time of purchasing the next Kiegészítő Adat option, the unused remaining data traffic will be lost. The Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of Kiegészítő Adat options can be purchased in a billing cycle. Kiegészítő Adat is a non-renewable option that has to be repurchased in every billing cycle, if needed.

Kiegészítő Adat (supplemental option) for Business MultiNet subscription contracts concluded after 1 June 2016:

Kiegészítő Adat option may be purchased for the Business MultiNet tariff packages anytime within the billing cycle, described in detail in the following table. The Kiegészítő Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the Business MultiNet subscription belongs.

Available Kiegészítő Data option After 1 June 2016	Domestic data volume included	Fee (net)
Kiegészítő Adat 500 MB	500 MB	HUF 787.4
Kiegészítő Adat 1 GB	1 GB	HUF 1,574.8
Kiegészítő Adat 5 GB	5 GB	HUF 3,937

If a Kiegészítő Adat option is not completely used by the time of purchasing the next Kiegészítő Adat option, the unused remaining data traffic will be lost. The Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of Kiegészítő Adat options can be purchased in a billing cycle. Kiegészítő Adat is a non-renewable option that has to be repurchased in every billing cycle, if needed.

Monthly renewable Kedvezményes (Preferential) Kiegészítő Adat (supplemental option) for Business MultiNet subscription contracts concluded after 1 June 2016:

A monthly renewable Kedvezményes (Preferential) Kiegészítő Adat option may be purchased to the Business MultiNet tariff packages, which supplemental option is a renewable option, reactivated every billing cycle, i.e. it will not have to be reordered. The monthly renewable Kedvezményes Kiegészítő Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the Business MultiNet subscription belongs.

By purchasing the Kedvezményes Kiegészítő Adat option (supplemental option) the Subscriber agrees that during the fixed term associated with its Business MultiNet Basic subscription it shall also maintain the supplemental option, and the option shall not be cancelled during this period due to reasons arising within the Subscriber's scope of interest. If the above conditions are not met, the Subscriber shall pay liquidated damages in the amount of the discount calculated versus the Kiegészítő Adat option available to the Subscriber, as detailed in Section 12.7 of the GTC.

In case of Kedvezményes Kiegészítő Adat 1 GB option, the discount versus Kiegészítő Adat 1 GB (HUF 1,574.8 net) option is: HUF 787.4 net per month

In case of Kedvezményes Kiegészítő Adat 5 GB option, the discount versus Kiegészítő Adat 5 GB (HUF 3,937 net) option is: HUF 787.4 net per month

In case of Kedvezményes Kiegészítő Adat 10 GB option, the discount versus the proportional fee taking into account the domestic data volume included in the Kiegészítő Adat 5 GB (HUF 3,937) option is: HUF 3,149.61 net per month

Kedvezményes (Preferential) Kiegészítő Adat data option available versions after 1 June 2016	Domestic data volume included	Fee (net)	Service package
Kedvezményes Kiegészítő Adat 1 GB	1 GB	HUF 787.4	Business MultiNet Basic
Kedvezményes Kiegészítő Adat 5 GB	5 GB	HUF 3,937	
Kedvezményes Kiegészítő Adat 10 GB	10 GB	HUF 4,724.41	

If the monthly renewable Kedvezményes Kiegészítő Adat is not completely used in the given billing period, its unused remaining data traffic will be lost. The monthly renewable Kedvezményes Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of Kiegészítő Adat option may be purchased in addition to the monthly renewable Kedvezményes Kiegészítő Adat option in a given billing period.

2.2.1. Wireless Office 2 option

The monthly fee of the “Wireless Office 2” option is gross HUF 1,143 per SIM card which is payable above the monthly subscription fee. The monthly fee of the option includes the accounting of the voice traffic within the network of Vodafone Magyarország Zrt. between the SIM cards belonging to the concerned “Wireless Office 2” group at HUF 0 minute charge. The option has to be ordered for all SIM cards of the concerned „Wireless Office 2” group.

2.2.2. Call separation option:

The Call separation service is only available for Medium and Large Enterprise Subscribers. A gross option fee of HUF 635 per phone number must be paid in addition to the monthly subscription fee. For users of the Wireless Office 2 option, the Call Separation option can be used free of charge.

2.2.3. “Closed Group” option for business subscribers

The subscriber’s SIM cards may be organized to so-called “Closed Groups” from a pricing viewpoint. The monthly fee of the “Closed Group” option for business subscribers is gross HUF 750 per SIM card, which is payable above the monthly subscription fee. The monthly fee of the option includes the accounting of the voice traffic within the network of Vodafone Magyarország Zrt. between the SIM cards belonging to the concerned “Closed Group” at HUF 0 minute charge. The option has to be ordered for all SIM cards of the concerned “Closed Group”.

2.2.4. Fixed-line area option

For a gross monthly option fee of HUF 508 per phone number, which is payable in addition to the monthly subscription fee, the subscriber may call phone numbers from a selected fixed-line area at discounted minute rates. The minute rate of such calls is HUF 10.16 gross; calls are subject to per-minute billing. The selected area code may be modified monthly.

2.2.5. All fixed-line areas option

For a gross monthly option fee of HUF 762 per phone number, which is payable in addition to the monthly subscription fee, the subscriber may call phone numbers from all fixed-line areas at discounted minute rates. The minute rate of such calls is HUF 10.16 gross; calls are subject to per-minute billing.

2.3. Internet tariffs currently marketed

For the below tariff packages, the following uniform initial costs are charged:

- Entry fee:
 - Net: HUF 7,874.01
 - Gross: HUF 10,000.

In case of the below tariff packages, data traffic refers to the aggregate amount of domestic sent and received data, with a billing unit of 10 Kb. In addition to Internet and packet-switched WAP service, the tariff packages include SMS service, too, subject to the rates included in the tables below. Internet and packet-switched WAP data traffic abroad is subject to different rules (price, billing unit).

If the Subscriber does not use up the traffic limit included in the monthly fee, it cannot roll over the remaining part to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. After the traffic quota included in the monthly fee has been exhausted, the service may be used subject to the following usage fees. From the activation of the tariff package to the closing of the invoice, or, in case of changing tariff packages, from the beginning of the billing period to the change of the tariff, or from the change of the tariff package to the closing of the billing period, a pro-rata fractional monthly fee will be billed, based on the full monthly fee, and the full traffic limit can also be used on a pro-rata basis.

In case of subscription contracts concluded for Business Net Start, Business Net Medium, Business Net Premium, Business Osztható Net Medium, Business Osztható Net Premium service packages, when the data volume included in the monthly fee is exhausted, the speed will be reduced to 0/0 Mbit/s until the end of the billing cycle. Guaranteed speed as per Section 4.1 of the GTC.

In case of Business Net Start, Business Net Medium, Business Net Premium, Business Osztható Net Medium, Business Osztható Net Premium tariff packages, after the data volume included in the monthly fee is exhausted, Kiegészítő Adat option (supplemental data option) may be purchased on the Netinfo page (<http://netinfo.vodafone.hu>).

The Business Net Start, Business Net Medium, Business Net Premium, Business Osztható Net Medium, Business Osztható Net Premium tariff packages only provide data transmission services; no voice services can be used based with them.

2.3.1. Internet tariffs available to Small Enterprise Subscribers

2.3.1.1. OfficeNet+ tariff package for Small Enterprise Subscribers

	OfficeNet+
Startup expenses	
Registration fee (HUF)	10,000
Monthly fees	
Monthly subscription fee (HUF) with a 2-year fixed term contract	7,990
Domestic data traffic included in the monthly fee	150 GB
Offered bandwidth above the data traffic included in the monthly fee	download speed: 0.03125 Mbit/s upload speed 0.03125 Mbit/s
Guaranteed download and upload speed	See section 4.1 of the GTC
Services and their fees in addition to the monthly fee	
Charge of SMS to any domestic network (HUF)	30.48
Charge for International SMS to countries within the area of validity of the RED EU International tariff zone (HUF)	in accordance with Section 9 of the GTC
Charge for International SMS to countries outside the preferential zone (HUF)	60.96

The prices indicated in the table are gross prices, including VAT.

The OfficeNet+ tariff package only provides data transmission service; voice services are not available with the above tariff package. Data traffic refers to the aggregate amount of domestic sent and received data. Billing of the data traffic included in the tariff is performed in units of 10 Kbytes. In addition to Internet the tariff packages include SMS service too, subject to the rates included in the table above. The receipt of SMS messages is free of charge.

Mobile Internet is not available abroad with OfficeNet+ service package.

If the Subscriber does not use up the traffic limit included in the monthly fee, the remaining part cannot be rolled over to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions.

From the date of activation of the tariff package until the date of account closure a proportionate fraction of the full monthly fee and traffic limit will be billed. In case of changing tariff packages for tariff packages including monthly data traffic limit, from the beginning of the billing period to the change of the tariff package, or from the change of the tariff package to the closing of the billing period, a pro-rata fractional monthly fee will be billed, based on the full monthly fee, and the full traffic limit can also be used on a pro-rata basis.

In the case of OfficeNet+ service package, after the data volume contained in the monthly fee has been used up, the speed will be slowed down until the end of the billing cycle. After the end of the billing period, the original speed is restored. The value of the slowdown is 0.03125 Mbit/s for download and upload; the guaranteed speed defined in section 4.1 of the GTC. OfficeNet+ tariff package is only available with the purchase of an Internet sharing device designated by Vodafone, and the subscription may be used with the device purchased in this package with the SIM card provided for the service. The service is not available with any other device or SIM card. The SIM card guaranteed in the OfficeNet+ tariff package subscription contract may not be used with any other device. In the case of improper use (for example, but not limited to cases where Subscriber uses the service without the device purchased with the package or without the SIM card included in the OfficeNet+ tariff package, or if Subscriber uses the SIM card included in the OfficeNet+ tariff package with another device) Vodafone reserves the right to restrict (the offered restricted bandwidth is 0/0 Mbit/s) or terminate the service, after providing prior warning, or to convert the subscription to Internet Base Tariff after providing prior notice in SMS.

With reference to OfficeNet+ service package Subscribers, Vodafone continuously applies the Dynamic service quality regulation (QoS) described in section 4.2. (b) of the GTC, according to the standards no. 3GPP TS 23.107 and ETSI TS 123 107 V.9.0.0. in each billing cycle when allocating network resources, from starting the use of data traffic (from 0 GB data traffic) (the description of the referenced standards can be found at the following websites: www.etsi.org and

www.3GPP.org). As a consequence, OfficeNet+ service Subscribers enter a lower priority level when starting the use of data traffic than the other Subscribers and at the time of network overload the other Subscribers are more likely to properly reach the network resources than OfficeNet+ service package Subscribers i.e. other Subscribers will, at the time of network overload and under identical circumstances, be allowed to conduct data communication at a higher speed than an OfficeNet+ service package Subscriber. With normal network load, an OfficeNet+ service package Subscriber is not discriminated against other Subscribers and may use the network at the same speed as other users. The Service Provider will provide the guaranteed download and upload speed specified in Section 4.1. of the General Terms and Conditions regardless of the cause of limitation.

2.3.1.2. Reserved for editing purposes

2.3.1.3. Business Net tariff packages for Small Enterprise Customers

The prices indicated in the following tables are gross prices including VAT.

In the case of Subscription Contracts concluded before Tuesday, October 24, 2017:

	Business Net Start	Business Net Medium	Business Net Premium

200 MB Automatikus Kiegészítő Adat option activated once per billing cycle after the domestic data limit is exhausted (HUF)	413,39	413,39
Charges of SMS service in a domestic network (HUF)	30.48	30.48
Monthly divisibility fee charged per SIM card for the subscriptions belonging to the user group (HUF)	826,8	826,8

The precondition of the free data traffic within the EU is that the Subscriber has active roaming service prior to commencing to use the service. The free data traffic within the EU can be used in the given billing cycle. Data traffic not used in the given billing cycle cannot be rolled over to the next discount period and may not be used domestically. The Subscriber receives SMS notification when exhausting 80% and 100% of the monthly data volume. Due to technical reasons notification SMS messages may be only sent after closing the data connection. While using the free data traffic within the EU, several data connections may be established until the 1 GB limit is reached. Data traffic means the aggregate sum of sent and received data volume. Billing unit: 10 kB. After the free data traffic within the EU is exhausted, the Subscriber may use the roaming traffic subject to the rates specified in Section 5.4.1 of this Annex 1 to the GTC. The Business Net Start tariff charge does not include free data traffic within the EU. For the roaming services that can be used with this tariff package, please refer to Section 5 ("International roaming and mobile use on foreign networks") of this Annex 1 to the GTC.

The shared domestic data volume can be used collectively by the user group, that is, any subscriber number belonging to the user group can access the total data volume included in the monthly fee of the service or the data volume still available in the concerned billing cycle. The user group does not use the shared data volume in proportion to the number of its users. The above table specifies the maximum number of cards that can participate in the user group in case of the given Business Osztható Net tariff package. For information on the data volume available in the given billing cycle, the Subscriber may visit the Netinfo page (<http://netinfo.vodafone.hu>).

The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. If the Subscriber, or in the case of Business Osztható Net packages, the user group does not use the traffic limit included in the monthly fee, he cannot roll over the remaining part to the next billing cycle.

Domestic data traffic refers to the aggregate amount of domestic sent and received data. Billing unit: 10 Kb.

In the case of Business Net and Business Osztható Net subscription contracts, the Business Net service packages are supplemented once per billing cycle with the Automatikus Kiegészítő Adat option containing 200 MB of domestic data traffic, the fee of which can be found in the tariff table. This option is activated automatically after the domestic data volume included in the monthly fee is exhausted; or, if a supplemental data option has been purchased on the Netinfo site before the domestic data volume included in the monthly fee is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted; or, if one or more further supplemental data option(s) has (have) been purchased before the domestic data volume included in the supplemental data volume on the Netinfo site is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted. The data traffic of the Automatikus Kiegészítő Adat 200 MB option can be used until the end of the given billing cycle, and is not divisible. The Automatikus Kiegészítő Adat 200 MB option is renewed monthly but is only activated and billed upon continuing data use after the domestic data volume included in the monthly fee or supplemental data option(s) is exhausted. After the data volume included in the Automatikus Kiegészítő Adat 200 MB option, the speed will be slowed down to 0/0 Mbit/s.

Before using up the domestic data volume included in the monthly fee, or after using up the domestic data volume included in the Automatikus Kiegészítő Adat 200 MB option, a supplemental data option must be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded after the domestic data volume included in the Automatikus Kiegészítő Adat 200 MB option is exhausted. If the Subscriber has exhausted the domestic data volume included in the package and the Automatikus Kiegészítő Adat 200 MB option, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

Kiegészítő Adat (supplemental option) for Business Net subscription contracts:

Kiegészítő Adat supplemental data options can be purchased for the Business Net tariff packages, the detailed description of which is contained in Section 2.4.2.1 of this List of Rates Annex.

Monthly renewable Kedvezményes Kiegészítő Adat for Business Net subscription contracts:

A monthly renewable Kedvezményes Kiegészítő Adat option may be purchased to the Business Net tariff packages, which supplemental option is a renewable option, reactivated in every billing cycle, i.e. it will not have to be reordered. The detailed description of the option is in point 2.4.2.1 of this Annex called List of Rates.

Osztható Kiegészítő Adat (supplemental option) for Business Osztható Net Medium and Business Osztható Net Premium subscription contracts:

It is possible to purchase supplemental divisible data option (Kiegészítő Adat) to the Business Osztható Net Medium and Business Osztható Net Premium service packages, whose data volume may be used by the SIM card of the Business Osztható Net Medium and Business Osztható Net Premium package and the SIM card of the subscriptions belonging to the user group.

The divisible Kiegészítő Adat may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and device to which the Business Osztható Net Medium or Business Osztható Net Premium subscription belongs, as well as from the SIM card and device belonging to the Business Osztható Net Medium or Business Osztható Net Premium user group.

The fee of the divisible Kiegészítő Adat option is charged in all cases to the Business Osztható Net Medium and Business Osztható Net Premium subscription contracts:

Available Kiegészítő Data option	Domestic data volume included	Fee (gross)	Service package
Kiegészítő Adat 500 MB	500 MB	HUF 826.77	Business Osztható Net Medium and the Business Osztható Net Premium
Kiegészítő Adat 1 GB	1 GB	HUF 1,653.54	
Kiegészítő Adat 5 GB	5 GB	HUF 4,133.86	

If a divisible Kiegészítő Adat option is not completely used by the time of purchasing the next divisible Kiegészítő Adat option, the unused remaining data traffic of the existing Kiegészítő Adat option will be lost. The divisible Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of Kiegészítő Adat options can be

purchased in a billing cycle. The divisible Kiegészítő Adat option is a non-renewable option that has to be repurchased in every billing cycle, if needed.

The monthly renewable divisible Kedvezményes Kiegészítő Adat (supplemental option) for Business Osztható Net Medium and Business Osztható Net Premium subscription contracts:

The monthly renewable divisible Kedvezményes Kiegészítő Adat option may be ordered to the Business Osztható Net Medium and Business Osztható Net Premium service packages, which option is reactivated in every billing cycle, i.e. it will not have to be reordered. The monthly renewable Kedvezményes Kiegészítő Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the Business Osztható Net subscription belongs.

By purchasing the Kedvezményes Kiegészítő Adat option (supplemental option) the Subscriber agrees that during the fixed term associated with its Business Osztható Net subscription it shall also maintain the supplemental option, and the option shall not be cancelled during this period due to reasons arising within the Subscriber's scope of interest. If the above conditions are not met, the Subscriber shall pay liquidated damages in the amount of the discount calculated versus the Kiegészítő Adat option available to the Subscriber, as detailed in Section 12.7 of the GTC.

In case of Preferential Kiegészítő Adat 1 GB option, the discount versus Kiegészítő Adat 1 GB (HUF 1,653.54) option is: HUF 826.77 per month.

In case of Preferential Kiegészítő Adat 5 GB option, the discount versus Kiegészítő Adat 5 GB (HUF 4,133.87) option is: HUF 826.77 per month.

In case of Preferential Kiegészítő Adat 10 GB option, the discount versus the proportional fee taking into account the domestic data volume included in the Kiegészítő Adat 5 GB (HUF 4,133.87) option is: HUF 3,307.10 per month.

The fee of the monthly renewable divisible Kedvezményes Kiegészítő Adat option is charged in all cases to the Business Osztható Net Medium and Business Osztható Net Premium subscription contracts:

Available Kedvezményes (Preferential) Kiegészítő Adat option	Domestic data volume included	Fee (gross)	Service package
Kedvezményes Kiegészítő Adat 1 GB	1 GB	HUF 826.77	Business Osztható Net Medium and the Business Osztható Net Premium
Kedvezményes Kiegészítő Adat 5 GB	5 GB	HUF 3,307.10	
Kedvezményes Kiegészítő Adat 10 GB	10 GB	HUF 4,960.64	

If the monthly renewable divisible Kedvezményes Kiegészítő Adat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The monthly renewable divisible Kedvezményes Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of Kiegészítő Adat option may be purchased in addition to the monthly renewable plus divisible Kedvezményes Kiegészítő Adat option in a given billing period.

Charges of SMS service in a domestic network (HUF)	24	24
Monthly divisibility fee charged per SIM card for the subscriptions belonging to the user group (HUF)	787.4	787.4

The precondition of the free data traffic within the EU is that the Subscriber has active roaming service prior to commencing to use the service. The free data traffic within the EU can be used in the given billing cycle. Data traffic not used in the given billing cycle cannot be rolled over to the next discount period and may not be used domestically. The Subscriber receives SMS notification when exhausting 80% and 100% of the monthly data volume. Due to technical reasons notification SMS messages may be only sent after closing the data connection. While using the free data traffic within the EU, several data connections may be established until the 1 GB limit is reached. Data traffic means the aggregate sum of sent and received data volume. Billing unit: 10 kB. After the free data traffic within the EU is exhausted, the Subscriber may use the roaming traffic subject to the rates specified in Section 5.4.1 of this Annex 1 to the GTC. The Business Net Start tariff charge does not include free data traffic within the EU. For the roaming services that can be used with this tariff package, please refer to Section 5 ("International roaming and mobile use on foreign networks") of this Annex 1 to the GTC.

For subscription contracts concluded before 24 October 2017, the Subscriber receives the monthly fee allowance for 24 months after activation for Business Net tariffs signed for a 2-year fixed term. The allowance is automatically deleted after 24 months.

The shared domestic data volume can be used collectively by the user group, that is, any subscriber number belonging to the user group can access the total data volume included in the monthly fee of the service or the data volume still available in the concerned billing cycle. The user group does not use the shared data volume in proportion to the number of its users. The above table specifies the maximum number of cards that can participate in the user group in case of the given Business Osztható Net tariff package. For information on the data volume available in the given billing cycle, the Subscriber may contact the customer service.

The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. If the Subscriber, or in the case of Business Osztható Net packages, the user group does not use the traffic limit included in the monthly fee, he cannot roll over the remaining part to the next billing cycle.

Data traffic refers to the aggregate amount of domestic sent and received data. Billing unit: 10 Kb. Data traffic conducted abroad are charged by applying different rates.

In the case of Business Net and Business Osztható Net subscription contracts, the Business Net service packages are supplemented once per billing cycle with the Automatikus Kiegészítő Adat option containing 200 MB of domestic data traffic, at the fee of which can be found in the tariff table. This option is activated automatically after the domestic data volume included in the monthly fee is exhausted; or, if a supplemental data option has been purchased on the Netinfo site before the domestic data volume included in the monthly fee is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted; or, if one or more further supplemental data option(s) has (have) been purchased before the domestic data volume included in the supplemental data volume on the Netinfo site is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted. The data traffic of the Automatikus Kiegészítő Adat 200 MB option can be used until the end of the given billing cycle, and is not divisible. The Automatikus Kiegészítő Adat 200 MB option is renewed monthly but is only activated and billed upon continuing data use after the domestic data volume included in the monthly fee or supplemental data option(s) is exhausted. After the data volume included in the Automatikus Kiegészítő Adat 200 MB option, the speed will be slowed down to 0/0 Mbit/s.

Before using up the domestic data volume included in the monthly fee, or after using up the domestic data volume included in the Automatikus Kiegészítő Adat 200 MB option, a supplemental data option must be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded after the domestic data volume included in the Automatikus Kiegészítő Adat 200 MB option is exhausted. If the Subscriber has exhausted the domestic data volume included in the package and the Automatikus Kiegészítő Adat 200 MB option, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

Kedvezményes Kiegészítő Adat (supplemental option) for Business Net Start, Business Net Medium, Business Net Premium subscription contracts:

Supplemental data options can be purchased for the Business Net tariff packages, the detailed description of which is contained in Section 2.4.2.2 of this List of Rates Annex.

The monthly renewable Kedvezményes Kiegészítő Adat (supplemental option) for Business Net Start and Business Net Premium subscription contracts:

A monthly renewable Kedvezményes Kiegészítő Adat option may be purchased to the Business Net tariff packages, which supplemental option is a renewable option, reactivated in every billing cycle, i.e. it will not have to be reordered. The detailed description of the option is in point 2.4.2.2 of this Annex called List of Rates.

Osztható Kiegészítő Adat (supplemental option) for Business Osztható Net Medium and Business Osztható Net Premium subscription contracts:

It is possible to purchase supplemental divisible data option (Kiegészítő Adat) to the Business Osztható Net Medium and Business Osztható Net Premium service packages, whose data volume may be used by the SIM card of the Business Osztható Net Medium and Business Osztható Net Premium package and the SIM card of the subscriptions belonging to the user group.

The divisible Kiegészítő Adat may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and device to which the Business Osztható Net Medium or Business Osztható Net Premium subscription belongs, as well as from the SIM card and device belonging to the Business Osztható Net Medium or Business Osztható Net Premium user group.

The fee of the divisible Kiegészítő Adat option is charged in all cases to the Business Osztható Net Medium and Business Osztható Net Premium subscription contracts:

Available Kiegészítő Data option	Domestic data volume included	Fee (net)	Service package
Kiegészítő Adat 500 MB	500 MB	HUF 787.4	Business Osztható Net Medium and the Business Osztható Net Premium
Kiegészítő Adat 1 GB	1 GB	HUF 1,574.8	
Kiegészítő Adat 5 GB	5 GB	HUF 3,937.01	

If a divisible Kiegészítő Adat option is not completely used by the time of purchasing the next divisible Kiegészítő Adat option, the unused remaining data traffic of the existing Kiegészítő Adat option will be lost. The divisible Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of divisible Kiegészítő Adat can be

purchased in a billing cycle. The divisible Kiegészítő Adat option is a non-renewable option that has to be repurchased in every billing cycle, if needed.

The monthly renewable divisible Kedvezményes Kiegészítő Adat (supplemental option) for Business Osztható Net Medium and Business Osztható Net Premium subscription contracts:

The monthly renewable divisible Kedvezményes Kiegészítő Adat option may be ordered to the Business Osztható Net Medium and Business Osztható Net Premium service packages, which option is reactivated in every billing cycle, i.e. it will not have to be reordered. The monthly renewable divisible Kedvezményes Kiegészítő Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the Business Osztható Net subscription belongs.

By purchasing the Kedvezményes Kiegészítő Adat option (supplemental option) the Subscriber agrees that during the fixed term associated with its Business Osztható Net subscription it shall also maintain the supplemental option, and the option shall not be cancelled during this period due to reasons arising within the Subscriber's scope of interest. If the above conditions are not met, the Subscriber shall pay liquidated damages in the amount of the discount calculated versus the Kiegészítő Adat option available to the Subscriber, as detailed in Section 12.7 of the GTC.

In case of Kedvezményes Kiegészítő Adat 1 GB option, the discount versus Kiegészítő Adat 1 GB (HUF 1,574.8 net) option is: HUF 787.4 net per month.

In case of Kedvezményes Kiegészítő Adat 5 GB option, the discount versus Kiegészítő Adat 5 GB (HUF 3,937 net) option is: HUF 787.4 net per month.

In the case of Kedvezményes Kiegészítő Adat 10 GB option, the discount versus the proportional fee taking into account the domestic data volume included in the Kiegészítő Adat 5 GB (HUF 3,937) option is: HUF 3,149.61 net.

The fee of the monthly renewable divisible Kedvezményes Kiegészítő Adat option is charged in all cases to the Business Osztható Net Medium and Business Osztható Net Premium subscription contracts:

Available Kedvezményes (Preferential) Kiegészítő Adat option	Domestic data volume included	Fee (net)	Service package
Kedvezményes Kiegészítő Adat 1 GB	1 GB	HUF 787.4	Business Osztható Net Medium and the Business Osztható Net Premium
Kedvezményes Kiegészítő Adat 5 GB	5 GB	HUF 3,149.61	
Kedvezményes Kiegészítő Adat 10 GB	10 GB	HUF 4,724.41	

If the monthly renewable divisible Kedvezményes Kiegészítő Adat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The monthly renewable divisible Kedvezményes Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of Kiegészítő Adat option may be purchased in addition to the monthly renewable plus divisible Kedvezményes Kiegészítő Adat option in a given billing period.

2.3.3.2. OfficeNet+ tariff package for Medium and Large Enterprise Subscribers

	OfficeNet+
Startup expenses	
Registration fee (HUF)	-
Monthly fees	
Monthly subscription fee (HUF) with contracts of a 2-year fixed term	26,657.14
Domestic data traffic included in the monthly fee	150 GB
Offered bandwidth above the data traffic included in the monthly fee	download speed: 0.03125 Mbit/s upload speed 0.03125 Mbit/s
Guaranteed download and upload speed	See section 4.1 of the GTC
Services and their fees in addition to the monthly fee	
Charge of SMS to any domestic network (HUF)	24
Charge for International SMS to countries within the area of validity of the RED EU International tariff zone (HUF)	in accordance with Section 9 of the GTC
Charge for International SMS to countries outside the preferential zone (HUF)	48

The prices indicated in the table are net prices, which do not include VAT.

The OfficeNet+ tariff package only provides data transmission service; voice services are not available with the above tariff package. Data traffic refers to the aggregate amount of domestic sent and received data. Billing of the data traffic included in the tariff is performed in units of 10 Kbytes. In addition to Internet the tariff packages include SMS service too, subject to the rates included in the table above. The receipt of SMS messages is free of charge.

Mobile Internet is not available abroad with OfficeNet+ service package.

If the Subscriber does not use up the traffic limit included in the monthly fee, the remaining part cannot be rolled over to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions.

From the date of activation of the tariff package until the date of account closure a proportionate fraction of the full monthly fee and traffic limit will be billed. In case of changing tariff packages for tariff packages including monthly data traffic limit, from the beginning of the billing period to the change of the tariff package, or from the change of the tariff package to the closing of the billing period, a pro-rata fractional monthly fee will be billed, based on the full monthly fee, and the full traffic limit can also be used on a pro-rata basis.

In the case of OfficeNet+ service package, after the data volume contained in the monthly fee has been used up, the speed will be slowed down until the end of the billing cycle. After the end of the billing period, the original speed is restored. The value of the slowdown is 0.03125 Mbit/s for download and upload; the guaranteed speed defined in section 4.1 of the GTC. OfficeNet+ tariff package is only available with the purchase of an Internet sharing device designated by Vodafone, and the subscription may be used with the device purchased in this package with the SIM card provided for the service. The service is not available with any other device or SIM card. The SIM card guaranteed in the OfficeNet+ tariff package subscription contract may not be used with any other device. In the case of improper use (for example, but not limited to cases where Subscriber uses the service without the device purchased with the package or without the SIM card included in the OfficeNet+ tariff package, or if Subscriber uses the SIM card included in the OfficeNet+ tariff package with another device) Vodafone reserves the right to restrict (the offered restricted bandwidth is 0/0 Mbit/s) or terminate the service, after providing prior warning, or to convert the subscription to Internet Base Tariff after providing prior notice.

OfficeNet+ service includes a download bandwidth of 75 Mbit/s and an upload bandwidth of 25 Mbit/s on 4G network, a download bandwidth of 42 Mbit/s and an upload bandwidth of 5.7 Mbit/s of 3G network.

With reference to OfficeNet+ service package Subscribers, Vodafone continuously applies the Dynamic service quality regulation (QoS) described in section 4.2. (b) of the GTC, according to the standards no. 3GPP TS 23.107 and ETSI TS 123 107 V.9.0.0. in each billing cycle when allocating network resources, from starting the use of data traffic (from 0 GB data traffic) (the description of the referenced standards can be found at the following websites: www.etsi.org and www.3gpp.org). As a consequence, OfficeNet+ service Subscribers enter a lower priority level when starting the use of data traffic than the other Subscribers and at the time of network overload the other Subscribers are more likely to properly reach the network resources than OfficeNet+ service package Subscribers i.e. other Subscribers will, at the time of network overload and under identical circumstances, be allowed to conduct data communication at a higher speed than an OfficeNet+ service package Subscriber. With normal network load, an OfficeNet+ service package Subscriber is not discriminated against other Subscribers and may use the network at the same speed as other users. The Service Provider will provide the guaranteed download and upload speed specified in Section 4.1. of the General Terms and Conditions regardless of the cause of limitation.

2.3.3.3. Reserved for editing purposes

2.3.3.4. Reserved for editing purposes

2.3.3.5. Reserved for editing purposes

2.3.4. Internet Base Tariff

Internet Alaptarifa (Internet Base Tariff) is the base tariff plan for Internet Subscribers, which will be applied if the Internet tariffs are terminated - the Subscriber may use this service subject to the charges of Internet Alaptarifa, unless the parties agree otherwise.

Internet Base Tariff	net	gross
Initial fee of the Internet Base Tariff (HUF)	HUF 7, 874	HUF 10, 000
Internet Base Tariff monthly fee (HUF)	HUF 7,795.28	HUF 8,185.04
Additional fee above monthly 500 MB data traffic (HUF)	HUF 0	HUF 0
SMS to any domestic network (HUF)	HUF 39.37	HUF 50
Offered bandwidth	download speed: 7 Mbit/s upload speed: 2.5 Mbit/s	
Guaranteed download and upload speed	in accordance with section 4.1 of the GTC	

The Internet Base Tariff only provides data transmission service; voice services are not available with the above tariff package.

Data traffic refers to the aggregate amount of domestic sent and received data. Billing is performed in units of 10 Kbytes. Data traffic while abroad is subject to different charges.

The tariff packages include SMS service too, subject to the rates included in the table above.

If the Subscriber does not use up the traffic limit included in the monthly fee, it cannot roll over the remaining part to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions.

From the date of activation of the tariff package until the date of invoice closing a proportionate fraction of the full monthly fee and traffic limit will be billed.

Kiegészítő Adat (supplemental options)

A supplemental data option (Kiegészítő Adat) can be purchased for the Internet Base Traffic package, the detailed description of which is contained in the following table.

Kiegészítő Adat	Domestic data volume included	Fee (net)	Fee (gross)
Kiegészítő Adat 20 MB	20 MB	HUF 118.11	HUF 124.02
Kiegészítő Adat 50 MB	50 MB	HUF 157.48	HUF 165.35
Kiegészítő Adat 100 MB	100 MB	HUF 236.22	HUF 248.03
Kiegészítő Adat 150 MB	150 MB	HUF 314.96	HUF 330.71
Kiegészítő Adat 200 MB	200 MB	HUF 393.70	HUF 413.39
Kiegészítő Adat 250 MB	250 MB	HUF 472.44	HUF 496.06
Kiegészítő Adat 500 MB	500 MB	HUF 787.4	HUF 826.77
Kiegészítő Adat 1 GB	1 GB	HUF 1574.8	HUF 1,653.54
Kiegészítő Adat 2 GB	2 GB	HUF 2,362.20	HUF 2,480.31
Kiegészítő Adat 3 GB	3 GB	HUF 3,149.60	HUF 3,307.08
Kiegészítő Adat 4 GB	4 GB	HUF 3,543.30	HUF 3,720.47
Kiegészítő Adat 5 GB	5 GB	HUF 3,937	HUF 4,133.85
Kiegészítő Adat 8 GB	8 GB	HUF 4,724.40	HUF 4,960.62
Kiegészítő Adat 10 GB	10 GB	HUF 5,511.81	HUF 5,787.40

The Kiegészítő Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the subscription belongs.

If a Kiegészítő Adat option is not completely used by the time of purchasing the next Kiegészítő Adat option, the unused remaining data traffic of the existing Kiegészítő Adat (supplemental option) option will be lost. The Kiegészítő option may exclusively be used by the end of the given billing cycle in domestic networks. The Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of Kiegészítő Adat options can be purchased in a billing cycle. The Kiegészítő Adat option is a non-renewable option that has to be repurchased in every billing cycle, if needed.

2.4. Internet options currently marketed

2.4.1. Internet options available to Small Enterprise and Fleet (Flotta) customers

2.4.1.1. Zsebnetwork options

The prices indicated in the tables are gross prices including VAT.

ZsebNet 100	
Gross monthly fee	HUF 818.51
Data traffic included in the monthly fee	100 MB
Gross additional fee in excess of 100 MB data traffic per month	HUF 0
Offered bandwidth above the 100 MB data traffic included in the monthly subscription fee (download/upload speed - Mbit/s)	0.031/0.031
Guaranteed speed above the data traffic included in the monthly subscription fee	in accordance with section 4.1 of the GTC

ZsebNet 500	
Gross monthly fee	HUF 1,645.28
Data traffic included in the monthly fee	500 MB
Gross additional fee in excess of 500 MB data traffic per month	HUF 0
Offered bandwidth above the 500 MB data traffic included in the monthly subscription fee (download/upload speed - Mbit/s)	0.031/0.031
Guaranteed speed above the data traffic included in the monthly subscription fee	in accordance with section 4.1 of the GTC

ZsebNet 1000	
Gross monthly fee	HUF 2,058.67
Data traffic included in the monthly fee	1 GB
Gross additional fee in excess of 1 GB data traffic per month	HUF 0
Offered bandwidth above the 1 GB data traffic included in the monthly subscription fee (download/upload speed - Mbit/s)	0.031/0.031
Guaranteed speed above the data traffic included in the monthly subscription fee	in accordance with section 4.1 of the GTC

Data traffic refers to the aggregate amount of domestic sent and received data. The billing unit for ZsebNet options is 10 Kb. The options contain Internet and packet-switched WAP services, subject to the rates specified in the above tables. Internet and packet-switched WAP data traffic abroad is subject to different rules (price, billing unit).

If the Subscriber does not use up the traffic limit included in the monthly fee, it cannot roll over the remaining part to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. After the traffic quota included in the monthly fee has been exhausted, the speed of the service will be reduced, or the PluszAdat option may be purchased on the Netinfo website. After the end of the billing period, the original speed is restored.

From the activation of the options to the closing of the invoice, or, in case of changing options, from the beginning of the billing period to the change of the option, or from the change of the option to the closing of the billing period, a pro-rata fractional monthly fee will be billed, based on the full monthly fee, and the full traffic quota can also be used on a pro-rata basis.

In case of the ZsebNet options, various additional data options (PluszAdat) may be purchased, described in detail in the following table. PluszAdat can be purchased on the <http://netinfo.vodafone.hu> page from the SIM card and device on which the Customer wants to use additional data.

If a PluszAdat option is not completely used by the time of purchasing the next PluszAdat option, the remaining data traffic will be lost. The PluszAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat options can be purchased in a billing cycle.

The PluszAdat options are non-renewable options that have to be repurchased in every billing cycle where the Customer intends to use those.

Name of supplemental data option	PluszAdat 100MB	PluszAdat 500MB	PluszAdat 1 GB
Gross fee	HUF 413.39	HUF 826.77	HUF 1,240.16
Data traffic included in the option	100 MB	500 MB	1 GB
Options for which PluszAdat is available	ZsebNet 100 ZsebNet 500 ZsebNet 1000	ZsebNet 500 ZsebNet 1000	ZsebNet 1000

After selecting the purchase of the additional option (Megrendelem (Submit order) button), a confirmation window appears, in which the customer can confirm or cancel his purchase intention. After the purchase intention has been confirmed, the purchase is completed, and the price of the additional data option will be included in the next monthly invoice. After the order, the amount of data included in the PluszAdat option is added to the data traffic quota included in the package. The additional data option can be used until the end of the billing period, may not be carried over to the following billing period, and may not be assigned. If, during the availability of this option, the customer changes to another option subject to a monthly fee or a subscription with a top-up card, the discount is lost.

The use of only one additional data option is recommended at a time; customers should wait until the first additional option is fully exhausted before they purchase another option, otherwise, the unused remaining data traffic of the supplemental data option will be lost - but will still be invoiced. By purchasing Kiegészítő (supplemental) data option the amount of data included is always used first and the volume included in the basic package will be used only afterwards. The number of PluszAdat options that may be purchased during a billing period is unlimited. The current status of data traffic can be checked by the customers at Netinfo (<http://netinfo.vodafone.hu>). For a list of PluszAdat options available for these data packages, check www.vodafone.hu/netinfo.

The Service Provider reserves the right to restrict or terminate the provision of the service without previous warning if Tethering* is used through the service.

2.4.1.2. Reserved for editing purposes

2.4.2. Supplemental data options

2.4.2.1. Supplemental data options for Small Enterprise Subscribers

2.4.2.1.1. Egyszeri Kiegészítő Adat (One-off supplemental data option)

Supplemental data option (Egyszeri Kiegészítő Adat) can be purchased to the services specified in the table according to the following conditions:

Kiegészítő Adat	Data volume included	Fee (gross)	Service package for which it is available:
Kiegészítő Adat 500 MB	500 MB	HUF 826,77	Business Net Start, Business Net Medium, Business Net Premium Business EU Group 1 GB Business EU Group 5 GB Business EU Group 10 GB Business EU Group 20 GB Business EU Group 50 GB Business Group EU 1 GB Business Group EU 5 GB Business Group EU 10 GB Business Group EU 20 GB Business Group EU 50 GB Business EU 500 MB Business EU 2 GB Business EU 10 GB
Kiegészítő Adat 1 GB	1 GB	HUF 1 653,54	Business Net Start, Business Net Medium, Business Net Premium Business EU Group 1 GB Business EU Group 5 GB Business EU Group 10 GB

			Business EU Group 20 GB Business EU Group 50 GB Business Group EU 1 GB Business Group EU 5 GB Business Group EU 10 GB Business Group EU 20 GB Business Group EU 50 GB
Kiegészítő Adat 2 GB	2 GB	HUF 2 669,49	Business Red EU 2GB, Business Red EU 10GB, Business Red EU 30GB Business EU 2 GB Business EU 10 GB
Kiegészítő Adat 5 GB	5 GB	HUF 4 133,87	Business EU 10 GB Business Net Start, Business Net Medium, Business Net Premium Business EU Group 1 GB Business EU Group 5 GB Business EU Group 10 GB Business EU Group 20 GB Business EU Group 50 GB Business Group EU1 GB Business Group EU 5 GB Business Group EU 10 GB Business Group EU 20 GB Business Group EU 50 GB
Kiegészítő Adat 10 GB	10 GB	HUF 5 338,98	Business Red EU 10GB, Business Red EU 30GB
Kiegészítő Adat 30 GB	30 GB	HUF 10 677,97	Business Red EU 30GB

The Kiegészítő Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the service package mentioned in the table belongs.

If a Kiegészítő Adat option is not completely used by the time of purchasing the next Kiegészítő Adat option, the unused remaining data traffic of the existing supplemental option will be lost. The Kiegészítő Adat option is not divisible, and may be used until the end of the billing cycle, with the same terms as those applicable to the not divisible data traffic included in the monthly fee of the tariff package. Any number of Kiegészítő Adat options can be purchased in a billing cycle. Kiegészítő Adat options are non-renewable options that have to be repurchased in every billing cycle, if needed

2.4.2.1.2. Kiegészítő Osztható Adat (supplemental divisible data) option

The fee of the Kiegészítő Osztható Adat (supplemental divisible data) option is charged in all cases to the voice-based subscription, that is, the service, tariff package specified in the table.

The Kiegészítő Osztható Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the subscription specified in the table belongs.

Kiegészítő Adat	Data volume included	Fee (gross)	Service package for which it is available:
Kiegészítő Osztható Adat 1 GB	1 GB	HUF 1 779,66	Business EU Group 1 GB Business EU Group 5 GB Business EU Group 10 GB Business EU Group 20 GB Business EU Group 50 GB Business Group EU 1 GB Business Group EU 5 GB Business Group EU 10 GB Business Group EU 20 GB Business Group EU 50 GB
Kiegészítő Osztható Adat 5 GB	5 GB	HUF 8 898,31	Business EU Group 5 GB Business EU Group 10 GB Business EU Group 20 GB Business EU Group 50 GB Business Group EU 5 GB Business Group EU 10 GB Business Group EU 20 GB Business Group EU 50 GB
Kiegészítő Osztható Adat 10 GB	10 GB	HUF 13 347,46	Business EU Group 10 GB Business EU Group 20 GB Business EU Group 50 GB Business Group EU 10 GB Business Group EU 20 GB

			Business Group EU 50 GB
Kiegészítő Osztható Adat 20 GB	20 GB	HUF 22 245,77	Business EU Group 20 GB Business EU Group 50 GB Business Group EU 20 GB Business Group EU 50 GB
Kiegészítő Osztható Adat 50 GB	50 GB	HUF 40 042,37	Business EU Group 50 GB Business Group EU 50 GB

If a Kiegészítő Osztható Adat option is not completely used by the time of purchasing the next Kiegészítő Osztható Adat option, the unused remaining data traffic of the existing Kiegészítő Osztható Adat option will be lost. The Kiegészítő Osztható Adat option may be used until the end of the billing cycle, with the same terms as those applicable to the divisible data traffic included in the monthly fee of the tariff package. Any number of Kiegészítő Osztható Adat options can be purchased in a billing cycle. The Kiegészítő Osztható Adat option is a non-renewable option that has to be repurchased in every billing cycle, if needed.

2.4.2.1.3. Monthly renewable Kedvezményes Kiegészítő Adat (preferential supplemental data)

The Subscriber can purchase a monthly renewable Kedvezményes Kiegészítő Adat (preferential supplemental data) option with the tariff packages and data plans specified in the table; this supplemental option is a renewable option, reactivated in every billing cycle, i.e. it will not have to be reordered in every billing cycle. Kedvezményes Kiegészítő Adat options may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the subscription specified in the table belongs.

By purchasing the Kedvezményes Kiegészítő Adat option (supplemental option) the Subscriber agrees that during the fixed-term associated with its tariff package subscription specified in the table, the supplemental option shall also be maintained, and the option shall not be cancelled during this period due to reasons arising within the Subscriber's scope of interest.

The monthly renewable Kedvezményes Kiegészítő Adat option can only be purchased during the fixed term of the Subscription Contract. If the above conditions are not met, the Subscriber shall pay liquidated damages in the amount of the discount calculated versus the Kiegészítő Adat option available to the Subscriber, as detailed in Section 12.7 of the GTC.

In case of Preferential Kiegészítő Adat 1 GB option, the discount versus Kiegészítő Adat 1 GB (HUF 1,653.54) option is: HUF 826.77 per month.

In case of Preferential Kiegészítő Adat 5 GB option, the discount versus Kiegészítő Adat 5 GB (HUF 4,133.87) option is: HUF 826.77 per month.

In case of Preferential Kiegészítő Adat 10 GB option, the discount versus the proportional fee taking into account the domestic data volume included in the Kiegészítő Adat 5 GB (HUF 4,133.87) option is: HUF 3,307.10 per month.

Kedvezményes Kiegészítő Adat	Data volume included	Fee (gross)	Service package for which it is available:
Kedvezményes Kiegészítő Adat 1 GB	1 GB	HUF 826,77	Business EU Group 1 GB Business EU Group 5 GB
Kedvezményes Kiegészítő Adat 5 GB	5 GB	HUF 3 307,10	Business EU Group 10 GB Business EU Group 20 GB Business EU Group 50 GB
Kedvezményes Kiegészítő Adat 10 GB	10 GB	HUF 4 960,64	Business Net Start, Business Net Medium, Business Net Premium Business Group EU 1 GB Business Group EU 5 GB Business Group EU 10 GB Business Group EU 20 GB Business Group EU 50 GB

If the monthly renewable Kedvezményes Kiegészítő Adat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The Kedvezményes Kiegészítő Adat option is not divisible, and may be used until the end of the billing cycle, with the same terms as those applicable to the not divisible data traffic included in the monthly fee of the tariff package.

2.4.2.2. Supplemental data options for Medium and Large Enterprise Subscribers

2.4.2.2.1. Egyszeri Kiegészítő Adat supplemental option (One-off supplemental data option):

Supplemental data option can be purchased to the services specified in the table below, according to the following conditions:

Supplemental options may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the subscription relating to the service package specified in the table belongs.

Kiegészítő Adat	Data volume included	Fee (net)	Service package for which it is available:
Kiegészítő Adat 500 MB	500 MB	HUF 787,4	Business Net Start, Business Net Medium, Business Net Premium Internet Start, opció Internet Small opció, Internet Standard opció
Kiegészítő Adat 1 GB	1 GB	HUF 1574,8	Business Net Start, Business Net Medium, Business Net Premium Internet Start opció, Internet Small opció, Internet Standard opció
Kiegészítő Adat 2 GB	2 GB	HUF 2 542,37	Business Red EU 30GB Business Red EU 2GB, Business Red EU 10GB,
Kiegészítő Adat 5 GB	5 GB	HUF 3 937,01	Business Net Start, Business Net Medium, Business Net Premium
Kiegészítő Adat 10 GB	10 GB	HUF 5 084,75	Business Red EU 30GB Business Red EU 10GB,
Kiegészítő Adat 30 GB	30 GB	HUF 10 169,49	Business Red EU 30GB

If an Egyszeri Kiegészítő Adat option is not completely used by the time of purchasing the next Egyszeri Kiegészítő Adat option, the unused remaining data traffic of the existing supplemental data option will be lost. The supplemental data option may exclusively be used by the end of the given billing cycle. The supplemental data option may be used until the end of the given billing cycle, with the same conditions as those applicable to the data traffic included in the monthly fee of the service package. Any number of Egyszeri Kiegészítő Adat options may be purchased within one billing cycle, which is a non-renewable option that has to be repurchased in every billing cycle, if needed.

2.4.2.2.2. Monthly Renewable Kedvezményes Kiegészítő Adat supplemental option (preferential supplemental data option):

A monthly renewable Kedvezményes Kiegészítő Adat option may be purchased to the service packages specified in the table, which supplemental option is a renewable option, reactivated in every billing cycle, i.e. it will not have to be reordered. The monthly renewable Kedvezményes Kiegészítő Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the subscription relating to the service package specified in the table belongs.

By purchasing the Kedvezményes Kiegészítő Adat option (supplemental option) the Subscriber agrees that during the fixed-term associated with its subscription specified in the table the supplemental option shall also be maintained, and the option shall not be cancelled during this period due to reasons arising within the Subscriber's scope of interest. If the above conditions are not met, the Subscriber shall pay liquidated damages in the amount of the discount used, calculated based on the monthly subscription fee of the option relative to the fee of the Kiegészítő Adat option available to the Subscriber, as detailed in Section 12.7 of the GTC.

In case of Kedvezményes Kiegészítő Adat 1 GB option, the discount versus Kiegészítő Adat 1 GB (HUF 1,574.8 net) option is: HUF 787.4 net per month.

In case of Kedvezményes Kiegészítő Adat 5 GB option, the discount versus Kiegészítő Adat 5 GB (HUF 3,937 net) option is: HUF 787.4 net per month.

In the case of Kedvezményes Kiegészítő Adat 10 GB option, the discount versus the proportional fee taking into account the domestic data volume included in the Kiegészítő Adat 5 GB (HUF 3,937 net) option is: HUF 3,149.61 net.

Megrendelhető Kedvezményes Kiegészítő Adat	Data volume included	Fee (net)	Service package for which it is available:
--	----------------------	-----------	--

Kedvezményes Kiegészítő Adat 1GB	1 GB	HUF 787,4	Business Net Start, Business Net Medium, Business Net Premium Internet Standard opció
Kedvezményes Kiegészítő Adat 5 GB	5 GB	HUF 3 149,61	
Kedvezményes Kiegészítő Adat 10 GB	10 GB	HUF 4 724,41	

If the monthly renewable Kedvezményes Kiegészítő Adat is not completely used in the given billing period, its unused remaining data traffic will be lost. The monthly renewable Kedvezményes Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of Kiegészítő Adat option may be purchased in addition to the monthly renewable Kedvezményes Kiegészítő Adat option in a given billing period.

2.4.2.2.3. Osztható Kiegészítő Adat supplemental option (divisible supplemental data option)

A divisible Kiegészítő Adat option may be purchased to the service packages specified in the table, the data volume of which may be used with the SIM card and the SIM card of subscriptions belonging to the user group.

The divisible Kiegészítő Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site from the SIM card and device to which the service package specified in the table belongs as well as from the SIM card and device belonging to the user group.

The fee of the divisible Kiegészítő Adat option is charged in all cases to the subscription specified in the table.

Megrendelhető Kiegészítő Adat	Data volume included	Fee (net)	Service package for which it is available:
Kiegészítő Adat 500 MB	500 MB	HUF 787,4	Internet Plus opció, Internet Medium opció Internet Pro opció Internet Large opció Internet Premium opció
Kiegészítő Adat 1 GB	1 GB	HUF 1 574,8	
Kiegészítő Adat 5 GB	5 GB	HUF 3 937,01t	

If a divisible Kiegészítő Adat option is not completely used by the time of purchasing the next divisible Kiegészítő Adat option, the unused remaining data traffic of the existing Kiegészítő Adat option will be lost. The divisible Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of Kiegészítő Adat options can be purchased in a billing cycle. The divisible Kiegészítő Adat option is a non-renewable option that has to be repurchased in every billing cycle, if needed.

2.4.2.2.4. Monthly renewable, divisible Kedvezményes Kiegészítő Adat (preferential supplemental option):

The monthly renewable divisible Kedvezményes Kiegészítő Adat option may be ordered to the service packages specified in the table below, which option is reactivated in every billing cycle, i.e. it will not have to be reordered. The monthly renewable, divisible Kedvezményes Kiegészítő Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the subscription relating to the service package specified in the table belongs.

By purchasing the Kedvezményes Kiegészítő Adat option (supplemental option) the Subscriber agrees that during the fixed-term associated with its subscription specified in the table the supplemental option shall also be maintained, and the option shall not be cancelled during this period due to reasons arising within the Subscriber's scope of interest.

If the above conditions are not met, the Subscriber shall pay liquidated damages in the amount of the discount calculated versus the Kiegészítő Adat option available to the Subscriber, as detailed in Section 12.7 of the GTC.

In case of Kedvezményes Kiegészítő Adat 1 GB option, the discount versus Kiegészítő Adat 1 GB (HUF 1,574.8 net) option is: HUF 787.4 net per month.

In case of Kedvezményes Kiegészítő Adat 5 GB option, the discount versus Kiegészítő Adat 5 GB (HUF 3,937 net) option is: HUF 787.4 net per month.

In the case of Kedvezményes Kiegészítő Adat 10 GB option, the discount versus the proportional fee taking into account the domestic data volume included in the Kiegészítő Adat 5 GB (HUF 3,937) option is: HUF 3,149.61 net.

The fee of the monthly renewable, divisible Kedvezményes Kiegészítő Adat option is charged in all cases to the subscription using the service specified in the table.

Megrendelhető Kedvezményes Kiegészítő Adat	Data volume included	Fee (net)	Service package for which it is available:
Kedvezményes Kiegészítő Adat 1	1 GB	HUF 787,4	Internet Plus opció

GB			Internet Pro opció Internet Premium opció Internet Medium opció, Internet Large opció
Kedvezményes Kiegészítő Adat 5 GB	5 GB	HUF 3 149,61	
Kedvezményes Kiegészítő Adat 10 GB	10 GB	HUF 4 724,41	

If the monthly renewable divisible Kedvezményes Kiegészítő Adat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The monthly renewable divisible Kedvezményes Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of Kiegészítő Adat option may be purchased in addition to the monthly renewable plus divisible Kedvezményes Kiegészítő Adat option in a given billing period.

2.4.3. Internet options available to Medium and Large Enterprise customers

The prices indicated in the following tables are net prices, not including VAT.

Net monthly fee (with contracts of a 2-year fixed term)	HUF 490
Domestic data traffic included in the monthly fee	100 MB
Offered bandwidth above the 100 MB data traffic included in the monthly subscription fee (download/upload speed - Mbit/s)	0.009/0.009
Guaranteed speed above the data traffic included in the monthly subscription fee	in accordance with section 4.1 of the GTC

Internet Small option	
Net monthly fee (with an indefinite-term contract)	HUF 1,238
Net monthly fee (with contracts of a 2-year fixed term)	HUF 990
Domestic data traffic included in the monthly fee	400 MB
Offered bandwidth above the 400 MB data traffic included in the monthly subscription fee (download/upload speed - Mbit/s)	0.009/0.009
Guaranteed speed above the data traffic included in the monthly subscription fee	in accordance with section 4.1 of the GTC

Internet Standard option	
Net monthly fee (with an indefinite-term contract)	HUF 2,238
Net monthly fee (with contracts of a 2-year fixed term)	HUF 1,790
Domestic data traffic included in the monthly fee	1 GB
Offered bandwidth above the 1 GB data traffic included in the monthly subscription fee (download/upload speed - Mbit/s)	0.009/0.009
Guaranteed speed above the data traffic included in the monthly subscription fee	in accordance with section 4.1 of the GTC

Internet Plus option	
Net monthly fee (with an indefinite-term contract)	HUF 2,942.91
Net monthly fee (with contracts of a 2-year fixed term)	HUF 2,354.33
Domestic data traffic included in the monthly fee	3 GB
Offered bandwidth above the 3 GB data traffic included in the monthly subscription fee (download/upload speed - Mbit/s)	0.009/0.009
Guaranteed speed above the data traffic included in the monthly subscription fee	in accordance with section 4.1 of the GTC

Internet Pro option	
Net monthly fee (with an indefinite-term contract)	HUF 4,911.41
Net monthly fee (with contracts of a 2-year fixed term)	HUF 3,929.13
Domestic data traffic included in the monthly fee	10 GB
Offered bandwidth above the 10 GB data traffic included in the monthly subscription fee (download/upload speed - Mbit/s)	0.009/0.009
Guaranteed speed above the data traffic included in the monthly subscription fee	in accordance with section 4.1 of the GTC

Internet Premium option	
Net monthly fee (with an indefinite-term contract)	HUF 8,848.43
Net monthly fee (with contracts of a 2-year fixed term)	HUF 7,078.74
Domestic data traffic included in the monthly fee	30 GB
Offered bandwidth above the 30 GB data traffic included in the monthly subscription fee (download/upload speed - Mbit/s)	0.009/0.009
Guaranteed speed above the data traffic included in the monthly subscription fee	in accordance with section 4.1 of the GTC

For subscription contracts concluded after 24 October 2017:

Internet Start option	
Net monthly fee (with an indefinite-term or two year fixed term contract)	HUF 613
Domestic data traffic included in the monthly fee	100 MB
Offered bandwidth above the 100 MB data traffic included in the monthly subscription fee (download/upload speed - Mbit/s)	0.009/0.009
Guaranteed speed above the data traffic included in the monthly subscription fee	in accordance with section 4.1 of the GTC

Internet Small option	
Net monthly fee (with an indefinite-term or two year fixed term contract)	HUF 1,238
Domestic data traffic included in the monthly fee	400 MB
Offered bandwidth above the 400 MB data traffic included in the monthly subscription fee (download/upload speed - Mbit/s)	0.009/0.009
Guaranteed speed above the data traffic included in the monthly subscription fee	in accordance with section 4.1 of the GTC

Internet Standard option	
Net monthly fee (with an indefinite-term or two year fixed term contract)	HUF 2,238
Domestic data traffic included in the monthly fee	1 GB
Offered bandwidth above the 1 GB data traffic included in the monthly subscription fee (download/upload speed - Mbit/s)	0.009/0.009
Guaranteed speed above the data traffic included in the monthly subscription fee	in accordance with section 4.1 of the GTC

Internet Plus option	
Net monthly fee (with an indefinite-term or two year fixed term contract)	HUF 2,942.91
Domestic data traffic included in the monthly fee	3 GB
Offered bandwidth above the 3 GB data traffic included in the monthly subscription fee (download/upload speed - Mbit/s)	0.009/0.009
Guaranteed speed above the data traffic included in the monthly subscription fee	in accordance with section 4.1 of the GTC

Internet Medium option	
Net monthly fee (with an indefinite-term or two year fixed term contract)	HUF 3,737.5
Domestic data traffic included in the monthly fee	5 GB
Offered bandwidth above the 5 GB data traffic included in the monthly subscription fee (download/upload speed - Mbit/s)	0.009/0.009
Guaranteed speed above the data traffic included in the monthly subscription fee	in accordance with section 4.1 of the GTC

Internet Pro option	
Net monthly fee (with an indefinite-term or two year fixed term contract)	HUF 4,911.41
Domestic data traffic included in the monthly fee	10 GB
Offered bandwidth above the 10 GB data traffic included in the monthly subscription fee (download/upload speed - Mbit/s)	0.009/0.009
Guaranteed speed above the data traffic included in the monthly subscription fee	in accordance with section 4.1 of the GTC

Internet Large option	
Net monthly fee (with an indefinite-term or two year fixed term contract)	HUF 6,862.5
Domestic data traffic included in the monthly fee	20 GB
Offered bandwidth above the 20 GB data traffic included in the monthly subscription fee (download/upload speed - Mbit/s)	0.009/0.009
Guaranteed speed above the data traffic included in the monthly subscription fee	in accordance with section 4.1 of the GTC

Internet Premium option	
Net monthly fee (with an indefinite-term or two year fixed term contract)	HUF 8,848.43
Domestic data traffic included in the monthly fee	20 GB
Offered bandwidth above the 30 GB data traffic included in the monthly subscription fee (download/upload speed - Mbit/s)	0.009/0.009
Guaranteed speed above the data traffic included in the monthly subscription fee	in accordance with section 4.1 of the GTC

For the shareable Plus, Medium, Pro, Large and Premium options, the Business MultiNet Basic (mobile Internet based) tariff packages are available, which can only be used by Medium and Large Corporate Subscribers with the above options as a secondary SIM, by sharing the domestic data traffic within the Internet options. The detailed information about the Business MultiNet Basic tariffs and the related Additional options can be found under point 2.2.1.2.

Data traffic refers to the aggregate amount of domestic sent and received data. Billing unit: 10 Kb. Internet and packet-switched WAP data traffic conducted abroad are charged by applying different rates. The options contain Internet and packet-switched WAP services, subject to the rates specified in the above tables.

If the Subscriber does not use up the traffic limit included in the monthly fee, it cannot roll over the remaining part to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions.

For the above options, any data transmission within the same billing period in excess of the amount included in the monthly fee will lead to a reduction in transmission speed. After the end of the billing period, the original speed is restored. Maximum value of the slowdown: 9.6 Kbit/s (0.009 Mbit/s) download and upload.

From the activation of the options to the closing of the invoice, or, in case of changing options, from the beginning of the billing period to the change of the option, or from the change of the option to the closing of the billing period, a pro-rata fractional monthly fee will be billed, based on the full monthly fee, and the full traffic quota can also be used on a pro-rata basis.

In case of purchasing Additional Data and Discounted Additional Data options, it is always the data included in the Discounted Additional Data option that can be used first, followed by the data included in the Additional Data option. The data traffic included in the basic package can be used after using the Additional options. You can inform yourself about the current status of your data traffic on Netinfo (<http://netinfo.vodafone.hu>).

Kiegészítő Adat (supplemental option):

A supplemental data option (Kiegészítő Adat) can be purchased for the Internet options, the detailed description of which is contained in Section 2.4.2.2 of this List of Rates Annex.

Osztható Kiegészítő Adat (supplemental option):

A supplemental divisible data option (Kiegészítő Adat) can be purchased to the Internet Plus, Pro, Premium, Medium and Large options, the data volume of which may be used with the SIM card of the Internet option and the SIM card of subscriptions belonging to the user group. The detailed description of the option is in point 2.4.2.2 of this Annex called List of Rates.

Monthly renewable Kedvezményes (Preferential) Kiegészítő Adat (supplemental option):

A monthly renewable Kedvezményes Kiegészítő Adat can be purchased to the Internet Standard option, which supplemental option is reactivated in every billing cycle, i.e. it will not have to be reordered. The detailed description of the option is in point 2.4.2.2 of this Annex called List of Rates.

Monthly renewable, divisible Kedvezményes (Preferential) Kiegészítő Adat (supplemental option):

The monthly renewable divisible Kedvezményes Kiegészítő Adat option may be ordered to the Internet Plus, Pro, Premium, Medium and Large options, which option is reactivated in every billing cycle, i.e. it will not have to be reordered. The detailed description of the option is in point 2.4.2.2. of this Annex called List of Rates.

In the case of Kedvezményes Kiegészítő Adat 10 GB option, the discount versus the proportional fee taking into account the domestic data volume included in the Kiegészítő Adat 5 GB (HUF 3,937) option is: HUF 3,149.61 net.

For subscription contracts concluded after 1 August 2015, the ordering option of the different supplemental options indicated on the Netinfo site is default. At the same time, for subscription contracts concluded after 1 August 2015, in addition to the use of the Netinfo site (<http://netinfo.vodafone.hu>) Subscriber, Subscriber's authorized contact person and users who are in possession of the client security code belonging to the subscription contract may authorize or block the use of functions on the Netinfo site regarding certain individual subscriptions free of charge. Authorization or blocking can be activated on the interface of the Vodafone Vállalati Online Ügyfélszolgálati Alkalmazás (Vodafone Corporate Online Customer Service Application) and by calling 1788, the phone number of the Large Enterprise customer service, free of charge, as a domestic call, within the network of Vodafone Magyarország Zrt. network.

2.4.3.1. Reserved for editing purposes

2.5. Tariffs not marketed

It is not possible to change the tariff package to or migrate to tariff packages withdrawn from the market, and new Subscribers cannot conclude a contract for such packages.

2.5.1. Vodafone Red Standard service packages

The Vodafone Red Standard tariff packages were reclassified as commercially unavailable as of 1 April 2014. Our Customers who have Vodafone Red Standard tariff packages can continue to use their tariff, however, no tariff package switch and migration is possible regarding these tariffs, furthermore, a new Subscriber can no longer conclude a contract for these. Vodafone Red Standard tariff packages can be maintained for subscription relationships involving maximum 30 SIM cards.

The prices indicated in the following table are gross prices including VAT. In the service packages billing is performed in units of 1 minute.

	Vodafone RED Standard SIM	Vodafone RED Standard
Initial costs		
Entry fee (HUF)	10,000	10,000
Monthly fees		
Tariff monthly fee (HUF)	29,990	31,990
Internet monthly fee (HUF)	3,307.08	3,307.08
Monthly total subscription fee (HUF) with an indefinite term contract	33,297.08	35,297.08
Tariff monthly fee (HUF)	14,990	16,990
Internet monthly fee (HUF)	3,307.08	3,307.08
Monthly total subscription fee (HUF) with contracts of a 1-year fixed term	18,297.08	20,297.08
Tariff monthly fee (HUF)	9,990	11,990
Internet monthly fee (HUF)	3,307.08	3,307.08
Monthly total subscription fee (HUF) with contracts of a 2-year fixed term	13,297.08	15,297.08
Additional monthly subscription fee (HUF)	3,175	3,175
Content included in the monthly fee		
Standard-rate domestic calls	unlimited	unlimited
Standard-rate domestic SMS	unlimited	unlimited
Domestic standard-rate MMS (all types)	unlimited	unlimited
Domestic data traffic	2 GB	2 GB
Offered bandwidth above the data traffic included in the monthly subscription fee (download/upload speed – Mbit/s)	0.031/0.031	0.031/0.031
Guaranteed speed above the data traffic included in the monthly subscription fee	in accordance with section 4.1 of the GTC	
Handset insurance	-	Basic
Vodafone RED Roaming service	-	-
Other charges		
Charge for International SMS to countries within the area of validity of the RED EU International tariff zone (HUF)	in accordance with Section 9 of the GTC	
Charge for International SMS to countries outside the preferential zone (HUF)	48	48

Unlimited airtime minutes, SMS/MMS messages included in the monthly fee only apply to domestic standard-rate calls, sent SMS and MMS messages. Domestic standard-rate directions mean standard-rate calls made to the domestic network of Vodafone Magyarország Zrt. and other mobile service providers, standard-rate calls made to domestic fixed-line numbers, standard-rate SMS messages, standard-rate MMS messages, and in case of RED service packages – as far as fees are concerned – domestic standard-rate directions also mean calls made to special-rate numbers (e.g. voicemail).

In the case of Vodafone RED service packages, after the data volume contained in the monthly fee has been used up, PluszAdat (Plus Data) (additional data) option may be purchased on the Netinfo site (<http://netinfo.vodafone.hu>), otherwise we will keep slowing down the speed until the end of the billing cycle. After the end of the billing period, the original speed is restored. Maximum value of the slowdown: 0.031 Mbit/s for download and upload.

The monthly fees of the Vodafone RED Standard tariff package also includes handset insurance service, as indicated in the above service package table. The terms of using the handset insurance service are specified in Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time. The handset insurance service is only provided for handsets purchased from Vodafone no more than 60 days to date –including RED packages– and Vodafone does not provide this service for devices purchased prior to the above date. Terminating the handset insurance service in accordance with Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time, shall not result in the change of the monthly fee of the above mentioned service packages. If the criteria of using the handset insurance service have been met, a discount from the monthly fee of the tariff package is provided that equals to the monthly fee of the service. Terminating the handset insurance service in accordance with Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time, shall not result in the change of the monthly fee of the tariff package.

The charges of international calls are contained in Section 9 of Annex 1 on Tariffs.

The Vodafone RED service packages are allowed to be used if the rules of use by a Small Business Subscriber are observed. Small business use does not include the case when the Subscriber uses his SIM card belonging to the Vodafone RED service package not in a mobile handset. It is strictly prohibited to use the service package by any appliance that does not have its own display, loudspeaker and keyboard, such as, e.g. an adapter or modem. The service packages shall not be used in an abusive manner, among others, for telemarketing, customer service activities or other business purposes. Abusive use shall include the behaviour of sending SMS and MMS messages in a manner contrary to the conditions of personal use, where the number of SMS/MMS messages sent via the subscription exceeds several hundred a day, or the proportion of the number of SMS/MMS messages sent via the subscription involved and that of their recipients exceeds 10%, or the proportion of the number of SMS/MMS messages and that of the replies to them is lower than 80%, or the SMS/MMS messages are sent by the subscriber typically from one location. In the event of abusive use, or the violation of the conditions of personal use, after prior notice from the Service Provider, the service will be available to the Subscriber according to the conditions of the Small Enterprise Basic Tariff.

Vodafone RED service packages purchased on or after 2 May, 2013 can exclusively be used in compliance with the terms of use for Small Enterprise subscribers to satisfy the personal communication needs of natural person users (personal use). Intended personal use does not include the following: if the Subscriber or user uses the SIM card pertaining to Vodafone RED service packages inserted in a non-mobile phone; making automated calls that do not require the personal involvement of the user; making mass calls (the duration of which exceeds the total duration of outgoing calls by more than 10%) to automated call receiving devices, equipment (such as, but not exclusively to IVR); making mass calls in order to test, make trial runs or to test the resilience or vulnerability etc. of services, technical instruments or equipment; making calls that regularly exceeds 180 minutes per day for the remote monitoring of people, structures, events, etc. (e.g. but not exclusively: asset protection, baby monitoring functions); making calls for establishing machine-to-machine connection (M2M); making or diverting calls in a total duration of more than 24 hours per day; making mass calls or sending bulk SMS of which the Service Provider has reasonable grounds to believe having been made to gain direct benefit by the Subscriber, the User or any other third parties at the expense of the Service Provider. It is strictly prohibited to use the service package with devices that do not have their own display, speaker, microphone and keyboard (including touch-screen keyboard), such as for example adapter, modem. The service packages shall not be used in an abusive manner, among others, for telemarketing, customer service activities or other business purposes. Abusive use shall include the behaviour of sending SMS and MMS messages in a manner contrary to the conditions of personal use, where the number of SMS/MMS messages sent via the subscription exceeds several hundred a day, or the proportion of the number of SMS/MMS messages sent via the subscription involved and that of their recipients exceeds 10%, or the proportion of the number of SMS/MMS messages and that of the replies to them is lower than 80%, or the SMS/MMS messages are sent by the subscriber typically from one location. In the event of abusive use, or the violation of the conditions of personal use, after prior notice from the Service Provider, the service will be available to the Subscriber according to the conditions of the Small Enterprise Basic Tariff.

The Vodafone RED Standard SIM service package is not available with discounted handset purchase.

In foreign countries the valid Roaming tariffs will apply.

PluszAdat (supplemental option)

A supplemental data option (PluszAdat) can be purchased for Vodafone RED service packages, whose detailed description is contained in the following table.

PluszAdat may also be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which Vodafone RED subscription belongs.

Available PluszAdat	Domestic data volume included	Fee (gross)	Service package
PluszAdat 100 MB	100 MB	HUF 413.39	Vodafone RED Standard SIM Vodafone RED Standard
PluszAdat 500 MB	500 MB	HUF 826.77	
PluszAdat 1 GB	1 GB	HUF 1,240.16	

If a PluszAdat option has not been used up fully until the moment of the purchase of the next PluszAdat option, then the unused remaining data traffic of the existing PluszAdat (a supplemental option) will be lost. The PluszAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat options can be purchased in a billing cycle. PluszAdat options are non-renewable options that have to be repurchased in every billing cycle, if needed.

2.5.2. Business tariff packages

Business Tariff Packages were reclassified as commercially unavailable as of 1 October 2017.

The following tariff packages are only available to (new and existing) business subscribers signing a post-paid subscription contract. Business tariff packages can be maintained for subscriptions involving maximum 30 SIM cards.

Voice calls are billed on the basis of 1 second. The billing unit of voicemail calls corresponds to the billing unit of the tariff package.

The following options are available with the Business tariff packages:

- MultiNet options

The detailed description of the option is found in section 2.2 of this List of Rates.

Within the options of the Business tariff packages the subscribers can migrate (switch) once a month (per billing cycle) to any options available for new subscribers free of charge. In this case, too, the change is implemented within 15 days.

The Fixed-line number, Fax, as well as Email service are available for the Business Start, Business Medium, Business Pro, Business Start EU, Business Medium EU and Business Pro EU tariff packages. The tariffs of these services can be found in Section 3 of this Annex.

The prices indicated in the table are gross prices including VAT.

	Business Start	Business Medium	Business Pro

Business Start EU, Business Medium EU and Business Pro EU packages are available without handset purchase. In case of handset purchase, the Subscriber shall choose from the following supplemental options. Supplemental options L and XL are not available with Business Start EU and Business Medium EU tariffs, while supplemental option XS is not available with the Business Pro EU tariff.

Supplemental option	The monthly subscription fee of the option (HUF) With contracts of a 2-year fixed term	Content of the option for Business Start EU tariff	Content of the option for Business Medium EU tariff	Content of the option for Business Pro EU tariff
XS supplemental option	500	Sending 5 SMS messages free of charge to any domestic, standard rate network	Sending 5 SMS messages free of charge to any domestic, standard rate network	Not available
S supplemental option	1,000	Sending 5 SMS messages free of charge to any domestic, standard rate network + Sending 5 MMS messages free of charge to any domestic, standard rate network	Sending 5 SMS messages free of charge to any domestic, standard rate network + Sending 5 MMS messages free of charge to any domestic, standard rate network	Sending 5 SMS messages free of charge to any domestic, standard rate network + Sending 5 MMS messages free of charge to any domestic, standard rate network
M supplemental option	2000	Sending 5 SMS messages free of charge to any domestic, standard rate network + Sending 5 MMS messages free of charge to any domestic, standard rate network + 10% monthly fee discount from the fixed-line number 1000 option	Sending 5 SMS messages free of charge to any domestic, standard rate network + Sending 5 MMS messages free of charge to any domestic, standard rate network + 10% monthly fee discount from the fixed-line number 1000 option	Sending 5 SMS messages free of charge to any domestic, standard rate network + Sending 5 MMS messages free of charge to any domestic, standard rate network + 10% monthly fee discount from the fixed-line number 1000 option
L supplemental option	5000	Not available	Sending 5 SMS messages free of charge to any domestic, standard rate network + Sending 5 MMS messages free of charge to any domestic, standard rate network + 10% monthly fee discount from the fixed-line number 1000 option + 50% discount from the O365 Business Essential package	Sending 5 SMS messages free of charge to any domestic, standard rate network + Sending 5 MMS messages free of charge to any domestic, standard rate network + 10% monthly fee discount from the fixed-line number 1000 option + 50% discount from the O365 Business Essential package
XL supplemental option	8000	Not available	Not available	Sending 5 SMS messages free of charge to any domestic, standard rate network + Sending 5 MMS messages free of charge to any domestic, standard rate network + 10% monthly fee discount from the fixed-line number 1000 option + 50% discount from the O365 Business Essential package + 50% discount from Basic handset insurance

In case of Business tariff packages, when the data volume included in the monthly fee is exhausted, the speed will be reduced to 0/0 Mbit/s until the end of the billing cycle. Guaranteed speed as per Section 4.1 of the GTC.

The Business tariff packages are supplemented once per billing cycle with the Automatikus PluszAdat or Automatikus Kiegészítő Adat option at a fee of which can be found in the tariff table. This option is activated automatically after the domestic data volume included in the monthly fee is exhausted; or, if a supplemental data option has been purchased on the

Netinfo site before the domestic data volume included in the monthly fee is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted; or, if one or more further supplemental data option(s) has (have) been purchased before the domestic data volume included in the supplemental data volume on the Netinfo site is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted. The data traffic of the Automatikus PluszAdat and Automatikus Kiegészítő Adat option can be used until the end of the given billing cycle, and is not divisible. The Automatikus PluszAdat or Automatikus Kiegészítő Adat option is renewed monthly but is only activated and billed upon continuing data use after the domestic data volume included in the monthly fee or supplemental data option(s) is (are) exhausted. After the data volume included in the Automatikus PluszAdat and Automatikus Kiegészítő Adat option, the speed will be reduced to 0/0 Mbit/s.

Before using up the domestic data volume included in the monthly fee, or after using up the domestic data volume included in the Automatikus PluszAdat or Automatikus Kiegészítő Adat option, a PluszAdat or Kiegészítő Adat option needs to be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded after the domestic data volume included in the Automatikus PluszAdat and Automatikus Kiegészítő Adat option is exhausted. If the Subscriber has exhausted the domestic data volume included in the package and the Automatikus PluszAdat or Automatikus Kiegészítő Adat option, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

The fee of the Zárt Csoport option included in the tariff package is covered by the monthly fee of the tariff and is not billed separately above the monthly fee. Further details regarding the Zárt csoport option are included in section 2.2 of this List of Rates.

The description and terms of use of the Office 365 service are contained in the General Terms and Conditions for Other Services of Vodafone, as amended from time to time. In the event of cancellation of the Office 365 service as specified in the General Terms and Conditions for Other Services, the monthly fee of the above tariff packages will not change. If the Subscriber wishes to order Business Medium or Business Pro service packages with tariff category 3 or 4, and the conditions for using the Office 365 Business Essentials package are met, Vodafone provides 100% discount from the monthly fee thereof. If the Subscriber wishes to order Business Medium EU or Business Pro EU service packages with tariff category L or XL, and the conditions for using the Office 365 Business Essentials package are met, Vodafone provides 50% discount from the monthly fee thereof.

OneDrive for Business with Office Online:

If choosing tariff category 2 for Business Medium and Business Pro packages, the OneDrive for Business with Office Online service – Office Online (Word, Excel, Power Point) – is available free of charge as per the General Terms and Conditions for Other Services, the acceptance of which terms and conditions is specifically required to be able to use the service.

The OneDrive for Business with Office Online service may generate data traffic, which is not part of the service. Data traffic generated while using the OneDrive for Business with Office Online service can be used by deducting it from the data traffic included in the Business Medium or Business Pro service package or other Internet access.

The minutes and data traffic included in the monthly fee that are applicable to airtime or traffic, but which were not used cannot be rolled over to the next month or transferred to other persons or call members and cannot be used for other services. The allowances are only available domestically.

The e-Pack service is available with the Business tariff packages purchased with 2-year fixed-term contracts. In case of using the e-Pack service, the Subscriber agrees to fulfil the following conditions in every month while using the e-Pack service, in exchange for a more favourable monthly subscription fee:

- The Subscriber uses E-bills regarding all of his subscriptions under one client number with the content defined in section 7.1.2.4. of the GTC: Electronic Bill and Document Presentation (E-bill).
- The bill is settled by using one of the following payment options:
 - on the www.vodafone.hu/szamlabefizetes web page,
 - with Vodafone mobile application,
 - by bank transfer,
 - by direct debit order,
 - via ATM machines.
- The bill is settled by the payment deadline indicated in the bill.

Should the Subscriber fail to meet any of the above criteria in a month, a one-off fee shall be charged on its next bill, in the amount of gross HUF 300 / subscription for Business Start, Business Start EU or Business Medium, Business Medium EU tariff packages and gross HUF 1,000 / subscription for Business Pro and Business Pro EU tariff packages. The fee payable

for failing to fulfil the e-Pack conditions is only billed once per month even if the Subscriber fails to meet several e-Pack conditions in a given month.

If the Subscriber has multiple subscriptions and one of those is used with e-Pack, the Subscriber is required to settle the monthly bills of all subscriptions by satisfying the e-Pack conditions.

Should the Subscriber receive payment extension in a month and fail to settle his bill by the payment deadline indicated in the bill, the one-off fee payable for failing to meet the e-Pack conditions shall also be billed.

Cancelling the e-Pack service shall constitute a tariff change. Changing between the versions of the same tariff (with and without e-Pack) can be requested without being obligated to pay liquidated damages.

The applicable Roaming charges abroad apply. The detailed description of the Vodafone EU Roaming service is in point 5.5 of this Annex called List of Rates.

PluszAdat and Kiegészítő Adat (supplemental options)

A supplemental data option (PluszAdat, Kiegészítő Adat) can be purchased for the Business service packages, the detailed description of which is contained in the following table.

Available PluszAdat, Kiegészítő Adat options (after 1 June 2016)	Domestic data volume included	Fee (gross)	Available for the following tariffs
PluszAdat 150 MB	150 MB	HUF 620.08	Business Start Business Medium Business Pro
PluszAdat 500 MB	500 MB	HUF 1,240.16	Business Pro
Kiegészítő Adat 500 MB	500 MB	HUF 826.77	Business Start EU Business Medium EU Business Pro EU
Kiegészítő Adat 1 GB	1 GB	HUF 1,653.54	Business Start EU Business Medium EU Business Pro EU
Kiegészítő Adat 5 GB	5 GB	HUF 4,133.87	Business Medium EU, Business Pro EU Business Start EU

The PluszAdat Kiegészítő Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the Business subscription belongs.

If a PluszAdat or Kiegészítő Adat option is not completely used by the time of purchasing the next PluszAdat or Kiegészítő Adat option, the unused remaining data traffic of the existing PluszAdat or Kiegészítő Adat (supplemental option) option will be lost. The PluszAdat option may exclusively be used by the end of the given billing cycle in domestic networks. The Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of PluszAdat and Kiegészítő Adat options can be purchased in a billing cycle. The PluszAdat and the Kiegészítő Adat options are non-renewable options that have to be repurchased in every billing cycle, if needed.

Monthly renewable Kedvezményes Kiegészítő Adat (supplemental option) for Business Medium EU and Business Pro EU tariffs:

The Subscriber may purchase a Kedvezményes (Preferential Kiegészítő Adat) option to its Business Medium EU and Business Pro EU service packages, which is a renewable option, reactivated every billing cycle, i.e. it will not have to be reordered. The Kedvezményes Kiegészítő Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the Business Medium EU and Business Pro EU subscription belong.

By purchasing the Kedvezményes Kiegészítő Adat option (supplemental option) the Subscriber agrees that during the fixed term associated with its Business Medium EU or Business Pro EU subscription it shall also maintain the supplemental option, and the option shall not be cancelled during this period due to reasons arising within the Subscriber's scope of interest. If the above conditions are not met, the Subscriber shall pay liquidated damages in the amount of the discount calculated versus the Kiegészítő Adat option available to the Subscriber, as detailed in Section 12.7 of the GTC.

In case of Preferential Kiegészítő Adat 1 GB option, the discount versus Kiegészítő Adat 1 GB (HUF 1,653.54) option is: HUF 826.77 per month.

In case of Preferential Kiegészítő Adat 5 GB option, the discount versus Kiegészítő Adat 5 GB (HUF 4,133.87) option is: HUF 826.77 per month.

In case of Preferential Kiegészítő Adat 10 GB option, the discount versus the proportional fee taking into account the domestic data volume included in the Kiegészítő Adat 5 GB (HUF 4,133.87) option is: HUF 3,307.10 per month.

Available Kedvezményes (Preferential) Kiegészítő Data option After 1 June 2016	Domestic data volume included	Fee (gross)	Service package
Kedvezményes Kiegészítő Adat 1GB	1 GB	HUF 826.77	Business Medium EU, Business Pro EU
Kedvezményes Kiegészítő Adat 5 GB	5 GB	HUF 3,307.10	
Kedvezményes Kiegészítő Adat 10 GB	10 GB	HUF 4,960.64	

If the Kedvezményes Kiegészítő Adat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The Kedvezményes Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of Kiegészítő Adat option may be purchased in addition to the Kedvezményes Kiegészítő Adat option in a given billing period.

2.5.3. Üzleti Fix tariff packages

The Üzleti Fix tariff packages were reclassified as commercially unavailable as of 22 March, 2012.

Our Customers who have Üzleti Fix tariff packages can continue to use their tariff, however, no tariff package switch and migration is possible regarding these tariffs, furthermore, a new Subscriber can no longer conclude a contract for these. Üzleti Fix Tariff packages can be maintained for subscriptions extending to maximum 29 SIM cards.

The following tariffs were removed from the tariff family presented in the table as of 6 September 2011: Üzleti Fix 13000, Üzleti Fix 13000 (1 year), Üzleti Fix 16000, Üzleti Fix 16000 (1 year), Üzleti Fix 21000, Üzleti Fix 21000 (1 year), Üzleti Fix 32000, Üzleti Fix 32000 (1 year), Üzleti Fix 53000, Üzleti Fix 53000 (1 year).

Voice calls are billed on the basis of 60 seconds. The billing unit of voicemail calls corresponds to the billing unit of the tariff package.

The monthly subscription fee (Exception: Üzleti Fix 1500 tariff) may be fully used for calls and SMS messages within the network of Vodafone Magyarország Zrt.

The following options can be elected with the Üzleti Fix non-divisible tariff packages:

- Wireless Office 2 option (Zárt Csoport option)
- Fixed-line area option
- All fixed-line areas option

The detailed description of the options is found in section 2.2 of this List of Rates. The Wireless Office 2 option and the Zárt Felhasználói Csoport (Closed User Group) option cannot be chosen together.

Within the Üzleti Fix tariff package options subscribers can migrate free of charge once per month (billing cycle) to any options available for new subscribers. In this case, too, the change is implemented within 15 days.

a) Üzleti Fix (non-divisible) tariff packages

The prices indicated in the table are gross prices including VAT.

	Üzleti Fix 1500	Üzleti Fix 3000	Üzleti Fix 5500	Üzleti Fix 8000	Üzleti Fix 11000
Initial costs					
Entry fee (HUF)	10,000	10,000	10,000	10,000	10,000
Monthly fees					
Monthly subscription fee (HUF)	1,500	3,000	5,500	8,000	11,000
Additional monthly subscription fee	3,175	3,175	3,175	3,175	3,175
Call charges to any domestic mobile or fixed-line networks (per minute)					
In any time period (HUF)	34	34.40	28	25	21
Voicemail calls					
In any time period (HUF)	25	25	25	25	25
Messaging					
Sending short text messages (SMS) into a domestic mobile network (HUF)	34	34.40	28	25	21

2.5.4. Üzleti Fix Surf tariff packages

The Üzleti Fix Surf tariff packages were reclassified as unavailable in commerce as of 22 March, 2012.

Subscribers, who have subscriptions for Üzleti Fix osztható Surf tariff package on 22 March, 2012 may keep the tariff package with unchanged conditions, but cannot expand their user group up to the originally set limits. It is not possible to switch or migrate to tariff packages which are no longer available in commerce and new Subscribers cannot conclude contracts for such tariff packages.

Üzleti Fix Tariff packages can be maintained for subscriptions extending to maximum 29 SIM cards.

Beginning 5 September, 2011 the tariff appears in the invoice picture as Üzleti Fix tariff + 100 MB Surf option, due to technical reasons, this fact however does not affect the legal conditions applicable to the tariff or its content. The current rates of the Üzleti Fix tariff packages are included in section 2.5.3 of this List of Rates.

The following tariffs were removed from the tariff family presented in the table as of 6 September 2011: Üzleti Fix 13000 Surf, Üzleti Fix 13000 Surf (1year), Üzleti Fix 16000 Surf, Üzleti Fix 16000 Surf (1year), Üzleti Fix 21000 Surf, Üzleti Fix 21000 Surf (1year), Üzleti Fix 32000 Surf, Üzleti Fix 32000 Surf (1year), Üzleti Fix 53000 Surf, Üzleti Fix 53000 Surf (1year).

The Üzleti Fix 1500 Surf and 2500 Surf tariffs are not sold in commerce from 3 October, 2011. Our customers who have Üzleti Fix 1500 Surf and 2500 Surf tariffs can continue to use their tariff, however, switching to such tariffs or concluding new contract for such tariffs are not allowed.

Voice calls are billed on the basis of 60 seconds. The billing unit of voicemail calls corresponds to the billing unit of the tariff package.

The monthly subscription fee may be used for calls and SMS messages to the network of Vodafone Magyarország Zrt. The Üzleti Fix (non-divisible) Surf tariffs include 100 MB data traffic with a value of gross HUF 826,77 which is not applicable to airtime minutes. E.g. in case of the Üzleti Fix (non-divisible) 5500 Surf tariff, this means that of the HUF 6,326.77 monthly fee HUF 5,500 is applicable to airtime minutes.

All tariff packages include at SIM level monthly domestic 100 MB data volume which is usable for internet and packet-switched WAP traffic and may be accessed at maximum speed. In case of the following tariff packages, data traffic means the aggregate sum of the domestically sent and received data volume. Billing unit: 10 Kb. If the traffic reached in the billing cycle exceeds the data volume included in the monthly fee, the speed of the data traffic shall be slowed down. After the end of the billing period, the original speed is restored. Maximum value of the slowdown: 9.6 Kbit/s (0.009 Mbit/s) download and upload.

The tariffs are only valid for data traffic conducted on the Service Provider's network. If a foreign network is used, the fees of "Internet use abroad (GPRS, EDGE, HSDPA, 3G based services)" specified in section 5.4 of this List of Rates shall apply.

Supplemental data options (PluszAdat) can be purchased with the monthly domestic 100MB data volume included in the Üzleti Fix Surf tariff packages, the detailed description of which is included in the following table. PluszAdat can be purchased on the <http://netinfo.vodafone.hu> page from the SIM card and device on which the Customer wants to use additional data.

If a PluszAdat option is not completely used by the time of purchasing the next PluszAdat option, the remaining data traffic will be lost. The PluszAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat options can be purchased in a billing cycle.

The PluszAdat options are non-renewable options that have to be repurchased in every billing cycle where the Customer intends to use those.

Name of supplemental data option	PluszAdat 100MB	PluszAdat 500MB	PluszAdat 1 GB
Gross fee	HUF 413.39	HUF 826.77	HUF 1,240.16
Data traffic included in the option	100 MB	500 MB	1 GB

The options described at the Üzleti Fix tariff packages and included in section 2.1.1 of this List of Rates are available for the tariff packages.

a) Üzleti Fix (non-divisible) Surf tariff packages

The prices indicated in the table are gross prices including VAT.

2.5.5. Business EU 500MB, Business EU 2GB and Business EU 10GB tariff packages

The Business EU 500MB, Business EU 2GB and Business EU 10GB tariff packages were reclassified as commercially unavailable as of 1 July 2018.

The following tariff packages are only available to (new and existing) business subscribers signing a post-paid subscription contract.

Voice calls are billed on the basis of 1 second. The billing unit of voicemail calls corresponds to the billing unit of the tariff package.

The prices indicated in the table are gross prices including VAT.

In the case of Subscription Contracts concluded before Tuesday, October 24, 2017:

	Business EU 500MB	Business EU 2GB	Business EU 10GB

International SMS fee outside the preferential area (HUF)	40	40	40

Business MultiNet (mobile Internet-based) tariff packages are available for the Business EU 500MB, Business EU 2GB and Business EU 10GB tariff package, which can be used exclusively together with the Business EU 500MB, Business EU 2GB or Business EU 10GB service package, as secondary SIM. In case of Business EU 500MB, Business EU 2GB and Business EU 10GB service packages with divisible data traffic (primary SIM), data traffic may be used, after the Vodafone EU Roaming service is activated, in the associated Business MultiNet tariff packages (secondary SIM) domestically and within the area of validity of the Vodafone EU Roaming service.

Business MultiNet packages:

	Business MultiNet Mifi	Business MultiNet SIM
Initial costs		
Entry fee (HUF)	10,000	10,000
Monthly fees		
Monthly subscription fee (HUF) with an indefinite term contract	8,267.72	8,267.72
Monthly subscription fee (HUF) with contracts of a 1-year fixed term	8,267.72	8,267.72
Monthly subscription fee (HUF) with contracts of a 2-year fixed term	0	00
Domestic data traffic included in the monthly fee	identical with Business EU 500MB, Business EU 2GB or Business EU 10GB packages, divided with that	
Offered bandwidth above monthly divisible data traffic (download/upload, Mbit/s)	0/0	0/0
Guaranteed speed	in accordance with section 4.1 of the GTC	
SMS to any domestic network (HUF)	30.48	30.48

In case of Business EU 500MB, Business EU 2GB and Business EU 10GB tariff packages, when the data volume included in the monthly fee is exhausted, the speed will be reduced to 0/0 Mbit/s until the end of the billing cycle. Guaranteed speed as per Section 4.1 of the GTC.

The Business tariff packages are supplemented once per billing cycle with the Automatikus Kiegészítő Adat option at the fee of which can be found in the tariff table. This option is activated automatically after the domestic data volume included in the monthly fee is exhausted; or, if a supplemental data option has been purchased on the Netinfo site before the domestic data volume included in the monthly fee is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted; an automatically activated Automatikus Kiegészítő Adat option is attached to the Business EU 500MB, Business EU 2GB or Business EU 10GB tariff packages. The data traffic of the Automatikus Kiegészítő Adat option can be used until the end of the given billing cycle, and is not divisible. The Automatikus Kiegészítő Adat option is renewed monthly but is only activated and billed upon continuing data use after the domestic data volume included in the monthly fee or supplemental data option(s) is exhausted. After the data volume included in the Automatikus Kiegészítő Adat option, the speed will be reduced to 0/0 Mbit/s.

Before using up the domestic data volume included in the monthly fee, or after using up the domestic data volume included in the Automatikus Kiegészítő Adat option, Egyszeri Kiegészítő Adat option needs to be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded after the domestic data volume included in the Automatikus Kiegészítő Adat option is exhausted. If the Subscriber has exhausted the domestic data volume included in the package and the Automatikus Kiegészítő Adat option, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

The Business MultiNet card only provides data transmission service; no voice services are available thereon. Only customers who have subscriptions for new or existing Business EU 500MB, Business EU 2GB or Business EU 10GB packages are eligible for Business MultiNet tariffs. Not more than 1 Business MultiNet package may be purchased for one Business EU 500MB, Business EU 2GB or Business EU 10GB subscription in the offer. The Subscriber is eligible for the Business MultiNet package, as long as he maintains his fixed or indefinite-term Business EU 500MB, Business EU 2GB or

Business EU 10GB subscription. If the primary subscription concluded for the tariff packages is cancelled or changed, we will convert SIM card 2 to Internet Basic tariff.

In the case of the Business MultiNet tariffs, after using up the monthly data traffic limit, a supplemental option needs to be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle. Guaranteed speed above the data traffic included in the monthly subscription fee (download/upload Mbit/s) is determined in accordance with section 4.1 of the GTC.

In the case of the Business EU 500MB, Business EU 2GB and Business EU 10GB service packages, the Subscriber, who/which, after having exhausted the data limit included in the package, divides supplemental data options that can be ordered by the Subscriber or other users of secondary SIM card belonging to Business MultiNet tariffs as authorized by Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>) for continuing Internet use until account closure, is only able to monitor his own data use on the Netinfo page (<http://netinfo.vodafone.hu>), for technical reasons, and does not have any information on the specific amount of data traffic of the secondary SIM card that may use the divisible data volume. If the user of the secondary SIM card belonging to the Business MultiNet tariff, who has been duly authorized by the Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>), orders a supplemental data option, the fee or the supplemental data option shall be invoiced to and payable by the Subscriber of the primary SIM card.

The fee of the Zárt Csoport (Closed group) option included in the tariff package is covered by the monthly fee of the tariff and is not billed separately above the monthly fee. Further details regarding the Zárt csoport option are included in section 2.2 of this List of Rates.

The minutes and data traffic included in the monthly fee that are applicable to airtime or traffic, but which were not used cannot be rolled over to the next month or transferred to other persons or call members and cannot be used for other services.

The Conference Call service is not available with Business EU tariff packages.

In foreign countries the valid Roaming tariffs will apply. Section 5.5. of this List of Rates contains the detailed description of Vodafone EU Roaming service.

The charges of international calls are contained in Section 9 of this Annex on Tariffs.

With the Red EU international service, which is part of the Business EU Red rates, Subscribers can call the standard-rate numbers of the countries specified in Section 9 of this List of Rates (Red EU International tariff zone) from the Vodafone Hungarian network with the conditions above, and can send standard-rate SMS messages to such numbers with the conditions above.

The charges of international calls outside the Red EU International tariff zone are contained in Section 9 of this Annex.

Egyszeri Kiegészítő Adat (supplemental data options) for Business EU 500MB, Business EU 2GB and Business EU 10GB tariff packages

A one-time supplemental data option (Egyszeri Kiegészítő Adat) may be purchased for Business EU 500MB, Business EU 2GB and Business EU 10GB tariff packages, the detailed description of which is contained in Section 2.4.2.1 of this List of Rates Annex.

2.5.6. Üzleti Szabadon Surf tariff packages

The Üzleti Szabadon Surf tariff packages were reclassified as unavailable in commerce as of 22 March, 2012.

Our Customers who have Üzleti Szabadon Surf tariff packages can continue to use their tariff, however, no tariff package switch and migration is possible regarding these tariffs, furthermore, a new Subscriber can no longer conclude a contract for these. Üzleti Szabadon Surf tariff packages can be maintained for subscriptions extending to maximum 20 SIM cards.

Beginning 5 September, 2011 the tariff appears in the invoice picture as Üzleti Szabadon Standard or Plusz tariff + 100 MB Surf option due to technical reasons, this fact however does not affect the legal conditions applicable to the tariff or its content. The current rates of the Üzleti Szabadon Standard or Plusz tariff packages are included in section 2.1.4 of this List of Rates.

Voice calls are billed on the basis of 60 seconds. The billing unit of voicemail calls corresponds to the billing unit of the tariff package.

The monthly subscription fee may be used for standard rate domestic calls made to mobile and fixed-line networks and short text messages. The Üzleti Szabadon Standard or Plusz Surf tariffs include 100 MB data traffic with a value of gross HUF 826.77, which is not applicable to airtime minutes. E.g. in case of the Üzleti Szabadon Standard Surf tariff, this means that of the HUF 10, 826.77 monthly fee HUF 10,000 is applicable to airtime minutes. Convertibility to airtime minutes is only applicable to standard rate domestic voice calls made to domestic mobile networks in non-free directions, but not to traffic above normal use.

All tariff packages include at SIM level monthly domestic 100 MB data volume which is usable for internet and packet-switched WAP traffic and may be accessed at maximum speed. In case of the following tariff packages, data traffic means the aggregate sum of the domestically sent and received data volume. Billing unit: 10 Kb. If the traffic reached in the billing cycle exceeds the data volume included in the monthly fee, the speed of the data traffic shall be slowed down. After the end of the billing period, the original speed is restored. Maximum value of the slowdown: 9.6 Kbit/s (0.009 Mbit/s) download and upload.

The tariffs are only valid for data traffic conducted on the Service Provider's network. If a foreign network is used, the fees of "Internet use abroad (GPRS, EDGE, HSDPA, 3G based services)" specified in section 5.4 of this List of Rates shall apply.

Supplemental data options (PluszAdat) can be purchased with the monthly domestic 100MB data volume included in the Üzleti Szabadon Surf tariff packages, the detailed description of which is included in the following table. PluszAdat can be purchased on the <http://netinfo.vodafone.hu> page from the SIM card and device on which the Customer wants to use additional data.

If a PluszAdat option is not completely used by the time of purchasing the next PluszAdat option, the remaining data traffic will be lost. The PluszAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat options can be purchased in a billing cycle.

The PluszAdat options are non-renewable options that have to be repurchased in every billing cycle where the Customer intends to use those.

Name of supplemental data option	PluszAdat 100MB	PluszAdat 500MB	PluszAdat 1 GB
Gross fee	HUF 413.39	HUF 826.77	HUF 1,240.16
Data traffic included in the option	100 MB	500 MB	1 GB

The prices indicated in the table are gross prices including VAT.

	Üzleti Szabadon Standard Surf	Üzleti Szabadon Plusz Surf
Initial costs		
Entry fee (HUF)	10, 000	10, 000
Monthly fees		
Tariff monthly fee (HUF)	10,000	15,000
Internet monthly fee (HUF)	826.77	826.77
Monthly total subscription fee (HUF)	10,826.77	15,826.77
Monthly fee applicable to airtime minutes (HUF)	10, 000	0
Additional monthly subscription fee (HUF)	3, 175	3, 175
Data traffic included in the monthly fee		
Data traffic (MB)	100	100
Offered bandwidth above the 100 MB data traffic per month (download/upload speed – Mbit/s)	0.009/0.009	0.009/0.009
Guaranteed speed above the data traffic included in the monthly subscription fee	in accordance with section 4.1 of the GTC	
Call charges within the group to any domestic mobile or fixed-line networks (per minute)		
Call charge within the group (per minute) (volume of normal use: 3000 minutes)	Free calls within the group up to the limit of normal use, minute charge above normal use: HUF 10	
Charge of calls to domestic fixed-line directions (per minute) (volume of normal use: 1000 minutes)	Free calls to domestic fixed-line direction up to the limit of normal use, minute charge above normal use: HUF 10	
Charge of calls within the network of Vodafone Magyarország Zrt. (per minute) (volume of normal use: 3000 minutes)	Free calls in the network of Vodafone Magyarország Zrt. up to the limit of normal use, minute charge above normal use: HUF 23	
Charge of calls to other domestic mobile networks (per minute) (volume of normal use: 1000 minutes)	HUF 23	Free calls to other domestic mobile networks up to the limit of normal use, minute charge above normal use: HUF 23
Voicemail calls		
In any period	HUF 25	HUF 25
Messaging		
Fee of SMS sent domestically within the network of Vodafone Magyarország Zrt. (volume of normal use: 1000 pc)	Free SMS sent domestically within the network of Vodafone Magyarország Zrt. up to the limit of normal use, SMS charge above normal use: HUF 23	
SMS to other domestic mobile networks (volume of normal use: 1000 pc)	HUF 23	Free SMS to other domestic mobile network up to the limit of normal use, SMS charge above normal use: HUF 23

The Subscriber acknowledges the volume limit of normal use. If the Customer uses or sends minutes or SMS in excess of the volume of the normal use, it shall be considered use above normal level. This service of the Service Provider is based on shared resources. The excessive use of these resources by even a single subscriber may have negative effect on all other users. Such excessive use may impact the service quality and therefore may detrimentally affect other subscribers. Minutes and SMS traffic in excess of normal use will be invoiced in all cases.

Unused minutes cannot be rolled over to the next month. The allowances are only available domestically.

Our Customers with Üzleti Szabadon Surf tariff packages can elect further Üzleti Szabadon (Surf) and Vodafone Presztízs packages and Üzleti Fix (Surf) tariffs with their tariff package. Customers with existing post-paid business subscriptions can also elect Üzleti Szabadon Plusz Surf and/or Üzleti Szabadon Standard Surf tariff packages with their existing business subscription.

The following options are available for the above tariff packages:

- Fixed-line area option
- All fixed-line areas option

The detailed description of the options is found in section 2.2 of this List of Rates.

The Üzleti Szabadon packages include Wireless Office 2 or „Closed Group” options for no extra charge.

2.5.7. Business Group EU tariff packages

The Business Group EU tariff packages were reclassified as commercially unavailable as of 1 July 2018.

The Business Group EU tariff packages are only available to (new and existing) business subscribers signing a post-paid subscription contract. For Business Group EU tariff packages the number of SIM cards specified in the following table can participate in a user group, in case of a subscription covering a maximum of 30 SIM cards.

Voice calls are billed on the basis of 1 second. The billing unit of voicemail calls corresponds to the billing unit of the tariff package.

The prices indicated in the tables are gross prices including VAT:

In the case of Subscription Contracts concluded before Tuesday, October 24, 2017:

	Business Group EU 5	Business Group EU 10	Business Group EU 15	Business Group EU 20	Business Group EU 30
Startup expenses					
Entry fee (HUF)	10,000	10,000	10,000	10,000	10,000

In any time period (HUF)	25	25	25	25	25
Messaging					
Sending short text messages (SMS) into any domestic mobile network (HUF)	18	16	14	12	10
Number of cards in the user group	2-5	2-10	2-15	2-20	2-30
Obligatory monthly fee-based, divisible data package in addition to the tariff package	✓	✓	✓	✓	✓
Free domestic data traffic, per SIM card	50 MB	50 MB	50 MB	50 MB	50 MB
Offered bandwidth above the data traffic included in the monthly subscription fee (download /upload, Mbit/s)	0/0	0/0	0/0	0/0	0/0
Guaranteed speed above the data traffic included in the monthly subscription fee	in accordance with section 4.1 of the GTC				
"Closed group" option	Free of charge				
Vodafone EU Roaming	Vodafone EU Roaming can be activated free of charge; otherwise the applicable Roaming charges abroad apply.				
Other charges					
Charge for International SMS to countries within the area of validity of the RED EU International tariff zone (HUF)	in accordance with Section 9 of the GTC				20
Charge for International SMS to countries outside the preferential zone (HUF)	36	32	28	24	20

Obligatory divisible Business Group data package for the Business Group EU tariff packages

Data package	Data volume included in the package	Total monthly subscription fee (HUF) with an indefinite-term, 1-year or 2-year fixed-term contract
Business Group 1 GB	1 GB	1,779.66
Business Group 5 GB	5 GB	8,898.31
Business Group 10 GB	10 GB	13,347.46
Business Group 20 GB	20 GB	22,245.77
Business Group 50 GB	50 GB	40,042.37

The Subscribers can use the services included in the monthly fee of the tariff package collectively as a group. The airtime minutes included in the monthly fee of the tariff packages apply to domestic, standard-rate calls and to international calls within the area of validity of the Red EU International tariff zone. The minutes and data traffic included in the monthly fee that are applicable to airtime or traffic, but which were not used cannot be rolled over to the next month or transferred to other persons or call members and cannot be used for other services.

The area of the Red EU International tariff zone is defined in Annex 9 of this List of Rates.

The charges of international calls outside the Red EU International tariff zone are contained in Section 9 of this Annex.

The tariff package contains 50 MB free data traffic per month, which is part of the tariff package, and cannot be cancelled. The fee of the Zárt Csoport (Closed Group) option included in the Business Group EU tariff package is covered by the monthly fee of the tariff and is not billed separately above the monthly fee. Further details regarding the Zárt csoport option are included in section 2.2 of this List of Rates.

In foreign countries the valid Roaming tariffs will apply. The detailed terms and conditions of the Vodafone EU Roaming service are contained in section 5.5. The charges of international calls are contained in Section 9 of Annex 1 entitled "List of Rates".

The Business Group EU tariff package may only be purchased by selecting the Business Group data package. Any Business Group data package can be selected for the Business Group EU tariff package, which is activated per subscription, and the monthly fee of which shall be paid in addition to the monthly fee of the tariff package.

The monthly data volume contained in the Business Group data packages can be fully divided among the SIM cards of the Business Group EU user group, up to the maximum of 20 cards. If the Subscriber does not use up the monthly traffic limit included in the monthly fee, the remaining part cannot be rolled over to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. Billing unit: 10 Kbyte.

In case of Business Group service packages, when the domestic data volume included in the monthly fee is exhausted, the speed will be reduced to 0/0 Mbit/s until the end of the billing cycle.
Guaranteed speed as per Section 4.1 of the GTC.

Before using up the domestic data volume included in the monthly fee, a supplemental option must be purchased on the Netinfo page (<http://netinfo.vodafone.hu>), to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded after the domestic data volume included in the tariff or in the data package is exhausted. If the Subscriber has exhausted the domestic data volume included in the package, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

Kiegészítő Osztható Adat (supplemental option)

To the Business Group EU tariff packages and Business Group data packages, Kiegészítő Osztható Adat supplemental option can be purchased, the data volume of which can be divided among a maximum of 20 SIM cards. The detailed description of the option is in point 2.4.2.1 of this Annex called List of Rates.

Kiegészítő Adat (supplemental option):

Kiegészítő Adat supplemental data options can be purchased for the Business Group EU tariff packages and Business Group data packages, the detailed description of which is contained in Section 2.4.2.1 of this List of Rates Annex.

Monthly renewable Kedvezményes (Preferential) Kiegészítő Adat (supplemental option):

The Subscriber may purchase a monthly renewable Kedvezményes (Preferential) Kiegészítő Adat option to its Business Group EU tariff and Business Group data packages, which is reactivated every billing cycle, i.e. it will not have to be reordered. The detailed description of the option is in point 2.4.2.1 of this Annex called List of Rates.

2.5.8. Vállalkozói Fix 2000, 5000, 8000 Vállalkozói Fix Plus 12200, Vállalkozói Fix Plus 16200, Vállalkozói Fix Plus 25200 tariff packages

The Vállalkozói Fix Plus 12200, Vállalkozói Fix Plus 16200, Vállalkozói Fix Plus 25200 tariff packages were reclassified as commercially unavailable as of 1 July 2015.

The Vállalkozói Fix 2000, 5000, 8000 tariff packages were reclassified as commercially unavailable as of 1 October 2015.

A Vállalkozói Fix 2000, 5000, 8000, Vállalkozói Fix Plus 12200, 16200, 25200 and tariff packages can be maintained for subscriptions extending to maximum 30 SIM cards.

Voice calls are billed on the basis of 1 second. The billing unit of voicemail calls corresponds to the billing unit of the tariff package.

The following options can be elected with the Vállalkozói Fix tariff packages:

- Wireless Office 2 option
- "Closed Group" option for business subscribers
- Fixed-line area option
- All fixed-line areas option

The detailed description of the options is found in section 2.2 of this List of Rates. The Wireless Office 2 option and the Closed Group option cannot be elected together.

Together with the Vállalkozói Fix tariff packages, the Fixed-line number and Fax in Email services may be used, the rates of which are included in Section 3 of this Annex.

Within the options of the Vállalkozói Fix tariff packages the subscribers can migrate once a month (per billing cycle) to any options available for new subscribers free of charge. In this case, too, the change is implemented within 15 days.

a) Vállalkozói Fix Plus 12200, Vállalkozói Fix Plus 16200, Vállalkozói Fix Plus 25200 (non-divisible) tariff packages:
The prices indicated in the table are gross prices including VAT.

Mandatory VodaMail box 1GB storage service included in the monthly fee***	✓	✓	✓
Roaming option**** included in the monthly fee	-	✓	✓

** The monthly subscription fee may be used in the indicated value to make non-premium-rate calls to other domestic mobile networks.

***In case of new subscription contracts that are concluded on or after 15 March, 2014 or extended existing subscription contracts, the affected tariff packages do not include the VodaMail box 1 GB storage service.

****The tariff includes the MobilWeb Abroad option (50MB/day) and monthly 1000 minutes abroad at domestic minute charge without the connection fee. The current list of designated networks is the same as for the MobilWeb Abroad option and is available at the www.vodafone.hu/uzleti/kisvallalkozasok/tarifak/kulfoldon-roaming web page. The call traffic above 1000 minutes is billed according to the rates of the traffic-based roaming services, for further details please refer to section 5.1.1. of this List of Rates.

The fees of the options and services included in the tariff package are covered by the monthly fee of the tariff and are not billed separately above the monthly fee. Further details regarding the Closed group option are included in section 2.2 of this List of Rates, regarding the VodaMail service in section 4.1. and regarding the MobilWeb Abroad option in section 5.5. The Vállalkozói Fix tariff packages appearing in the above tables are available by signing indefinite-term contracts or 2 year fixed-term contracts.

The minutes and data traffic included in the monthly fee that are applicable to airtime or traffic, but were not used cannot be rolled over to the next month or transferred to other persons or call members and cannot be used for other services. The allowances are only available domestically. (Except for the roaming option.)

In the case of Fixed tariff plans for Businesses, the speed of data traffic above the data volume included in the monthly fee will be slowed down. Maximum value of the slowdown: 32 Kbit/s (0.031 Mbit/s) download and upload. If the PlusAdat (Plus data) option is ordered before the slowdown, as detailed below, the slowdown will not take place.

PluszAdat (supplemental option)

Supplemental data option (PluszAdat) can be purchased for the Vállalkozói Fix (non-divisible) tariff packages, the detailed description of which may be found in the below table.

Available PluszAdat	Domestic data volume included	Fee (gross)	Available for the following tariffs
PluszAdat 100 MB	100 MB	HUF 413.39	Vállalkozói Fix Plus 12200, Vállalkozói Fix Plus 16200, Vállalkozói Fix Plus 25200
PluszAdat 500 MB	500 MB	HUF 826.77	Vállalkozói Fix Plus 12200, Vállalkozói Fix Plus 16200, Vállalkozói Fix Plus 25200
PluszAdat 1 GB	1 GB	HUF 1,240.16	Vállalkozói Fix Plus 12200, Vállalkozói Fix Plus 16200, Vállalkozói Fix Plus 25200

PluszAdat can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and device to which the Vállalkozói Fix subscription belongs.

If a PluszAdat option has not been used up fully until the moment of the purchase of the next PluszAdat option, then the unused remaining data traffic of the existing PluszAdat (a supplemental option) will be lost. The PluszAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat options can be purchased in a billing cycle. PluszAdat options are non-renewable options that have to be repurchased in every billing cycle, if needed.

b) Vállalkozói Fix 2000, 5000, 8000 tariff packages:

The prices indicated in the table are gross prices including VAT.

The e-Pack service is available for Subscribers with Vállalkozói Fix 2000, Vállalkozói Fix 5000 and Vállalkozói Fix 8000 tariff packages purchased by signing 2-year fixed-term contracts. In case of using the e-Pack service, the Subscriber agrees to fulfil the following conditions in every month while using the e-Pack service, in exchange for a more favourable monthly subscription fee:

- The Subscriber uses E-bills regarding all of his subscriptions under one client number with the content defined in section 7.1.2.4 of the GTC: Electronic Bill and Document Presentation (E-bill).
- The bill is settled by using one of the following payment options:
 - on the www.vodafone.hu/szamlabefizetes web page,
 - with Vodafone mobile application,
 - by bank transfer,

- by direct debit order,
- via ATM machines.
- The bill is settled by the payment deadline indicated in the bill.

If the Subscriber fails to meet any of the above conditions in a given month, a one-off fee of gross HUF 300 per subscription will be charged to the Subscriber in his next monthly bill. The fee payable for failing to fulfil the e-Pack conditions is only billed once per month even if the Subscriber fails to meet several e-Pack conditions in a given month.

If the Subscriber has multiple subscriptions and one of those is used with e-Pack, the Subscriber is required to settle the monthly bills of all subscriptions by satisfying the e-Pack conditions.

Should the Subscriber receive payment extension in a month and fail to settle his bill by the payment deadline indicated in the bill, the one-off fee payable for failing to meet the e-Pack conditions shall also be billed.

Cancelling the e-Pack service shall constitute a tariff change. Changing between the versions of the same tariff (with and without e-Pack) can be requested without being obligated to pay liquidated damages.

In the case of Vállalkozói Fix 2000, 5000, 8000 tariff packages, the speed of data traffic above the data volume included in the monthly fee will be slowed down. The maximum value of the slowdown for Vállalkozói Fix 2000 tariff for subscription contracts concluded before 15 April 2015 is 0.031 Mbit/s, for subscription contracts concluded after 15 April 2015 is 0/0 Mbit (downloading and uploading). The maximum value of the slowdown for Vállalkozói Fix 5000 and Vállalkozói Fix 8000 tariff packages for subscription contracts concluded before 01 April 2015 is 0.031 Mbit/s, for subscription contracts concluded after 01 April 2015 is 0 Mbit/s for download and upload. Guaranteed speed as per Section 4.1 of the GTC.

In the case of subscription contracts concluded after 01 April 2015, the Vállalkozói Fix 2000, 5000 and 8000 tariff packages are supplemented once per billing cycle with the Automatikus PluszAdat option containing 150 MB of domestic data traffic at a rate of HUF 413.39 gross. This option is activated automatically after the domestic data volume included in the monthly fee is exhausted; or, if a supplemental data option has been purchased on the Netinfo site before the domestic data volume included in the monthly fee is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted; or, if one or more further supplemental data option(s) has (have) been purchased before the domestic data volume included in the supplemental data volume on the Netinfo site is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted. The data traffic of the Automatikus PluszAdat 150 MB option can be used until the end of the given billing cycle, and is not divisible. The Automatikus PluszAdat 150 MB option is renewed monthly but is only activated and billed upon continuing data use after the domestic data volume included in the monthly fee or supplemental data option(s) is exhausted. After the use of the data volume included in the Automatikus PluszAdat 150 MB option, the speed will be slowed down to 0/0 Mbit/s.

Before using up the domestic data volume included in the monthly fee, or after using up the domestic data volume included in the Automatikus PluszAdat 150 MB option, a PluszAdat supplemental data option must be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded after the domestic data volume included in the Automatikus PluszAdat 150 MB option is exhausted. If the Subscriber has exhausted the domestic data volume included in the package and the Automatikus PluszAdat 150 MB option, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

The fees of the options and services included in the tariff package are covered by the monthly fee of the tariff and are not billed separately above the monthly fee. Further details regarding the Zárt csoport option are included in section 2.2 of this List of Rates. The Vállalkozói Fix tariff packages appearing in the above tables are available by signing indefinite-term contracts or 2 year fixed-term contracts.

The minutes and data traffic included in the monthly fee that are applicable to airtime or traffic, but which were not used cannot be rolled over to the next month or transferred to other persons or call members and cannot be used for other services. The allowances are only available domestically. (Except for the roaming option.)

PluszAdat (supplemental option)

Supplemental data option (PluszAdat) can be purchased for the Vállalkozói Fix 2000, 5000, 8000 tariff packages, the detailed description of which may be found in the below table.

Available PluszAdat	Domestic data volume included	Fee (gross)	Available for the following tariffs
PluszAdat 100 MB	100 MB	HUF 413.39	Vállalkozói Fix 2000 Vállalkozói Fix 5000 Vállalkozói Fix 8000
PluszAdat 500 MB	500 MB	HUF 826.77	Vállalkozói Fix 5000 Vállalkozói Fix 8000
PluszAdat 1 GB	1 GB	HUF 1,240.16	Vállalkozói Fix 8000

PluszAdat can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and device to which the Vállalkozói Fix subscription belongs.

If a PluszAdat option has not been used up fully until the moment of the purchase of the next PluszAdat option, then the unused remaining data traffic of the existing PluszAdat (a supplemental option) will be lost. The PluszAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat options can be purchased in a billing cycle. PluszAdat options are non-renewable options that have to be repurchased in every billing cycle, if needed.

2.5.9. Data Card tariff package

The prices indicated in the table are gross prices including VAT.

Automatikus PluszAdat 150 MB that can be activated after having exhausted the domestic data limit, once per billing cycle (HUF), in case of a subscription contract concluded after 01/07/2015,	393.7	393.7	393.7
Charge for International SMS to countries within the area of validity of the RED EU International tariff zone (HUF)	in accordance with Section 9 of the GTC		
Charge for International SMS to countries outside the preferential zone (HUF)	37.79	37.79	37.79

The prices indicated in the following tables are net prices, not including VAT. The units included in the monthly fee are per minute billing units. After using up the units included in the monthly fee, calls will be billed on a per second basis.

The units included in the monthly fee can only be used for standard rate calls initiated to domestic networks and standard rate SMS messages sent to domestic mobile networks.

The Ready Business Basic SIM package is not available with preferential handset purchase.

The “free conversation within the Group” option included in the monthly fee of the Ready Business Basic service packages allows the settlement of voice and SMS traffic within the Vodafone Hungary network made between the SIM cards of the Medium and Large Enterprise Subscriber that were belonging to the “Wireless Office 2” group or the “Closed Group” (in terms of pricing) at a minute charge of HUF 0, even if a member of the “Wireless Office 2” group or the “Closed Group” does not have a Ready Business service package detailed in this section 2.1.9 but other Vodafone Individual Tariff Plan regulated in an Agreement concluded by and between the Service Provider and the Medium and Large Enterprise Subscriber.

The “Költségkontroll” (Cost Control) and the “Készülékkontroll” (Handset Control) services can be ordered by signing the relevant annex to the Cooperation Agreement concluded by and between the Subscriber and the Service Provider.

The Call separation service allows the Cost control service. The “Hívásszétválasztás” (Call separation) service allows for the separation of the business and private use of the SIM card. For further details, refer to the “Call separation” section of the GTC.

The Handset control service allows the large enterprise Subscriber to remotely control the smartphones and tablets (hereinafter jointly: smart device or smart devices) it uses, as well as their content. For further details, refer to the General Terms and Conditions of Other Services.

The Car SIM Card service, the Conference call service, the Fixed-line area, as well as the All fixed-line area option are not available with Ready Business Basic service package.

In foreign countries the valid Roaming tariffs will apply.

The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. Billing unit: 10 Kbyte. If the Subscriber does not use up the traffic limit included in the monthly fee, it cannot roll over the remaining part to the next billing cycle. Data traffic included in the monthly fee applies only to domestic use.

In the case of the Ready Business Basic service packages, the slowdown that takes effect after exhausting the domestic data limit included in the monthly fee and that lasts until the end of the billing cycle shall be 0/0 Mbit/s.

In the case of subscription contracts concluded after 1 July 2015, the Ready Business Basic service packages are supplemented once per billing cycle with the Automatikus PluszAdat option containing 150 MB of domestic data traffic at a rate of HUF 393.7 net. This option is activated automatically after the domestic data volume included in the monthly fee is exhausted; or, if a supplemental data option has been purchased on the Netinfo site before the domestic data volume included in the monthly fee is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted; or, if one or more further supplemental data option(s) has (have) been purchased before the domestic data volume included in the supplemental data volume on the Netinfo site is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted. The data traffic of the Automatikus PluszAdat 150 MB option can be used until the end of the given billing cycle, and is not divisible. The Automatikus PluszAdat 150 MB option is renewed monthly but is only activated and billed upon continuing data use after the domestic data volume included in the monthly fee or supplemental data option(s) is exhausted. After the data volume included in the Automatikus PluszAdat 150 MB option, the speed will be slowed down to 0/0 Mbit/s.

Before using up the domestic data volume included in the monthly fee, or after using up the domestic data volume included in the Automatikus PluszAdat 150 MB option, a supplemental data option must be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded after the domestic data volume included in the Automatikus PluszAdat 150 MB option is exhausted. If the Subscriber or the User has exhausted the domestic data volume included in the package and the Automatikus PluszAdat 150 MB Adat option, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

Detailed description of the PluszAdat option (supplemental option) that can be ordered for the Ready Business Basic service package is contained in the following table.

Available PluszAdat	Domestic data volume included	Fee (net)
PluszAdat 100 MB until 1 September 2015	100 MB	HUF 393.7
PluszAdat 150 MB after 1 September 2015	150 MB	HUF 590.55

PluszAdat may also be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which Ready Business Basic subscription belongs.

Automatikus PluszAdat 150 MB that can be activated after having exhausted the domestic data limit, once per billing cycle (HUF), in case of a subscription contract concluded after 01/07/2015,	393.7	393.7	393.7
Charge for International SMS to countries within the area of validity of the RED EU International tariff zone (HUF)	in accordance with Section 9 of the GTC		
Charge for International SMS to countries outside the preferential zone (HUF)	37.79	37.79	37.79

The prices indicated in the following tables are net prices, not including VAT. The units included in the monthly fee are per minute billing units. After using up the units included in the monthly fee, calls will be billed on a per second basis.

The units included in the monthly fee can only be used for standard rate calls initiated to domestic networks and standard rate SMS messages sent to domestic mobile networks.

The Ready Business Plus SIM package is not available with preferential handset purchase.

The “free conversation within the Group” option included in the Ready Business Plus service packages allows the settlement of voice and SMS traffic within the Vodafone Hungary network made between the SIM cards of the Medium and Large Enterprise Subscriber that were belonging to the “Wireless Office 2” group or the “Closed Group” (in terms of pricing) at a minute charge of HUF 0, even if a member of the “Wireless Office 2” group or the “Closed Group” does not have a Ready Business service package detailed in this section 2.1.9 but other Vodafone Individual Tariff Plan regulated in an Agreement concluded by and between the Service Provider and the Medium and Large Enterprise Subscriber.

The “Költségkontroll” (Cost Control) and the “Készülékkontroll” (Handset Control) services can be ordered by signing the relevant annex to the Cooperation Agreement concluded by and between the Subscriber and the Service Provider.

The Call separation service allows the Cost control service. The “Hívásszétválasztás” (Call separation) service allows for the separation of the business and private use of the SIM card. For further details, refer to the “Call separation” section of the GTC.

The Handset control service allows the Medium and Large Enterprise Subscriber to remotely control the smartphones and tablets (hereinafter jointly: smart device or smart devices) it uses, as well as their content. For further details, refer to the General Terms and Conditions of Other Services.

The Car SIM Card service, the Conference call service, the Fixed-line area, as well as the All fixed-line area option are not available with Ready Business Plus service package.

In foreign countries the valid Roaming tariffs will apply.

The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. Billing unit: 10 Kbyte. If the Subscriber does not use up the traffic limit included in the monthly fee, it cannot roll over the remaining part to the next billing cycle. Data traffic included in the monthly fee applies only to domestic use. In the case of the Ready Business Plus service packages, the slowdown that takes effect after exhausting the domestic data limit included in the monthly fee and that lasts until the end of the billing cycle shall be 0/0 Mbit/s.

In the case of subscription contracts concluded after 1 July 2015, the Ready Business Plus service packages are supplemented once per billing cycle with the Automatikus PluszAdat option containing 150 MB of domestic data traffic at a rate of HUF 393.7 net. This option is activated automatically after the domestic data volume included in the monthly fee is exhausted; or, if a supplemental data option has been purchased on the Netinfo site before the domestic data volume included in the monthly fee is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted; or, if one or more further supplemental data option(s) has (have) been purchased before the domestic data volume included in the supplemental data volume on the Netinfo site is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted. The data traffic of the Automatikus PluszAdat 150 MB option can be used until the end of the given billing cycle, and is not divisible. The Automatikus PluszAdat 150 MB option is renewed monthly but is only activated and billed upon continuing data use after the domestic

data volume included in the monthly fee or supplemental data option(s) is exhausted. After the data volume included in the Automatikus PluszAdat 150 MB option, the speed will be slowed down to 0/0 Mbit/s.

Before using up the domestic data volume included in the monthly fee, or after using up the domestic data volume included in the Automatikus PluszAdat 150 MB option, a supplemental data option must be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded after the domestic data volume included in the Automatikus PluszAdat 150 MB option is exhausted. If the Subscriber or the User has exhausted the domestic data volume included in the package and the Automatikus PluszAdat 150 MB Adat option, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

Detailed description of the PluszAdat option (supplemental option) that can be ordered for the Ready Business Plus service package is contained in the following table.

Available PluszAdat	Domestic data volume included	Fee (net)
PluszAdat 100 MB for contracts concluded before 1 September 2015	100 MB	HUF 393.7
PluszAdat 150 MB for contracts concluded after 1 September 2015	150 MB	HUF 590.55
PluszAdat 500 MB	500 MB	HUF 787.4

PluszAdat may also be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which Ready Business Plusz subscription belongs.

Detailed description of the Monthly Renewable PluszAdat (supplemental option) that can be ordered for the Ready Business Plus service package is contained in the following table.

Monthly Renewable PluszAdat option may be purchased to the Ready Business Plus service packages, which supplemental option is a renewable option, reactivated every billing cycle, i.e. it will not have to be reordered. Monthly Renewable PluszAdat may also be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which Ready Business Plusz subscription belongs.

Available Monthly Renewable PluszAdat	Domestic data volume included	Fee (net)
Monthly Renewable PluszAdat 1 GB	1 GB	HUF 1181.1

If the Monthly Renewable PluszAdat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The Monthly Renewable PluszAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat option may be purchased in addition to the Monthly Renewable PluszAdat option in a given billing period.

If a PluszAdat option has not been used up fully until the moment of the purchase of the next PluszAdat option, then the unused remaining data traffic of the existing PluszAdat (supplemental) option will be lost. The PluszAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat options can be purchased in a billing cycle. PluszAdat options are non-renewable options that have to be repurchased in every billing cycle, if needed.

Automatikus PluszAdat 150 MB that can be activated after having exhausted the domestic data limit, once per billing cycle (HUF), in case of a subscription contract concluded after 01/07/2015,	393.7	393.7	393.7
Charge for International SMS to countries within the area of validity of the RED EU International tariff zone (HUF)	in accordance with Section 9 of the GTC		
Charge for International SMS to countries outside the preferential zone (HUF)	37.79	37.79	37.79

The prices indicated in the following tables are net prices, not including VAT. Calls are billed in units of one second.

Unlimited airtime minutes, SMS/MMS messages included in the monthly fee only apply to domestic standard-rate calls, sent SMS and MMS messages. Domestic standard-rate directions mean standard-rate calls made to the domestic network of Vodafone and other mobile service providers, standard-rate calls made to domestic fixed-line numbers, standard-rate SMS, standard-rate MMS, and in case of Ready Business More service packages – as far as fees are concerned – domestic standard-rate directions also mean calls made to special-rate numbers (e.g. voicemail).

In foreign countries the valid Roaming tariffs will apply. The detailed description of the Vodafone EU Roaming service is in point 5.5 of this Annex called List of Rates.

The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. Billing unit: 10 Kbyte. If the Subscriber does not use up the traffic limit included in the monthly fee, it cannot roll over the remaining part to the next billing cycle. Data traffic included in the monthly fee applies only to domestic use.

In the case of the Ready Business More service packages, the slowdown that takes effect after exhausting the domestic data limit included in the monthly fee and that lasts until the end of the billing cycle shall be 0/0 Mbit/s.

In the case of subscription contracts concluded after 1 July 2015, the Ready Business More service packages are supplemented once per billing cycle with the Automatikus PluszAdat option containing 150 MB of domestic data traffic at a rate of HUF 393.7 net. This option is activated automatically after the domestic data volume included in the monthly fee is exhausted; or, if a supplemental data option has been purchased on the Netinfo site before the domestic data volume included in the monthly fee is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted; or, if one or more further supplemental data option(s) has (have) been purchased before the domestic data volume included in the supplemental data volume on the Netinfo site is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted. The data traffic of the Automatikus PluszAdat 150 MB option can be used until the end of the given billing cycle, and is not divisible. The Automatikus PluszAdat 150 MB option is renewed monthly but is only activated and billed upon continuing data use after the domestic data volume included in the monthly fee or supplemental data option(s) is exhausted. After the data volume included in the Automatikus PluszAdat 150 MB option, the speed will be slowed down to 0/0 Mbit/s.

Before using up the domestic data volume included in the monthly fee, or after using up the domestic data volume included in the Automatikus PluszAdat 150 MB option, a supplemental data option must be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded after the domestic data volume included in the Automatikus PluszAdat 150 MB option is exhausted. If the Subscriber or the User has exhausted the domestic data volume included in the package and the Automatikus PluszAdat 150 MB Adat option, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

The Ready Business More service packages can exclusively be used in compliance with the terms of use for Medium and Large Enterprise subscribers to satisfy the personal communication needs of natural person users (personal use). Intended personal use does not include the following: if the Subscriber or user uses the SIM card pertaining to the service package inserted in a non-mobile phone; making automated calls that do not require the personal involvement of the user; making mass calls (the duration of which exceeds the 10% of the total duration of outgoing calls) to automated call receiving devices, equipment (such as, but not exclusively to IVR); making mass calls in order to test, make trial runs or to test the resilience or vulnerability etc. of services, technical instruments or equipment; making calls that regularly exceeds 180 minutes per day for the remote monitoring of people, structures, events, etc. (e.g. but not exclusively: asset protection, baby monitoring functions); making calls for establishing machine-to-machine connection (M2M); making or diverting calls in a

total duration of more than 24 hours per day; making mass calls or sending bulk SMS of which the Service Provider has reasonable grounds to believe having been made to gain direct benefit by the Subscriber, the User or any other third parties at the expense of the Service Provider. It is strictly prohibited to use the service package with devices that do not have their own display, speaker, microphone and keyboard (including touch-screen keyboard), such as for example adapter, modem. The service packages shall not be used in an abusive manner, among others, for telemarketing, customer service activities or other business purposes. Abusive use shall include the behaviour of sending SMS and MMS messages in a manner contrary to the conditions of personal use, where the number of SMS/MMS messages sent via the subscription exceeds several hundred per day, or the proportion of the number of SMS/MMS messages sent via the subscription involved and that of their recipients exceeds 10%, or the proportion of the number of SMS/MMS messages and that of the replies to them is lower than 80%, or the SMS/MMS messages are sent by the subscriber typically from one location. In the event of abusive use, or the violation of the conditions of personal use, after prior notice from the Service Provider, the service will be available to the Subscriber according to the conditions of the Medium and Large Enterprise Basic Tariff.

The Ready Business More SIM package is not available with preferential handset purchase.

The Ready Business More Start and Ready Business More Pro service packages also include Basic handset insurance service. The terms of using the handset insurance service are specified in Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time. Terminating the handset insurance service in accordance with Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time, shall not result in the change of the monthly fee of the above mentioned service packages. If the criteria of using the handset insurance service have been met, a discount from the monthly fee of the tariff package is provided that equals to the monthly fee of the service.

The "free conversation within the Group" option included in the Ready Business More service packages allows the settlement of voice and SMS traffic within the Vodafone Hungary network made between the SIM cards of the Medium and Large Enterprise Subscriber that were belonging to the "Wireless Office 2" group or the "Closed Group" (in terms of pricing) at a minute charge of HUF 0, even if a member of the "Wireless Office 2" group or the "Closed Group" does not have a Ready Business service package detailed in this section 2.1.9 but other Vodafone Individual Tariff Plan regulated in an Agreement concluded by and between the Service Provider and the Medium and Large Enterprise Subscriber.

The "Költségkontroll" (Cost Control) and the "Készülékkontroll" (Handset Control) services can be ordered by signing the relevant annex to the Cooperation Agreement concluded by and between the Subscriber and the Service Provider.

The Call separation service allows the Cost control service. The "Hívásszétválasztás" (Call separation) service allows for the separation of the business and private use of the SIM card. For further details, refer to the "Call separation" section of the GTC.

The Handset control service allows the Medium and Large Enterprise Subscriber to remotely control the smartphones and tablets (hereinafter jointly: smart device or smart devices) it uses, as well as their content. For further details, refer to the General Terms and Conditions of Other Services.

The Car SIM Card service, the Conference call service, the Fixed-line area option, as well as the All fixed-line area option are not available with Ready Business More service packages.

The charges of international calls and the zone classification of the countries that can be reached by international calls are contained in Section 9 of Annex 1 on Tariffs.

PluszAdat (supplemental option)

A supplemental data option (PluszAdat) can be purchased for Ready Business More service packages, whose detailed description is contained in the following table. PluszAdat may also be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which Ready Business More subscription belongs.

Available PluszAdat	Domestic data volume included	Fee (net)
PluszAdat 100 MB for contracts concluded before 1 September 2015	100 MB	HUF 393.7
PluszAdat 150 MB for contracts concluded after 1 September 2015	150 MB	HUF 590.55
PluszAdat 500 MB	500 MB	HUF 787.4
PluszAdat 1 GB for specific subscription contracts concluded before 01/07/2015	1 GB	HUF 1,181.1

PluszAdat 1 GB for specific subscription contracts concluded after 1 July 2015	1 GB	HUF 1,574.8
--	------	-------------

If a PluszAdat option has not been used up fully until the moment of the purchase of the next PluszAdat option, then the unused remaining data traffic of the existing PluszAdat option will be lost. The PluszAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat options can be purchased in a billing cycle. PluszAdat options are non-renewable options that have to be repurchased in every billing cycle, if needed.

Monthly Renewable PluszAdat (supplemental option)

Monthly Renewable PluszAdat option may be purchased to the Ready Business More service packages, which supplemental option is a renewable option, reactivated every billing cycle, i.e. it will not have to be reordered. Monthly Renewable PluszAdat may also be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which Ready Business More subscription belongs.

Available Monthly Renewable PluszAdat	Domestic data volume included	Fee (net)
Monthly Renewable PluszAdat 1 GB	1 GB	HUF 1181.1

If the Monthly Renewable PluszAdat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The Monthly Renewable PluszAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat option may be purchased in addition to the Monthly Renewable PluszAdat option in a given billing period.

In case of specific subscription contracts concluded after 7 September 2015, the following MultiNet Standard (mobile Internet based) tariff packages are available for the Ready Business Most service package: The MultiNet Standard packages may only be used with the Ready Business Most service package, as secondary SIM cards, by dividing the domestic data traffic included in the Ready Business Most service package.

	MultiNet Standard Mifi	MultiNet Standard SIM
Initial costs		
Entry fee (HUF)	-	-
Monthly fees		
Monthly subscription fee (HUF) with an indefinite term contract	7,874	7,874
Monthly subscription fee (HUF) with contracts of a 2-year fixed term	0	0
Domestic data traffic included in the monthly fee	same as in Ready Business Most package, shared therewith	
Offered bandwidth above monthly divisible data traffic (download/upload, Mbit/s)	0/0	0/0
Guaranteed speed	in accordance with section 4.1 of the GTC	
SMS to any domestic network (HUF)	24	24

MultiNet Standard packages concluded after 7 September 2015 are available without handset purchase. In case of handset purchase, the Subscriber shall choose from the following supplemental options:

Supplemental option	Monthly subscription fee of the option (HUF) with contracts of a 2-year fixed term	Content of the option for MultiNet Standard tariffs
S supplemental option	787.4	Basic handset insurance
M supplemental option	1,574.8	Basic handset insurance + Sending 15 MMS messages free of charge to any domestic, standard rate network
L supplemental option	3,937.00	Basic handset insurance + Sending 15 MMS messages free of charge to any domestic, standard rate network + 10% monthly fee discount from the monthly fee of any Office 365 service
XL supplemental option	6,299.21	Basic handset insurance + Sending 15 MMS messages free of charge to any domestic, standard rate network + 10% monthly fee discount from the monthly fee of any Office 365 service + 1 x free Világ (World) Daily Ticket per billing cycle

Unlimited airtime minutes, SMS/MMS messages included in the monthly fee only apply to domestic standard-rate calls, sent SMS and MMS messages. Domestic standard-rate directions mean standard-rate calls made to the domestic network of Vodafone and other mobile service providers, standard-rate calls made to domestic fixed-line numbers, standard-rate SMS, standard-rate MMS, and in case of Ready Business Most service packages – as far as fees are concerned – domestic standard-rate directions also mean calls made to special-rate numbers (e.g. voicemail).

The charges of international calls and the countries that can be reached by international calls, as well as the zone classification thereof are contained in Section 9 of this Annex.

In foreign countries the valid Roaming tariffs will apply. The detailed description of the Vodafone EU Roaming service is in point 5.5 of this Annex called List of Rates.

The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. Billing unit: 10 Kbyte. If the Subscriber does not use up the traffic limit included in the monthly fee, it cannot roll over the remaining part to the next billing cycle. Data traffic included in the monthly fee applies only to domestic use.

In the case of the Ready Business Most service packages, the slowdown that takes effect after exhausting the domestic data limit included in the monthly fee and that lasts until the end of the billing cycle shall be 0/0 Mbit/s.

In the case of subscription contracts concluded after 1 July 2015, the Ready Business Most service packages are supplemented once per billing cycle with the Automatikus PluszAdat option containing 150 MB of domestic data traffic at a rate of HUF 393.7 net. This option is activated automatically after the domestic data volume included in the monthly fee is exhausted; or, if a supplemental data option has been purchased on the Netinfo site before the domestic data volume included in the monthly fee is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted; or, if one or more further supplemental data option(s) has (have) been purchased before the domestic data volume included in the supplemental data volume on the Netinfo site is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted. The data traffic of the Automatikus PluszAdat 150 MB option can be used until the end of the given billing cycle, and is not divisible. The Automatikus PluszAdat 150 MB option is renewed monthly but is only activated and billed upon continuing data use after the domestic data volume included in the monthly fee or supplemental data option(s) is exhausted. After the data volume included in the Automatikus PluszAdat 150 MB option, the speed will be slowed down to 0/0 Mbit/s.

Before using up the domestic data volume included in the monthly fee, or after using up the domestic data volume included in the Automatikus PluszAdat 150 MB option, a supplemental data option must be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded after the domestic data volume included in the Automatikus PluszAdat 150 MB option is exhausted. If the Subscriber or the User has exhausted the domestic data volume included in the package and the

Automatikus PluszAdat 150 MB Adat option, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

The MultiNet card only provides data transmission service; voice services are not available thereon. Only customers who have specific a subscription contract for Ready Business Most package concluded after 1 August 2015 are eligible for MultiNet Standard tariffs. Maximum 1 MultiNet package can be purchased in the offer with a single subscription for Ready Business Most. The Subscriber is eligible for the MultiNet package, as long as he maintains his fixed or indefinite-term Ready Business Most subscription. If the primary subscription concluded for the Ready Business Most service package is cancelled, the subscription contract concluded for the 2nd SIM card will be also terminated. If the primary subscription concluded for the Ready Business Most tariff package is changed, we will convert SIM card 2 to Internet Base tariff.

In the case of the MultiNet tariffs, after using up the monthly data traffic limit, a supplemental option must be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber or the User has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle. Guaranteed speed above the data traffic included in the monthly subscription fee (download/upload Mbit/s) is determined in accordance with section 4.1 of the GTC.

In the case of the Ready Business Most service packages, the Subscriber or the User, who/which, after having exhausted the data limit included in the package, divides supplemental data options that can be ordered by the Subscriber or other users of secondary SIM card belonging to MultiNet tariffs as authorized by Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>) for continuing Internet use until account closure, is only able to monitor his own data use on the Netinfo page (<http://netinfo.vodafone.hu>), for technical reasons, and does not have any information on the specific amount of data traffic of the secondary SIM card that may use the divisible data volume. If the user of the secondary SIM card belonging to the MultiNet tariff, who has been duly authorized by the Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>), orders a supplemental data option, the fee or the supplemental data option shall be invoiced to the subscription belonging to the primary SIM card.

The Ready Business Most service packages can exclusively be used in compliance with the terms of use for Medium and Large Enterprise subscribers to satisfy the personal communication needs of natural person users (personal use). Intended personal use does not include the following: if the Subscriber or user uses the SIM card pertaining to the service package inserted in a non-mobile phone; making automated calls that do not require the personal involvement of the user; making mass calls (the duration of which exceeds the 10% of the total duration of outgoing calls) to automated call receiving devices, equipment (such as, but not exclusively to IVR); making mass calls in order to test, make trial runs or to test the resilience or vulnerability etc. of services, technical instruments or equipment; making calls that regularly exceeds 180 minutes per day for the remote monitoring of people, structures, events, etc. (e.g. but not exclusively: asset protection, baby monitoring functions); making calls for establishing machine-to-machine connection (M2M); making or diverting calls in a total duration of more than 24 hours per day; making mass calls or sending bulk SMS of which the Service Provider has reasonable grounds to believe having been made to gain direct benefit by the Subscriber, the User or any other third parties at the expense of the Service Provider. It is strictly prohibited to use the service package with devices that do not have their own display, speaker, microphone and keyboard (including touch-screen keyboard), such as for example adapter, modem. The service packages shall not be used in an abusive manner, among others, for telemarketing, customer service activities or other business purposes. Abusive use shall include the behaviour of sending SMS and MMS messages in a manner contrary to the conditions of personal use, where the number of SMS/MMS messages sent via the subscription exceeds several hundred per day, or the proportion of the number of SMS/MMS messages sent via the subscription involved and that of their recipients exceeds 10%, or the proportion of the number of SMS/MMS messages and that of the replies to them is lower than 80%, or the SMS/MMS messages are sent by the subscriber typically from one location. In the event of abusive use, or the violation of the conditions of personal use, after prior notice from the Service Provider, the service will be available to the Subscriber according to the conditions of the Medium and Large Enterprise Basic Tariff.

The Ready Business Most SIM package is not available with preferential handset purchase.

The Ready Business Most Start, Ready Business Most Standard, Ready Business Most Pro and Ready Business Most Premium service packages also include Basic handset insurance service. The terms of using the handset insurance service are specified in Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time. Terminating the handset insurance service in accordance with Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time, shall not result in the change of the monthly fee of the above mentioned service packages. If the criteria of using the handset insurance service have been met, a discount from the monthly fee of the tariff package is provided that equals to the monthly fee of the service.

The “free conversation within the Group” option included in the Ready Business Most service packages allows the settlement of voice and SMS traffic within the Vodafone Hungary network made between the SIM cards of the Medium and Large Enterprise Subscriber that were belonging to the “Wireless Office 2” group or the “Closed Group” (in terms of pricing) at a minute charge of HUF 0, even if a member of the “Wireless Office 2” group or the “Closed Group” does not have a Ready Business service package detailed in this section 2.1.9 but other Vodafone Individual Tariff Plan regulated in an Agreement concluded by and between the Service Provider and the Medium and Large Enterprise Subscriber.

The “Költségkontroll” (Cost Control) and the “Készülékkontroll” (Handset Control) services can be ordered by signing the relevant annex to the Cooperation Agreement concluded by and between the Subscriber and the Service Provider.

The Call separation service allows the Cost control service. The “Hívássztválasztás” (Call separation) service allows for the separation of the business and private use of the SIM card. For further details, refer to the “Call separation” section of the GTC.

The Handset control service allows the Medium and Large Enterprise Subscriber to remotely control the smartphones and tablets (hereinafter jointly: smart device or smart devices) it uses, as well as their content. For further details, refer to the General Terms and Conditions of Other Services.

The description and terms of use of the Világ Napijegy (World Daily Ticket) are contained in Section 5.2.2 of this Annex 1.

The Car SIM Card service, the Conference call service, the Fixed-line area option, as well as the All fixed-line area option are not available with Ready Business Most service packages.

PluszAdat (supplemental option)

A supplemental data option (PluszAdat) can be purchased for Ready Business Most service packages, whose detailed description is contained in the following table. PluszAdat may also be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which Ready Business More subscription belongs.

Available PluszAdat	Domestic data volume included	Fee (net)
PluszAdat 100 MB for contracts concluded before 1 September 2015	100 MB	HUF 393.7
PluszAdat 150 MB for contracts concluded after 1 September 2015	150 MB	HUF 590.55
PluszAdat 500 MB	500 MB	HUF 787.4
PluszAdat 1 GB for specific subscription contracts concluded before 01/07/2015	1 GB	HUF 1,181.1
PluszAdat 1 GB for specific subscription contracts concluded after 1 July 2015	1 GB	HUF 1,574.8

If a PluszAdat option has not been used up fully until the moment of the purchase of the next PluszAdat option, then the unused remaining data traffic of the existing PluszAdat option will be lost. The PluszAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat options can be purchased in a billing cycle. PluszAdat options are non-renewable options that have to be repurchased in every billing cycle, if needed.

Monthly Renewable PluszAdat (supplemental option)

Monthly Renewable PluszAdat option may be purchased to the Ready Business Most service packages, which supplemental option is a renewable option, reactivated every billing cycle, i.e. it will not have to be reordered. Monthly Renewable PluszAdat may also be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which Ready Business Most subscription belongs.

Available Monthly Renewable PluszAdat	Domestic data volume included	Fee (net)
Monthly Renewable PluszAdat 1 GB	1 GB	HUF 1181.1

If the Monthly Renewable PluszAdat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The Monthly Renewable PluszAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat option may be purchased in addition to the Monthly Renewable PluszAdat option in a given billing period.

Plusz Osztható Adat (supplemental option)

Supplemental divisible data option (Plusz Osztható Adat) can be purchased for the Ready Business Most service packages, the data quantity of which may be used with the SIM card of the Ready Business Most packages and the SIM card of MultiNet tariff.

Plusz Osztható Adat can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and handset to which the Ready Business Most or MultiNet subscription belongs.

The fee of the Plusz Osztható Adat supplemental option is charged in all cases to the voice-based subscription, that is, the Ready Business Most package.

Available Plusz Osztható Adat	Domestic data volume included	Fee (net)	Service package
Plusz Osztható Adat 100 MB	100 MB	HUF 590.6	Primary SIM belonging to the Ready Business Most tariff and the secondary SIM belonging to the MultiNet tariff
Plusz Osztható Adat 1 GB	1 GB	HUF 1574.8	Primary SIM belonging to the Ready Business Most tariff and the secondary SIM belonging to the MultiNet tariff
Plusz Osztható Adat 3 GB	3 GB	HUF 2354.3	Primary SIM belonging to the Ready Business Most tariff and the secondary SIM belonging to the MultiNet tariff
Plusz Osztható Adat 8 GB	8 GB	HUF 3141.7	Primary SIM belonging to the Ready Business Most tariff and the secondary SIM belonging to the MultiNet tariff

If a Plusz Osztható Adat option is not completely used by the time of purchasing the next Plusz Osztható Adat option, the unused remaining data traffic of the existing Plusz Osztható Adat (supplemental option) will be lost. The Plusz Osztható Adat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat options can be purchased in a billing cycle. PluszAdat options are non-renewable options that have to be repurchased in every billing cycle, if needed.

The Plusz Osztható Adat 8 GB supplemental option can only be used in Hungary. The service is not available abroad.

Monthly Renewable Plusz Osztható Adat (supplemental option) for Ready Business Most packages

Monthly Renewable Plusz Osztható Adat supplemental option may be ordered for the Ready Business Most packages, which is a renewable data option, reactivated every billing cycle, i.e. it will not have to be reordered. Monthly Renewable Plusz Osztható Adat supplemental option can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from both the primary SIM card belonging to the Ready Business Most package and the secondary MultiNet SIM card.

Available Monthly Renewable Plusz Osztható Adat options	Domestic data volume included	Fee (net)	Service package
Monthly Renewable Plusz Osztható Adat 1 GB	1 GB	HUF 1181.1	Primary SIM belonging to the Ready Business Most tariff and the secondary SIM belonging to the MultiNet tariff
Monthly Renewable Plusz Osztható Adat 8 GB	8 GB	HUF 3141.7	Primary SIM belonging to the Ready Business Most tariff and the secondary SIM belonging to the MultiNet tariff

If the Monthly Renewable Plusz Osztható Adat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The Monthly Renewable Plusz Osztható Adat option may exclusively be used by the end of the given billing cycle in domestic networks.

The Monthly Renewable Plusz Osztható Adat 8 GB supplemental option can only be used in Hungary. The service is not available abroad.

ExtraAdat (supplemental option) for MultiNet tariff

ExtraAdat (supplemental option) option may be purchased for the MultiNet tariff packages anytime within the billing cycle, described in detail in the following table. The ExtraAdat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the MultiNet subscription belongs.

Available ExtraAdat	Domestic data volume included	Fee (net)
---------------------	-------------------------------	-----------

ExtraAdat 200 MB	200 MB	HUF 393.7
ExtraAdat 1 GB	1 GB	HUF 1574.8

If an ExtraAdat option is not completely used by the time of purchasing the next ExtraAdat option, the unused remaining data traffic will be lost. The ExtraAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of ExtraAdat options can be purchased in a billing cycle. ExtraAdat is a non-renewable option that has to be repurchased in every billing cycle, if needed.

Monthly Renewable ExtraAdat (supplemental option) for MultiNet subscription contracts concluded after 1 September 2015

A monthly renewable Extra Adat (supplemental option) option may be purchased to the MultiNet tariff packages, which supplemental option is a renewable option, reactivated every billing cycle, i.e. it will not have to be reordered. The monthly renewable Extra Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the MultiNet subscription belongs.

Available Monthly Renewable ExtraAdat	Domestic data volume included	Fee (net)
Monthly Renewable ExtraAdat 1 GB	1 GB	HUF 1181.1

If the Monthly Renewable Extra Adat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The Monthly Renewable Extra Adat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of Extra Adat option may be purchased in addition to the Monthly Renewable Adat option in a given billing period.

In case of making calls from a foreign country using the traffic limit for international calls that is included in the monthly fee of the Ready Business Most package, the following rules shall apply:

In the case of foreign use, if the Subscriber has Világ Napijegy service, is billed automatically based on the first billable event (call initiated or received, SMS sent, or data downloaded or uploaded in a roaming environment) generated by the Subscriber on the concerned calendar day.

Origin of call	Type of roaming service activated on the subscription	Charge payable as per the call / sending direction	
		In case of calls initiated to numbers of the country of origin	In case of calls initiated to countries other than the country of origin that are available for the roaming service
Countries of roaming tariff zone 1 classified in accordance with the zone classification of the traffic-based roaming service, as well as Switzerland, Turkey, Norway, Liechtenstein, Iceland	Vodafone EU Roaming service	The traffic limit that can be used in international direction will be reduced by the duration of the call while the available limit lasts. After the available limit is exhausted, the call charge as per the tariffs of calls initiated from Hungary to abroad shall be payable per billing unit of international calls, which cannot exceed the Regulated Retail Limit, as specified in Section 5.1 of this Annex 1 of the GTC.	The traffic limit that can be used in international direction will be reduced by the duration of the call while the available limit lasts. After the available limit is exhausted, the call charge as per the tariffs of calls initiated from Hungary to abroad shall be payable per billing unit of international calls, which cannot exceed the Regulated Retail Limit, as specified in Section 5.1 of this Annex 1 of the GTC.
Countries of roaming tariff zone 1 classified in accordance with the zone classification of the traffic-based roaming service	Only if the traffic-based roaming service is activated (the Subscriber does not have active Vodafone EU Roaming service)	The traffic limit that can be used in international direction will not be reduced by the duration of the call, the charges of calls initiated from countries of roaming tariff zone 1 classified in accordance with the zone classification of the traffic-based roaming service will apply as per section 5.1 of this Annex 1 to the GTC.	The traffic limit that can be used in international direction will not be reduced by the duration of the call, the charges of calls initiated from countries of roaming tariff zone 1 classified in accordance with the zone classification of the traffic-based roaming service will apply as per section 5.1 of this Annex 1 to the GTC.
Switzerland or Turkey	Only traffic-based roaming service (the Subscriber does not have active Vodafone EU Roaming service)	The traffic limit that can be used in international direction will not be reduced by the duration of the call, the charges of calls initiated from countries of zone 2 will apply as per section 5.1 of this Annex 1 to the GTC.	The traffic limit that can be used in international direction will not be reduced by the duration of the call, the charges of calls initiated from countries of zone 2 will apply as per section 5.1 of this Annex 1 to the GTC.
Outside of the scope of validity of Világ	Világ Napijegy (World Daily Ticket) service	The traffic limit that can be used in international direction will not be reduced by the duration of	The traffic limit that can be used in international direction will not be reduced by

Napijegy		the call, the traffic-based roaming charges of the place of current residence will apply as per section 5.1 of this Annex 1 to the GTC.	the duration of the call, the traffic-based roaming charges of the place of current residence will apply as per section 5.1 of this Annex 1 to the GTC.
Within the scope of validity of Világ Napijegy	Only traffic-based roaming service (the Subscriber does not have active Világ Napijegy service)	The traffic limit that can be used in international direction will not be reduced by the duration of the call, the traffic-based roaming charges of the place of current residence will apply as per section 5.1 of this Annex 1 to the GTC.	The traffic limit that can be used in international direction will not be reduced by the duration of the call, the traffic-based roaming charges of the place of current residence will apply as per section 5.1 of this Annex 1 to the GTC.
Within the scope of validity of Világ Napijegy	Világ Napijegy (World Daily Ticket) service	The traffic limit that can be used in international direction will not be reduced by the duration of the call: the minute charges applicable to domestic standard rate calls in the service package shall apply (HUF 0).	The limit that can be used in international direction will be reduced by the duration of the call while the available limit lasts. After the available limit is exhausted, the call charge as per the tariffs of calls initiated from Hungary to abroad shall be payable per billing unit of international calls, as specified in Section 9 of this Annex 1 of the GTC.

With the traffic limit for international calls that is included in the Ready Business Most package, in the case of initiating calls from the territory of Hungary to an international number, the traffic limit that can be used in international direction will be reduced by the duration of the call while the available limit lasts. After that, the charges applicable to international calls shall apply. The charges of international calls and the countries that can be reached by international calls are contained in Section 9 of Annex 1 on Tariffs.

Those Subscribers who conclude new specific subscription contracts before 31 July 2015 for Ready Business Most service package are eligible for a second SIM card in addition to their Ready Business Most service package.

On the second SIM card provided for the Ready Business Most service package, the following tariff packages are available as secondary Internet subscriptions: Red Tablet 2GB (A,B,C,D), Red MiFi 2GB, and Red MobilNet 2GB SIM.

	Red Tablet 2GB A	Red Tablet 2 GB B	Red Tablet 2 GB C	Red Tablet 2 GB D	Red MiFi 2 GB	Red MobilNet 2 GB SIM
Initial costs						
Entry fee				-		
Monthly fees						
Monthly subscription fee (HUF) with an indefinite term contract				7,874.02		
Monthly subscription fee (HUF) with contracts of a 2-year fixed term	6,299.21	3,937.01	2,362.2	1,574.8	0	0
Domestic data traffic included in the monthly fee				2 GB		
Handset insurance	Basic	Basic	Basic	Basic	-	-
Offered bandwidth above the data traffic included in the monthly traffic (down/up, Mbit/s)				0.125/0.125		
Guaranteed speed				in accordance with section 4.1 of the GTC		
SMS to any domestic network (HUF)				24		

The tariff packages of the secondary SIM provide data transmission service only; they cannot be used for voice services. Data traffic refers to the aggregate amount of domestic sent and received data. Billing unit: 10 Kbyte.

The data volume included in the Ready Business Most packages and the data volume of the 2nd Sim card cannot be combined, nor can they be divided between each other. If the Subscriber does not use up the monthly traffic limit, the remaining part cannot be rolled over to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions.

The monthly fee of the Red Tablet 2GB (A,B,C,D) service packages also includes Basic handset insurance service. The terms of using the handset insurance service are specified in Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time. The handset insurance service is only provided for handsets purchased from Vodafone no more than 60 days to date and Vodafone does not provide this service for devices purchased prior to the above date. Terminating the handset insurance service in accordance with Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time, shall not result in the change of the monthly fee of the above mentioned service packages. If the criteria of using the handset insurance

service have been met, a discount from the monthly fee of the tariff package is provided that equals to the monthly fee of the service.

Maximum 1 secondary Internet subscription can be purchased in the offer with a single subscription for Ready Business Most. The Subscriber is eligible for the secondary Internet subscription, as long as he maintains his fixed or indefinite-term Ready Business Most subscription. If the primary subscription concluded for the Ready Business Most service package is cancelled, the subscription contract concluded for the 2nd SIM card will be also terminated. If the primary subscription concluded for the Ready Business Most tariff package is changed, we will convert SIM card 2 to Internet Base tariff.

In the case of the Red Tablet 2GB (A,B,C,D), Red MiFi 2GB, and Red MobilNet 2GB SIM tariffs indicated in the above table, after using up the monthly data traffic limit, an ExtraAdat supplemental option must be purchased to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle. Subscriber can order the supplemental data option at the large enterprise customer service, phone number 1788, after completing the necessary customer identification.

Name of supplemental data option	ExtraAdat 100 MB	ExtraAdat 500 MB	ExtraAdat 1 GB
Gross fee	HUF 393.7	HUF 551.18	HUF 1181.1
Domestic data traffic included	100 MB	500 MB	1 GB
Offered bandwidth (down/up, Mbit/s)	Same as the tariff package of the secondary Internet subscription		
Guaranteed speed	See section 4.1 of the GTC		
Offered bandwidth above the included data traffic (download/upload, Mbit/s)	Same as the tariff package of the secondary Internet subscription		
Guaranteed speed above the included data traffic	See section 4.1 of the GTC		

If an ExtraAdat option is not completely used by the time of purchasing the next ExtraAdat option, the remaining data traffic will be lost. The ExtraAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of ExtraAdat options can be purchased in a billing cycle.

The ExtraAdat options are non-renewable options that have to be repurchased in every billing cycle where the Subscriber intends to use those.

The prices indicated in the following tables are net prices, not including VAT. Calls are billed in units of one second.

The MultiNet Premium (mobile internet based) tariff packages are available for the Ready Business Everything service package in case of specific subscription contracts concluded between 1 August and 7 September 2015, which may only be used with the above Ready Business Everything service package, as secondary SIM cards, by dividing the domestic data traffic included in the Ready Business Everything service package:

	MultiNet Premium Tablet A	MultiNet Premium Tablet B	MultiNet Premium Tablet C	MultiNet Premium Tablet D	MultiNet Premium Mifi	MultiNet Premium SIM	MultiNet Premium
Initial costs							
Entry fee (HUF)	-						
Monthly fees							
Monthly subscription fee (HUF) with an indefinite term contract	7874						
Monthly subscription fee (HUF) with contracts of a 2-year fixed term	6,299	3,937	2,362	1,575	0	0	0
Domestic data traffic included in the monthly fee	same as in Ready Business Everything package, shared therewith						
Handset insurance	Extra	Extra	Extra	Extra	-	-	Extra
Offered bandwidth above the divisible data traffic included in the monthly subscription fee (down/up, Mbit/s)	0/0						
Guaranteed speed	in accordance with section 4.1 of the GTC						
SMS to any domestic network (HUF)	24						

In case of specific subscription contracts concluded after 7 September 2015, the following MultiNet Premium (mobile Internet based) tariff packages are available for the Ready Business Everything service package: The MultiNet Premium packages may only be used with the Ready Business Everything service package, as secondary SIM cards, by dividing the domestic data traffic included in the Ready Business Everything service package.

	MultiNet Premium Mifi	MultiNet Premium SIM
Initial costs		
Entry fee (HUF)	-	-
Monthly fees		
Monthly subscription fee (HUF) with an indefinite term contract	7,874	7,874
Monthly subscription fee (HUF) with contracts of a 2-year fixed term	0	0
Domestic data traffic included in the monthly fee	same as in Ready Business Everything package, shared therewith	
Offered bandwidth above monthly divisible data traffic (download/upload, Mbit/s)	0/0	0/0
Guaranteed speed	in accordance with section 4.1 of the GTC	
SMS to any domestic network (HUF)	24	24

MultiNet Premium packages concluded after 7 September 2015 are available without handset purchase. In case of handset purchase, the Subscriber shall choose from the following supplemental options:

Supplemental option	Monthly subscription fee of the option (HUF) with contracts of a 2-year fixed term	Content of the option for MultiNet Premium tariffs
S supplemental option	787.4	Extra handset insurance
M supplemental option	1,574.8	Extra handset insurance + Sending 15 MMS messages free of charge to any domestic, standard rate network
L supplemental option	3,937.00	Extra handset insurance + Sending 15 MMS messages free of charge to any domestic, standard rate network + 10% monthly fee discount from the monthly fee of any Office 365 service
XL supplemental option	6,299.21	Extra handset insurance + Sending 15 MMS messages free of charge to any domestic, standard rate network + 10% monthly fee discount from the monthly fee of any Office 365 service + 1 x free Világ (World) Daily Ticket per billing cycle

Unlimited airtime minutes, SMS/MMS messages included in the monthly fee only apply to domestic standard-rate calls, sent SMS and MMS messages. Domestic standard-rate directions mean standard-rate calls made to the domestic network of Vodafone and other mobile service providers, standard-rate calls made to domestic fixed-line numbers, standard-rate SMS, standard-rate MMS, and in case of Ready Business Everything service packages – as far as fees are concerned – domestic standard-rate directions also mean calls made to special-rate numbers (e.g. voicemail).

The unlimited international minutes / SMS messages included in the monthly fee are only applicable to standard rate or special rate calls and sent SMS messages.

In foreign countries the valid Roaming tariffs will apply.

The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. Billing unit: 10 Kbyte. If the Subscriber does not use up the traffic limit included in the monthly fee, it cannot roll over the remaining part to the next billing cycle. Data traffic included in the monthly fee applies only to domestic use.

In the case of the Ready Business Everything service packages, the slowdown that takes effect after exhausting the domestic data limit included in the monthly fee and that lasts until the end of the billing cycle shall be 0/0 Mbit/s.

In the case of subscription contracts concluded after 1 July 2015, the Ready Business Everything service packages are supplemented once per billing cycle with the Automatikus PluszAdat option containing 150 MB of domestic data traffic at a rate of HUF 393.7 net. This option is activated automatically after the domestic data volume included in the monthly fee is exhausted; or, if a supplemental data option has been purchased on the Netinfo site before the domestic data volume included in the monthly fee is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted; or, if one or more further supplemental data option(s) has (have) been purchased before the domestic data volume included in the supplemental data volume on the Netinfo site is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted. The data traffic of the Automatikus

PluszAdat 150 MB option can be used until the end of the given billing cycle, and is not divisible. The Automatikus PluszAdat 150 MB option is renewed monthly but is only activated and billed upon continuing data use after the domestic data volume included in the monthly fee or supplemental data option(s) is exhausted. After the data volume included in the Automatikus PluszAdat 150 MB option, the speed will be slowed down to 0/0 Mbit/s.

Before using up the domestic data volume included in the monthly fee, or after using up the domestic data volume included in the Automatikus PluszAdat 150 MB option, a supplemental data option must be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded after the domestic data volume included in the Automatikus PluszAdat 150 MB option is exhausted. If the Subscriber or the User has exhausted the domestic data volume included in the package and the Automatikus PluszAdat 150 MB Adat option, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

The MultiNet card only provides data transmission service; voice services are not available thereon. Only customers who have specific a subscription contract for Ready Business Everything package concluded after 1 August 2015 are eligible for MultiNet Premium tariffs. Maximum 1 MultiNet package can be purchased in the offer with a single subscription for Ready Business Everything. The Subscriber is eligible for the MultiNet package, as long as he maintains his fixed or indefinite-term Ready Business Everything subscription. If the primary subscription concluded for the Ready Business Everything service package is cancelled, the subscription contract concluded for the 2nd SIM card will be also terminated. If the primary subscription concluded for the Ready Business Everything tariff package is changed, we will convert SIM card 2 to Internet Base tariff.

In the case of the MultiNet tariffs, after using up the monthly data traffic limit, a supplemental option must be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber or the User has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle. Guaranteed speed above the data traffic included in the monthly subscription fee (download/upload Mbit/s) is determined in accordance with section 4.1 of the GTC.

In the case of the Ready Business Everything service packages, the Subscriber or the User, who/which, after having exhausted the data limit included in the package, divides supplemental data options that can be ordered by the Subscriber or other users of secondary SIM card belonging to MultiNet tariffs as authorized by Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>) for continuing Internet use until account closure, is only able to monitor his own data use on the Netinfo page (<http://netinfo.vodafone.hu>), for technical reasons, and does not have any information on the specific amount of data traffic of the secondary SIM card that may use the divisible data volume. If the user of the secondary SIM card belonging to the MultiNet tariff, who has been duly authorized by the Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>), orders a supplemental data option, the fee or the supplemental data option shall be invoiced to the subscription belonging to the primary SIM card.

The Ready Business Everything service packages can exclusively be used in compliance with the terms of use for Medium and Large Enterprise subscribers to satisfy the personal communication needs of natural person users (personal use). Intended personal use does not include the following: if the Subscriber or user uses the SIM card pertaining to the service package inserted in a non-mobile phone; making automated calls that do not require the personal involvement of the user; making mass calls (the duration of which exceeds the 10% of the total duration of outgoing calls) to automated call receiving devices, equipment (such as, but not exclusively to IVR); making mass calls in order to test, make trial runs or to test the resilience or vulnerability etc. of services, technical instruments or equipment; making calls that regularly exceeds 180 minutes per day for the remote monitoring of people, structures, events, etc. (e.g. but not exclusively: asset protection, baby monitoring functions); making calls for establishing machine-to-machine connection (M2M); making or diverting calls in a total duration of more than 24 hours per day; making mass calls or sending bulk SMS of which the Service Provider has reasonable grounds to believe having been made to gain direct benefit by the Subscriber, the User or any other third parties at the expense of the Service Provider. It is strictly prohibited to use the service package with devices that do not have their own display, speaker, microphone and keyboard (including touch-screen keyboard), such as for example adapter, modem. The service packages shall not be used in an abusive manner, among others, for telemarketing, customer service activities or other business purposes. Abusive use shall include the behaviour of sending SMS and MMS messages in a manner contrary to the conditions of personal use, where the number of SMS/MMS messages sent via the subscription exceeds several hundred per day, or the proportion of the number of SMS/MMS messages sent via the subscription involved and that of their recipients exceeds 10%, or the proportion of the number of SMS/MMS messages and that of the replies to them is lower than 80%, or the SMS/MMS messages are sent by the subscriber typically from one location. In the event of abusive use, or the violation of the conditions of personal use, after prior notice from the Service Provider, the service will be available to the Subscriber according to the conditions of the Medium and Large Enterprise Basic Tariff.

The Ready Business Everything SIM package is not available with preferential handset purchase.

The Ready Business Everything Start, Ready Business Everything Standard, Ready Business Everything Pro and Ready Business Everything Premium service packages also include Extra handset insurance service. The terms of using the handset insurance service are specified in Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time. Terminating the handset insurance service in accordance with Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time, shall not result in the change of the monthly fee of the above mentioned service packages. If the criteria of using the handset insurance service have been met, a discount from the monthly fee of the tariff package is provided that equals to the monthly fee of the service.

The "free conversation within the Group" option included in the Ready Business Everything service packages allows the settlement of voice and SMS traffic within the Vodafone Hungary network made between the SIM cards of the Medium and Large Enterprise Subscriber that were belonging to the "Wireless Office 2" group or the "Closed Group" (in terms of pricing) at a minute charge of HUF 0, even if a member of the "Wireless Office 2" group or the "Closed Group" does not have a Ready Business service package detailed in this section 2.1.9 but other Vodafone Individual Tariff Plan regulated in an Agreement concluded by and between the Service Provider and the Medium and Large Enterprise Subscriber.

The "Költségkontroll" (Cost Control) and the "Készülékkontroll" (Handset Control) services can be ordered by signing the relevant annex to the Cooperation Agreement concluded by and between the Subscriber and the Service Provider.

The Call separation service allows the Cost control service. The "Hívásszétválasztás" (Call separation) service allows for the separation of the business and private use of the SIM card. For further details, refer to the "Call separation" section of the GTC.

The Handset control service allows the Medium and Large Enterprise Subscriber to remotely control the smartphones and tablets (hereinafter jointly: smart device or smart devices) it uses, as well as their content. For further details, refer to the General Terms and Conditions of Other Services.

By using the Vodafone Mini Bázis Plusz service (available within the Ready Business Everything service package free of charge), the Subscriber may ensure 3G/HSDPA coverage in its office premises. For further details, please refer to the General Terms and Conditions of Other Services.

If choosing XL supplemental option for the MultiNet Premium tariff, 1 Világ Napijegy per billing cycle can be used free of charge. The description and terms of using this service are contained in section 5.2.2 of this Annex 1 to the GTC.

The Car SIM Card service, the Conference call service, the Fixed-line area option, as well as the All fixed-line area option are not available with Ready Business Everything service packages.

PluszAdat (supplemental option)

A supplemental data option (PluszAdat) can be purchased for Ready Business Everything service packages, whose detailed description is contained in the following table. PluszAdat may also be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which Ready Business Everything subscription belongs.

Available PluszAdat	Domestic data volume included	Fee (net)
PluszAdat 100 MB for contracts concluded before 1 September 2015	100 MB	HUF 393.7
PluszAdat 150 MB for contracts concluded after 1 September 2015	150 MB	HUF 590.55
PluszAdat 500 MB	500 MB	HUF 787.4
PluszAdat 1 GB for specific subscription contracts concluded before 01/07/2015	1 GB	HUF 1,181.1
PluszAdat 1 GB for specific subscription contracts concluded after 1 July 2015	1 GB	HUF 1,574.8

If a PluszAdat option has not been used up fully until the moment of the purchase of the next PluszAdat option, then the unused remaining data traffic of the existing PluszAdat option will be lost. The PluszAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat options can be purchased in a billing cycle. PluszAdat options are non-renewable options that have to be repurchased in every billing cycle, if needed.

Monthly Renewable PluszAdat (supplemental option)

Monthly Renewable PluszAdat option may be purchased to the Ready Business Everything service packages, which supplemental option is a renewable option, reactivated every billing cycle, i.e. it will not have to be reordered. Monthly

Renewable PluszAdat may also be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which Ready Business Everything subscription belongs.

Available Monthly Renewable PluszAdat	Domestic data volume included	Fee (net)
Monthly Renewable PluszAdat 1 GB	1 GB	1181.1

If the Monthly Renewable PluszAdat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The Monthly Renewable PluszAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat option may be purchased in addition to the Monthly Renewable PluszAdat option in a given billing period.

Plusz Osztható Adat (supplemental option)

Supplemental divisible data option (Plusz Osztható Adat) can be purchased for the Ready Business Everything service packages, the data quantity of which may be used with the SIM card of the Ready Business Everything packages and the SIM card of MultiNet tariff.

Plusz Osztható Adat can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and handset to which the Ready Business Everything or MultiNet subscription belongs.

The fee of the Plusz Osztható Adat supplemental option is charged in all cases to the voice-based subscription, that is, the Ready Business Everything package.

Available Plusz Osztható Adat	Domestic data volume included	Fee (net)	Service package
Plusz Osztható Adat 100 MB	100 MB	HUF 590.6	Primary SIM belonging to the Ready Business Everything tariff and the secondary SIM belonging to the MultiNet tariff
Plusz Osztható Adat 1 GB	1 GB	HUF 1574.8	Primary SIM belonging to the Ready Business Everything tariff and the secondary SIM belonging to the MultiNet tariff
Plusz Osztható Adat 3 GB	3 GB	HUF 2354.3	Primary SIM belonging to the Ready Business Everything tariff and the secondary SIM belonging to the MultiNet tariff
Plusz Osztható Adat 8 GB	8 GB	HUF 3141.7	Primary SIM belonging to the Ready Business Everything tariff and the secondary SIM belonging to the MultiNet tariff

If a Plusz Osztható Adat option is not completely used by the time of purchasing the next Plusz Osztható Adat option, the unused remaining data traffic of the existing Plusz Osztható Adat (supplemental option) will be lost. The Plusz Osztható Adat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat options can be purchased in a billing cycle. PluszAdat options are non-renewable options that have to be repurchased in every billing cycle, if needed.

The Plusz Osztható Adat 8 GB supplemental option can only be used in Hungary. The service is not available abroad.

Monthly Renewable Plusz Osztható Adat (supplemental option) for Ready Business Everything packages

Monthly Renewable Plusz Osztható Adat supplemental option may be ordered for the Ready Business Everything packages, which is a renewable data option, reactivated every billing cycle, i.e. it will not have to be reordered. Monthly Renewable Plusz Osztható Adat supplemental option can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from both the primary SIM card belonging to the Ready Business Everything package and the secondary MultiNet SIM card.

Available Monthly Renewable Plusz Osztható Adat options	Domestic data volume included	Fee (net)	Service package
Monthly Renewable Plusz Osztható Adat 1 GB	1 GB	HUF 1181.1	Primary SIM belonging to the Ready Business Everything tariff and the secondary SIM belonging to the MultiNet tariff
Monthly Renewable Plusz Osztható Adat 8 GB	8 GB	HUF 3141.7	Primary SIM belonging to the Ready Business Everything tariff and the secondary SIM belonging to the MultiNet tariff

If the Monthly Renewable Plusz Osztható Adat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The Monthly Renewable Plusz Osztható Adat option may exclusively be used by the end of the given billing cycle in domestic networks.

The Monthly Renewable Plusz Osztható Adat 8 GB supplemental option can only be used in Hungary. The service is not available abroad.

ExtraAdat (supplemental option) for MultiNet tariff

ExtraAdat (supplemental option) option may be purchased for the MultiNet tariff packages anytime within the billing cycle, described in detail in the following table. The ExtraAdat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the MultiNet subscription belongs.

Available ExtraAdat	Domestic data volume included	Fee (net)
ExtraAdat 200 MB	200 MB	HUF 393.7
ExtraAdat 1 GB	1 GB	HUF 1574.8

If an ExtraAdat option is not completely used by the time of purchasing the next ExtraAdat option, the unused remaining data traffic will be lost. The ExtraAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of ExtraAdat options can be purchased in a billing cycle. ExtraAdat is a non-renewable option that has to be repurchased in every billing cycle, if needed.

Monthly Renewable ExtraAdat (supplemental option) for MultiNet subscription contracts concluded after 1 September 2015

A monthly renewable Extra Adat (supplemental option) option may be purchased to the MultiNet tariff packages, which supplemental option is a renewable option, reactivated every billing cycle, i.e. it will not have to be reordered. The monthly renewable Extra Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the MultiNet subscription belongs.

Available Monthly Renewable ExtraAdat	Domestic data volume included	Fee (net)
Monthly Renewable ExtraAdat 1 GB	1 GB	HUF 1181.1

If the Monthly Renewable Extra Adat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The Monthly Renewable Extra Adat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of Extra Adat option may be purchased in addition to the Monthly Renewable Adat option in a given billing period.

Világ Napijegy (World Daily Ticket) to the Ready Business Everything service packages

The monthly fee of the Ready Business Everything service package includes a Világ Napijegy option (America and/or Asia and/or Africa) per billing cycle from activating the subscription, which may be used free of charge for 3 calendar days until the expiry of the fixed period.

In case of a Ready Business Everything service package, the Világ Napijegy option provides the following services during the fixed term of the subscription contract on 3 calendar days per billing cycle, on the roaming network specified by the Service Provider and on the partner networks:

1. In case of standard rate calls and SMS messages to Hungarian call numbers:
The domestic call / SMS charges under the Ready Business Everything service packages used by the Subscriber are, per billing unit, HUF 0 / minute and HUF 0 / SMS.
2. In case roaming in any of the designated countries and making calls or sending SMS to any mobile or fixed-line numbers of the same country:
The domestic call / SMS charges under the Ready Business Everything service packages used by the Subscriber are, per billing unit, HUF 0 / minute and HUF 0 / SMS.
3. In case of calls and SMS messages to numbers of a third country (that is, not to a Hungarian number or numbers of the country where the Subscriber roams):

The call/SMS charge of calls initiated from Hungary to abroad or SMS sent from Hungary to abroad as per the Subscriber's Ready Business Everything tariff package, per the billing unit of the international directions, is HUF 0/min / HUF 0/SMS.
4. In case of received calls (calls received while roaming in any of the networks in the list):
Free, in accordance with the rates of the Subscriber's tariff package applicable to calls received on the network of Vodafone Hungary.
5. When data roaming is used
Data traffic may be conducted abroad also up to and from the data limit allowed by the tariff in domestic relations. Within the validity period, after exhausting the data limit, we will slow down the speed of internet access to 0/0 Mbit/s.

The Világ Napijegy tariff is valid in the validity territory determined by the Service Provider and the roaming networks specified by the Service Provider. In the case of the Aktiv Világ Napijegy service, the roaming service can be accessed by Post-pay Subscribers solely on the Provider-specified networks of the validity territory specified by the Service Provider. The list of countries in the validity territory of the Világ Napijegy service and the current list of partner networks in this validity territory are available on the webpage <https://www.vodafone.hu/kisvallalkozasok/roaming/vilag-napijegy>.

For call traffic exceeding 1,440 minutes per day, the Service Provider will charge an excess traffic fee, the rate of which is HUF 50 gross (HUF 39.37 net)/ min.

These 1,440 minutes of call traffic shall be determined for a day lasting from 0 hours 00 minutes to 23 hours 59 minutes in the GMT+1 time zone, and shall include the traffic of both received and initiated calls.

It is strictly prohibited to use the Világ Napijegy tariff with devices that do not have their own display, speaker, microphone and keyboard (including touch-screen keyboard), such as for example adapter, modem. The service packages shall not be used in an abusive manner, among others, for telemarketing, customer service activities or other business purposes. Abusive use shall include the behaviour of sending SMS and MMS messages in a manner contrary to the conditions of personal use, where the number of SMS/MMS messages sent via the subscription exceeds several hundred a day, or the proportion of the number of SMS/MMS messages sent via the subscription involved and that of their recipients exceeds 10%, or the proportion of the number of SMS/MMS messages and that of the replies to them is lower than 80%, or the SMS/MMS messages are sent by the subscriber typically from one location.

The Világ Napijegy service is activated free of charge. Activation may take place by an SMS message, by sending the code VJEGY to 1270. Sending the SMS is free of charge from the network of Vodafone Magyarország Zrt., and from abroad the SMS rate according to the applicable roaming tariffs is charged. After successfully ordering the service, it will remain active, except if the Subscriber cancels the Világ Napijegy service or the Ready Business Everything service package, in which case the Világ Napijegy service will also be cancelled. Simultaneously with ordering Világ Napijegy, the Subscriber's active roaming options are deactivated (with the exception of the traffic-based fee roaming service).

The Világ Napijegy service cannot be activated for numbers connected to the Car SIM Card service.

A precondition of using the free Világ Napijegy is that the Subscriber shall have a Ready Business Everything service package and an active Világ Napijegy service before starting to use the free ticket.

If the Subscriber fails to use the available 3 calendar days included in the monthly fee of Ready Business Everything, the number of remaining days may not be transferred to other occasions.

In case of a Ready Business Everything service package, following the 3-day free Világ Napijegy period, the Világ Napijegy service will remain active unless the Subscriber cancels it. However, if the Subscriber uses it after that period, the fee of Világ Napijegy will be billed. If the Subscriber cancels the Világ Napijegy service after the free period, the Subscriber may reorder any of the commercially available roaming options, but free Világ Napijegy cannot be ordered again in the billing cycle in question, only in the next billing cycle, provided that the Subscriber is entitled to this service in that billing cycle as well.

The validity period lasts until 24.00 hours (Hungarian time) on the day corresponding to the day of billing for the given Világ Napijegy, i.e., the Világ Napijegy is valid for the concerned calendar day.

Data traffic means the aggregate sum of sent and received data volume. Billing unit: 100 Kbyte. The data traffic can be used for roaming Internet and WAP services. Data traffic not used on the given calendar day cannot be rolled over to the next discount period and may not be used domestically. The Subscriber receives SMS notification when exhausting 80% and 100% of the daily data volume. The preferential data volume cannot be used for peer-to-peer (P2P) data traffic.

When using Világ Napijegy, voice calls, sent SMS and data traffic, as well as the daily fee will be billed according to the Hungarian time zone.

Other terms of use of the Világ Napijegy (World Daily Ticket) are contained in Section 5.2.2 of this Annex 1.

Rules applicable to unlimited international call and SMS traffic that can be used for standard rate or special rate calls and SMS messages and are included in the monthly fee of the Ready Business Everything package, in case of foreign use.

In the case of foreign use, if the Subscriber has Világ Napijegy service is billed automatically based on the first billable event (call initiated or received, SMS sent, or data downloaded or uploaded in a roaming environment) generated by the Subscriber on the concerned calendar day.

Place of origin of initiating calls and/or sending SMS messages	Type of roaming service activated on the subscription	Charge payable as per the call and/or SMS sending direction	
		In case of calls initiated and/or SMS messages sent to numbers of the country of origin	In case of calls initiated or SMS messages sent to countries other than the country of origin that are available for the roaming service
Countries of roaming tariff zone 1 classified in accordance with the zone classification of the traffic-based roaming service, as well as Switzerland, Turkey, Norway, Liechtenstein, Iceland	Vodafone EU Roaming service	HUF 0	HUF 0
Countries of roaming tariff zone 1 classified in accordance with the zone classification of the traffic-based roaming service	Only the traffic-based roaming service (the Subscriber does not have active Vodafone EU Roaming service)	The minute and SMS charges initiated from countries of roaming tariff zone 1 classified in accordance with the zone classification of the traffic-based roaming service will apply as per section 5.1 of this Annex 1 to the GTC.	The minute and SMS charges initiated from countries of roaming tariff zone 1 classified in accordance with the zone classification of the traffic-based roaming service will apply as per section 5.1 of this Annex 1 to the GTC.
Switzerland or Turkey	Only the traffic-based roaming service (the Subscriber does not have active Vodafone EU Roaming service)	The minute and SMS charges initiated from countries of roaming tariff zone 2 will apply as per section 5.1 of this Annex 1 to the GTC.	The minute and SMS charges initiated from countries of roaming tariff zone 2 will apply as per section 5.1 of this Annex 1 to the GTC.
Outside of the scope of validity of Világ Napijegy	Világ Napijegy (World Daily Ticket) service	The traffic-based roaming charges of the place of current residence will apply as per section 5.1 of this Annex 1 to the GTC.	The traffic-based roaming charges of the place of current residence will apply as per section 5.1 of this Annex 1 to the GTC.
Within the scope of validity of Világ Napijegy	Only the traffic-based roaming service (the Subscriber does not have active Világ Napijegy service)	The traffic-based roaming charges of the place of current residence will apply as per section 5.1 of this Annex 1 to the GTC.	The traffic-based roaming charges of the place of current residence will apply as per section 5.1 of this Annex 1 to the GTC.
Within the scope of validity of Világ Napijegy	Világ Napijegy (World Daily Ticket) service	HUF 0	HUF 0

If the Subscriber has a Ready Business Everything package, calls initiated and SMS messages sent from the territory of Hungary to standard rate or special rate international numbers are free of charge.

The charges of international calls and the countries that can be reached by international calls are contained in Section 9, while traffic-based roaming tariffs are contained in Section 5.1 of this Annex 1 to the GTC.

Those Subscribers who conclude new specific subscription contracts before 31 July 2015 for Ready Business Everything service package are eligible for a second SIM card in addition to their Ready Business Everything service package.

On the second SIM card provided for the Ready Business Everything service package, the following tariff packages are available as secondary Internet subscriptions: RED Tablet 8GB (A,B,C,D), RED MiFi 8GB, and RED MobilNet 8 GB SIM.

	Red Tablet 8GB A	Red Tablet 8 GB B	Red Tablet 8 GB C	Red Tablet 8 GB D	Red MiFi 8 GB	Red MobilNet 8 GB SIM
Initial costs						
Entry fee						
Monthly fees						
Monthly subscription fee (HUF) with an indefinite						7,874.02

term contract						
Monthly subscription fee (HUF) with contracts of a 2-year fixed term	6,299.21	3,937.01	2,362.2	1,574.8	0	0
Domestic data traffic included in the monthly fee	8 GB					
Handset insurance	Extra	Extra	Extra	Extra	-	-
Offered bandwidth above the data traffic included in the monthly fee (down/up, Mbit/s)	0.125/0.125					
Guaranteed speed	in accordance with section 4.1 of the GTC					
SMS to any domestic network (HUF)	24					

The tariff packages of the secondary SIM provide data transmission service only; they cannot be used for voice services. Data traffic refers to the aggregate amount of domestic sent and received data. Billing unit: 10 Kbyte.

The data volume included in the Ready Business Everything packages and the data volume of the 2nd Sim card cannot be combined, nor can they be divided between each other. If the Subscriber does not use up the monthly traffic limit, the remaining part cannot be rolled over to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions.

The monthly fee of the Red Tablet 8GB (A,B,C,D) service packages also includes Extra handset insurance service. The terms of using the handset insurance service are specified in Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time. The handset insurance service is only provided for handsets purchased from Vodafone no more than 60 days to date and Vodafone does not provide this service for devices purchased prior to the above date. Terminating the handset insurance service in accordance with Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time, shall not result in the change of the monthly fee of the above mentioned service packages. If the criteria of using the handset insurance service have been met, a discount from the monthly fee of the tariff package is provided that equals to the monthly fee of the service.

Maximum 1 secondary Internet subscription can be purchased in the offer with a single subscription for Ready Business Everything. The Subscriber is eligible for the secondary Internet subscription, as long as he maintains his fixed or indefinite-term Ready Business Everything subscription. If the primary subscription concluded for the Ready Business Everything service packages is cancelled, the subscription contract concluded for the 2nd SIM card will be also terminated. If the primary subscription concluded for the Ready Business Everything tariff package is changed, we will convert SIM card 2 to Internet Base tariff.

In the case of the tariffs in the above table, after using up the monthly data traffic limit, Extra Adat supplemental option must be purchased to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle. Subscriber can order the supplemental data option at the large enterprise customer service, phone number 1788, after completing the necessary customer identification.

Name of supplemental data option	ExtraAdat 100 MB	ExtraAdat 500 MB	ExtraAdat 1 GB
Fee	HUF 393.7	HUF 551.18	HUF 1181.1
Domestic data traffic included	100 MB	500 MB	1 GB
Offered bandwidth (down/up, Mbit/s)	Same as the tariff package of the secondary Internet subscription		
Guaranteed speed	See section 4.1 of the GTC		
Offered bandwidth above the included data traffic (download/upload, Mbit/s)	Same as the tariff package of the secondary Internet subscription		
Guaranteed speed above the included data traffic	See section 4.1 of the GTC		

If an ExtraAdat option is not completely used by the time of purchasing the next ExtraAdat option, the remaining data traffic will be lost. The ExtraAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of ExtraAdat options can be purchased in a billing cycle.

The ExtraAdat options are non-renewable options that have to be repurchased in every billing cycle where the Subscriber intends to use those.

2.5.11. Vodafone RED Super, Business Red, Business Red Prémium service packages

The Vodafone RED Super, Business Red, Business Red Prémium service packages were reclassified as commercially unavailable as of 1 July 2015.

Vodafone RED plans can be maintained in the case of a legal relationship of subscription covering at least 30 SIM cards.

The prices indicated in the following table are gross prices including VAT. In the service packages billing is performed in units of 1 minute.

	Vodafone RED Super SIM	Vodafone RED Super
Initial costs		
Entry fee (HUF)	10,000	10,000
Monthly fees		
Tariff monthly fee (HUF)	31,990	35,990
Internet monthly fee (HUF)	4,960.62	4,960.62

*Only available with subscription contracts signed before 1 September 2014, where the Specific Subscription Contract expressly provides so. The 2nd SIM card and the service provided therewith are not available in commerce as of 1 September 2014.

MultiNet (mobile internet based) tariff packages for Business Red Prémium (SIM, 1, 2, 3, 4, 5, 6) tariff packages may only be used with the above Business Red Prémium packages, as secondary SIM cards, by sharing the domestic data traffic included in the Business Red Prémium tariff packages:

	MultiNet Tablet Extra A	MultiNet Tablet Extra B	MultiNet Tablet Extra C	MultiNet Tablet Extra D	MultiNet Mifi Extra	MultiNet SIM Extra	MultiNet Extra
Initial costs							
Entry fee	10,000

Domestic data traffic included in the monthly fee	Same as in Business Red Prémium package, shared therewith						
Handset insurance	Extra	Extra	Extra	Extra			Extra
Guaranteed download and upload speed	in accordance with section 4.1 of the GTC						
Offered bandwidth in addition to the monthly divisible data traffic (down/up, Mbit/s)	0/0						
SMS to any domestic network (HUF)	30.48						

Unlimited airtime minutes, SMS/MMS messages included in the monthly fee only apply to domestic standard-rate calls, sent SMS and MMS messages. Domestic standard-rate directions mean standard-rate calls made to the domestic network of Vodafone and other mobile service providers, standard-rate calls made to domestic fixed-line numbers, standard-rate SMS messages, standard-rate MMS messages, and in case of RED service packages – as far as fees are concerned – domestic standard-rate directions also mean calls made to special-rate numbers (e.g. voicemail).

In the case of Vodafone RED service packages, after the data volume contained in the monthly fee has been used up, PluszAdat (Plus Data) (additional data) option may be purchased on the Netinfo site (<http://netinfo.vodafone.hu>), otherwise we will keep slowing down the speed until the end of the billing cycle. After the end of the billing period, the original speed is restored. Maximum value of the slowdown: The maximum value of the slowdown in case of Vodafone Red Super and Vodafone Red Super SIM service packages is 0.031 Mbit/s for download and upload, in case of Business Red (SIM, 1, 2, 3, 4, 5) and Business Red Prémium (SIM, 1, 2, 3, 4, 5) service packages before 1 September 2014, is 0.031 Mbit/s for download and upload and after 1 September, 2014, is 0/0 Mbit/s for download and upload.

The monthly domestic data volume included in Business Red (SIM, 1, 2, 3, 4, 5) tariff packages is 2 GB from 1 September 2014, and fully divisible from 3 September 2014, while the monthly domestic data volume included in the Business Red Prémium (SIM, 1, 2, 3, 4, 5) tariff packages is 8 GB from 1 September 2014, and the two SIM cards are fully divisible from 3 September 2014 (one voice-, and data based, and one that is exclusively mobile internet based, just like in case of Business Red 6 and Business Red Prémium 6 tariff packages available as of 3 September 2014). If the Subscriber does not use up the monthly traffic limit included in the monthly fee, the remaining part cannot be rolled over to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. Billing unit: 10 Kbyte.

As of 1 September 2014, in case of Business Red and Business Red Prémium (SIM, 1, 2, 3, 4, 5) tariff packages, the slowdown that takes effect after exhausting the domestic data limit included in the monthly fee and that lasts until the end of the billing cycle is amended from 0.031/0.031 Mbit/s to 0/0 Mbit/s. In other words, in case of Business Red and Business Red Prémium (SIM, 1, 2, 3, 4, 5, 6) tariff packages, Subscribers, who/which -after having exhausted the data traffic limit included in the monthly fee- intend to continue using the Internet until account closure, are required to purchase PluszAdat (for primary SIM cards belonging to Business Red and Business Red Prémium tariffs) and/or Extra Adat (for secondary SIM cards belonging to MultiNet tariffs) and/or Plusz Osztható Adat (for primary SIM cards belonging to Business Red and

Business Red Prémium tariffs and for secondary SIM cards belonging to MultiNet tariffs) supplemental data options on the Netinfo page (<http://netinfo.vodafone.hu>). Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

The MultiNet card only provides data transmission service; voice services are not available thereon. Only customers who have subscriptions for new or existing Business Red or Business Red Prémium (SIM, 1, 2, 3, 4, 5, 6) tariff packages are eligible for MultiNet tariffs. Maximum 1 MultiNet package can be purchased in the offer with a single subscription for Business Red or Business Red Prémium. The Subscriber is eligible for the MultiNet package, as long as he maintains his fixed or indefinite-term Business Red or Business Red Prémium subscription. If the primary subscription concluded for Business Red or Business Red Prémium tariff packages is cancelled or changed, we will convert SIM card 2 to Internet Basic tariff.

In case of MultiNet tariffs, the Subscribers, who/which -after having exhausted the data limit included in the monthly fee- intend to continue using the Internet until account closure, are required to purchase on the Netinfo page (<http://netinfo.vodafone.hu>) ExtraAdat (for secondary SIM cards belonging to MultiNet tariffs) and/or Plusz Osztható Adat (for primary SIM cards belonging to Business Red and Business Red Prémium tariffs and for secondary SIM cards belonging to MultiNet tariffs) supplemental data options. Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle. Guaranteed speed above the data traffic included in the monthly subscription fee (download/upload Mbit/s) is determined in accordance with section 4.1 of the GTC.

In case of Business Red or Business Red Prémium packages, the Subscriber, who/which -after having exhausted the data limit included in the tariff- shares Plusz Osztható Adat supplemental data options (that were purchased by the Subscriber or other users of secondary SIM card(s) belonging to MultiNet tariffs, who have been authorized by Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>)) for continuing Internet use until account closure, is only able to monitor his own data use on the Netinfo page (<http://netinfo.vodafone.hu>), for technical reasons, that is, the data use related to the primary SIM card. Accordingly, he does not have any information on the concrete extent of the data use of the secondary SIM card (cards) that potentially also uses the sharable data quantity. If the user of the secondary SIM card(s) belonging to MultiNet tariffs, who has been duly authorized by the Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>), orders ExtraAdat and/or Plusz Osztható Adat supplemental data option, the fee or the supplemental data option shall be invoiced to and payable by the Subscriber of the primary SIM card.

The monthly fees of the Vodafone RED Super, Business Red (1, 2, 3, 4, 5, 6) and Business Red Prémium (1, 2, 3, 4, 5, 6) tariff packages also include handset insurance service, as indicated in the above service package table. The terms of using the handset insurance service are specified in Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time. The handset insurance service is only provided for handsets purchased from Vodafone no more than 60 days to date –including Red packages– and Vodafone does not provide this service for devices purchased prior to the above date. Terminating the handset insurance service in accordance with Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time, shall not result in the change of the monthly fee of the above mentioned service packages. If the criteria of using the handset insurance service have been met, a discount from the monthly fee of the tariff package is provided that equals to the monthly fee of the service. Terminating the handset insurance service in accordance with Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time, shall not result in the change of the monthly fee of the tariff package.

Premium Service Quality:

In case of Vodafone RED Super and Vodafone RED Super SIM packages the Service Provider applies priority status (GOLD) in the in Dynamic service quality regulation (QoS) described in section 4.2 of the body of the GTC, and therefore the Subscriber/User can enjoy Vodafone data services in Hungary at the highest quality level allowed by his device and current load of the network. In other words, the Subscriber/User is placed on a higher priority level when network resources are divided up and thus has a higher change of accessing network resources and can conduct data communication with a higher speed than other subscribers. The Gold status does not affect the guaranteed speed agreed by the Service Provider or the data limit included in the package, and it is valid up to the limit of the additionally purchased PluszAdat.

The Vodafone Red service packages are allowed to be used if the rules of use by a Small Enterprise Subscriber are observed. Small enterprise use does not include the case when the Subscriber uses his SIM card belonging to the Vodafone Red service package in a device other than a mobile phone. It is strictly prohibited to use the service package by any appliance that does not have its own display, loudspeaker and keyboard, such as, e.g. an adapter or modem. The service packages shall not be used in an abusive manner, among others, for telemarketing, customer service activities or other

business purposes. Abusive use shall include the behaviour of sending SMS and MMS messages in a manner contrary to the conditions of personal use, where the number of SMS/MMS messages sent via the subscription exceeds several hundred per day, or the proportion of the number of SMS/MMS messages sent via the subscription involved and that of their recipients exceeds 10%, or the proportion of the number of SMS/MMS messages and that of the replies to them is lower than 80%, or the SMS/MMS messages are sent by the subscriber typically from one location. In the event of abusive use, or the violation of the conditions of personal use, after prior notice from the Service Provider, the service will be available to the Subscriber according to the conditions of the Small Enterprise Basic Tariff.

Vodafone Red service packages purchased on or after 2 May 2013 can exclusively be used in compliance with the terms of use for Small Enterprise subscribers to satisfy the personal communication needs of natural person users (personal use). Intended personal use does not include the following: if the Subscriber or user uses the SIM card pertaining to Vodafone Red service packages inserted in a non-mobile phone; making automated calls that do not require the personal involvement of the user; making mass calls (the duration of which exceeds the 10% of the total duration of outgoing calls) to automated call receiving devices, equipment (such as, but not exclusively to IVR); making mass calls in order to test, make trial runs or to test the resilience or vulnerability etc. of services, technical instruments or equipment; making calls that regularly exceed 180 minutes per day for the remote monitoring of people, structures, events, etc. (e.g. but not exclusively: asset protection, baby monitoring functions); making calls for establishing machine-to-machine connection (M2M); making or diverting calls in a total duration of more than 24 hours per day; making mass calls or sending bulk SMS of which the Service Provider has reasonable grounds to believe having been made to gain direct benefit by the Subscriber, the User or any other third parties at the expense of the Service Provider. It is strictly prohibited to use the service package with devices that do not have their own display, speaker, microphone and keyboard (including touch-screen keyboard), such as for example adapter, modem. The service packages may not be used for business purposes, such as telemarketing, customer service activities, sending bulk SMS. Vodafone reserves the right to restrict or terminate the service, after providing prior warning, if it is used for unintended purposes, or to convert the subscription to Small Enterprise Basic Tariff after providing prior notice in SMS.

Vodafone RED Super SIM, Business Red SIM and Business Red Prémium SIM service packages are not available for handsets purchased at discount prices.

In case of Business Red and Business Red Prémium (SIM, 1, 2, 3, 4, 5, 6) tariff packages, Európa and/or Világ Napijegy is billed on the roaming networks determined by the Service Provider on Business Red, Business Red Prémium tariff packages with divisible data traffic (primary SIM) and on the related MultiNet tariff packages (secondary SIM) automatically per SIM card, on the basis of the first billable event generated by the Subscriber on the SIM card on the concerned calendar day (call initiated or received, SMS sent, or data downloaded or uploaded in a roaming environment) and subsequently the Subscriber can make phone calls, send SMS and use the available data quantity on the SIM card in question at favourable rates (section 5.2.). Subscribers who are entitled to use the Netinfo page (<http://netinfo.vodafone.hu>) thanks to their tariffs or data option can conduct data traffic abroad up to and from their data limit that is allowed by their tariffs in a domestic relation. Within the validity period, after exhausting the data limit, data options can be purchased, otherwise we will slow down the speed of internet access to 0/0 Mbit/s.

Vodafone RED Roaming service for Vodafone RED Super service packages:

The monthly fee of Vodafone RED Super and Vodafone RED Super SIM service packages include Vodafone RED Roaming, from the time of the activation of the subscription once every 365 days, until the end of the definite term. In the case of a contract for a definite term, Vodafone RED Roaming service will provide the following features for a period of 365 days, on 7 contiguous calendar days, until the end of the 7th calendar day, on the roaming networks specified by the Service Provider and on the partner networks. The valid list of the specified networks is available on the web site of www.vodafone.hu/roaming. Where Vodafone RED Roaming is not valid, there traffic-based roaming charges will be applied (section 5.1.1 of the Business List of Rates).

1. In case of standard rate calls and SMS messages to Hungarian call numbers:
The domestic call / SMS charges under the Vodafone RED Super and Vodafone RED Super SIM service packages used by the Subscriber are, per billing unit, HUF 0 / minute and HUF 0 / SMS.
2. In the case roaming in any of the designated countries and making calls or sending SMS to any mobile or fixed-line numbers of the same country:
The domestic call / SMS charges under the Vodafone RED Super and Vodafone RED Super SIM service packages used by the Subscriber are, per billing unit, HUF 0 / minute and HUF 0 / SMS.
3. In case of calls and SMS messages to numbers of a third country (that is, not to a Hungarian number or numbers of the country where the Subscriber roams):
The call/SMS charge of calls initiated from Hungary to abroad or SMS sent from Hungary to abroad, per the billing unit of the international directions
4. In case of received calls (calls received while roaming in any of the networks in the list):
Free of charge according to the tariffs of Vodafone RED service package applied to calls received on the network of Vodafone Hungary.
5. When data roaming is used
On the given calendar day, the first 100MB of data traffic is free of charge. Within the term of validity, the Service Provider will bill any traffic exceeding the discounted data volume on the designated network in units of HUF 8.27 gross / MB.

It is a condition for the ordering of Vodafone RED Roaming that prior to the start of use the Subscriber should possess a Vodafone RED Super or Vodafone RED Super SIM service package. If Vodafone RED Super or Vodafone RED Super SIM service package is cancelled after the placement of the order for Vodafone RED Roaming, Vodafone RED Roaming service will also be cancelled.

There is no separate fee payable for the activation of Vodafone RED Roaming service. Activation may take place by an SMS message, by sending the code REDROAMING to 1270. Sending the SMS is free of charge from the network of Vodafone Magyarország Zrt., and from abroad the SMS rate according to the applicable roaming tariffs is charged. Service remains active for 7 contiguous days after successful order placement, until the end of the 7th calendar day. If the Subscriber does not use the 7 contiguous calendar days available for him, the number of remaining days cannot be carried over to another occasion. Simultaneously with ordering Vodafone RED Roaming, the active roaming options of the Subscriber get deactivated (with the exception of Vodafone World Roaming service). After the RED Roaming period of 7 days, the Subscriber may reorder any of the roaming options available in the trade, but the Vodafone RED Roaming option cannot be reordered, only in the following period of 365 days until the end of the definite term, in the event the Subscriber is entitled to this service also in the next 365 days.

The term of validity will last until 12:00 pm on the 7th day from the day when the given Vodafone RED Roaming package was activated. Vodafone RED Roaming cannot be ordered together with another tariff plan or in itself.

Data traffic means the aggregate sum of sent and received data volume. Billing unit: 100 Kbyte. Data traffic can be used for roaming internet, WAP. Data traffic not used on the given calendar day cannot be rolled over to the next discount period and may not be used domestically. The Subscriber receives SMS notification when exhausting 80% and 100% of the daily data volume. The preferential data volume cannot be used for peer-to-peer (P2P) data traffic.

When using Vodafone RED Roaming, voice calls, SMS sending and data traffic, as well as the daily fee will be billed according to the Hungarian time zone.

Roaming service for Business Red Prémium (SIM, 1, 2, 3, 4, 5, 6) service package:

If Subscriber concluded a contract before 31 August 2014 for Vodafone RED Super, Vodafone RED Super SIM or Business Red Prémium (1, 2, 3, 4, 5) and the Business Red Prémium SIM service packages, the relevant service package includes a 2nd SIM card with a monthly domestic data traffic limit of 500 MB until the expiry of the fixed term. Data traffic refers to the aggregate amount of domestic sent and received data. Billing unit: 10 Kbyte. The data volume included in the Vodafone

RED Super, Vodafone RED Super SIM, Business Red Prémium (1, 2, 3, 4, 5) and Business Red Prémium SIM package and the data volume of SIM card 2 cannot be combined or shared among each other. Accordingly, the 500 MB domestic data traffic is not part of subscriptions concluded as of 1 September 2014, and thus, this quantity cannot be used with SIM card 1 either for Business Red Prémium (1, 2, 3, 4, 5) and Business Red Prémium SIM service packages. The 2nd SIM card only provides data transmission service, voice services are not available on the SIM card. In addition to Internet and WAP, SMS service is also available, the domestic fee of which is HUF 30.48. If the Subscriber does not use up the monthly traffic limit of the 2 SIM cards, he cannot roll over the remaining part to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. After using up the monthly data traffic limit, ExtraAdat option (supplemental option) needs to be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without buying ExtraAdat option, the allowed data traffic cannot be exceeded and if the Subscriber exhausted the data volume included in the package, he will not be able to access the internet service until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

ExtraAdat option available with the service:

Available ExtraAdat	Domestic data volume included in the option	Fee (gross)
ExtraAdat 500 MB	500 MB	HUF 578.74

If the Vodafone Red Super, Vodafone RED Super SIM, Business Red Prémium (1, 2, 3, 4, 5) or Business Prémium SIM subscription is cancelled or changed, we will convert the 2 SIM cards to Internet Basic tariff.

The e-Pack service is available for Subscribers with Business Red (SIM, 1, 2, 3, 4, 5, 6) and Business Red Prémium (1, 2, 3, 4, 5, 6) service packages purchased with 2-year fixed-term contracts. In case of using the e-Pack service, the Subscriber agrees to fulfil the following conditions in every month while using the e-Pack service, in exchange for a more favourable monthly subscription fee:

- The Subscriber uses E-bills regarding all of his subscriptions under one client number with the content defined in section 7.1.2.4 of the GTC: Electronic Bill and Document Presentation (E-bill).
- The bill is settled by using one of the following payment options:
 - on the www.vodafone.hu/szamlabefizetes web page,
 - with Vodafone mobile application,
 - by bank transfer,
 - by direct debit order,
 - via ATM machines.
- The bill is settled by the payment deadline indicated in the bill.

If the Subscriber fails to meet any of the above conditions in a given month, a one-off fee of gross HUF 1,000 per subscription will be charged to the Subscriber in his next monthly bill. The fee payable for failing to fulfil the e-Pack conditions is only billed once per month even if the Subscriber fails to meet several e-Pack conditions in a given month.

If the Subscriber has multiple subscriptions and one of those is used with e-Pack, the Subscriber is required to settle the monthly bills of all subscriptions by satisfying the e-Pack conditions.

Should the Subscriber receive payment extension in a month and fail to settle his bill by the payment deadline indicated in the bill, the one-off fee payable for failing to meet the e-Pack conditions shall also be billed.

Cancelling the e-Pack service shall constitute a tariff change. Changing between the versions of the same tariff (with and without e-Pack) can be requested without being obligated to pay liquidated damages.

PluszAdat (supplemental option)

A supplemental data option (PluszAdat) can be purchased for Vodafone Red service packages, whose detailed description is contained in the following table.

PluszAdat can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and device to which the Vodafone Red subscription belongs.

Available PluszAdat	Domestic data volume included	Fee (gross)	Service package
PluszAdat 100 MB	100 MB	HUF 413.39	Vodafone RED Super Vodafone RED Super SIM Business Red SIM Business Red (1, 2, 3, 4, 5, 6) Business Red Prémium SIM Business Red Prémium (1, 2, 3, 4, 5, 6)
PluszAdat 500 MB	500 MB	HUF 826.77	
PluszAdat 1 GB	1 GB	HUF 1,240.13	

If a PluszAdat option has not been used up fully until the moment of the purchase of the next PluszAdat option, then the unused remaining data traffic of the existing PluszAdat (a supplemental option) will be lost. The PluszAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat options can be purchased in a billing cycle. PluszAdat options are non-renewable options that have to be repurchased in every billing cycle, if needed.

Plusz Osztható Adat (supplemental option)

Supplemental divisible data option (Plusz Osztható Adat) can be purchased for Business Red and Business Red Prémium (SIM, 1, 2, 3, 4, 5, 6) service packages, the data quantity of which may be used with the SIM card of Business Red and Business Red Prémium packages and the SIM card of MultiNet tariffs.

Plusz Osztható Adat can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and handset to which the Business Red and Business Red Prémium or MultiNet subscription belongs.

The fee of the Plusz Osztható Adat supplemental option is charged in all cases to the voice based subscription, that is, of Business Red and Business Red Prémium package.

Available Plusz Osztható Adat	Domestic data volume included	Fee (gross)	Service package
Plusz Osztható Adat 100 MB	100 MB	HUF 620.13	Business Red (SIM, 1, 2, 3, 4, 5, 6) Business Red Prémium (SIM, 1, 2, 3, 4, 5, 6)
Plusz Osztható Adat 1 GB	1 GB	HUF 1,653.54	

If a Plusz Osztható Adat option is not completely used by the time of purchasing the next Plusz Osztható Adat option, the unused remaining data traffic of the existing Plusz Osztható Adat (supplemental option) will be lost. The Plusz Osztható Adat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat options can be purchased in a billing cycle. PluszAdat options are non-renewable options that have to be repurchased in every billing cycle, if needed.

ExtraAdat (supplemental option) for MultiNet tariff in the case of subscription contracts concluded before 1 June 2015.

Available ExtraAdat	Domestic data volume included in the option	Fee (gross)
ExtraAdat 100 MB	0.097 GB (100 MB)	HUF 413.39
ExtraAdat 1 GB	1 GB	HUF 1,240.16

ExtraAdat (supplemental option) for MultiNet tariff in the case of subscription contracts concluded after 1 June 2015.

ExtraAdat (supplemental option) option may be purchased for the MultiNet tariff packages anytime within the billing cycle, described in detail in the following table. The ExtraAdat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the MultiNet subscription belongs.

Available ExtraAdat	Domestic data volume included	Fee (gross)
ExtraAdat 200 MB	200 MB	HUF 413.39
ExtraAdat 1 GB	1 GB	HUF 1,653.54

If an ExtraAdat option is not completely used by the time of purchasing the next ExtraAdat option, the unused remaining data traffic will be lost. The ExtraAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of ExtraAdat options can be purchased in a billing cycle. ExtraAdat is a non-renewable option that has to be repurchased in every billing cycle, if needed.

2.5.12. Medium and Large Enterprise Red service packages - Business Red and Business Red Prémium service packages

The Medium and Large Enterprise Red service packages - Business Red and Business Red Prémium service packages, tariff packages were reclassified as commercially unavailable as of 1 July 2015.

The tables contain net prices; the prices do not include VAT.

* The Subscriber receives the 24-month monthly fee allowance for 24 months after activation for Business Red tariffs signed for a 2-year fixed term. The allowance is automatically deleted after the lapse of 24 months.

** The 2 SIM cards are only available with signing a 2-year fixed-term contract for the Business Red Prémium package until 31 August 2014.

*** Only available with subscription contracts concluded prior to 1 September 2014. The 2nd SIM card and the service provided therewith is not available in commerce as of 1 September 2014.

The prices indicated in the table are net prices not including VAT.

In the case of Business Red Prémium (SIM 1, 2, 3, 4, 5) service packages, billing takes place in 1-second units.

Unlimited airtime minutes, SMS/MMS messages included in the monthly fee only apply to domestic standard-rate calls, sent SMS and MMS messages. Domestic standard-rate directions mean standard-rate calls made to the domestic network of Vodafone and other mobile service providers, standard-rate calls made to domestic fixed-line numbers, standard-rate SMS messages, standard-rate MMS messages, and in case of RED service packages – as far as fees are concerned – domestic standard-rate directions also mean calls made to special-rate numbers (e.g. voicemail).

The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. Billing unit: 10 Kbyte. If the Subscriber does not use up the traffic limit included in the monthly fee, it cannot roll over the remaining part to the next billing cycle.

Supplemental data option (PluszAdat) can be purchased for Business Red (SIM 1, 2, 3, 4, 5) and Business Red Prémium (SIM 1, 2, 3, 4, 5) service packages before 1 September 2014, on the Netinfo webpage (<http://netinfo.vodafone.hu>), otherwise network speed is limited until the end of the billing cycle. After the end of the billing period, the original speed is restored. Maximum value of the slowdown: In the case of Business Red (SIM 1, 2, 3, 4, 5) and Business Red Prémium (SIM 1, 2, 3, 4, 5) packages before 1 September 2014 the slowdown shall mean 0.031 Mbit/s download and upload speed.

In the case of Business Red (SIM 1, 2, 3, 4, 5), and Business Red Prémium (SIM 1, 2, 3, 4, 5) service packages, after 1 September 2014, the slowdown that takes effect after exhausting the domestic data limit included in the monthly fee and that lasts until the end of the billing cycle shall be 0/0 Mbit/s, which means that in the case of the Business Red (SIM 1, 2, 3, 4, 5) and Business Red Prémium (SIM 1, 2, 3, 4, 5) service packages, after having exhausted the data traffic limit included in the monthly fee, a supplemental data option (PluszAdat) needs to be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

The Business Red (SIM 1, 2, 3, 4, 5) and Business Red Prémium (SIM 1, 2, 3, 4, 5) service packages include the "Zárt Csoport" (Closed Group) option, which allows the settlement of voice traffic within the Vodafone Hungary network made between the SIM cards of the Medium and Large Enterprise Subscriber that were organized into a so-called "Closed Group" (in terms of pricing) at a minute charge of HUF 0, even if a member of this "Closed Group" does not have a Medium and Large Enterprise service package detailed in this section but other Vodafone Individual Tariff Plan regulated in an Agreement concluded by and between the Service Provider and the Medium and Large Enterprise Subscriber.

The monthly fee of the Business Red (1, 2, 3, 4, 5) service packages also includes Basic handset insurance service, while the monthly fee of the Business Red Prémium (1, 2, 3, 4, 5) service packages also includes Extra handset insurance service. The terms of using the handset insurance service are specified in Vodafone's Device Insurance Information for Customers and the General Terms and Conditions, as amended from time to time. The handset insurance service is only provided for handsets purchased from Vodafone no more than 60 days to date, including for Medium and Large Enterprise Red packages, and Vodafone cannot provide this service otherwise. Terminating the handset insurance service in accordance with Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time, shall not result in the change of the monthly fee of the above mentioned service packages. If the criteria of using the handset insurance service have been met, a discount from the monthly fee of the tariff package is provided that equals to the monthly fee of the service.

The monthly fee of the Business Red and Business Red Prémium service packages also include Office 365 Small Enterprise package without Office licence service. The terms of using this service are governed by the provisions of

Vodafone's Terms of Use for Other Services. Terminating the Office 365 Small Enterprise package without Office licence service in accordance with Vodafone's Terms of Use for Other Services, as amended from time to time, shall not result in the change of the monthly fee of the above mentioned service packages. If the criteria of using the Office 365 Small Enterprise package without Office licence service have been met, we provide a discount from the monthly fee of the tariff package that equals the monthly fee of the service.

Medium and Large Enterprise Red service packages can exclusively be used in compliance with the terms of use for Medium and Large Enterprise Subscribers to satisfy the personal communication needs of natural person users (personal use). Intended personal use does not include the following: if the Subscriber or user uses the SIM card pertaining to Medium and Large Enterprise Red service package inserted in a non-mobile phone; making automated calls that do not require the personal involvement of the user; making mass calls (the duration of which exceeds the 10% of the total duration of outgoing calls) to automated call receiving devices, equipment (such as, but not exclusively to IVR); making mass calls in order to test, make trial runs or to test the resilience or vulnerability etc. of services, technical instruments or equipment; making calls that regularly exceeds 180 minutes per day for the remote monitoring of people, structures, events, etc. (e.g. but not exclusively: asset protection, baby monitoring functions); making calls for establishing machine-to-machine connection (M2M); making or diverting calls in a total duration of more than 24 hours per day; making mass calls or sending bulk SMS of which the Service Provider has reasonable grounds to believe having been made to gain direct benefit by the Subscriber, the User or any other third parties at the expense of the Service Provider. It is strictly prohibited to use the service package with devices that do not have their own display, speaker, microphone and keyboard (including touch-screen keyboard), such as for example adapter, modem. The service packages shall not be used in an abusive manner, among others, for telemarketing, customer service activities or other business purposes. Abusive use shall include the behaviour of sending SMS and MMS messages in a manner contrary to the conditions of personal use, where the number of SMS/MMS messages sent via the subscription exceeds several hundred per day, or the proportion of the number of SMS/MMS messages sent via the subscription involved and that of their recipients exceeds 10%, or the proportion of the number of SMS/MMS messages and that of the replies to them is lower than 80%, or the SMS/MMS messages are sent by the subscriber typically from one location. In the event of abusive use, or the violation of the conditions of personal use, after prior notice from the Service Provider, the service will be available to the Subscriber according to the conditions of the Small Enterprise Basic Tariff.

Business Red SIM and Business Red Prémium SIM service packages are not available with devices purchased at discount prices.

Car SIM card service and conference call service are not available for Medium and Large Enterprise Red service packages.

In foreign countries the valid Roaming tariffs will apply.

Roaming service for Business Red Prémium (SIM, 1, 2, 3, 4, 5) service package:

If Subscriber concluded a contract before 31 August 2014 for Business Red Prémium (1, 2, 3, 4, 5) or Business Red Prémium SIM service packages, the relevant service package includes a 2nd SIM card with a monthly domestic data traffic limit of 500 MB until the expiry of the fixed term. Data traffic refers to the aggregate amount of domestic sent and received data. Billing unit: 10 Kbyte. The data volume included in the Business Red Prémium (1, 2, 3, 4, 5) and Business Red Prémium SIM package and the data volume of SIM card 2 cannot be combined or shared among each other. Accordingly, the 500 MB domestic data traffic is not part of subscriptions concluded as of 1 September 2014, and thus, this quantity cannot be used with SIM card 1 either. The 2nd SIM card only provides data transmission service, voice services are not available on the SIM card. In addition to Internet and WAP, SMS service is also available the domestic fee of which is net HUF 24. If the Subscriber does not use the monthly traffic limit of the 2nd SIM card, he cannot roll over the remaining part to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. After using up the monthly data traffic limit, ExtraAdat option (supplemental option) needs to be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without buying ExtraAdat option, the allowed data traffic cannot be exceeded and if the Subscriber exhausted the data volume included in the package, he will not be able to access the internet service until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

ExtraAdat option available with the service:

Available ExtraAdat	Domestic data volume included in the option	Fee (net)
ExtraAdat 500 MB	500 MB	HUF 551.18

If the Business Red Prémium (1, 2, 3, 4, 5) or Business Red Prémium SIM subscription is cancelled or changed, we will convert the 2nd SIM card to Internet Basic tariff.

Before the expiry of the fixed-term, conversion from the Business Red 1, 2, 3, 4, 5 and Business Red Prémium 1, 2, 3, 4, 5 tariff packages can be requested, provided that the Subscriber paid the Service Provider the total discount received on the device that belongs to the SIM card affected by the tariff changes as defined in Annex no. 3 to the Subscription Contract before the change of tariffs.

PluszAdat (supplemental option)

Supplemental data option (PluszAdat) can be purchased for Medium and Large Enterprise Red service packages, the detailed description of which is included in the following table.

PluszAdat can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and device to which the Medium and Large Enterprise Red subscription belongs.

Available PluszAdat	Domestic data volume included	Fee (net)	Service package
PluszAdat 100 MB	100 MB	HUF 393.7	Business Red Prémium SIM Business Red Prémium (1, 2, 3, 4, 5)
PluszAdat 500 MB	500 MB	HUF 787.4	
PluszAdat 1 GB	1 GB	HUF 1,181.1	

If a PluszAdat option has not been used up fully until the moment of the purchase of the next PluszAdat option, then the unused remaining data traffic of the existing PluszAdat (a supplemental option) will be lost. The PluszAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat options can be purchased in a billing cycle. PluszAdat options are non-renewable options that have to be repurchased in every billing cycle, if needed.

Subscribers who have existing Business Red (SIM 1,2,3,4,5) or Business Red Prémium (SIM 1,2,3,4,5) service packages on 1 April 2015, as well as Subscribers who concluded an individual subscription contract between 1 April 2015 and 30 June 2015 for Business Red (SIM 1,2,3,4,5) or Business Red Prémium (SIM 1,2,3,4,5) service packages are entitled to use a 2nd SIM card in addition to the Business Red (SIM 1,2,3,4,5) or Business Red Prémium (SIM 1,2,3,4,5) service packages.

On the second SIM card provided for the Business Red (SIM 1,2,3,4,5) service package, the following tariff packages are available as secondary Internet subscriptions: Red Tablet 2GB (A,B,C,D), Red MiFi 2GB, and Red MobilNet 2GB SIM.

	Red Tablet 2GB A	Red Tablet 2 GB B	Red Tablet 2 GB C	Red Tablet 2 GB D	Red MiFi 2 GB	Red MobilNet 2 GB SIM
Initial costs						
Entry fee	-

SMS to any domestic network (HUF)	24					

The prices indicated in the table are net prices not including VAT.

The tariff packages of the secondary SIM provide data transmission service only; they cannot be used for voice services. Data traffic refers to the aggregate amount of domestic sent and received data. Billing unit: 10 Kbyte.

The data volume included in the Business Red (SIM 1,2,3,4,5) and Business Red Prémium (SIM 1,2,3,4,5) packages and the data volume of the 2nd SIM card cannot be combined or shared among each other. If the Subscriber does not use up the monthly traffic limit, the remaining part cannot be rolled over to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions.

The monthly fee of the Red Tablet 2GB (A,B,C,D) service packages also include Basic handset insurance service, while the monthly fee of the Red Tablet 8GB (A B,C,D) service packages also include Extra handset insurance service. The terms of using the handset insurance service are specified in Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time. The handset insurance service is only provided for handsets purchased from Vodafone no more than 60 days to date and Vodafone does not provide this service for devices purchased prior to the above date. Terminating the handset insurance service in accordance with Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time, shall not result in the change of the monthly fee of the above mentioned service packages. If the criteria of using the handset insurance service have been met, a discount from the monthly fee of the tariff package is provided that equals to the monthly fee of the service.

Maximum 1 secondary Internet subscription can be purchased in the offer with a single subscription for Business Red (SIM 1,2,3,4,5) or Business Red Prémium (SIM 1,2,3,4,5). The Subscriber is eligible for the secondary Internet subscription as long as he maintains his fixed or indefinite-term Business Red (SIM 1,2,3,4,5) or Business Red Prémium (SIM 1,2,3,4,5) subscription. If the primary subscription concluded for Business Red (SIM 1,2,3,4,5) or Business Red Prémium (SIM 1,2,3,4,5) tariff packages is cancelled or changed, we will convert SIM card 2 to Internet Basic tariff.

In the case of the tariffs in the above table, after using up the monthly data traffic limit, Extra Adat supplemental option must be purchased to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle. The Subscriber can order the supplemental data option on the Netinfo (<http://netinfo.vodafone.hu>) page.

Name of supplemental data option	ExtraAdat 100 MB	ExtraAdat 500 MB	ExtraAdat 1 GB
Fee	HUF 393.7	HUF 551.18	HUF 1181.1
Domestic data traffic included	0.097 GB	0.488 GB	1 GB
Offered bandwidth (down/up, Mbit/s)	Same as the tariff package of the secondary Internet subscription		
Guaranteed speed	See section 4.1 of the GTC		
Offered bandwidth above the included data traffic (download/upload, Mbit/s)	Same as the tariff package of the secondary Internet subscription		
Guaranteed speed above the included data traffic	See section 4.1 of the GTC		

If an ExtraAdat option is not completely used by the time of purchasing the next ExtraAdat option, the remaining data traffic will be lost. The ExtraAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of ExtraAdat options can be purchased in a billing cycle.

The ExtraAdat options are non-renewable options that have to be repurchased in every billing cycle where the Subscriber intends to use those.

2.5.13. Okos Rádás 1500, Okos Rádás 3000, Okos Rádás 4500, Okos Rádás Red Plus and Okos Rádás Red Europe packages

Okos Rádás 1500, Okos Rádás 3000, Okos Rádás 4500, Okos Rádás Red Plus and Okos Rádás Red Europe packages were classified as commercially not available tariffs as of 30 April 2016.

The tables contain gross prices; the prices include VAT.

Okos Rádás package type	Package monthly subscription fee in total (HUF/subscription)	Package monthly subscription fee in total includes		Content of the Okos Rádás package
		Option monthly fee (HUF/subscription)	Internet monthly fee (HUF/subscription)	
Okos Rádás 1500	1 471,67	1,100	330,72	In the case of Subscription Contracts concluded before 15 April 2015: „Closed Group” option for business subscribers + 100 MB domestic data traffic In the case of Subscription Contracts concluded after 15 April 2015: „Closed Group” option for business subscribers + 150 MB domestic data traffic
Okos Rádás 3000	2,929.14	2,000	826.77	“Zárt Csoport” (Closed Group) option for business subscribers + 500 MB domestic data traffic + HUF 0 minute charge, SMS and MMS fee domestically within the Vodafone Magyarország Zrt. network
Okos Rádás 4500	4,358.28	2,500	1,653.54	“Zárt Csoport” (Closed Group) option for business subscribers + 1 GB domestic data traffic + HUF 0 minute charge, SMS and MMS fee domestically within the Vodafone Magyarország Zrt. network + Basic device insurance service
Okos Rádás Red Plus	13,681.11	9,500	3,720.48	“Zárt Csoport” (Closed Group) option for business subscribers + 4 GB domestic divisible data traffic + HUF 0 minute / SMS / MMS charge to any domestic, standard rate network + Basic handset insurance +50 minutes of airtime for international calls to the countries specified below*
Okos Rádás Red Europe	18,539.38	12,500	5,374.02	“Zárt Csoport” (Closed Group) option for business subscribers + 10 GB domestic divisible data traffic + HUF 0 minute / SMS / MMS charge to any domestic, standard rate network + Extra device insurance + 100 minutes of airtime for international calls to the countries specified below*

*In the case of Smart Add-on Red Plus and Europe, the airtime given in the table can be used for calls to the following countries: Albania, Algeria, the United States of America, US Virgin Islands, Andorra, Australia, Austria, Belgium, Bosnia and Herzegovina, British Virgin Islands, Bulgaria, Cyprus, Czech Republic, Denmark, United Kingdom, Egypt, Estonia, Belarus, Faeroe Islands, Finland, France, Gibraltar, Greece, Netherlands, Croatia, Iceland, Israel, Ireland, Japan, Jersey, Canada, Kosovo, Poland, Latvia, Lichtenstein, Lithuania, Luxembourg, Malta, Mexico, Moldova, Monaco, Germany, Norway, Western Sahara, Libya, Macedonia, Morocco, Montenegro, Italy, Russia, Pitcairn Islands, Portugal, Romania, San Marino, Spain, Switzerland, Sweden, Serbia, Slovakia, Slovenia, Turkey, Tunisia, Ukraine, New Zealand and the Vatican.

MultiNet Plus (mobile internet-based) tariff packages are available for the Okos Rádás Red Plus tariff package. MultiNet Plus tariff packages are only available with the above Okos Rádás Red Plus tariff package as secondary SIM by sharing the domestic data traffic of Okos Rádás Red Plus tariff package.

	MultiNet Plus Tablet Basic A	MultiNet Plus Tablet Basic B	MultiNet Plus Tablet Basic C	MultiNet Plus Tablet Basic D	MultiNet Plus Mifi Basic	MultiNet Plus SIM Basic	MultiNet Plus Basic

Handset insurance	Extra	Extra	Extra	Extra			Extra
Guaranteed download and upload speed	in accordance with section 4.1 of the GTC						
Offered bandwidth (download/upload, Mbit/s) above monthly divisible data traffic	0/0						
Guaranteed download and upload speed	in accordance with section 4.1 of the GTC						
SMS to any domestic network (HUF)	30.48						

The monthly domestic data traffic included in the Okos Rádás Red Plus and Okos Rádás Red Europe tariff packages can be fully divided between two SIM cards (one voice and data based card and one exclusively mobile internet based card). If the Subscriber does not use up the monthly traffic limit included in the monthly fee, the remaining part cannot be rolled over to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. Billing unit: 10 Kbyte.

In the case of the Okos Rádás Red Plus and Okos Rádás Red Europe tariff packages, the speed of the data traffic above the data volume included in the monthly fee will be slowed down. The maximum value of the slowdown is 0 Mbit/s for download and upload. Guaranteed speed as per Section 4.1 of the GTC.

In the case of subscription contracts concluded after 1 April 2015, as of 1 June 2015 (in the billing cycle following the account closure after 1 June 2015), the Okos Rádás 1500, Okos Rádás 3000, Okos Rádás 4500 packages are supplemented once per billing cycle with the Automatikus PluszAdat option containing 150 MB of domestic data traffic at a rate of HUF 413.39 gross. This option is activated automatically after the domestic data volume included in the monthly fee is exhausted; or, if a supplemental data option has been purchased on the Netinfo site before the domestic data volume included in the monthly fee is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted; or, if one or more further supplemental data option(s) has (have) been purchased before the domestic data volume included in the supplemental data volume on the Netinfo site is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted. The data traffic of the Automatikus

PluszAdat 150 MB option can be used until the end of the given billing cycle, and is not divisible. The Automatikus PluszAdat 150 MB option is renewed monthly but is only activated and billed upon continuing data use after the domestic data volume included in the monthly fee or supplemental data option(s) is exhausted. After the data volume included in the Automatikus PluszAdat 150 MB option, the speed will be slowed down to 0/0 Mbit/s.

In the case of the Okos Rádás 1500, Okos Rádás 3000, Okos Rádás 4500 tariff packages, in order for the Internet to be used until account closing, the Subscriber needs to purchase a PluszAdat supplemental data option (for a SIM card of a primary tariff package of Okos Rádás 1500, Okos Rádás 3000, Okos Rádás 4500) before the domestic data volume included in the monthly fee is exhausted, or after the domestic data volume included in the Automatikus PluszAdat 150MB option is exhausted on the Netinfo site (<http://netinfo.vodafone.hu>). Without purchasing a data option, the data traffic cannot be exceeded after the domestic data volume included in the Automatikus PluszAdat 150 MB option is exhausted. If the Subscriber has exhausted the domestic data volume included in the package and the Automatikus PluszAdat 150 MB option, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

In case of Okos Rádás Red Plus and Okos Rádás Red Europe packages, the slowdown that takes effect after exhausting the data limit included in the monthly fee and that lasts until the end of the billing cycle shall be 0/0 Mbit/s. In other words, in case of Okos Rádás Red Plus and Okos Rádás Red Europe packages, Subscribers, who/which -after having exhausted the data limit included in the monthly fee- intend to continue using the Internet until account closure, are required to purchase PluszAdat (for primary SIM cards belonging to Okos Rádás Red Plus or Okos Rádás Red Europe tariffs) and/or ExtraAdat (for secondary SIM cards belonging to MultiNet tariffs) and/or Havonta Megújuló Extra Adat (for secondary SIM cards belonging to Multinet tariffs) and/or Plusz Osztható Adat (for primary SIM cards belonging to Okos Rádás Red Plus, or Okos Rádás Red Europe tariffs and for secondary SIM cards belonging to MultiNet tariffs) supplemental data options on the Netinfo page (<http://netinfo.vodafone.hu>). Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

The divisible data quantity included in Okos Rádás Red Plus and Okos Rádás Red Europe packages can only be used with SIM cards that belong to MultiNet tariffs connected to Okos Rádás Red Plus or Okos Rádás Red Europe tariff packages, and accordingly use with subscriptions that are not connected to Okos Rádás Red Plus or Okos Rádás Red Europe subscription contracts is not allowed.

In case of Okos Rádás Red Plus or Okos Rádás Red Europe packages, the Subscriber, who/which -after having exhausted the data limit included in the tariff- shares Plusz Osztható Adat or Havonta Megújuló Plusz Osztható Adat supplemental data options (that were purchased by the Subscriber or other users of secondary SIM card(s) belonging to MultiNet tariffs, who have been authorized by Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>)) for continuing Internet use until account closure, is only able to monitor his own data use on the Netinfo page (<http://netinfo.vodafone.hu>), for technical reasons, that is, the data use related to the primary SIM card, and he has no information on the exact extent of the data usage of secondary SIM card(s) potentially using the data traffic shared therewith. If the user of the secondary SIM card(s) belonging to MultiNet tariffs, who has been duly authorized by the Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>), orders ExtraAdat and/or Havonta Megújuló Extra Adat and/or Plusz Osztható Adat and/or Havonta Megújuló Plusz Osztható Adat supplemental data option, the fee or the supplemental data option shall be invoiced to and payable by the Subscriber of the primary SIM card.

The MultiNet card only provides data transmission service; voice services are not available thereon. Only customers who have 2-year fixed-term subscriptions for new or existing Okos Rádás Red Plus or Okos Rádás Red Europe tariff packages are eligible for MultiNet tariffs. Maximum 1 MultiNet package can be purchased in the offer with a single subscription for Okos Rádás Red Plus and Okos Rádás Red Europe. The Subscriber is eligible for the MultiNet package, as long as he maintains his Okos Rádás Red Plus or Okos Rádás Red Europe subscription. If the primary subscription concluded for Okos Rádás Red Plus or Okos Rádás Red Europe tariff packages is cancelled or changed, we will convert SIM card 2 to Internet Basic tariff.

In case of MultiNet tariffs, the Subscribers, who/which - after having exhausted the data limit included in the monthly fee - intend to continue using the Internet until account closure, are required to purchase on the Netinfo page (<http://netinfo.vodafone.hu>) ExtraAdat supplemental data option (for secondary SIM cards belonging to MultiNet tariffs) and/or Havonta Megújuló Extra Adat (for secondary SIM cards belonging to MultiNet tariffs) and/or Plusz Osztható Adat supplemental data option (for primary SIM cards belonging to Okos Rádás Red Plus or Okos Rádás Red Europe tariffs and secondary SIM cards belonging to MultiNet tariffs). Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

The unlimited minute, SMS and MMS allowance included in the monthly fee of the Okos Rádás Red Plus and Okos Rádás Red Europe service packages is only available for standard-rate domestic calls, sent SMS and MMS messages. Domestic standard-rate directions mean standard-rate calls made to the domestic network of Vodafone and other mobile

service providers, standard-rate calls made to domestic fixed-line numbers, standard-rate SMS messages, standard-rate MMS messages, – as far as fees are concerned – domestic standard-rate directions also mean calls made to special-rate numbers (e.g. voicemail).

The monthly fees of the Okos Rádás 4500, Okos Rádás Red Plus and Okos Rádás Red Europe packages, as well as of the MultiNet Plus Basic, MultiNet Plus Tablet Basic (A, B, C, D), MultiNet Europe, MultiNet Europe Tablet (A, B, C, D) tariff packages also include device insurance service, as indicated in the above table. The terms of using the device insurance service are specified in Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time. The handset insurance service is only provided for handsets purchased from Vodafone no more than 60 days to date, and Vodafone shall not provide this service for devices purchased prior to the above date. Terminating the handset insurance service in accordance with Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time, shall not result in the change of the monthly fee of the above mentioned packages. If the criteria of using the handset insurance service have been met, a discount from the monthly fee of the tariff package is provided that equals to the monthly fee of the service. Terminating the handset insurance service in accordance with Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time, shall not result in the change of the monthly fee of the tariff package.

Okos Rádás Red Plus and Okos Rádás Red Europe service packages can exclusively be used in compliance with the terms of use for Small Enterprise subscribers to satisfy the personal communication needs of natural person users (personal use). Intended personal use does not include the following: if the Subscriber or user uses the SIM card pertaining to Okos Rádás Red Plus and Okos Rádás Red Europe service packages inserted in a non-mobile phone; making automated calls that do not require the personal involvement of the user; making mass calls (the duration of which exceeds the 10% of the total duration of outgoing calls) to automated call receiving devices, equipment (such as, but not exclusively to IVR); making mass calls in order to test, make trial runs or to test the resilience or vulnerability etc. of services, technical instruments or equipment; making calls that regularly exceed 180 minutes per day for the remote monitoring of people, structures, events, etc. (e.g. but not exclusively: asset protection, baby monitoring functions); making calls for establishing machine-to-machine connection (M2M); making or diverting calls in a total duration of more than 24 hours per day; making mass calls or sending bulk SMS of which the Service Provider has reasonable grounds to believe having been made to gain direct benefit by the Subscriber, the User or any other third parties at the expense of the Service Provider. It is strictly prohibited to use the service package with devices that do not have their own display, speaker, microphone and keyboard (including touch-screen keyboard), such as for example adapter, modem. The service packages shall not be used in an abusive manner, among others, for telemarketing, customer service activities or other business purposes. Abusive use shall include the behaviour of sending SMS and MMS messages in a manner contrary to the conditions of personal use, where the number of SMS/MMS messages sent via the subscription exceeds several hundred per day, or the proportion of the number of SMS/MMS messages sent via the subscription involved and that of their recipients exceeds 10%, or the proportion of the number of SMS/MMS messages and that of the replies to them is lower than 80%, or the SMS/MMS messages are sent by the subscriber typically from one location. In the event of abusive use, or the violation of the conditions of personal use, after prior notice from the Service Provider, the service will be available to the Subscriber according to the conditions of the Small Enterprise Basic Tariff.

In the case of Vállalkozói Osztható tariff packages, above the data volume included in the Okos Rádás plan the speed of data traffic will be slowed down. The maximum value of the slowdown for Okos Rádás 1500 tariff for subscription contracts concluded before 15 April 2015 is 0.031 Mbit/s, for subscription contracts concluded after 15 April 2015 is 0/0 Mbit (downloading and uploading). The maximum value of the slowdown for Okos Rádás 3000 and Okos Rádás 4500 tariff for subscription contracts concluded before 01 April 2015 is 0.031 Mbit/s, for subscription contracts concluded after 01 April 2015 is 0/0 Mbit (downloading and uploading) after 01 June 2015. The value of the slowdown in case of Okos Rádás Red Plus and Okos Rádás Red Europe packages is 0/0 Mbit/s for download and upload. If the PluszAdat (Plus data) option is ordered before the slowdown, as detailed below, the slowdown will not take place.

PluszAdat (supplemental option) for Okos Rádás 1500, Okos Rádás 3000, Okos Rádás 4500, Okos Rádás Red Plus and Okos Rádás Red Europe packages

The detailed description of supplemental data options (PluszAdat) available for Okos Rádás 1500, Okos Rádás 3000, Okos Rádás 4500, Okos Rádás Red Plus and Okos Rádás Red Europe packages is included in the following table.

Available PluszAdat	Domestic data volume included	Fee (gross)	Available for the following packages
PluszAdat 100 MB	100 MB	HUF 413.39	Okos Rádás 1500 Okos Rádás 3000 Okos Rádás 4500 Okos Rádás Red Plus Okos Rádás Red Europe
PluszAdat 500 MB	500 MB	HUF 826.77	Okos Rádás 3000 Okos Rádás 4500

			Okos Rádás Red Plus Okos Rádás Red Europe
PluszAdat 1 GB	1 GB	HUF 1,240.16	Okos Rádás 4500 Okos Rádás Red Plus Okos Rádás Red Europe

PluszAdat can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and device to which the Vállalkozói Osztható subscription belongs.

If a PluszAdat option has not been used up fully until the moment of the purchase of the next PluszAdat option, then the unused remaining data traffic of the existing PluszAdat (a supplemental option) will be lost. The PluszAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat options can be purchased in a billing cycle. PluszAdat options are non-renewable options that have to be repurchased in every billing cycle, if needed.

Plusz Osztható Adat (supplemental option) for Okos Rádás Red Plus and Okos Rádás Red Europe service packages

Supplemental divisible data option (Plusz Osztható Adat) can be purchased for Okos Rádás Red Plus and Okos Rádás Red Europe service packages, the data quantity of which may be used with the SIM card of Okos Rádás Red Plus and Okos Rádás Red Europe packages and the SIM card of MultiNet tariffs.

Plusz Osztható Adat can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and device, to which the Okos Rádás Red Plus, Okos Rádás Red Europe or MultiNet subscription belongs.

The fee of the Plusz Osztható Adat supplemental option is charged in all cases to the voice based subscription, that is, the Okos Rádás Red Plus or Okos Rádás Red Europe package.

Available Plusz Osztható Adat	Domestic data volume included	Fee (gross)	Service package
Plusz Osztható Adat 100 MB	100 MB	HUF 620.13	Okos Rádás Red Plus Okos Rádás Red Europe
Plusz Osztható Adat 1 GB	1 GB	HUF 1,653.54	

If a Plusz Osztható Adat option is not completely used by the time of purchasing the next Plusz Osztható Adat option, the unused remaining data traffic of the existing Plusz Osztható Adat (supplemental option) will be lost. The Plusz Osztható Adat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat options can be purchased in a billing cycle. PluszAdat options are non-renewable options that have to be repurchased in every billing cycle, if needed.

In the case of Vállalkozói Osztható tariff packages, above the data volume included in the Okos Rádás plan the speed of data traffic will be slowed down. The maximum value of the slowdown for subscription contracts concluded in a package before 15 April 2015 is 0.031 Mbit/s, for subscription contracts concluded after 15 April 2015 it is 0/0 Mbit (downloading and uploading). The maximum value of the slowdown for Okos Rádás 3000 and Okos Rádás 4500 tariff for subscription contracts concluded before 01 April 2015 is 0.031 Mbit/s, for subscription contracts concluded after 01 April 2015 is 0/0 Mbit (downloading and uploading) after 01 June 2015. The value of the slowdown in case of Okos Rádás Red Plus and Okos Rádás Red Europe packages is 0/0 Mbit/s for download and upload. If the PluszAdat (Plus data) option is ordered before the slowdown, as detailed below, the slowdown will not take place.

In case of Okos Rádás Red Plus and Okos Rádás Red Europe packages, the slowdown that takes effect after exhausting the data limit included in the monthly fee and that lasts until the end of the billing cycle shall be 0/0 Mbit/s. In other words, in case of Okos Rádás Red Plus and Okos Rádás Red Europe packages, Subscribers, who/which -after having exhausted the data limit included in the monthly fee- intend to continue using the Internet until account closure, are required to purchase PluszAdat (for primary SIM cards belonging to Okos Rádás Red Plus or Okos Rádás Red Europe tariffs) and/or ExtraAdat (for secondary SIM cards belonging to MultiNet tariffs) and/or Havonta Megújuló Extra Adat (for secondary SIM cards belonging to MultiNet tariffs) and/or Plusz Osztható Adat (for primary SIM cards belonging to Okos Rádás Red Plus, or Okos Rádás Red Europe tariffs and for secondary SIM cards belonging to MultiNet tariffs) supplemental data options on the Netinfo page (<http://netinfo.vodafone.hu>). Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

2.5.14. Vodafone RED services packages: Red Basic, Business Red Plus and Business Red Europe

The Red Basic, Business Red Plus and Business Red Europe service packages were reclassified as commercially unavailable as of 30 April 2016.

The following tariff plans are only available for (new and existing) Small Business Subscribers purchasing a post-paid subscription. Vodafone RED plans can be maintained in the case of a legal relationship of subscription covering at least 30 SIM cards.

The prices indicated in the following table are gross prices including VAT. In the service packages billing is performed in units of 1 minute.

	Red Basic SIM	Red Basic X	Red Basic A	Red Basic B	Red Basic C	Red Basic D	Red Basic E

Handset insurance	Extra	Extra	Extra	Extra	-	-	Extra
Guaranteed download and upload speed	in accordance with section 4.1 of the GTC						
Offered bandwidth (down/up, Mbit/s) above the divisible data traffic included in the monthly subscription fee monthly divisible data traffic	0/0						
SMS to any domestic network (HUF)	30.48						

Unlimited airtime minutes, SMS/MMS messages included in the monthly fee only apply to domestic standard-rate calls, sent SMS and MMS messages. Domestic standard-rate directions mean standard-rate calls made to the domestic network of Vodafone and other mobile service providers, standard-rate calls made to domestic fixed-line numbers, standard-rate SMS messages, standard-rate MMS messages, and in case of RED service packages – as far as fees are concerned – domestic standard-rate directions also mean calls made to special-rate numbers (e.g. voicemail).

In the case of Vodafone RED service packages, after the data volume contained in the monthly fee has been used up, PlusZAdat (Plus Data) (additional data) option may be purchased on the Netinfo site (<http://netinfo.vodafone.hu>), otherwise

we will keep slowing down the speed until the end of the billing cycle. After the end of the billing period, the original speed is restored. Maximum value of the slowdown: In the case of Red Basic (SIM, X, A, B, C, D, E) service package is 0.031 Mbit/s for download and upload. The maximum value of the slowdown in case of Business Red Plus and Business Red Europe packages is 0/0 Mbit/s for download and upload.

If the Subscriber does not use up the monthly traffic limit included in the monthly fee, the remaining part cannot be rolled over to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. Billing unit: 10 Kbyte.

The monthly domestic data traffic included in the Business Red Plus and Business Red Europe tariff packages can be fully divided between two SIM cards (one voice and data based card and one exclusively mobile internet based card). If the Subscriber does not use up the monthly traffic limit included in the monthly fee, the remaining part cannot be rolled over to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. Billing unit: 10 Kbyte. In case of Business Red Plus and Business Red Europe packages, the slowdown that takes effect after exhausting the data limit included in the monthly fee and that lasts until the end of the billing cycle shall be 0/0 Mbit/s. In other words, in case of Business Red Plus and Business Red Europe packages, Subscribers, who/which -after having exhausted the data limit included in the monthly fee- intend to continue using the Internet until account closure, are required to purchase PluszAdat (for primary SIM cards belonging to Business Red Plus or Business Red Europe tariffs) and/or ExtraAdat (for secondary SIM cards belonging to MultiNet tariffs) and/or Havonta Megújuló Extra Adat (for secondary SIM cards belonging to Multinet tariffs) and/or Plusz Osztható Adat (for primary SIM cards belonging to Business Red Plus, or Business Red Europe tariffs and for secondary SIM cards belonging to MultiNet tariffs and/or Havonta Megújuló Plusz Osztható Adat (for primary SIM cards belonging to Business Red Plus tariffs and secondary SIM cards belonging to MultiNet tariffs in the case of subscription contracts concluded after 24 October 2015) supplemental data options on the Netinfo page (<http://netinfo.vodafone.hu>). Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

The MultiNet card only provides data transmission service; voice services are not available thereon. Only customers who have subscriptions for new or existing Business Red Plus or Business Red Europe packages are eligible for MultiNet tariffs. Maximum 1 MultiNet package can be purchased in the offer with a single subscription for Business Red Plus and Business Red Europe. The Subscriber is eligible for the MultiNet package, as long as he maintains his fixed or indefinite-term Business Red Plus or Business Red Europe subscription. If the primary subscription concluded for Business Red Plus or Business Red Europe tariff packages is cancelled or changed, we will convert SIM card 2 to Internet Basic tariff.

In case of MultiNet tariffs, the Subscribers, who/which - after having exhausted the data limit included in the monthly fee - intend to continue using the Internet until account closure, are required to purchase on the Netinfo page (<http://netinfo.vodafone.hu>) ExtraAdat supplemental data option (for secondary SIM cards belonging to MultiNet tariffs) and/or Havonta Megújuló Extra Adat (for secondary SIM cards belonging to MultiNet tariffs) and/or Plusz Osztható Adat supplemental data option (for primary SIM cards belonging to Business Red Plus or Business Red Europe tariffs and secondary SIM cards belonging to MultiNet tariffs) and/or Havonta Megújuló Plusz Osztható Adat (for primary SIM cards belonging to Business Red Plus tariff and secondary SIM cards belonging to MultiNet tariffs in the case of subscription contracts concluded after 24 October 2015). Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle. Guaranteed speed above the data traffic included in the monthly subscription fee (download/upload Mbit/s) is determined in accordance with section 4.1 of the GTC.

In case of Business Red Plus or Business Red Europe packages, the Subscriber, who/which -after having exhausted the data limit included in the tariff- shares Plusz Osztható Adat supplemental data options (that were purchased by the Subscriber or other users of secondary SIM card(s) belonging to MultiNet tariffs, who have been authorized by Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>)) for continuing Internet use until account closure, is only able to monitor his own data use on the Netinfo page (<http://netinfo.vodafone.hu>), for technical reasons, that is, the data use related to the primary SIM card, and he has no information on the exact extent of the data usage of secondary SIM card(s) potentially using the data traffic shared therewith. If the user of the secondary SIM card(s) belonging to MultiNet tariffs, who has been duly authorized by the Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>), orders ExtraAdat and/or Plusz Osztható Adat and/or Havonta Megújuló Plusz Osztható Adat supplemental data option (in the case of subscription contract concluded after 24 October 2015, for primary SIM card belonging to Business Red Plus tariffs and secondary SIM cards belonging to MultiNet tariffs), the fee or the supplemental data option shall be invoiced to and payable by the Subscriber of the primary SIM card.

The monthly fee of the Red Basic (X, A, B, C, D, E) service package, as well as in the case of the Business Red Plus and Business Red Europe service packages, the monthly fees of the supplemental option also include device insurance service, as indicated in the above service package table. The terms of using the device insurance service are specified in

Vodafone's Device Insurance Information for Customers and the General Terms and Conditions, as amended from time to time. The handset insurance service is only provided for handsets purchased from Vodafone no more than 60 days to date – including RED packages– and Vodafone does not provide this service for devices purchased prior to the above date. Terminating the handset insurance service in accordance with Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time, shall not result in the change of the monthly fee of the above mentioned service packages. If the criteria of using the handset insurance service have been met, a discount from the monthly fee of the tariff package is provided that equals to the monthly fee of the service. Terminating the handset insurance service in accordance with Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time, shall not result in the change of the monthly fee of the tariff package.

If choosing tariff categories 3, 4 or 5, the monthly fee of the Business Red EU Standard and Business Red EU Premium service packages contains Office 365 Business Essentials package services (for contracts concluded after 17 August 2015). The terms of using these services are specified in Vodafone's General Terms and Conditions for Other Services, as amended from time to time. Terminating the Office 365 Business Essentials package service in accordance with Vodafone's Terms of Use for Other Services, as amended from time to time, shall not result in the change of the monthly fee of the above mentioned service packages. If the criteria of using the Office 365 Business Essentials package service have been met, we provide a discount from the monthly fee of the tariff package that equals the monthly fee of the service.

If choosing tariff category 2, in the case of subscription contracts concluded after 17 August 2015, the OneDrive for Business with Office Online service –Office Online (Word, Excel, Power Point) – is available free of charge with Red Basic, Business Red Plus or Business Red Europe service package as per the General Terms and Conditions for Other Services, the acceptance of which terms and conditions is specifically required to be able to use the service.

The OneDrive for Business with Office Online service may generate data traffic, which is not part of the service. Data traffic generated while using the OneDrive for Business with Office Online service can be used by deducting it from the data traffic included in the Red Basic, Business Red Plus or Business Red Europe service package or other Internet access.

The charges of international calls are contained in Section 9 of Annex 1 on Tariffs.

The Vodafone RED service packages are allowed to be used if the rules of use by a Small Business Subscriber are observed. Small business use does not include the case when the Subscriber uses his SIM card belonging to the Vodafone RED service package not in a mobile handset. It is strictly prohibited to use the service package by any appliance that does not have its own display, loudspeaker and keyboard, such as, e.g. an adapter or modem.

The service packages shall not be used in an abusive manner, among others, for telemarketing, customer service activities or other business purposes. Abusive use shall include the behaviour of sending SMS and MMS messages in a manner contrary to the conditions of personal use, where the number of SMS/MMS messages sent via the subscription exceeds several hundred per day, or the proportion of the number of SMS/MMS messages sent via the subscription involved and that of their recipients exceeds 10%, or the proportion of the number of SMS/MMS messages and that of the replies to them is lower than 80%, or the SMS/MMS messages are sent by the subscriber typically from one location. In the event of abusive use, or the violation of the conditions of personal use, after prior notice from the Service Provider, the service will be available to the Subscriber according to the conditions of the Small Enterprise Basic Tariff.

Vodafone RED service packages purchased on or after 2 May, 2013 can exclusively be used in compliance with the terms of use for Small Enterprise subscribers to satisfy the personal communication needs of natural person users (personal use). Intended personal use does not include the following: if the Subscriber or user uses the SIM card pertaining to Vodafone RED service packages inserted in a non-mobile phone; making automated calls that do not require the personal involvement of the user; making mass calls (the duration of which exceeds the total duration of outgoing calls by more than 10%) to automated call receiving devices, equipment (such as, but not exclusively to IVR); making mass calls in order to test, make trial runs or to test the resilience or vulnerability etc. of services, technical instruments or equipment; making calls that regularly exceeds 180 minutes per day for the remote monitoring of people, structures, events, etc. (e.g. but not exclusively: asset protection, baby monitoring functions); making calls for establishing machine-to-machine connection (M2M); making or diverting calls in a total duration of more than 24 hours per day; making mass calls or sending bulk SMS of which the Service Provider has reasonable grounds to believe having been made to gain direct benefit by the Subscriber, the User or any other third parties at the expense of the Service Provider. It is strictly prohibited to use the service package with devices that do not have their own display, speaker, microphone and keyboard (including touch-screen keyboard), such as for example adapter, modem. The service packages may not be used for business purposes, such as telemarketing, customer service activities, sending bulk SMS. Vodafone reserves the right to restrict or terminate the service, after providing prior warning, if it is used for unintended purposes, or to convert the subscription to Small Enterprise Basic Tariff after providing prior notice in SMS.

The Red Basic SIM and Business Red Plus, Business Red Europe packages without choosing a supplemental option (tariff categories, 1, 2, 3, 4, 5, 6) are not available with device purchase.

Zárt csoport (Closed group) option, Esti percek (Evening minutes) option, Hétvégi percek (Weekend minutes) option, SMS Maxi option or SMS Mini option are not available with Vodafone Red Basic service packages.

The Fixed-line area option, the All fixed-line area option, the SMS Mini option, the SMS Maxi option, the Hétvégi percek (Weekend minutes), the Esti percek (Evening minutes) option are not available with the Business Red Plus and Business Red Europe service packages.

In foreign countries the valid Roaming tariffs will apply.

In case of Business Red Plus and Business Red Europe tariff packages, Európa and/or Világ Napijegy is billed on the roaming networks determined by the Service Provider on Business Red Plus, Business Red Europe tariff packages with divisible data traffic (primary SIM) and on the related MultiNet tariff packages (secondary SIM) automatically per SIM card, on the basis of the first billable event generated by the Subscriber on the SIM card on the concerned calendar day (call initiated or received, SMS sent, or data downloaded or uploaded in a roaming environment) and subsequently the Subscriber can make phone calls, send SMS and use the available data quantity on the SIM card in question at favourable rates (section 5.2.). Subscribers who are entitled to use the Netinfo page (<http://netinfo.vodafone.hu>) thanks to their tariffs or data option can conduct data traffic abroad up to and from their data limit that is allowed by their tariffs in a domestic relation. Within the validity period, after exhausting the data limit, data options can be purchased, otherwise we will slow down the speed of internet access to 0/0 Mbit/s.

Roaming service for the Business Red Plus and the Business Red Europe service packages:

Data traffic means the aggregate sum of sent and received data volume. Billing unit: 100 Kbyte. Data traffic can be used for roaming internet, WAP. Data traffic not used on the given calendar day cannot be rolled over to the next discount period and may not be used domestically. The Subscriber receives SMS notification when exhausting 80% and 100% of the daily data volume. The preferential data volume cannot be used for peer-to-peer (P2P) data traffic.

The e-Pack service is available for Subscribers with Red Basic (SIM, X, A, B, C, D, E), Business Red Plus and Business Red Europe service packages purchased with 2-year fixed-term contracts. In case of using the e-Pack service, the Subscriber agrees to fulfil the following conditions in every month while using the e-Pack service, in exchange for a more favourable monthly subscription fee:

- The Subscriber uses E-bills regarding all of his subscriptions under one client number with the content defined in section 7.1.2.4 of the GTC: Electronic Bill and Document Presentation (E-bill).
- The bill is settled by using one of the following payment options:
 - on the www.vodafone.hu/szamlabefizetes web page,
 - with Vodafone mobile application,
 - by bank transfer,
 - by direct debit order,
 - via ATM machines.
- The bill is settled by the payment deadline indicated in the bill.

If the Subscriber fails to meet any of the above conditions in a given month, a one-off fee of gross HUF 1,000 per subscription will be charged to the Subscriber in his next monthly bill. The fee payable for failing to fulfil the e-Pack conditions is only billed once per month even if the Subscriber fails to meet several e-Pack conditions in a given month.

If the Subscriber has multiple subscriptions and one of those is used with e-Pack, the Subscriber is required to settle the monthly bills of all subscriptions by satisfying the e-Pack conditions.

Should the Subscriber receive payment extension in a month and fail to settle his bill by the payment deadline indicated in the bill, the one-off fee payable for failing to meet the e-Pack conditions shall also be billed.

Cancelling the e-Pack service shall constitute a tariff change. Changing between the versions of the same tariff (with and without e-Pack) can be requested without being obligated to pay liquidated damages.

In the case of 2-year fixed-term contracts for Red Basic (SIM, X, A, B, C, D, E) service packages, if the Subscriber does not conclude another fixed-term contract prior to the expiry of the current fixed-term contract in accordance with the rules on contract extension, as amended from time to time, the Subscriber will be entitled to use the service from the 15th day of the month following the expiry of the fixed-term for the fees of the Small Enterprise Base Tariffs, unless otherwise agreed on by the parties.

PluszAdat (supplemental option)

A supplemental data option (PluszAdat) can be purchased for Vodafone RED service packages, whose detailed description is contained in the following table.

PluszAdat may also be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which Vodafone RED subscription belongs.

Available PluszAdat	Domestic data volume included	Fee (gross)	Service package
PluszAdat 100 MB	100 MB	HUF 413.39	Business Red Plus Business Red Europe
PluszAdat 500 MB	500 MB	HUF 826.77	
PluszAdat 1 GB	1 GB	HUF 1,240.16	

Available PluszAdat	Domestic data volume included	Fee (gross)	Service package
PluszAdat 100 MB	100 MB	HUF 413.39	Red Basic (SIM, X, A, B, C, D, E)
PluszAdat 1 GB	1 GB	HUF 1,240.16	Red Basic (SIM, X, A, B, C, D, E)

If a PluszAdat option has not been used up fully until the moment of the purchase of the next PluszAdat option, then the unused remaining data traffic of the existing PluszAdat (a supplemental option) will be lost. The PluszAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat options can be purchased in a billing cycle. PluszAdat options are non-renewable options that have to be repurchased in every billing cycle, if needed.

Plusz Osztható Adat (supplemental option)

Supplemental divisible data option (Plusz Osztható Adat) can be purchased for Business Red Plus and Business Red Europe service packages, the data quantity of which may be used with the SIM card of Business Red Plus and Business Red Europe packages and the SIM card of MultiNet tariffs.

Plusz Osztható Adat can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and device, to which the Business Red Plus, Business Red Europe or MultiNet subscription belongs.

The fee of the Plusz Osztható Adat supplemental option is charged in all cases to the voice based subscription, that is, the Business Red Plus or Business Red Europe package.

Available Plusz Osztható Adat	Domestic data volume included	Fee (gross)	Service package
Plusz Osztható Adat 100 MB	100 MB	HUF 620.13	Business Red Plus Business Red Europe
Plusz Osztható Adat 1 GB	1 GB	HUF 1,653.54	

If a Plusz Osztható Adat option is not completely used by the time of purchasing the next Plusz Osztható Adat option, the unused remaining data traffic of the existing Plusz Osztható Adat (supplemental option) will be lost. The Plusz Osztható Adat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat options can be purchased in a billing cycle. PluszAdat options are non-renewable options that have to be repurchased in every billing cycle, if needed.

Havonta Megújuló Plusz Osztható Adat (supplemental option) for Business Red Plus service packages in the case of subscription contract concluded after 24 October 2015

Havonta Megújuló Plusz Osztható Adat supplemental option may be ordered for the Business Red Plus packages, which is a renewable data option, reactivated every billing cycle, i.e. it will not have to be reordered. Havonta Megújuló Plusz Osztható Adat supplemental option can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from both the primary SIM card belonging to the Business Red Plus package and the secondary MultiNet SIM card.

Available Monthly Renewable Plusz Osztható Adat options	Domestic data volume included	Fee (gross)	Service package
Monthly Renewable Plusz Osztható Adat 1 GB	1 GB	HUF 1,240.16	for primary SIM card belonging to Business Red Plus tariff and the for secondary SIM card belonging to MultiNet tariff

If the Monthly Renewable Plusz Osztható Adat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The Monthly Renewable Plusz Osztható Adat option may exclusively be used by the end of the given billing cycle in domestic networks.

ExtraAdat (supplemental option) for MultiNet tariff in the case of subscription contracts concluded before 1 June 2015.

Available ExtraAdat	Domestic data volume included in the option	Fee (gross)
ExtraAdat 100 MB	0.097 GB (100 MB)	HUF 413.39
ExtraAdat 1 GB	1 GB	HUF 1,240.16

ExtraAdat (supplemental option) for MultiNet tariff in the case of subscription contracts concluded after 1 June 2015.

ExtraAdat (supplemental option) option may be purchased for the MultiNet tariff packages anytime within the billing cycle, described in detail in the following table. The ExtraAdat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the MultiNet subscription belongs.

Available ExtraAdat	Domestic data volume included	Fee (gross)
ExtraAdat 200 MB	200 MB	HUF 413.39
ExtraAdat 1 GB	1 GB	HUF 1,653.54

If an ExtraAdat option is not completely used by the time of purchasing the next ExtraAdat option, the unused remaining data traffic will be lost. The ExtraAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of ExtraAdat options can be purchased in a billing cycle. ExtraAdat is a non-renewable option that has to be repurchased in every billing cycle, if needed.

Monthly Renewable ExtraAdat (supplemental option) for MultiNet subscription contracts concluded after 1 September 2015

A monthly renewable Extra Adat (supplemental option) option may be purchased to the MultiNet tariff packages, which supplemental option is a renewable option, reactivated every billing cycle, i.e. it will not have to be reordered. The monthly renewable Extra Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the MultiNet subscription belongs.

Available Monthly Renewable ExtraAdat	Domestic data volume included	Fee (gross)
Monthly Renewable ExtraAdat 1 GB	1 GB	HUF 1,240.16

If the Monthly Renewable Extra Adat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The Monthly Renewable Extra Adat option may exclusively be used by the end of the given billing cycle in

domestic networks. Any number of Extra Adat option may be purchased in addition to the Monthly Renewable Adat option in a given billing period.

2.5.15. Medium and Large Enterprise Red service packages: Red Basic, Business Red Plus and Business Red Europe

Guaranteed download and upload speed	in accordance with section 4.1 of the GTC						
SMS to any domestic network (HUF)	24						

Unlimited airtime minutes, SMS/MMS messages included in the monthly fee only apply to domestic standard-rate calls, sent SMS and MMS messages. Domestic standard-rate directions mean standard-rate calls made to the domestic network of Vodafone and other mobile service providers, standard-rate calls made to domestic fixed-line numbers, standard-rate SMS messages, standard-rate MMS messages, and in case of RED service packages – as far as fees are concerned – domestic standard-rate directions also mean calls made to special-rate numbers (e.g. voicemail).

Data traffic included in the monthly fee applies only to domestic use. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. Billing unit: 10 Kbyte. If the Subscriber does not use up the traffic limit included in the monthly fee, it cannot roll over the remaining part to the next billing cycle.

The monthly domestic data traffic included in the Business Red Plus and Business Red Europe tariff packages concluded after 1 July 2015, can be fully divided between two SIM cards (one voice and data based card and one exclusively mobile internet based card). If the Subscriber or User does not use the monthly traffic limit included in the monthly fee, the remaining part cannot be rolled over to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. Billing unit: 10 Kbyte. In case of Business Red Plus and Business Red Europe packages, the slowdown that takes effect after exhausting the data limit included in the monthly fee and that lasts until the end of the billing cycle shall be 0/0 Mbit/s. In other words, in case of Business Red Plus and Business Red Europe packages, Subscribers, who/which -after having exhausted the data limit included in the monthly fee- intend to continue using the Internet until account closure, are required to purchase PluszAdat (for primary SIM cards belonging to Business Red Plus or Business Red Europe tariffs) and/or Havonta Megújuló Plusz Adat (for primary SIM cards belonging to Business Red Plus and Business Red Europe tariffs) and/or Plusz Osztható Adat (for primary SIM cards belonging to Business Red Plus, or Business Red Europe tariffs and for secondary SIM cards belonging to MultiNet tariffs) and/or Havonta Megújuló Plusz Osztható Adat (for primary SIM cards belonging to Business Red Plus tariffs and secondary SIM cards belonging to MultiNet tariffs in the case of subscription contracts concluded after 24 October 2015) and/or ExtraAdat (for secondary SIM cards belonging to MultiNet tariffs) and/or Havonta Megújuló Extra Adat (for secondary SIM cards belonging to MultiNet tariffs) supplemental data options on the Netinfo page (<http://netinfo.vodafone.hu>). Without purchasing a data option, the

data traffic cannot be exceeded. If the Subscriber or the User has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

The MultiNet card only provides data transmission service; voice services are not available thereon. Only customers who have subscriptions for new or existing Business Red Plus or Business Red Europe packages concluded after 1 July 2015 are eligible for MultiNet tariffs. Maximum 1 MultiNet package can be purchased in the offer with a single subscription for Business Red Plus and Business Red Europe. The Subscriber is eligible for the MultiNet package, as long as he maintains his fixed or indefinite-term Business Red Plus or Business Red Europe subscription. If the primary subscription concluded for Business Red Plus or Business Red Europe tariff packages is cancelled or changed, we will convert SIM card 2 to Internet Basic tariff.

In case of MultiNet tariffs, the Subscribers, who/which - after having exhausted the data limit included in the monthly fee - intend to continue using the Internet until account closure, are required to purchase on the Netinfo page (<http://netinfo.vodafone.hu>) ExtraAdat supplemental data option (for secondary SIM cards belonging to MultiNet tariffs) and/or Havonta Megújuló Extra Adat (for secondary SIM cards belonging to MultiNet tariffs) and/or Plusz Osztható Adat supplemental data option (for primary SIM cards belonging to Business Red Plus or Business Red Europe tariffs and secondary SIM cards belonging to MultiNet tariffs) and/or Havonta Megújuló Plusz Osztható Adat (for primary SIM cards belonging to Business Red Plus tariff and secondary SIM cards belonging to MultiNet tariffs in the case of subscription contracts concluded after 24 October 2015). Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber or the User has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle. Guaranteed speed above the data traffic included in the monthly subscription fee (download/upload Mbit/s) is determined in accordance with section 4.1 of the GTC.

In case of Business Red Plus or Business Red Europe packages, the Subscriber or User, who/which -after having exhausted the data limit included in the tariff- shares Plusz Osztható Adat supplemental data options (that were purchased by the Subscriber or other users of secondary SIM card(s) belonging to MultiNet tariffs, who have been authorized by Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>) for continuing Internet use until account closure, is only able to monitor his own data use on the Netinfo page (<http://netinfo.vodafone.hu>), for technical reasons, that is, the data use related to the primary SIM card, and he has no information on the exact extent of the data usage of secondary SIM card(s) potentially using the data traffic shared therewith. If the user of the secondary SIM card(s) belonging to MultiNet tariffs, who has been duly authorized by the Subscriber or User on the Netinfo page (<http://netinfo.vodafone.hu>), orders ExtraAdat and/or Havonta Megújuló Extra Adat and/or Plusz Osztható Adat and/or Havonta Megújuló Plusz Osztható Adat supplemental data option (in the case of subscription contract concluded after 24 October 2015, for primary SIM card belonging to Business Red Plus tariffs and secondary SIM cards belonging to MultiNet tariffs), the fee or the supplemental data option shall be invoiced to the Subscriber of the primary SIM card.

In the case of Red Basic service packages, after the data volume contained in the monthly fee has been used, PluszAdat (additional data) option may be purchased on the Netinfo site (<http://netinfo.vodafone.hu>), otherwise we will keep slowing down the speed until the end of the billing cycle. After the end of the billing period, the original speed is restored.

Maximum value of slowdown for subscription contracts concluded before 01.07.2015: 0.031 Mbit/s for download and upload, in the case of subscription contracts concluded after 01.07.2015: 0/0 Mbit/s for download and upload.

In the case of Business Red Plus and Business Red Europe service packages, the slowdown that takes effect after exhausting the domestic data limit included in the monthly fee and that lasts until the end of the billing cycle shall be 0/0 Mbit/s, which means that in the case of the Business Red Plus and Business Red Europe service packages, after having exhausted the data traffic limit included in the monthly fee, PluszAdat supplemental data option needs to be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

The Red Basic, Business Red Plus, and Business Red Europe service packages include the "Zárt Csoport" (Closed Group) option, which allows the settlement of voice traffic within the Vodafone Magyarország Zrt. network made between the SIM cards of the Medium and Large Enterprise Subscriber that were organized into a so-called "Closed Group" (in terms of pricing) at a minute charge of HUF 0, even if a member of this "Closed Group" does not have a Medium and Large Enterprise Red service package detailed in this section but other Vodafone Individual Tariff Plan regulated in an Agreement concluded by and between the Service Provider and the Medium and Large Enterprise Subscriber.

For Red Basic and Business Red Plus service packages, the monthly fee of the supplemental options and the monthly fee of the MultiNet Plus Alap, MultiNet Plus Tablet Alap (A, B, C, D) tariffs includes Basic device insurance, while for Business Red Europe service package, the monthly fee of the supplemental options and the monthly fee of the MultiNet Europe,

MultiNet Europe Tablet (A, B, C, D) tariffs includes Extra device insurance. The terms of using the device insurance service are specified in Vodafone's Device Insurance Information for Customers and the General Terms and Conditions, as amended from time to time. The handset insurance service is only provided for handsets purchased from Vodafone no more than 60 days to date, including for Medium and Large Enterprise Red packages, and Vodafone cannot provide this service otherwise. Terminating the handset insurance service in accordance with Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time, shall not result in the change of the monthly fee of the above mentioned service packages. If the criteria of using the handset insurance service have been met, a discount from the monthly fee of the tariff package is provided that equals to the monthly fee of the service.

If choosing tariff categories 3, 4 or 5, the monthly fee of the Red Basic service package contains Office 365 Small Enterprise package without Office licence service (for contracts concluded before 17 August 2015) and Office 365 Business Essentials package service (for contracts concluded after 17 August 2015). In the case of tariff categories 3, 4 or 5, the monthly fee of Business Red Plus and Business Red Europe service packages includes Office 365 Large Enterprise package without Office licence service (for contract concluded before 17 August 2015) and Office 365 Business Essentials package services (for contracts concluded after 17 August 2017). The terms of using these services are specified in Vodafone's General Terms and Conditions for Other Services, as amended from time to time. In the event of the cancellation of the Office 365 Small Enterprise package without Office licence service, of the Office 365 Large Enterprise package without Office licence service, as well as of the Office 365 Business Essentials package service as per Vodafone's General Terms and Conditions for Other Services, as amended from time to time, the monthly fee of the above service packages will not change. If the criteria of using the Office 365 Small Enterprise package without Office licence, the Office 365 Large Enterprise package without Office licence or the Office 365 Business Essentials package service are met, a discount will be provided from the monthly fee of the tariff package that equals the monthly fee of the service.

OneDrive for Business with Office Online:

If choosing tariff category 2, in the case of subscription contracts concluded after 17 August 2015, the OneDrive for Business with Office Online service –Office Online (Word, Excel, Power Point) – is available free of charge with Red Basic, Business Red Plus or Business Red Europe service package as per the General Terms and Conditions for Other Services, the acceptance of which terms and conditions is specifically required to be able to use the service.

The OneDrive for Business with Office Online service may generate data traffic, which is not part of the service. Data traffic generated while using the OneDrive for Business with Office Online service can be used by deducting it from the data traffic included in the Red Basic, Business Red Plus or Business Red Europe service package or other Internet access.

The charges of international calls and the zone classification of the countries that can be reached by international calls are contained in Section 9 of Annex 1 on Tariffs.

Medium and Large Enterprise Red service packages can exclusively be used in compliance with the terms of use for Medium and Large Enterprise Subscribers to satisfy the personal communication needs of natural person users (personal use). Intended personal use does not include the following: if the Subscriber or user uses the SIM card pertaining to Medium and Large Enterprise Red service package inserted in a non-mobile phone; making automated calls that do not require the personal involvement of the user; making mass calls (the duration of which exceeds the 10% of the total duration of outgoing calls) to automated call receiving devices, equipment (such as, but not exclusively to IVR); making mass calls in order to test, make trial runs or to test the resilience or vulnerability etc. of services, technical instruments or equipment; making calls that regularly exceeds 180 minutes per day for the remote monitoring of people, structures, events, etc. (e.g. but not exclusively: asset protection, baby monitoring functions); making calls for establishing machine-to-machine connection (M2M); making or diverting calls in a total duration of more than 24 hours per day; making mass calls or sending bulk SMS of which the Service Provider has reasonable grounds to believe having been made to gain direct benefit by the Subscriber, the User or any other third parties at the expense of the Service Provider. It is strictly prohibited to use the service package with devices that do not have their own display, speaker, microphone and keyboard (including touch-screen keyboard), such as for example adapter, modem. The service packages shall not be used in an abusive manner, among others, for telemarketing, customer service activities or other business purposes. Abusive use shall include the behaviour of sending SMS and MMS messages in a manner contrary to the conditions of personal use, where the number of SMS/MMS messages sent via the subscription exceeds several hundred a day, or the proportion of the number of SMS/MMS messages sent via the subscription involved and that of their recipients exceeds 10%, or the proportion of the number of SMS/MMS messages and that of the replies to them is lower than 80%, or the SMS/MMS messages are sent by the subscriber typically from one location.

The Red Basic, Business Red Plus, Business Red Europe packages without choosing a supplemental option (tariff categories, 1, 2, 3, 4, 5) are not available with device purchase.

Car SIM card service and conference call service are not available for Medium and Large Enterprise Red service packages.

Esti percek (Evening minutes) option, Hétfégi percek (Weekend minutes) option, SMS Maxi option or SMS Mini option are not available with Red Basic service packages.

The Call Separation option, Fixed-line area option, the All fixed-line area option, the SMS Maxi option, the SMS Mini option, the Hétfégi percek (Weekend minutes) option are not available with the Business Red Plus and Business Red Europe service packages.

In foreign countries the valid Roaming tariffs will apply.

PluszAdat (supplemental option)

Supplemental data option (PluszAdat) can be purchased for Medium and Large Enterprise Red service packages, the detailed description of which is included in the following table.

PluszAdat can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and device to which the Medium and Large Enterprise Red subscription belongs.

Available PluszAdat	Domestic data volume included	Fee (net)	Service package

PluszAdat 500 MB	500 MB	HUF 787.4	
PluszAdat 1 GB	1 GB	HUF 1,181.1	

Available PluszAdat	Domestic data volume included	Fee (net)	Service package
PluszAdat 100 MB	100 MB	HUF 393.7	Red Basic
PluszAdat 1 GB	1 GB	HUF 1,181.1	

If a PluszAdat option has not been used up fully until the moment of the purchase of the next PluszAdat option, then the unused remaining data traffic of the existing PluszAdat (a supplemental option) will be lost. The PluszAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat options can be purchased in a billing cycle. PluszAdat options are non-renewable options that have to be repurchased in every billing cycle, if needed.

Monthly Renewable PluszAdat (supplemental option)

Havonta Megújuló PluszAdat option may be purchased to the Red Basic, Business Red Plus and Business Red Europe service packages, which supplemental option is a renewable option, reactivated every billing cycle, i.e. it will not have to be reordered. Havonta Megújuló PluszAdat may also be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which Red Basic, Business Red Plus or Business Red Europe subscription belongs.

Available Monthly Renewable PluszAdat	Domestic data volume included	Fee (net)	Service package
Havonta Megújuló PluszAdat 1 GB	1 GB	HUF 1,181.1	Red Basic Business Red Plus Business Red Europe

If the Monthly Renewable PluszAdat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The Monthly Renewable PluszAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat option may be purchased in addition to the Monthly Renewable PluszAdat option in a given billing period.

Plusz Osztható Adat (supplemental option)

Supplemental divisible data option (Plusz Osztható Adat) can be purchased for Business Red Plus and Business Red Europe service packages, the data quantity of which may be used with the SIM card of Business Red Plus and Business Red Europe packages and the SIM card of MultiNet tariffs.

Plusz Osztható Adat can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and device, to which the Business Red Plus, Business Red Europe or MultiNet subscription belongs.

The fee of the Plusz Osztható Adat supplemental option is charged in all cases to the voice based subscription, that is, the Business Red Plus or Business Red Europe package.

Available Plusz Osztható Adat	Domestic data volume included	Fee (net)	Service package
Plusz Osztható Adat 100 MB	100 MB	HUF 590.6	Primary SIM belonging to Business Red Plus tariffs, and secondary SIM belonging to MultiNet tariff

Plusz Osztható Adat 1 GB	1 GB	HUF 1574.8	Primary SIM belonging to Business Red Plus and Business Red Europe tariffs, and secondary SIM belonging to MultiNet tariff
Plusz Osztható Adat 3 GB	3 GB	HUF 2354.3	Primary SIM belonging to Business Red Europe tariff, and secondary SIM belonging to MultiNet tariff
Plusz Osztható Adat 8 GB	8 GB	HUF 3141.7	Primary SIM belonging to Business Red Plus and Business Red Europe tariffs, and secondary SIM belonging to MultiNet tariff

If a Plusz Osztható Adat option is not completely used by the time of purchasing the next Plusz Osztható Adat option, the unused remaining data traffic of the existing Plusz Osztható Adat (supplemental option) will be lost. The Plusz Osztható Adat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat options can be purchased in a billing cycle. PluszAdat options are non-renewable options that have to be repurchased in every billing cycle, if needed.

The Plusz Osztható Adat 8 GB supplemental option can only be used in Hungary. The service is not available abroad.

Havonta Megújuló Plusz Osztható Adat (supplemental option) for Business Red Plus service packages in the case of subscription contract concluded after 24 October 2015

Havonta Megújuló Plusz Osztható Adat supplemental option may be ordered for the Business Red Plus packages, which is a renewable data option, reactivated every billing cycle, i.e. it will not have to be reordered. Havonta Megújuló Plusz Osztható Adat supplemental option can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from both the primary SIM card belonging to the Business Red Plus package and the secondary MultiNet SIM card.

Available Monthly Renewable Plusz Osztható Adat options	Domestic data volume included	Fee (net)	Service package
Monthly Renewable Plusz Osztható Adat 1 GB	1 GB	HUF 1,181.1	for primary SIM card belonging to Business Red Plus tariff and the for secondary SIM card belonging to MultiNet tariff

If the Monthly Renewable Plusz Osztható Adat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The Monthly Renewable Plusz Osztható Adat option may exclusively be used by the end of the given billing cycle in domestic networks.

ExtraAdat (supplemental option) for MultiNet tariff

ExtraAdat (supplemental option) option may be purchased for the MultiNet tariff packages anytime within the billing cycle, described in detail in the following table. The ExtraAdat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the MultiNet subscription belongs.

Available ExtraAdat	Domestic data volume included	Fee (net)
ExtraAdat 200 MB	200 MB	HUF 393.7
ExtraAdat 1 GB	1 GB	HUF 1574.8

If an ExtraAdat option is not completely used by the time of purchasing the next ExtraAdat option, the unused remaining data traffic will be lost. The ExtraAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of ExtraAdat options can be purchased in a billing cycle. ExtraAdat is a non-renewable option that has to be repurchased in every billing cycle, if needed.

Monthly Renewable ExtraAdat (supplemental option) for MultiNet subscription contracts concluded after 1 September 2015

A monthly renewable Extra Adat (supplemental option) option may be purchased to the MultiNet tariff packages, which supplemental option is a renewable option, reactivated every billing cycle, i.e. it will not have to be reordered. The monthly renewable Extra Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the MultiNet subscription belongs.

Available Monthly Renewable ExtraAdat	Domestic data volume included	Fee (net)
Monthly Renewable ExtraAdat 1 GB	1 GB	HUF 1181.1

If the Monthly Renewable Extra Adat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The Monthly Renewable Extra Adat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of Extra Adat option may be purchased in addition to the Monthly Renewable Adat option in a given billing period.

Subscribers who have Business Red Plus or Business Red Europe service packages as of 1 April 2015, as well as Subscribers who concluded an individual subscription contract between 1 April 2015 and 30 June 2015 for Business Red Plus or Business Red Europe service packages are entitled to use a 2nd SIM card in addition to the Business Red Plus or Business Red Europe service packages.

On the second SIM card provided for the Business Red Plus service package, the following tariff packages are available as secondary Internet subscriptions: Red Tablet 2GB (A,B,C,D), Red MiFi 2GB, and Red MobilNet 2GB SIM.

	Red Tablet 2GB A	Red Tablet 2 GB B	Red Tablet 2 GB C	Red Tablet 2 GB D	Red MiFi 2 GB	Red MobilNet 2 GB SIM
Initial costs						
Entry fee	-					
Monthly fees						
Monthly subscription fee (HUF) with an indefinite term contract	7,874.02					
Monthly subscription fee (HUF) with contracts of a 2-year fixed term	6,299.21	3,937.01	2,362.2	1,574.8	0	0
Domestic data traffic included in the monthly fee	2 GB					
Handset insurance	Basic	Basic	Basic	Basic	-	-
Offered bandwidth (down/up, Mbit/s)	0.125/0.125					
Guaranteed speed	in accordance with section 4.1 of the GTC					
SMS to any domestic network (HUF)	24					

The prices indicated in the table are net prices not including VAT.

On the second SIM card provided for the Business Red Europe service package, the following tariff packages are available as secondary Internet subscriptions: RED Tablet 8GB (A,B,C,D), RED MiFi 8GB, and RED MobilNet 8 GB SIM.

	Red Tablet 8GB A	Red Tablet 8 GB B	Red Tablet 8 GB C	Red Tablet 8 GB D	Red MiFi 8 GB	Red MobilNet 8 GB SIM
Initial costs						
Entry fee	-					
Monthly fees						
Monthly subscription fee (HUF) with an indefinite term contract	7,874.02					
Monthly subscription fee (HUF) with contracts of a 2-year fixed term	6,299.21	3,937.01	2,362.2	1,574.8	0	0
Domestic data traffic included in the monthly fee	8 GB					
Handset insurance	Extra	Extra	Extra	Extra	-	-
Offered bandwidth (down/up, Mbit/s)	0.125/0.125					
Guaranteed speed	in accordance with section 4.1 of the GTC					
SMS to any domestic network (HUF)	24					

The prices indicated in the table are net prices not including VAT.

The tariff packages of the secondary SIM provide data transmission service only; they cannot be used for voice services. Data traffic refers to the aggregate amount of domestic sent and received data. Billing unit: 10 Kbyte.

The data volume included in the Business Red Plus and Business Red Europe packages and the data volume of the 2nd SIM card cannot be combined or shared among each other. If the Subscriber does not use up the monthly traffic limit, the remaining part cannot be rolled over to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions.

The monthly fee of the Red Tablet 2GB (A,B,C,D) service packages also include Basic handset insurance service, while the monthly fee of the Red Tablet 8GB (A B,C,D) service packages also include Extra handset insurance service. The terms of using the handset insurance service are specified in Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time. The handset insurance service is only provided for handsets purchased from Vodafone no more than 60 days to date and Vodafone does not provide this service for devices purchased prior to the above date. Terminating the handset insurance service in accordance with Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time, shall not result in the change of the monthly fee of the above mentioned service packages. If the criteria of using the handset insurance service have been met, a discount from the monthly fee of the tariff package is provided that equals to the monthly fee of the service.

Maximum 1 secondary Internet subscription can be purchased in the offer with a single subscription for Business Red Plus or Business Red Europe. The Subscriber is eligible for the secondary Internet subscription as long as he maintains his fixed or indefinite-term Business Red Plus or Business Red Europe subscription. If the primary subscription concluded for

Business Red Plus or Business Red Europe tariff packages is cancelled or changed, we will convert SIM card 2 to Internet Basic tariff.

In the case of the tariffs in the above table, after using up the monthly data traffic limit, Extra Adat supplemental option must be purchased to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle. The Subscriber can order the supplemental data option on the Netinfo (<http://netinfo.vodafone.hu>) page.

Name of supplemental data option	ExtraAdat 100 MB	ExtraAdat 500 MB	ExtraAdat 1 GB
Fee	HUF 393.7	HUF 551.18	HUF 1181.1
Domestic data traffic included	0.097 GB	0.488 GB	1 GB
Offered bandwidth (down/up, Mbit/s)	Same as the tariff package of the secondary Internet subscription		
Guaranteed speed	See section 4.1 of the GTC		
Offered bandwidth above the included data traffic (download/upload, Mbit/s)	Same as the tariff package of the secondary Internet subscription		
Guaranteed speed above the included data traffic	See section 4.1 of the GTC		

If an ExtraAdat option is not completely used by the time of purchasing the next ExtraAdat option, the remaining data traffic will be lost. The ExtraAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of ExtraAdat options can be purchased in a billing cycle.

The ExtraAdat options are non-renewable options that have to be repurchased in every billing cycle where the Subscriber intends to use those.

2.5.16. MultiNet Standard and MultiNet Premium tariff packages for Okos Rádás Red EU Standard, Okos Rádás Red EU Premium, Business Red EU Standard and Business Red EU Premium service packages

MultiNet tariff packages available for the above service packages are reclassified to commercially unavailable tariffs as of 1 September 2016.

MultiNet Standard (mobile internet based) tariff packages are available for the Okos Rádás Red EU Standard and Business Red EU Standard service package, which may only be used with the Okos Rádás Red EU Standard and Business Red EU Standard service package, as secondary SIM cards. In case of Okos Rádás Red EU Standard and Business Red EU Standard service packages with divisible data traffic (primary SIM), data traffic may be used, after the Vodafone EU Roaming service is activated, in the associated MultiNet Standard tariff packages (secondary SIM) domestically and within the area of validity of the Vodafone EU Roaming service.

The tables contain gross prices; the prices include VAT.

-------------------	--------	---

If choosing tariff categories 3, 4 or 5, the monthly fee of the Business Red EU Standard and Business Red EU Premium service packages contains Office 365 Small Enterprise package services (for contracts concluded before 17 August 2015) ,and Office 365 Business Essentials package service (for contracts concluded after 17 August 2015) The terms of using these services are specified in Vodafone's General Terms and Conditions for Other Services, as amended from time to time. Terminating the Office 365 Small Enterprise package without Office licence service and the Office 365 Business Essentials package service in accordance with Vodafone's Terms of Use for Other Services, as amended from time to time, shall not result in the change of the monthly fee of the above mentioned service packages. If the criteria of using the Office 365 Small Enterprise package without Office licence, or the Office 365 Business Essentials package service are met, a discount will be provided from the monthly fee of the tariff package that equals the monthly fee of the service.

OneDrive for Business with Office Online:

If choosing tariff category 2, in the case of subscription contracts concluded after 07 September 2015, the OneDrive for Business with Office Online service –Office Online (Word, Excel, Power Point) – is available free of charge with Red Basic EU, Business Red EU Standard or Business Red EU Premium service package as per the General Terms and Conditions for Other Services, the acceptance of which terms and conditions is specifically required to be able to use the service.

The OneDrive for Business with Office Online service may generate data traffic, which is not part of the service. Data traffic generated while using the OneDrive for Business with Office Online service can be used by deducting it from the data traffic included in the Red Basic EU, Business Red EU Standard or Business Red EU Premium service package or other Internet access.

In foreign countries the valid Roaming tariffs will apply. Section 5.5. of this List of Rates contains the detailed description of Vodafone EU Roaming service

PluszAdat (supplemental option)

A supplemental data option (PluszAdat) can be purchased for Vodafone Red EU service packages, whose detailed description is contained in the following table. PluszAdat can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and device to which the Vodafone Red EU subscription belongs.

in case of Subscription Contracts concluded after 01 April 2016:

Available PluszAdat	Domestic data volume included	Fee (gross)	Service package
PluszAdat 150 MB	150 MB	HUF 620.08	Red Basic EU (SIM, X, A, B, C, D, E) Business Red EU Basic Business Red EU Standard Business Red EU Premium
PluszAdat 500 MB	500 MB	HUF 1,240.16	
PluszAdat 1 GB	1 GB	HUF 1,653.54	

in case of Subscription Contracts concluded after 1 April 2016:

Available PluszAdat before 01 June 2016:	Domestic data volume included	Fee (gross)	Service package
PluszAdat 150 MB	150 MB	HUF 620.08	Business Red EU Basic Business Red EU Standard Business Red EU Premium

If a PluszAdat option has not been used up fully until the moment of the purchase of the next PluszAdat option, then the unused remaining data traffic of the existing PluszAdat option will be lost. The PluszAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat options can be purchased in a billing cycle. PluszAdat options are non-renewable options that have to be repurchased in every billing cycle, if needed.

Havonta Megújuló PluszAdat (supplemental option) with Subscription Contracts concluded before 01 April 2016:

Monthly Renewable PluszAdat option may be purchased by the Subscriber to its Vodafone Red EU service packages, which supplemental option is a renewable option, reactivated every billing cycle, i.e. it will not have to be reordered. Havonta Megújuló PluszAdat can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and device to which the Vodafone Red EU subscription belongs.

Available Monthly Renewable PluszAdat	Domestic data volume included	Fee (gross)	Service package
Monthly Renewable PluszAdat 1 GB	1 GB	HUF 1,240.16	Business Red EU Basic Business Red EU Standard Business Red EU Premium

If the Monthly Renewable PluszAdat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The Monthly Renewable PluszAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat option may be purchased in addition to the Monthly Renewable PluszAdat option in a given billing period.

Havonta Megújuló PluszAdat (supplemental option) with Subscription Contracts concluded after 01 April 2016 (available until 01 June 2016):

Havonta Megújuló PluszAdat option may be purchased by the Subscriber to its Vodafone Red EU service packages until 01 June 2016, which supplemental option is a renewable option, reactivated every billing cycle, i.e. it will not have to be reordered. Havonta Megújuló PluszAdat can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page until 01 June 2016 from the SIM card and device to which the Vodafone Red EU subscription belongs.

Available Monthly Renewable PluszAdat	Domestic data volume included	Fee (gross)	Service package
Monthly Renewable PluszAdat 1 GB	1 GB	HUF 1,240.16	Business Red EU Basic Business Red EU Standard Business Red EU Premium

If the Monthly Renewable PluszAdat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The Monthly Renewable PluszAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat option may be purchased in addition to the Monthly Renewable PluszAdat option in a given billing period.

Plusz Osztható Adat (supplemental option)

Supplemental divisible data option (Plusz Osztható Adat) can be purchased for Business Red EU Standard and Business Red EU Premium service packages, the data quantity of which may be used with the SIM card of Business Red EU Standard and Business Red EU Premium packages and the SIM card of MultiNet tariffs.

Plusz Osztható Adat can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and device, to which the Business Red EU Standard and Business Red EU Premium or MultiNet subscription belongs.

The fee of the Plusz Osztható Adat supplemental option is charged in all cases to the voice based subscription, that is, the Business Red EU Standard and Business Red EU Premium package.

in case of Subscription Contracts concluded after 01 April 2016:

Available Plusz Osztható Adat	Domestic data volume included	Fee (gross)	Service package
Plusz Osztható Adat 100 MB	100 MB	HUF 620.13	Primary SIM belonging to Business Red EU Standard tariff, and secondary SIM belonging to MultiNet tariff
Plusz Osztható Adat 1 GB	1 GB	HUF 1,653.54	Primary SIM belonging to Business Red EU Standard and Primary SIM belonging to Business Red EU Premium tariff, and secondary SIM belonging to MultiNet tariff
Plusz Osztható Adat 3 GB	3 GB	HUF 2472.05	Primary SIM belonging to Business Red EU Premium tariff, and secondary SIM belonging to MultiNet tariff
Plusz Osztható Adat 8 GB	8 GB	HUF 3,298.82	Primary SIM belonging to Business Red EU Standard and Primary SIM belonging to Business Red EU Premium tariffs, and secondary SIM belonging to MultiNet tariff

in case of Subscription Contracts concluded after 1 April 2016:

Available Plusz Osztható Adat before 01 June 2016:	Domestic data volume included	Fee (gross)	Service package
Plusz Osztható Adat 1 GB	1 GB	HUF 1,653.54	Primary SIM belonging to Business Red EU Standard and Primary SIM belonging to Business Red EU Premium tariff, and secondary SIM belonging to MultiNet tariff
Plusz Osztható Adat 8 GB	8 GB	HUF 3,298.82	Primary SIM belonging to Business Red EU Premium tariffs, and secondary SIM belonging to MultiNet tariff

If a Plusz Osztható Adat option is not completely used by the time of purchasing the next Plusz Osztható Adat option, the unused remaining data traffic of the existing Plusz Osztható Adat (supplemental option) will be lost. The Plusz Osztható Adat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat options can be purchased in a billing cycle. PluszAdat options are non-renewable options that have to be repurchased in every billing cycle, if needed.

The Plusz Osztható Adat 8 GB supplemental option can only be used in Hungary. The service is not available abroad.

Havonta Megújuló Plusz Osztható Adat (supplemental option) for Business Red EU Standard and Business Red EU Premium packages

Havonta Megújuló Plusz Osztható Adat supplemental option may be ordered for the Business Red EU Standard and Business Red EU Premium packages, which is a renewable data option, reactivated every billing cycle, i.e. it will not have to be reordered. Havonta Megújuló Plusz Osztható Adat supplemental option can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from both the primary SIM card belonging to the Business Red EU Standard and Business Red EU Premium package and the secondary MultiNet SIM card.

in case of Subscription Contracts concluded after 01 April 2016:

Available Monthly Renewable Plusz Osztható Adat options	Domestic data volume included	Fee (gross)	Service package
Monthly Renewable Plusz Osztható Adat 1 GB	1 GB	HUF 1,240.16	Primary SIM belonging to Business Red EU Standard and Primary SIM belonging to Business Red EU Premium tariff, and secondary SIM belonging to MultiNet tariff
Monthly Renewable Plusz Osztható Adat 8 GB	8 GB	HUF 3298.82	Primary SIM belonging to Business Red EU Standard and Primary SIM belonging to Business Red EU Premium tariff, and secondary SIM belonging to MultiNet tariff

in case of Subscription Contracts concluded after 1 April 2016:

Available Havonta Megújuló Plusz Osztható Adat before 01 June 2016	Domestic data volume included	Fee (gross)	Service package
Monthly Renewable Plusz Osztható Adat 1 GB	1 GB	HUF 1,240.16	Primary SIM belonging to Business Red EU Standard and Primary SIM belonging to Business Red EU Premium tariff, and secondary SIM belonging to MultiNet tariff

If the Monthly Renewable Plusz Osztható Adat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The Monthly Renewable Plusz Osztható Adat option may exclusively be used by the end of the given billing cycle in domestic networks.

The Monthly Renewable Plusz Osztható Adat 8 GB supplemental option can only be used in Hungary. The service is not available abroad.

The prices indicated in the following tables are net prices, not including VAT.

In the case of subscription contracts concluded after 1 July 2015, the Red Basic EU, Business Red EU Basic, Business Red EU Standard and Business Red EU Premium service packages are supplemented once per billing cycle with the Automatikus PluszAdat option containing 150 MB of domestic data traffic at a rate of HUF 393.7 net. This option is activated automatically after the domestic data volume included in the monthly fee is exhausted; or, if a supplemental data option has been purchased on the Netinfo site before the domestic data volume included in the monthly fee is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted; or, if one or more further supplemental data option(s) has (have) been purchased before the domestic data volume included in the supplemental data volume on the Netinfo site is exhausted, after the domestic data volume included in the supplemental

data option, then in the monthly fee is exhausted. The data traffic of the Automatikus PluszAdat 150 MB option can be used until the end of the given billing cycle, and is not divisible. The Automatikus PluszAdat 150 MB option is renewed monthly but is only activated and billed upon continuing data use after the domestic data volume included in the monthly fee or supplemental data option(s) is exhausted. After the data volume included in the Automatikus PluszAdat 150 MB option, the speed will be slowed down to 0/0 Mbit/s.

Mobile payment card acceptance service. The Service enables acceptance of payment by magnetic stripe cards, chip cards and contactless cards, as well as mobile phones with the help of a smart device with access to the Internet and a mobile card reader terminal (mPOS).

The Service may only be used with the iCMP terminal available in the range of products offered by Vodafone. The sale and purchase of the iCMP mobile card acceptance terminal is subject to a separate contract of sale.

OneDrive for Business with Office Online:

If choosing tariff category 2, in the case of subscription contracts concluded after 17 August 2015, the OneDrive for Business with Office Online service –Office Online (Word, Excel, Power Point) – is available free of charge with Red Basic EU, Business Red EU Standard or Business Red EU Premium service package as per the General Terms and Conditions for Other Services, the acceptance of which terms and conditions is specifically required to be able to use the service.

The OneDrive for Business with Office Online service may generate data traffic, which is not part of the service. Data traffic generated while using the OneDrive for Business with Office Online service can be used by deducting it from the data traffic included in the Red Basic EU, Business Red EU Standard or Business Red EU Premium service package or other Internet access.

The Vodafone Red EU service packages can exclusively be used in compliance with the terms of use for Medium and Large Enterprise subscribers to satisfy the personal communication needs of natural person users (personal use). Intended personal use does not include the following: if the Subscriber or user uses the SIM card pertaining to Medium and Large Enterprise Red service package inserted in a non-mobile phone; making automated calls that do not require the personal involvement of the user; making mass calls (the duration of which exceeds the 10% of the total duration of outgoing calls) to automated call receiving devices, equipment (such as, but not exclusively to IVR); making mass calls in order to test, make trial runs or to test the resilience or vulnerability etc. of services, technical instruments or equipment; making calls that regularly exceeds 180 minutes per day for the remote monitoring of people, structures, events, etc. (e.g. but not exclusively: asset protection, baby monitoring functions); making calls for establishing machine-to-machine connection (M2M); making or diverting calls in a total duration of more than 24 hours per day; making mass calls or sending bulk SMS of which the Service Provider has reasonable grounds to believe having been made to gain direct benefit by the Subscriber, the User or any other third parties at the expense of the Service Provider. It is strictly prohibited to use the service package with devices that do not have their own display, speaker, microphone and keyboard (including touch-screen keyboard), such as for example adapter, modem. The service packages shall not be used in an abusive manner, among others, for telemarketing, customer service activities or other business purposes. Abusive use shall include the behaviour of sending SMS and MMS messages in a manner contrary to the conditions of personal use, where the number of SMS/MMS messages sent via the subscription exceeds several hundred per day, or the proportion of the number of SMS/MMS messages sent via the subscription involved and that of their recipients exceeds 10%, or the proportion of the number of SMS/MMS messages and that of the replies to them is lower than 80%, or the SMS/MMS messages are sent by the subscriber typically from one location. In the event of abusive use, or the violation of the conditions of personal use, after prior notice from the Service Provider, the service will be available to the Subscriber according to the conditions of the Medium and Large Enterprise Basic Tariff.

The Business Red EU Basic, Business Red EU Standard, Business Red EU Premium packages without choosing a supplemental option (tariff categories, 1, 2, 3, 4, 5) are not available with device purchase.

The Car SIM Card service, the Conference call service, the Fixed-line area option, as well as the All fixed-line area option are not available with Vodafone Red EU service packages.

In foreign countries the valid Roaming tariffs will apply. The detailed description of the Vodafone EU Roaming service is in point 5.5 of this Annex called List of Rates.

The charges of international calls and the zone classification of the countries that can be reached by international calls are contained in Section 9 of Annex 1 on Tariffs.

PluszAdat (supplemental option)

A supplemental data option (PluszAdat) can be purchased for Vodafone Red EU service packages, whose detailed description is contained in the following table. PluszAdat can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and device to which the Vodafone Red EU subscription belongs.

in case of Subscription Contracts concluded after 01 April 2016:

Available PluszAdat	Domestic data volume included	Fee (net)	Service package
PluszAdat 150 MB	150 MB	HUF 590.55	Business Red EU Basic Business Red EU Standard Business Red EU Premium
PluszAdat 500 MB	500 MB	HUF 1,181.1	
PluszAdat 1 GB	1 GB	HUF 1,574.8	

in case of Subscription Contracts concluded after 1 April 2016:

Available PluszAdat before 01 June 2016:	Domestic data volume included	Fee (net)	Service package
PluszAdat 150 MB	150 MB	HUF 590.55	Business Red EU Basic Business Red EU Standard Business Red EU Premium

If a PluszAdat option has not been used up fully until the moment of the purchase of the next PluszAdat option, then the unused remaining data traffic of the existing PluszAdat option will be lost. The PluszAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat options can be purchased in a billing cycle. PluszAdat options are non-renewable options that have to be repurchased in every billing cycle, if needed.

Havonta Megújuló PluszAdat (supplemental option) with Subscription Contracts concluded before 01 April 2016:

Monthly Renewable PluszAdat option may be purchased by the Subscriber to its Vodafone Red EU service packages, which supplemental option is a renewable option, reactivated every billing cycle, i.e. it will not have to be reordered. Havonta Megújuló PluszAdat can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and device to which the Vodafone Red EU subscription belongs.

Available Monthly Renewable PluszAdat	Domestic data volume included	Fee (net)	Service package
Monthly Renewable PluszAdat 1 GB	1 GB	HUF 1,181.1	Business Red EU Basic Business Red EU Standard Business Red EU Premium

If the Monthly Renewable PluszAdat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The Monthly Renewable PluszAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat option may be purchased in addition to the Monthly Renewable PluszAdat option in a given billing period.

Havonta Megújuló PluszAdat (supplemental option) with Subscription Contracts concluded after 01 April 2016 (available until 01 June 2016):

Havonta Megújuló PluszAdat option may be purchased by the Subscriber to its Vodafone Red EU service packages until 01 June 2016, which supplemental option is a renewable option, reactivated every billing cycle, i.e. it will not have to be reordered. Havonta Megújuló PluszAdat can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page until 01 June 2016 from the SIM card and device to which the Vodafone Red EU subscription belongs.

Available Monthly Renewable PluszAdat	Domestic data volume included	Fee (net)	Service package
Monthly Renewable PluszAdat 1 GB	1 GB	HUF 1,181.1	Red Basic EU (SIM, X, A, B, C, D, E) Business Red EU Basic Business Red EU Standard Business Red EU Premium

If the Monthly Renewable PluszAdat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The Monthly Renewable PluszAdat option may exclusively be used by the end of the given billing cycle in

domestic networks. Any number of PluszAdat option may be purchased in addition to the Monthly Renewable PluszAdat option in a given billing period.

Plusz Osztható Adat (supplemental option)

Supplemental divisible data option (Plusz Osztható Adat) can be purchased for Business Red EU Standard and Business Red EU Premium service packages, the data quantity of which may be used with the SIM card of Business Red EU Standard and Business Red EU Premium packages and the SIM card of MultiNet tariffs.

Plusz Osztható Adat can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and device, to which the Business Red EU Standard and Business Red EU Premium or MultiNet subscription belongs.

The fee of the Plusz Osztható Adat supplemental option is charged in all cases to the voice based subscription, that is, the Business Red EU Standard and Business Red EU Premium package.

in case of Subscription Contracts concluded after 01 April 2016:

Available Plusz Osztható Adat	Domestic data volume included	Fee (net)	Service package
Plusz Osztható Adat 100 MB	100 MB	HUF 590.6	Primary SIM belonging to Business Red EU Standard tariff, and secondary SIM belonging to MultiNet tariff
Plusz Osztható Adat 1 GB	1 GB	HUF 1574.8	Primary SIM belonging to Business Red EU Standard and Primary SIM belonging to Business Red EU Premium tariff, and secondary SIM belonging to MultiNet tariff
Plusz Osztható Adat 3 GB	3 GB	HUF 2354.3	Primary SIM belonging to Business Red EU Premium tariff, and secondary SIM belonging to MultiNet tariff
Plusz Osztható Adat 8 GB	8 GB	HUF 3141.7	Primary SIM belonging to Business Red EU Standard and Primary SIM belonging to Business Red EU Premium tariffs, and secondary SIM belonging to MultiNet tariff

in case of Subscription Contracts concluded after 1 April 2016:

Available Plusz Osztható Adat	Domestic data volume included	Fee (net)	Service package
Plusz Osztható Adat 1 GB	1 GB	HUF 1574.8	Primary SIM belonging to Business Red EU Standard and Primary SIM belonging to Business Red EU Premium tariff, and secondary SIM belonging to MultiNet tariff
Plusz Osztható Adat 8 GB	8 GB	HUF 3141.7	Primary SIM belonging to Business Red EU Premium tariffs, and secondary SIM belonging to MultiNet tariff

If a Plusz Osztható Adat option is not completely used by the time of purchasing the next Plusz Osztható Adat option, the unused remaining data traffic of the existing Plusz Osztható Adat (supplemental option) will be lost. The Plusz Osztható Adat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat options can be purchased in a billing cycle. PluszAdat options are non-renewable options that have to be repurchased in every billing cycle, if needed.

The Plusz Osztható Adat 8 GB supplemental option can only be used in Hungary. The service is not available abroad.

Havonta Megújuló Plusz Osztható Adat (supplemental option) for Business Red EU Standard and Business Red EU Premium packages

Havonta Megújuló Plusz Osztható Adat supplemental option may be ordered for the Business Red EU Standard and Business Red EU Premium packages, which is a renewable data option, reactivated every billing cycle, i.e. it will not have to be reordered. Havonta Megújuló Plusz Osztható Adat supplemental option can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from both the primary SIM card belonging to the Business Red EU Standard and Business Red EU Premium package and the secondary MultiNet SIM card.

in case of Subscription Contracts concluded after 01 April 2016:

Available Monthly Renewable Plusz Osztható Adat options	Domestic data volume included	Fee (net)	Service package
Monthly Renewable Plusz Osztható Adat 1 GB	1 GB	HUF 1181.1	Primary SIM belonging to Business Red EU Standard and Primary SIM belonging to Business Red EU Premium tariff, and secondary SIM belonging to MultiNet tariff
Monthly Renewable Plusz Osztható Adat 8 GB	8 GB	HUF 3141.7	Primary SIM belonging to Business Red EU Standard and Primary SIM belonging to Business Red EU Premium tariff, and secondary SIM belonging to MultiNet tariff

in case of Subscription Contracts concluded after 1 April 2016:

Available Monthly Renewable Plusz Osztható Adat options	Domestic data volume included	Fee (net)	Service package
Monthly Renewable Plusz Osztható Adat 1 GB	1 GB	HUF 1181.1	Primary SIM belonging to Business Red EU Standard and Primary SIM belonging to Business Red EU Premium tariff, and secondary SIM belonging to MultiNet tariff

If the Monthly Renewable Plusz Osztható Adat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The Monthly Renewable Plusz Osztható Adat option may exclusively be used by the end of the given billing cycle in domestic networks.

The Monthly Renewable Plusz Osztható Adat 8 GB supplemental option can only be used in Hungary. The service is not available abroad.

2.5.20. Vodafone Iroda 4G service package

Vodafone Iroda 4G service package is commercially unavailable as of 1 October 2016.

Vodafone Iroda 4G service package consists of two tariff packages: Vodafone Iroda 4G and Vodafone Iroda MobilNet tariffs which can only be requested together, as part of the service package.

If Subscriber terminates its Vodafone Iroda 4G or Vodafone Iroda MobilNet subscription, the related Vodafone Iroda MobilNet or Vodafone Iroda 4G subscription and the relevant Vodafone Iroda 4G service package are also terminated for the Subscriber.

The Vodafone Iroda 4G service package is not available for Subscribers with a non-fixed-term contract.

The Vodafone Iroda 4G service package is only available for (new and existing) Small Business Subscribers with a post-paid subscription.

The detailed description of the Vodafone Iroda 4G tariff package included in the Vodafone Iroda 4G service package can be found in the following table.

The prices indicated in the table are gross prices including VAT.

	Vodafone Iroda 4G tariff package
Initial costs	
Entry fee (HUF)	10, 000
Monthly fees	
Tariff monthly fee (HUF)	12,840
Internet monthly fee (HUF)	124.02
Monthly total subscription fee (HUF) with contracts of a 2-year fixed term	12,964.02
Tariff monthly fee (HUF)	11,840
Internet monthly fee (HUF)	124.02
Monthly total subscription fee (HUF) with 2-year fixed-term contract and e-Pack	11,979.38
Additional monthly subscription fee (HUF)	3, 175
Content included in the monthly fee	
Minute charge of domestic standard-rate calls to fixed-line networks up to 200 minutes included in the monthly fee (HUF)	0
Fixed-line number service (HUF) (1000 airtime minutes for domestic standard-rate fixed-line networks)	0
Mandatory "Zárt Csoport" option	√
Data traffic	20 MB
Offered bandwidth above the data traffic included in the monthly subscription fee (download/upload speed – Mbit/s)	0.031/0.031
Guaranteed speed above the data traffic included in the monthly subscription fee	in accordance with section 4.1 of the GTC
Domestic charges above the monthly fee	
Minute charge of calls made to domestic fixed-line numbers (HUF) above the airtime included in the monthly fee	7.50
Charge of calls within the network of Vodafone Magyarország Zrt. (HUF)	49
Charge of calls to other domestic mobile networks (HUF)	49
Voicemail calls	
In any time period (HUF)	25
Messaging	
SMS to any domestic network (HUF)	49
Charge for International SMS to countries within the area of validity of the RED EU International tariff zone (HUF)	in accordance with Section 9 of the GTC
Charge for International SMS to countries outside the preferential zone (HUF)	98

Voice calls are billed on the basis of 1 second. The billing unit of voicemail calls corresponds to the billing unit of the tariff package.

The Vodafone Iroda 4G tariff packages can be maintained for subscriptions extending to maximum 30 SIM cards.

The fee of the Fixed-line number service and Zárt Csoport option included in the Vodafone Iroda 4G tariff package is covered by the monthly fee of the tariff and is not billed separately above the monthly fee.

Besides the 1000 airtime minutes available within the domestic standard-rate fixed-line network as part of the Fixed-line number service included in the Vodafone Iroda 4G tariff package, the tariff package also provides a 200 minutes available within the domestic standard-rate fixed-line network. This means that the Vodafone Iroda 4G tariff package ensures 1200 airtime minutes within the domestic standard-rate fixed-line network per billing cycle the billing of which takes place in the same billing units as the billing unit of the tariff package. Within a given billing cycle, first, the 1000 airtime minutes included in the Fixed-line service becomes available, then the next 200 minutes are ensured. Unused minutes cannot be rolled over to the next billing cycle.

Calls above the 1200 minutes and calls made in any other directions (from the start of the billing cycle) are billed in accordance with the minute charges and the billing unit of the tariff package.

Due to the nature of the service, it is not authorized to use the fixed-line number service abroad, however, in the unexpected case that the Subscriber makes an attempt to use the fixed-line number service abroad, it shall be charged at the Roaming rates applicable abroad from time to time.

Within the frameworks of Vodafone Iroda 4G tariff package, only one fixed-line number can be activated.

For the detailed description of the fixed-line number service please refer to section 3.1.2.38. of the main text of the Business GTC.

The Fax in email service is not available for subscriptions with Vodafone Iroda 4G tariff packages.

The detailed description of the Zárt csoport option can be found in section 2.2 of this List of Rates.

The Vodafone Iroda 4G tariff package specified in the above table is available by signing a 2-year fixed-term contract.

Minutes and data traffic included in the monthly fee that are applicable to airtime or traffic, but were not used, cannot be rolled over to the next month, or transferred to other persons or call members, and cannot be used for other services. The allowances are only available domestically.

In case of the Vodafone Iroda 4G tariff package, the speed of data traffic above the data quantity included in the monthly fee will be slowed down. Maximum value of the slowdown: 0.031 Mbit/s for download and upload.

The e-Pack service is also available for the Vodafone Iroda 4G tariff package. In case of using the e-Pack service, the Subscriber agrees to fulfil the following conditions in every month while using the e-Pack service, in exchange for a more favourable monthly subscription fee:

- The Subscriber uses E-bills regarding all of his subscriptions under one client number with the content defined in section 7.1.2.4 of the GTC: Electronic Bill and Document Presentation (E-bill).
- The bill is settled by using one of the following payment options:
 - on the www.vodafone.hu/szamlabefizetes web page,
 - with Vodafone mobile application,
 - by bank transfer,
 - by direct debit order,
 - via ATM machines.
- The bill is settled by the payment deadline indicated in the bill.

If the Subscriber fails to meet any of the above conditions in a given month, a one-off fee of gross HUF 1,000 per subscription will be charged to the Subscriber in his next monthly bill. The fee payable for failing to fulfil the e-Pack conditions is only billed once per month even if the Subscriber fails to meet several e-Pack conditions in a given month.

If the Subscriber has multiple subscriptions and one of those is used with e-Pack, the Subscriber is required to settle the monthly bills of all subscriptions by satisfying the e-Pack conditions.

Should the Subscriber receive payment extension in a month and fail to settle his bill by the payment deadline indicated in the bill, the one-off fee payable for failing to meet the e-Pack conditions shall also be billed.

Cancelling the e-Pack service shall constitute a tariff change. Changing between the versions of the same tariff (with and without e-Pack) can be requested without being obligated to pay liquidated damages.

The detailed description of the Vodafone Iroda Mobilnet tariff package included in the Vodafone Iroda 4G service package can be found in the following table:

	Vodafone Iroda MobilNet tariff package
Initial costs	
Entry fee (HUF)	10,000
Monthly fees	
Monthly subscription fee (HUF) with contracts of a 2-year fixed term	0
Domestic data traffic included in the monthly fee	12 GB
Offered bandwidth above the 12 GB data traffic per month (download/upload speed – Mbit/s)	0/0
Guaranteed download and upload speed above monthly 12 GB data traffic	in accordance with section 4.1 of the GTC
Other charges	
Automatikus ExtraAdat 1 GB option activated once per billing cycle after the domestic data limit is exhausted (HUF)	826.77
SMS to any domestic network (HUF)	30.48

The Vodafone Iroda MobilNet tariff packages can be maintained for subscriptions extending to maximum 30 SIM cards.

In the case of Vodafone Iroda Mobilnet tariff package, the Vodafone Iroda Mobilnet package is supplemented once per billing cycle with the Automatikus ExtraAdat option containing 1 GB of domestic data traffic at a rate of HUF 826.77 gross. This option is activated automatically after the domestic data volume included in the monthly fee is exhausted; or, if a supplemental data option has been purchased on the Netinfo site before the domestic data volume included in the monthly fee is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted; or, if one or more further supplemental data option(s) has (have) been purchased before the domestic data volume included in the supplemental data option on the Netinfo site is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted. The data traffic of the Automatikus ExtraAdat 1 GB option can be used until the end of the given billing cycle, and is not divisible. The Automatikus ExtraAdat 1 GB option is renewed monthly but is only activated and billed upon continuing data use after the domestic data volume included in the monthly fee or supplemental data option(s) is exhausted. After the data volume included in the Automatikus ExtraAdat 1 GB option, the speed will be slowed down to 0/0 Mbit/s.

Before using up the domestic data volume included in the monthly fee, or after using up the domestic data volume included in the Automatikus ExtraAdat 1 GB option, an ExtraAdat and/or Havonta Megújuló ExtraAdat supplemental data option needs to be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded after the domestic data volume included in the Automatikus ExtraAdat 1 GB option is exhausted. If the Subscriber has exhausted the domestic data volume included in the package and the Automatikus ExtraAdat 1 GB option, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

The Vodafone Iroda Mobilnet tariff package only provides data transmission service; voice services are not available with the above tariff package.

Data traffic refers to the aggregate amount of domestic sent and received data, with a billing unit of 10 Kb. Different rules apply to Internet and packet-switched WAP data traffic used abroad (price, billing unit).

If the Subscriber does not use up the traffic limit included in the monthly fee, it cannot roll over the remaining part to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions.

From the activation of the tariff package to the closing of the invoice, or, in case of changing tariff packages, from the beginning of the billing period to the change of the tariff, or from the change of the tariff package to the closing of the billing period, a pro-rata fractional monthly fee will be billed, based on the full monthly fee, and the full traffic limit can also be used on a pro-rata basis.

Vodafone Iroda 4G and Vodafone Iroda MobilNet tariff package included therein is only available with devices specified by Service Provider. The Vodafone Iroda MobilNet tariff cannot be purchased on its own, so the Subscriber can only conclude a subscription contract for the service together with Vodafone Iroda 4G tariff package.

Fax in email service is also available for the Vodafone Iroda Mobilnet subscription. The rates of Fax in email services are contained in 3.16 of this List of Rates.

ExtraAdat (supplemental option)

ExtraAdat (supplemental option) options may be purchased for the Vodafone Iroda Mobilnet tariff packages anytime within the billing cycle, described in detail in the following table. ExtraAdat option can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and device to which the Vodafone Iroda Mobilnet subscription belongs.

Available ExtraAdat	Domestic data volume included	Fee (gross)
ExtraAdat 200 MB	200 MB	HUF 413.39
ExtraAdat 1 GB	1 GB	HUF 1,653.54

If an ExtraAdat option is not completely used by the time of purchasing the next ExtraAdat option, the unused remaining data traffic will be lost. The ExtraAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of Extra Adat option may be purchased in a given billing period, except for Automatikus ExtraAdat 1 GB option, which is only activated once per billing cycle. ExtraAdat is a non-renewable option that has to be repurchased in every billing cycle, if needed.

Monthly Renewable Extra Adat (supplemental option)

Havonta Megújuló Extra Adat (supplemental option) may be purchased to the Vodafone Iroda Mobilnet service package, which supplemental option is a renewable option, reactivated every billing cycle, i.e. it will not have to be reordered. Havonta Megújuló ExtraAdat option can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and device to which the Vodafone Iroda Mobilnet subscription belongs.

Available Monthly Megújuló Extra Adat	Domestic data volume included	Fee (gross)
Monthly Renewable ExtraAdat 1 GB	1 GB	HUF 1,240.16

If the Monthly Renewable Extra Adat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The Monthly Renewable Extra Adat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of Extra Adat option may be purchased in addition to the Monthly Renewable Adat option in a given billing period.

2.5.21. Vodafone “Presztizs” tariff packages

Vodafone Presztizs tariff package is commercially unavailable as of 1 June 2017.

The following tariff packages are only available to (new and existing) business subscribers signing a post-paid subscription contract. Vodafone “Presztizs” tariff packages may be maintained for a subscription covering a maximum of 20 SIM cards.

The prices indicated in the table are gross prices including VAT.

	Vodafone Presztízs Fix	Vodafone Presztízs
Initial costs		
Entry fee (HUF)	10,000	10,000
Monthly fees		
Tariff monthly fee (HUF)	5,500	11,000
Internet monthly fee (HUF)	4,133.87	4,133.87
Monthly total subscription fee (HUF)	9,633.87	15,133.87
Additional monthly subscription fee (HUF)	3,175	3,175
Data traffic included in the monthly fee		
Data traffic (GB)	5	5
Offered bandwidth above the 5 GB data traffic included in the monthly subscription fee (download/upload speed - Mbit/s)	0.009/0.009	0.009/0.009
Guaranteed speed above the data traffic included in the monthly subscription fee	in accordance with section 4.1 of the GTC	
Call charges to any domestic mobile or fixed-line networks (per minute)		
Minutes included in the tariff package	300	1000
In any time period (HUF)	25	21
Voicemail calls		
In any time period (HUF)	25	25
Messaging		
Sending short text messages (SMS) into a domestic mobile network (HUF)	25	21

In case of voice calls, per-second billing is used, (for initiated calls) the fee for the first minute is always billed in full. The billing unit of voicemail calls corresponds to the billing unit of the tariff package.

The minutes included in the tariff package can be used for standard voice calls initiated into the domestic mobile and fixed-line networks.

Other services included in the Vodafone "Presztízs" tariff package:

- Wireless Office 2 option or Zárt Csoport option for business subscribers without a monthly fee.
- Business fixed-line number option – Vodafone Presztízs tariff packages purchased after 31 March 2014 no longer include the business fixed-line number service. Subscriptions concluded up until this date are not affected by this change, those will remain in force with unchanged content. Accordingly, Vodafone Presztízs tariff packages purchased on or before 31 March 2014 include the business fixed-line number option; however, "total minutes applicable to airtime" shall be understood as defined in the Presztízs tariff packages. Presztízs tariff packages purchased after 31 March 2014 include a fixed-line number service that corresponds to the Business fixed-line number option; however, "total minutes applicable to airtime" shall be understood as defined in the Presztízs tariff packages.
- Packet-switched data transmission service – All tariff packages include 5 MB data transmission at SIM level, to be used for full-bandwidth data traffic. Any data transmission within the same billing period in excess of the amount included in the monthly fee will lead to a slowdown in transmission speed. After the end of the billing period, the original speed is restored. Maximum value of the slowdown: 9.6 Kbit/s (0.009 Mbit/s) download and upload.

Within the options of the Vodafone "Presztízs" tariff packages, subscribers may migrate to any option available to new subscribers once a month (in each billing period) free of charge. In this case, too, the change is implemented within 15 days.

The following options are available for the above tariff packages:

- Fixed-line area option
- All fixed-line areas option

The detailed description of the options is found in section 2.2 of this List of Rates.

Our customers with Vodafone Presztízs packages may choose further Presztízs and/or "Üzleti Fix" (Business Fix) tariffs in addition to their existing tariff package.

2.5.22. Vállalkozói Osztható tariff packages

The below tariff packages are only available to (new and existing) business subscribers signing a post-paid subscription contract. (For Vállalkozói Osztható tariff packages the number of cards specified in the following table can participate in a user group, in case of a subscription covering a maximum of 30 SIM cards.)

Voice calls are billed on the basis of 1 second. The billing unit of voicemail calls corresponds to the billing unit of the tariff package.

The following options can be elected with the Vállalkozói Osztható tariff packages:

- Wireless Office 2 option
- “Closed Group” option for business subscribers
- Fixed-line area option
- All fixed-line areas option

The detailed description of the options is found in section 2.2 of this List of Rates. The Wireless Office 2 option and the Closed Group option cannot be elected together.

Together with the Vállalkozói Osztható tariff packages, the Fixed-line number and Fax in Email services may be used, the rates of which are included in Section 3 of this Annex.

Within the options of the Vállalkozói Osztható tariff packages the subscribers can migrate once a month (per billing cycle) to any options available for new subscribers free of charge. In this case, too, the change is implemented within 15 days.

The prices indicated in the table are gross prices including VAT.

Compulsorily elected monthly-fee Okos Rádás package with the tariff package	✓	✓	✓	✓	✓	✓	✓	✓
Automatikus PluszAdat 150 MB that can be activated after having exhausted the domestic data limit, as of 1 June 2015, once per billing cycle (HUF), in case of a subscription contract concluded after 1 April 2015, when choosing Okos Rádás 2000, Okos Rádás 4000, Okos Rádás 5500, Okos Rádás Red EU Standard and Okos Rádás Red EU Premium packages	413.39	413.39	413.39	413.39	413.39	413.39	413.39	413.39
Automatic Extra Data 200 MB that can be activated after having exhausted the domestic data limit, as of 1 June 2016, once per billing cycle (HUF), in case of a subscription contract concluded after 1 April 2016, when choosing Okos Rádás 2000, Okos Rádás 4000, Okos Rádás 5500, Okos Rádás Red EU Standard and Okos Rádás Red EU Premium packages	413.39	413.39	413.39	413.39	413.39	413.39	413.39	413.39

The Subscribers can use the monthly fee of the tariff package collectively as a group.

The e-Pack service is available for Subscribers with Vállalkozói Osztható 10000, Vállalkozói Osztható 15000, Vállalkozói Osztható 20000, Vállalkozói Osztható 30000, Vállalkozói Osztható 45000, Vállalkozói Osztható 60000, Vállalkozói Osztható

75000 and Vállalkozói Osztható 100000 service packages purchased with 2-year fixed-term contracts. In case of using the e-Pack service, the Subscriber agrees to fulfil the following conditions in every month while using the e-Pack service, in exchange for a more favourable monthly subscription fee:

- The Subscriber uses E-bills regarding all of his subscriptions under one client number with the content defined in section 7.1.2.4. of the GTC: Electronic Bill and Document Presentation (E-bill).
- The bill is settled by using one of the following payment options:
 - on the www.vodafone.hu/szamlabefizetes web page,
 - with Vodafone mobile application,
 - by bank transfer,
 - by direct debit order,
 - via ATM machines.
- The bill is settled by the payment deadline indicated in the bill.

If the Subscriber fails to meet any of the above conditions in a given month, a one-off fee of gross HUF 1,000 per subscription will be charged to the Subscriber in his next monthly bill. The fee payable for failing to fulfil the e-Pack conditions is only billed once per month even if the Subscriber fails to meet several e-Pack conditions in a given month.

If the Subscriber has multiple subscriptions and one of those is used with e-Pack, the Subscriber is required to settle the monthly bills of all subscriptions by satisfying the e-Pack conditions.

Should the Subscriber receive payment extension in a month and fail to settle his bill by the payment deadline indicated in the bill, the one-off fee payable for failing to meet the e-Pack conditions shall also be billed.

Cancelling the e-Pack service shall constitute a tariff change. Changing between the versions of the same tariff (with and without e-Pack) can be requested without being obligated to pay liquidated damages.

Okos Rádás packages for the Vállalkozói Osztható 10000, Vállalkozói Osztható 15000, Vállalkozói Osztható 20000, Vállalkozói Osztható 30000, Vállalkozói Osztható 45000, Vállalkozói Osztható 60000, Vállalkozói Osztható 75000 and Vállalkozói Osztható 100000 tariff packages:

The detailed description of the Okos Rádás packages that are mandatorily electable for the Osztható (divisible) tariff packages is included in the following table:

Okos Rádás package type	Monthly fee (HUF/subscription)	Package monthly subscription fee in total includes		Content of the Okos Rádás package

	- With contracts of a 1-year fixed term: 23,787.41	18,000	5,787.41	
	- With contracts of a 2-year fixed term: 17,787.41	12,000	5,787.41	
Okos Rádás 2000 in case of Subscription Contracts concluded after 1 April 2016	- With an indefinite-term contract: 2,326.14	1,500	826.77	"Zárt Csoport" (Closed Group) option for business subscribers + 500 MB domestic data traffic + Vodafone EU Roaming service free of charge
	- With contracts of a 1-year fixed term: 2,326.14	1,500	826.77	
	- With contracts of a 2-year fixed term: 1,826.77	1,000	826.77	

Okos Rádás 4000 in case of Subscription Contracts concluded after 1 April 2016	- With an indefinite-term contract: 4,653.54	3,000	1,653.54	"Zárt Csoport" (Closed Group) option for business subscribers + 1 GB domestic data traffic + HUF 0 minute / SMS / MMS fee domestically within the network of Vodafone Magyarország Zrt. + Vodafone EU Roaming service free of charge
	- With contracts of a 1-year fixed term: 4,653.54	3,000	1,653.54	
	- With contracts of a 2-year fixed term: 3,653.54	2,000	1,653.54	
Okos Rádás 5500 in case of Subscription Contracts concluded after 1 April 2016	- With an indefinite-term contract: 5,980.31	3,500	2,480.31	"Zárt Csoport" (Closed Group) option for business subscribers + 2 GB domestic data traffic + HUF 0 minute / SMS / MMS fee domestically within the network of Vodafone Magyarország Zrt. + Basic handset insurance + Vodafone EU Roaming service free of charge
	- With contracts of a 1-year fixed term: 5,980.31	3,500	2,480.31	
	- With contracts of a 2-year fixed term: 4,980.31	2,500	2,480.31	

Okos Rádás Irodai package may be chosen if the following additional conditions are met. The Subscriber must have at least one Fixed-line phone number service, and in case of using Vállalkozói Osztható tariffs, an Okos Rádás package different from the Okos Rádás Irodai package has to be ordered for at least one of the SIM cards that belong to the same user group.

In case of a Subscriber Contract concluded after 1 April 2016, the Service Provider reserves the right to convert the Subscriber's subscriptions for Irodai package to Okos Rádás 2000 package, without providing prior notice, if the Subscriber is no longer eligible for Okos Rádás Irodai package (e.g. for cancelling the Fixed-line phone number service).

The area of the Red EU International tariff zone is defined in Annex 9 of this List of Rates.

Business MultiNet Standard (mobile internet based) tariff packages are available for the Okos Rádás Red EU Standard service package, which may only be used with the Okos Rádás Red EU Standard service package, as secondary SIM cards. In case of Okos Rádás Red EU Standard service packages with divisible data traffic (primary SIM), data traffic may be used, after the Vodafone EU Roaming service is activated, in the associated Business MultiNet Standard tariff packages (secondary SIM) domestically and within the area of validity of the Vodafone EU Roaming service.

Business MultiNet Standard packages available for subscription contracts concluded after 1 June 2016:

	Business MultiNet Standard Mifi	Business MultiNet Standard SIM
Initial costs		
Entry fee (HUF)	10,000	10,000
Monthly fees		
Monthly subscription fee (HUF) with an indefinite term contract	8,267.72	8,267.72
Monthly subscription fee (HUF) with contracts of a 1-year fixed term	8,267.72	8,267.72
Monthly subscription fee (HUF) with contracts of a 2-year fixed term	0	0
Domestic data traffic included in the monthly fee	Same as in Okos Rádás Red EU Standard package, shared therewith	
Offered bandwidth above monthly divisible data traffic (download/upload, Mbit/s)	0/0	0/0
Guaranteed speed	in accordance with section 4.1 of the GTC	
SMS to any domestic network (HUF)	30.48	30.48

For subscription contracts concluded after 1 June 2016, Business MultiNet Standard packages are available without handset purchase. In case of handset purchase, the Subscriber shall choose from the following supplemental options:

Supplemental option	Monthly subscription fee of the option (HUF) with contracts of a 2-year fixed term	Content of the option for Business MultiNet Standard tariffs
---------------------	--	--

S supplemental option	1,000	Basic handset insurance
M supplemental option	2,000	Basic handset insurance + Sending 15 MMS messages free of charge to any domestic, standard rate network
L supplemental option	5,000	Basic handset insurance + Sending 15 MMS messages free of charge to any domestic, standard rate network + 10% monthly fee discount from the monthly fee of any Office 365 service
XL supplemental option	8,000	Basic handset insurance + Sending 15 MMS messages free of charge to any domestic, standard rate network + 10% monthly fee discount from the monthly fee of any Office 365 service + 1 x free Világ (World) Daily Ticket per billing cycle

Business MultiNet Premium (mobile internet based) tariff packages are available for the Okos Rádás Red EU Premium service package, which may only be used with the above Okos Rádás Red EU Premium service package, as secondary SIM cards. In case of Okos Rádás Red EU Premium service packages with divisible data traffic (primary SIM), data traffic may be used, after the Vodafone EU Roaming service is activated, in the associated Business MultiNet Premium tariff packages (secondary SIM) domestically and within the area of validity of the Vodafone EU Roaming service.

Business MultiNet Premium packages available for subscription contracts concluded after 1 June 2016:

	Business MultiNet Premium Mifi	Business MultiNet Premium SIM
Initial costs		
Entry fee (HUF)	10,000	10,000
Monthly fees		
Monthly subscription fee (HUF) with an indefinite term contract	8,267.72	8,267.72
Monthly subscription fee (HUF) with contracts of a 1-year fixed term	8,267.72	8,267.72
Monthly subscription fee (HUF) with contracts of a 2-year fixed term	0	0
Domestic data traffic included in the monthly fee	Same as in Okos Rádás Red EU Premium package, shared therewith	
Offered bandwidth (download/upload, Mbit/s) above monthly divisible data traffic	0/0	0/0
Guaranteed speed	in accordance with section 4.1 of the GTC	
SMS to any domestic network (HUF)	30.48	30.48

For subscription contracts concluded after 1 June 2016, Business MultiNet Premium packages are available without handset purchase. In case of handset purchase, the Subscriber shall choose from the following supplemental options:

Supplemental option	Monthly subscription fee of the option (HUF) with contracts of a 2-year fixed term	Content of the option for Business MultiNet Premium tariffs
S supplemental option	1,000	Extra handset insurance
M supplemental option	2,000	Extra handset insurance + Sending 15 MMS messages free of charge to any domestic, standard rate network
L supplemental option	5,000	Extra handset insurance + Sending 15 MMS messages free of charge to any domestic, standard rate network + 10% monthly fee discount from the monthly fee of any Office 365 service
XL supplemental option	8,000	Extra handset insurance + Sending 15 MMS messages free of charge to any domestic, standard rate network + 10% monthly fee discount from the monthly fee of any Office 365 service + 1 x free Világ (World) Daily Ticket per billing cycle

The data traffic included in the monthly fees of the Okos Rádás packages apply to domestic use only.

The monthly domestic data traffic included in the Okos Rádás Red EU Standard and Okos Rádás Red EU Premium tariff packages can be fully divided between two SIM cards (one voice and data based card and one exclusively mobile internet based card). If the Subscriber does not use up the monthly traffic limit included in the monthly fee, the remaining part cannot be rolled over to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. Billing unit: 10 Kbyte.

In the case of the Okos Rádás Red EU Standard and Okos Rádás Red EU Premium tariff packages, the speed of the data traffic above the data volume included in the monthly fee will be slowed down. The maximum value of the slowdown is 0 Mbit/s for download and upload. Guaranteed speed as per Section 4.1 of the GTC.

In the case of subscription contracts concluded after 1 April 2015, as of 1 June 2015 (in the billing cycle if account is closed after 1 June 2015), the Okos Rádás 2000, Okos Rádás 4000, Okos Rádás 5500, Okos Rádás Red EU Standard and Okos Rádás Red EU Premium packages are supplemented once per billing cycle with the Automatikus PluszAdat option containing 150 MB of domestic data traffic at a rate of HUF 413.39 gross. This option is activated automatically after the domestic data volume included in the monthly fee is exhausted; or, if a supplemental data option has been purchased on the Netinfo site before the domestic data volume included in the monthly fee is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted; or, if one or more further supplemental data option(s) has (have) been purchased before the domestic data volume included in the supplemental data volume on the Netinfo site is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted. The data traffic of the Automatikus PluszAdat 150 MB option can be used until the end of the given billing cycle, and is not divisible. The Automatikus PluszAdat 150 MB option is renewed monthly but is only activated and billed upon

continuing data use after the domestic data volume included in the monthly fee or supplemental data option(s) is exhausted. After the data volume included in the Automatikus PluszAdat 150 MB option, the speed will be slowed down to 0/0 Mbit/s.

In the case of subscription contracts concluded after 1 April 2016, as of 1 June 2016, the Okos Rádás 2000, Okos Rádás 4000, Okos Rádás 5500, Okos Rádás Red EU Standard and Okos Rádás Red EU Premium packages are supplemented once per billing cycle with the Automatikus Kiegészítő Adat option containing 200 MB of domestic data traffic at a rate of HUF 413.39 gross. This option is activated automatically after the domestic data volume included in the monthly fee is exhausted; or, if a supplemental data option has been purchased on the Netinfo site before the domestic data volume included in the monthly fee is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted; or, if one or more further supplemental data option(s) has (have) been purchased before the domestic data volume included in the supplemental data volume on the Netinfo site is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted. The data traffic of the Automatikus Kiegészítő Adat 200 MB option can be used until the end of the given billing cycle, and is not divisible. The Automatikus Kiegészítő Adat 200 MB option is renewed monthly but is only activated and billed upon continuing data use after the domestic data volume included in the monthly fee or supplemental data option(s) is exhausted. After the data volume included in the Automatikus Kiegészítő Adat 200 MB option, the speed will be slowed down to 0/0 Mbit/s.

In the case of the Okos Rádás 2000, Okos Rádás 4000, Okos Rádás 5500, Okos Rádás Red EU Standard and Okos Rádás Red EU Premium tariff packages, in order for the Internet to be used until account closing, the Subscriber needs to purchase a supplemental data option before the domestic data volume included in the monthly fee is exhausted, or after the domestic data volume included in the Automatikus PluszAdat 150MB or Automatikus Kiegészítő Adat 200 MB option is exhausted, on the Netinfo site (<http://netinfo.vodafone.hu>).

Without purchasing a data option, the data traffic cannot be exceeded after the domestic data volume included in the Automatikus Kiegészítő Adat 200 MB option is exhausted. If the Subscriber has exhausted the domestic data volume included in the package and the Automatikus Kiegészítő Adat 200 MB option, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

The divisible data volume included in the Okos Rádás Red EU Standard and Okos Rádás Red EU Premium packages can only be used with SIM cards that belong to MultiNet tariffs connected to Okos Rádás Red EU Standard or Okos Rádás Red EU Premium tariff packages, and use with subscriptions that are not connected to Okos Rádás Red EU Standard or Okos Rádás Red EU Premium subscription contracts is not allowed.

In the case of the Okos Rádás Red EU Standard or Okos Rádás Red EU Premium tariff packages, the Subscriber, who/which, after having exhausted the data limit included in the tariff, divides supplemental data options that can be ordered by the Subscriber or other users of secondary SIM card(s) belonging to Business MultiNet tariffs as authorized by Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>) for continuing Internet use until account closure, is only able to monitor his own data use on the Netinfo page (<http://netinfo.vodafone.hu>), for technical reasons, and does not have any information on the specific amount of data traffic of the secondary SIM card(s) that may use the divisible data volume. If the user of the secondary SIM card(s) belonging to MultiNet tariffs, who has been duly authorized by the Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>), orders a supplemental data option, the fee or the supplemental data option shall be invoiced to and payable by the Subscriber of the primary SIM card.

The Business MultiNet card only provides data transmission service; no voice services are available thereon. Only customers who have 2-year fixed-term subscriptions for new or existing Okos Rádás Red EU Standard or Okos Rádás Red EU Premium tariff packages are eligible for Business MultiNet tariffs. Maximum 1 Business MultiNet package can be purchased in the offer with a single subscription for Okos Rádás Red EU Standard and Okos Rádás Red EU Premium. The Subscriber is eligible for the Business MultiNet package, as long as he maintains his Okos Rádás Red EU Standard or Okos Rádás Red EU Premium subscription. If the primary subscription concluded for the Okos Rádás Red EU Standard or Okos Rádás Red EU Premium tariff package is cancelled or changed, we will convert the 2nd SIM card to Internet Basic tariff.

In the case of the Business MultiNet tariffs, after using up the monthly data traffic limit, a supplemental option needs to be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

The unlimited minute, SMS and MMS allowance included in the monthly fee of the Okos Rádás Red EU Standard and Okos Rádás Red EU Premium service packages is only available for standard-rate domestic calls, sent SMS and MMS messages. Standard-rate domestic calls mean the standard-rate calls initiated to the domestic network of Vodafone and other mobile service providers and to domestic fixed-line networks, standard-rate SMS, standard-rate MMS, and in case of

Okos Rádás Red EU Standard and Okos Rádás Red EU Premium service packages, as far as rates are concerned, calling any domestic special-rate call numbers also qualifies as standard-rate domestic direction (e.g. voicemail).

The limitlessness included in the monthly fee of the Okos Rádás Red EU Premium service package that can be used within the area of validity of the Vodafone EU Roaming service shall apply only to standard-rate and special-rate international calls and to standard-rate and special-rate SMS messages sent to an international network. The current list of partner networks available on the area of validity of the Vodafone EU Roaming service can be found on the www.vodafone.hu/eu website.

The limitlessness included in the monthly fee of the Okos Rádás Red EU Premium service package that can be used within the area of validity of the Red EU International tariff zone shall apply only to standard-rate and special-rate international calls and to standard-rate and special-rate SMS messages sent to an international network.

The area of the Red EU International tariff zone is defined in Annex 9 of this List of Rates.

The charges of international calls outside the Red EU International tariff zone are contained in Section 9 of this List of Rates Annex.

In foreign countries the valid Roaming tariffs will apply. The detailed description of the Vodafone EU Roaming service is in point 5.5 of this Annex called List of Rates.

The monthly fees of the Okos Rádás 5500, Okos Rádás Red EU Standard and Okos Rádás Red EU Premium packages, as well as of the Business MultiNet Standard and Business MultiNet Premium tariff packages also include handset insurance service, as indicated in the above table. The terms of using the handset insurance service are specified in Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time. The handset insurance service is only provided for handsets purchased from Vodafone no more than 60 days to date, and Vodafone shall not provide this service for devices purchased prior to the above date. Terminating the handset insurance service in accordance with Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time, shall not result in the change of the monthly fee of the above mentioned packages. If the criteria of using the handset insurance service have been met, a discount from the monthly fee of the tariff package is provided that equals to the monthly fee of the service.

The Okos Rádás Red EU Standard and Okos Rádás Red EU Premium service packages can exclusively be used in compliance with the terms of use for Small Enterprise subscribers to satisfy the personal communication needs of natural person users (personal use). Intended personal use does not include the following: if the Subscriber or user uses the SIM card pertaining to Okos Rádás Red EU Standard and Okos Rádás Red EU Premium service packages in a device other than a mobile phone; making automated calls that do not require the personal involvement of the user; making mass calls (the duration of which exceeds the 10% of the total duration of outgoing calls) to automated call receiving devices, equipment (such as, but not exclusively to IVR); making mass calls in order to test, make trial runs on or to test the resilience or vulnerability etc. of services, technical instruments or equipment; making calls that regularly exceed 180 minutes per day for the remote monitoring of people, structures, events, etc. (e.g. but not exclusively: asset protection, baby monitoring functions); making calls for establishing machine-to-machine connection (M2M); making or diverting calls in a total duration of more than 24 hours per day; making mass calls or sending bulk SMS messages of which the Service Provider has reasonable grounds to believe having been made to gain direct benefit by the Subscriber, the User or any other third parties at the expense of the Service Provider. It is strictly prohibited to use the service package with devices that do not have their own display, speaker, microphone and keyboard (including touch-screen keyboard), such as for example adapter, modem. The service packages shall not be used in an abusive manner, among others, for telemarketing, customer service activities or other business purposes. Abusive use shall include the behaviour of sending SMS and MMS messages in a manner contrary to the conditions of personal use, where the number of SMS/MMS messages sent via the subscription exceeds several hundred per day, or the proportion of the number of SMS/MMS messages sent via the subscription involved and that of their recipients exceeds 10%, or the proportion of the number of SMS/MMS messages and that of the replies to them is lower than 80%, or the SMS/MMS messages are sent by the subscriber typically from one location. In the event of abusive use, or the violation of the conditions of personal use, after prior notice from the Service Provider, the service will be available to the Subscriber according to the conditions of the Small Enterprise Basic Tariff.

The Vállalkozói Osztható tariff packages appearing in the above table are available by signing indefinite-term contracts or 2-year fixed-term contracts.

The minutes and data traffic included in the monthly fee that are applicable to airtime or traffic, but which were not used cannot be rolled over to the next month or transferred to other persons or call members and cannot be used for other services. The allowances are only available domestically.

Vállalkozói Osztható Tariff packages can only be purchased by electing an Okos Rádás package. Any Okos Rádás package specified in the above table may be requested for the divisible tariff packages; the elected Okos Rádás package

is activated per subscription and its monthly fee is payable above the monthly fee of the tariff. The Okos Rádás packages and the divisible tariffs are freely variable with each other according to the above provisions.

Further details regarding the Closed Group option are included in section 2.2 of this List of Rates, regarding the VodaMail service in section 4.1., regarding data options in section 2.4 and regarding the Világ Daily Ticket service in section 5.2.2.

In the case of Vállalkozói Osztható tariff packages, above the data volume included in the Okos Rádás plan the speed of data traffic will be slowed down. The maximum value of the slowdown in case of the Okos Rádás Irodai package: 0.031 Mbit/s for download and upload. The value of slowdown for Okos Rádás 2000, Okos Rádás 4000, Okos Rádás 5500, Okos Rádás Red EU Standard and Okos Rádás Red EU Premium packages is 0/0 Mbit/s (downloading/uploading). If the PluszAdat or Kiegészítő Adat option is ordered before the slowdown, as detailed below, the slowdown will not take place. The Internet-based voice/video calls used via applications downloadable on mobile appliances (Skype, MSN, Viber, WhatsApp, etc.) are available for the Okos Rádás packages.

Kiegészítő Adat (supplemental option):

In case of Subscription Contracts concluded after 1 April 2016, supplemental data options can be purchased for the Okos Rádás 2000, Okos Rádás 4000 and Okos Rádás 5500 service packages, which are described in detail in the following table.

Kiegészítő Adat may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the Okos Rádás subscription belongs.

Kiegészítő Adat data option available versions after 1 June 2016	Domestic data volume included	Fee (gross)	Service package
Kiegészítő Adat 500 MB	500 MB	HUF 826.77	Okos Rádás 2000 Okos Rádás 4000 Okos Rádás 5500
Kiegészítő Adat 1 GB	1 GB	HUF 1,653.54	
Kiegészítő Adat 5 GB	5 GB	HUF 4,133.87	

If a Kiegészítő Adat option is not completely used by the time of purchasing the next Kiegészítő Adat option, the unused remaining data traffic of the existing supplemental option will be lost. The Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of Kiegészítő Adat options can be purchased in a billing cycle. Kiegészítő Adat options are non-renewable options that have to be repurchased in every billing cycle, if needed.

Monthly renewable Kedvezményes (Preferential) Kiegészítő Adat (supplemental option):

In case of Subscription Contracts concluded after 1 April 2016, the Subscriber may purchase a monthly renewable Preferential Kiegészítő Adat option to its Okos Rádás 4000 and Okos Rádás 5500 service packages, which supplemental option is a renewable option, reactivated every billing cycle, i.e. it will not have to be reordered. Kedvezményes (Preferential) Kiegészítő Adat can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and handset, to which the Okos Rádás 4000 or Okos Rádás 5500 subscription belongs.

By purchasing the Kedvezményes Kiegészítő Adat option (supplemental option) the Subscriber agrees that during the fixed term associated with its Okos Rádás 4000 or Okos Rádás 5500 subscription it shall also maintain the supplemental option, and the option shall not be cancelled during this period due to reasons arising within the Subscriber's scope of interest. If the above conditions are not met, the Subscriber shall pay liquidated damages in the amount of the discount calculated versus the Kiegészítő Adat option available to the Subscriber, as detailed in Section 12.7 of the GTC.

In case of Preferential Kiegészítő Adat 1 GB option, the discount versus Kiegészítő Adat 1 GB (HUF 1,653.54) option is: HUF 826.77 per month.

In case of Preferential Kiegészítő Adat 5 GB option, the discount versus Kiegészítő Adat 5 GB (HUF 4,133.87) option is: HUF 826.77 per month.

In case of Preferential Kiegészítő Adat 10 GB option, the discount versus the proportional fee taking into account the domestic data volume included in the Kiegészítő Adat 5 GB (HUF 4,133.87) option is: HUF 3,307.10 per month.

Available Kedvezményes (Preferential) Kiegészítő Adat option After 1 June 2016	Domestic data volume included	Fee (gross)	Service package
Kedvezményes Kiegészítő Adat 1 GB	1 GB	HUF 826.77	Okos Rádás 4000 Okos Rádás 5500
Kedvezményes Kiegészítő Adat 5 GB	5 GB	HUF 3,307.10	

Kedvezményes Kiegészítő Adat 10 GB	10 GB	HUF 4,960.64	
------------------------------------	-------	--------------	--

If the monthly renewable Kedvezményes Kiegészítő Adat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The Kedvezményes Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of PluszAdat option may be purchased in addition to the Kedvezményes Kiegészítő Adat option in a given billing period.

Osztható (Divisible) Kiegészítő Adat (supplemental option):

In case of Subscription Contracts concluded after 1 April 2016, supplemental divisible data option (Kiegészítő Adat) can be purchased for Okos Rádás Red EU Standard and Okos Rádás Red EU Premium service packages, the data quantity of which may be used with the SIM card of the Okos Rádás Red EU Standard and Okos Rádás Red EU Premium packages and the SIM card of the Business MultiNet tariff.

Kiegészítő Adat can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and handset to which the Okos Rádás Red EU Standard, Okos Rádás Red EU Premium or Business MultiNet subscription belongs.

The fee of the Kiegészítő Adat supplemental option is charged in all cases to the voice based subscription, that is, the Okos Rádás Red EU Standard or Okos Rádás Red EU Premium package.

Available Kiegészítő Data option After 1 June 2016	Domestic data volume included	Fee (gross)	Service package
Kiegészítő Adat 500 MB	500 MB	HUF 826.77	Primary SIM belonging to Okos Rádás Red EU Standard and Okos Rádás Red EU Premium tariffs, and secondary SIM belonging to Business MultiNet tariff
Kiegészítő Adat 1 GB	1 GB	HUF 1,653.54	
Kiegészítő Adat 5 GB	5 GB	HUF 4,133.87	

If a Kiegészítő Adat option is not completely used by the time of purchasing the next Kiegészítő Adat option, the unused remaining data traffic of the existing Kiegészítő Adat option will be lost. The Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of Kiegészítő Adat options can be purchased in a billing cycle. The Kiegészítő Adat option is a non-renewable option that has to be repurchased in every billing cycle, if needed.

Monthly renewable, divisible Kedvezményes (Preferential) Kiegészítő Adat (supplemental option):

In case of Subscription Contracts concluded after 1 April 2016, renewable Preferential Kiegészítő Adat data option (supplemental option) may be ordered to an Okos Rádás Red EU Standard or Okos Rádás Red EU Premium package, which is reactivated every billing cycle, i.e. it will not have to be reordered. Kedvezményes Kiegészítő Adat option can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from both the primary SIM card belonging to the Okos Rádás Red EU Standard or Okos Rádás Red EU Premium package and the secondary Business MultiNet SIM card.

Available Kedvezményes (Preferential) Kiegészítő Adat option After 1 June 2016	Domestic data volume included	Fee (gross)	Service package
Kedvezményes Kiegészítő Adat 1 GB	1 GB	HUF 826.77	Primary SIM belonging to Okos Rádás Red EU Standard and Okos Rádás Red EU Premium tariffs, and secondary SIM belonging to Business MultiNet tariff
Kedvezményes Kiegészítő Adat 5 GB	5 GB	HUF 3,307.10	
Kedvezményes Kiegészítő Adat 10 GB	10 GB	HUF 4,960.64	

By purchasing the Kedvezményes Kiegészítő Adat option (supplemental option) the Subscriber agrees that during the fixed term associated with its Okos Rádás Red EU Standard or Okos Rádás Red EU Premium subscription it shall also maintain the supplemental option, and the option shall not be cancelled during this period due to reasons arising within the Subscriber's scope of interest. If the above conditions are not met, the Subscriber shall pay liquidated damages in the amount of the discount calculated versus the Kiegészítő Adat option available to the Subscriber, as detailed in Section 12.7 of the GTC.

In case of Preferential Kiegészítő Adat 1 GB option, the discount versus Kiegészítő Adat 1 GB (HUF 1,653.54) option is: HUF 826.77 per month.

In case of Preferential Kiegészítő Adat 5 GB option, the discount versus Kiegészítő Adat 5 GB (HUF 4,133.87) option is: HUF 826.77 per month.

In case of Preferential Kiegészítő Adat 10 GB option, the discount versus the proportional fee taking into account the domestic data volume included in the Kiegészítő Adat 5 GB (HUF 4,133.87) option is: HUF 3,307.10 per month.

If the Kedvezményes Kiegészítő Adat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The Kedvezményes Kiegészítő Adat option may exclusively be used by the end of the given billing cycle.

Kiegészítő Adat (supplemental option) for Business MultiNet subscription contracts concluded after 1 June 2016:

Kiegészítő Adat option may be purchased for the Business MultiNet tariff packages anytime within the billing cycle, described in detail in the following table. The Kiegészítő Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the Business MultiNet subscription belongs.

Available Kiegészítő Data option	Domestic data volume included	Fee (gross)	Service package
Kiegészítő Adat 500 MB	500 MB	HUF 826.77	Business MultiNet Standard, Business MultiNet Premium
Kiegészítő Adat 1 GB	1 GB	HUF 1,653.54	
Kiegészítő Adat 5 GB	5 GB	HUF 4,133.87	

If a Kiegészítő Adat option is not completely used by the time of purchasing the next Kiegészítő Adat option, the unused remaining data traffic will be lost. The Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of Kiegészítő Adat options can be purchased in a billing cycle. Kiegészítő Adat is a non-renewable option that has to be repurchased in every billing cycle, if needed.

Monthly renewable Kedvezményes (Preferential) Kiegészítő Adat (supplemental option) for Business MultiNet subscription contracts concluded after 1 June 2016:

A monthly renewable Kedvezményes (Preferential) Kiegészítő Adat option may be purchased to the Business MultiNet tariff packages, which supplemental option is a renewable option, reactivated every billing cycle, i.e. it will not have to be reordered. The monthly renewable Kedvezményes Kiegészítő Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the Business MultiNet subscription belongs.

By purchasing the Kedvezményes Kiegészítő Adat option (supplemental option) the Subscriber agrees that during the fixed term associated with its Business MultiNet Standard or Business MultiNet Premium subscription it shall also maintain the supplemental option, and the option shall not be cancelled during this period due to reasons arising within the Subscriber's scope of interest. If the above conditions are not met, the Subscriber shall pay liquidated damages in the amount of the discount calculated versus the Kiegészítő Adat option available to the Subscriber, as detailed in Section 12.7 of the GTC.

In case of Preferential Kiegészítő Adat 1 GB option, the discount versus Kiegészítő Adat 1 GB (HUF 1,653.54) option is: HUF 826.77 per month.

In case of Preferential Kiegészítő Adat 5 GB option, the discount versus Kiegészítő Adat 5 GB (HUF 4,133.87) option is: HUF 826.77 per month.

In case of Preferential Kiegészítő Adat 10 GB option, the discount versus the proportional fee taking into account the domestic data volume included in the Kiegészítő Adat 5 GB (HUF 4,133.87) option is: HUF 3,307.10 per month.

Kedvezményes (Preferential) Kiegészítő Adat data option available versions after 1 June 2016	Domestic data volume included	Fee (gross)	Service package
Kedvezményes Kiegészítő Adat 1 GB	1 GB	HUF 826.77	Business MultiNet Standard, Business MultiNet Premium
Kedvezményes Kiegészítő Adat 5 GB	5 GB	HUF 3,307.10	
Kedvezményes Kiegészítő Adat 10 GB	10 GB	HUF 4,960.64	

If the monthly renewable Kedvezményes Kiegészítő Adat is not completely used in the given billing period, its unused remaining data traffic will be lost. The monthly renewable Kedvezményes Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of Kiegészítő Adat option may be purchased in addition to the monthly renewable Kedvezményes Kiegészítő Adat option in a given billing period.

Business MultiNet Standard (mobile internet based) tariff packages are available for the Business Red EU Standard service package, which may only be used with the Business Red EU Standard service package, as secondary SIM cards. In case of Business Red EU Standard service packages with divisible data traffic (primary SIM), data traffic may be used, after the Vodafone EU Roaming service is activated, in the associated Business MultiNet Standard tariff packages (secondary SIM) domestically and within the area of validity of the Vodafone EU Roaming service.

Business MultiNet Standard packages available for subscription contracts concluded after 1 June 2016:

	Business MultiNet Standard Mifi	Business MultiNet Standard SIM
Initial costs		
Entry fee (HUF)	10,000	10,000
Monthly fees		
Monthly subscription fee (HUF) with an indefinite term contract	8,267.72	8,267.72
Monthly subscription fee (HUF) with contracts of a 1-year fixed term	8,267.72	8,267.72
Monthly subscription fee (HUF) with contracts of a 2-year fixed term	0	0
Domestic data traffic included in the monthly fee	same as in Business Red EU Standard package, shared therewith	
Offered bandwidth above monthly divisible data traffic (download/upload, Mbit/s)	0/0	0/0
Guaranteed speed	in accordance with section 4.1 of the GTC	
SMS to any domestic network (HUF)	30.48	30.48

The Business MultiNet Standard packages are available without handset purchase. In case of handset purchase, the Subscriber shall choose from the following supplemental options:

Supplemental option	Monthly subscription fee of the option (HUF) with contracts of a 2-year fixed term	Content of the option for Business MultiNet Standard tariffs
S supplemental option	1,000	Basic handset insurance
M supplemental option	2,000	Basic handset insurance + Sending 15 MMS messages free of charge to any domestic, standard rate network
L supplemental option	5,000	Basic handset insurance + Sending 15 MMS messages free of charge to any domestic, standard rate network + 10% monthly fee discount from the monthly fee of any Office 365 service
XL supplemental option	8,000	Basic handset insurance + Sending 15 MMS messages free of charge to any domestic, standard rate network + 10% monthly fee discount from the monthly fee of any Office 365 service + 1 x free Világ (World) Daily Ticket per billing cycle

Business MultiNet Premium (mobile internet based) tariff packages are available for the Business Red EU Premium service package, which may only be used with the above Business Red EU Premium service package, as secondary SIM cards. In case of Business Red EU Premium service packages with divisible data traffic (primary SIM), data traffic may be used, after the Vodafone EU Roaming service is activated, in the associated Business MultiNet Premium tariff packages (secondary SIM) domestically and within the area of validity of the Vodafone EU Roaming service.

Business MultiNet Premium packages available for subscription contracts concluded after 1 June 2016:

	Business MultiNet Premium Mifi	Business MultiNet Premium SIM
Initial costs		
Entry fee (HUF)	10,000	10,000
Monthly fees		
Monthly subscription fee (HUF) with an indefinite term contract	8,267.72	8,267.72
Monthly subscription fee (HUF) with contracts of a 1-year fixed term	8,267.72	8,267.72
Monthly subscription fee (HUF) with contracts of a 2-year fixed term	0	0
Domestic data traffic included in the monthly fee	Same as in Business Red EU Premium package, shared therewith	
Offered bandwidth (download/upload, Mbit/s) above monthly divisible data traffic	0/0	0/0
Guaranteed speed	in accordance with section 4.1 of the GTC	
SMS to any domestic network (HUF)	30.48	30.48

The Business MultiNet Premium packages are available without handset purchase. In case of handset purchase, the Subscriber shall choose from the following supplemental options:

Supplemental option	Monthly subscription fee of the option (HUF) with contracts of a 2-year fixed term	Content of the option for Business MultiNet Premium tariffs
S supplemental option	1,000	Extra handset insurance
M supplemental option	2,000	Extra handset insurance + Sending 15 MMS messages free of charge to any domestic, standard rate network
L supplemental option	5,000	Extra handset insurance + Sending 15 MMS messages free of charge to any domestic, standard rate network + 10% monthly fee discount from the monthly fee of any Office 365 service
XL supplemental option	8,000	Extra handset insurance + Sending 15 MMS messages free of charge to any domestic, standard rate network + 10% monthly fee discount from the monthly fee of any Office 365 service + 1 x free Világ (World) Daily Ticket per billing cycle

Unlimited airtime minutes, SMS/MMS messages included in the monthly fee only apply to domestic standard-rate calls, sent SMS and MMS messages. Domestic standard-rate directions mean standard-rate calls made to the domestic network of Vodafone and other mobile service providers, standard-rate calls made to domestic fixed-line numbers, standard-rate SMS, standard-rate MMS, and in case of Vodafone Red EU service packages – as far as fees are concerned – domestic standard-rate directions also mean calls made to special-rate numbers (e.g. voicemail).

The limitlessness included in the monthly fee of the Business Red EU Premium service package that can be used within the area of validity of the Red EU International tariff zone shall apply only to standard-rate and special-rate domestic and standard-rate and special-rate (green numbers) international calls, and to standard-rate and special-rate SMS messages sent to a domestic network and standard-rate and special-rate (green numbers) SMS messages sent to an international network.

The area of the Red EU International tariff zone is defined in Annex 9 of this List of Rates.

The Red Basic EU SIM package is not available with preferential handset purchase.

In case of Subscription Contracts concluded after 1 April 2016, the Business Red EU Basic, Business Red EU Standard and Business Red EU Premium packages are not available with preferential handset purchase unless a Supplemental option is chosen (M, L, XL, XXL categories).

Data traffic included in the monthly fee applies only to domestic use. The monthly domestic data traffic included in the Business Red EU Standard and Business Red EU Premium packages can be fully divided between two SIM cards (one voice and data based card and one exclusively mobile internet based card). If the Subscriber does not use up the monthly traffic limit included in the monthly fee, the remaining part cannot be rolled over to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. Billing unit: 10 Kbyte.

In case of Vodafone Red EU service packages, when the data volume included in the monthly fee is exhausted, the speed will be reduced to 0/0 Mbit/s until the end of the billing cycle. Guaranteed speed as per Section 4.1 of the GTC.

As of 1 June 2015 (in the billing cycle if account is closed after 1 June 2015), the Red Basic EU (SIM, X, A, B, C, D, E) service packages are supplemented once per billing cycle with the Automatikus PluszAdat option containing 150 MB of domestic data traffic at a rate of HUF 413.19 gross. This option is activated automatically after the domestic data volume included in the monthly fee is exhausted; or, if a supplemental data option has been purchased on the Netinfo site before the domestic data volume included in the monthly fee is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted; or, if one or more further supplemental data option(s) has (have) been purchased before the domestic data volume included in the supplemental data volume on the Netinfo site is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted. The data traffic of the Automatikus PluszAdat 150 MB option can be used until the end of the given billing cycle, and is not divisible. The Automatikus PluszAdat 150 MB option is renewed monthly but is only activated and billed upon continuing data use after the domestic data volume included in the monthly fee or supplemental data option(s) is exhausted. After the data volume included in the Automatikus PluszAdat 150 MB option, the speed will be slowed down to 0/0 Mbit/s.

As of 1 June 2016, the Business Red EU Basic, Business Red EU Standard and Business Red EU Premium service packages concluded after 1 April 2016 are supplemented once per billing cycle with the Automatikus Kiegészítő Adat option containing 200 MB of domestic data traffic at the fee of which can be found in the tariff table. This option is activated automatically after the domestic data volume included in the monthly fee is exhausted; or, if a supplemental data option has been purchased on the Netinfo site before the domestic data volume included in the monthly fee is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted; or, if one or more further supplemental data option(s) has (have) been purchased before the domestic data volume included in the supplemental data volume on the Netinfo site is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted. The data traffic of the Automatikus Kiegészítő Adat 200 MB option can be used until the end of the given billing cycle, and is not divisible. The Automatikus Kiegészítő Adat 200 MB option is renewed monthly but is only activated and billed upon continuing data use after the domestic data volume included in the monthly fee or supplemental data option(s) is exhausted. After the data volume included in the Automatikus Kiegészítő Adat 200 MB option, the speed will be slowed down to 0/0 Mbit/s.

Before using up the domestic data volume included in the monthly fee, or after using up the domestic data volume included in the Automatikus PluszAdat or Automatikus Kiegészítő Adat option, a Kiegészítő Adat option needs to be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded after the domestic data volume included in the Automatikus PluszAdat or Automatikus Kiegészítő Adat option is exhausted. If the Subscriber has exhausted the domestic data volume included in the

package and the Automatikus PluszAdat or Automatikus Kiegészítő Adat option, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

The Business MultiNet card only provides data transmission service; no voice services are available thereon. Only customers who have subscriptions for new or existing Business Red EU Standard or Business Red EU Premium packages are eligible for Business MultiNet tariffs. Maximum 1 Business MultiNet package can be purchased in the offer with a single subscription for Business Red EU Standard or Business Red EU Premium. The Subscriber is eligible for the Business MultiNet package, as long as he maintains his fixed or indefinite-term Business Red EU Standard and Business Red EU Premium subscription. If the primary subscription concluded for Business Red EU Standard and Business Red EU Premium service packages is cancelled or changed, we will convert SIM card 2 to Internet Basic tariff.

In the case of the Business MultiNet tariffs, after using up the monthly data traffic limit, a supplemental option needs to be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle. Guaranteed speed above the data traffic included in the monthly subscription fee (download/upload Mbit/s) is determined in accordance with section 4.1 of the GTC.

In the case of the Business Red EU Standard and Business Red EU Premium service packages, the Subscriber, who/which, after having exhausted the data limit included in the package, divides supplemental data options that can be ordered by the Subscriber or other users of secondary SIM card belonging to Business MultiNet tariffs as authorized by Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>) for continuing Internet use until account closure, is only able to monitor his own data use on the Netinfo page (<http://netinfo.vodafone.hu>), for technical reasons, and does not have any information on the specific amount of data traffic of the secondary SIM card that may use the divisible data volume. If the user of the secondary SIM card belonging to the Business MultiNet tariff, who has been duly authorized by the Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>), orders a supplemental data option, the fee or the supplemental data option shall be invoiced to and payable by the Subscriber of the primary SIM card.

The monthly fee of the Red Basic EU (X, A, B, C, D, E) service package, as well as in the case of the Business Red EU Basic, Business Red EU Standard and Business Red EU Premium service packages, the monthly fees of the Supplemental option also include handset insurance service, as indicated in the above service package table. The terms of using the handset insurance service are specified in Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time. The handset insurance service is only provided for handsets purchased from Vodafone no more than 60 days to date (including Vodafone Red EU packages), and Vodafone does not provide this service for devices purchased prior to the above date. Terminating the handset insurance service in accordance with Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time, shall not result in the change of the monthly fee of the above mentioned service packages. If the criteria of using the handset insurance service have been met, a discount from the monthly fee of the tariff package is provided that equals to the monthly fee of the service. Terminating the handset insurance service in accordance with Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time, shall not result in the change of the monthly fee of the tariff package.

ReadyPay service:

Mobile payment card acceptance service. The Service enables acceptance of payment by magnetic stripe cards, chip cards and contactless cards, as well as mobile phones with the help of a smart device with access to the Internet and a mobile card reader terminal (mPOS).

The Service may only be used with the iCMP terminal available in the range of products offered by Vodafone. The sale and purchase of the iCMP mobile card acceptance terminal is subject to a separate contract of sale.

The ReadyPay service is otherwise governed by the Terms of Use for Other Services, the acceptance of which is specifically required to be able to use the ReadyPay service.

OneDrive for Business with Office Online:

In the case of subscription contract concluded after 7 September 2015, the OneDrive for Business with Office Online service –Office Online (Word, Excel, Power Point) – is available free of charge with the Red Basic EU service package as per the General Terms and Conditions for Other Services, the acceptance of which terms and conditions is specifically required to be able to use the service.

The OneDrive for Business with Office Online service may generate data traffic, which is not part of the service. Data traffic generated while using the OneDrive for Business with Office Online service can be used by deducting it from the data traffic included in the Red Basic EU service package or other Internet access.

The description and terms of use of the Világ Napijegy (World Daily Ticket) tariff are contained in Section 5.2.2 of this Annex.

The Vodafone Red EU service packages can exclusively be used in compliance with the terms of use for Small Enterprise subscribers to satisfy the personal communication needs of natural person users (personal use). Intended personal use does not include the following: if the Subscriber or user uses the SIM card pertaining to Vodafone Red EU service packages inserted in a non-mobile phone; making automated calls that do not require the personal involvement of the user; making mass calls (the duration of which exceeds the total duration of outgoing calls by more than 10%) to automated call receiving devices, equipment (such as, but not exclusively to IVR); making mass calls in order to test, make trial runs or to test the resilience or vulnerability etc. of services, technical instruments or equipment; making calls that regularly exceeds 180 minutes per day for the remote monitoring of people, structures, events, etc. (e.g. but not exclusively: asset protection, baby monitoring functions); making calls for establishing machine-to-machine connection (M2M); making or diverting calls in a total duration of more than 24 hours per day; making mass calls or sending bulk SMS of which the Service Provider has reasonable grounds to believe having been made to gain direct benefit by the Subscriber, the User or any other third parties at the expense of the Service Provider. It is strictly prohibited to use the service package with devices that do not have their own display, speaker, microphone and keyboard (including touch-screen keyboard), such as for example adapter, modem. The service packages shall not be used in an abusive manner, among others, for telemarketing, customer service activities or other business purposes. Abusive use shall include the behaviour of sending SMS and MMS messages in a manner contrary to the conditions of personal use, where the number of SMS/MMS messages sent via the subscription exceeds several hundred per day, or the proportion of the number of SMS/MMS messages sent via the subscription involved and that of their recipients exceeds 10%, or the proportion of the number of SMS/MMS messages and that of the replies to them is lower than 80%, or the SMS/MMS messages are sent by the subscriber typically from one location. In the event of abusive use, or the violation of the conditions of personal use, after prior notice from the Service Provider, the service will be available to the Subscriber according to the conditions of the Small Enterprise Basic Tariff.

The Car SIM Card service, the Conference call service, the Fixed-line area option, as well as the All fixed-line area option are not available with Vodafone Red EU service packages.

In foreign countries the valid Roaming tariffs will apply. The detailed description of the Vodafone EU Roaming service is in point 5.5 of this Annex called List of Rates.

The charges of international calls are contained in Section 9 of Annex 1 on Tariffs.

The e-Pack service is available for Subscribers with Red Basic EU (SIM, X, A, B, C, D, E), Business Red EU Basic, Business Red EU Standard and Business Red EU Premium service packages purchased with 2-year fixed-term contracts. In case of using the e-Pack service, the Subscriber agrees to fulfil the following conditions in every month while using the e-Pack service, in exchange for a more favourable monthly subscription fee:

- The Subscriber uses E-bills regarding all of his subscriptions under one client number with the content defined in section 7.1.2.4 of the GTC: Electronic Bill and Document Presentation (E-bill).
- The bill is settled by using one of the following payment options:
 - on the www.vodafone.hu/szamlabefizetes web page,
 - with Vodafone mobile application,
 - by bank transfer,
 - by direct debit order,
 - via ATM machines.
- The bill is settled by the payment deadline indicated in the bill.

If the Subscriber fails to meet any of the above conditions in a given month, a one-off fee of gross HUF 1,000 per subscription will be charged to the Subscriber in his next monthly bill. The fee payable for failing to fulfil the e-Pack conditions is only billed once per month even if the Subscriber fails to meet several e-Pack conditions in a given month.

If the Subscriber has multiple subscriptions and one of those is used with e-Pack, the Subscriber is required to settle the monthly bills of all subscriptions by satisfying the e-Pack conditions.

Should the Subscriber receive payment extension in a month and fail to settle his bill by the payment deadline indicated in the bill, the one-off fee payable for failing to meet the e-Pack conditions shall also be billed.

Cancelling the e-Pack service shall constitute a tariff change. Changing between the versions of the same tariff (with and without e-Pack) can be requested without being obligated to pay liquidated damages.

In the case of 2-year fixed-term contracts for Red Basic EU (SIM, X, A, B, C, D, E) service packages, if the Subscriber does not conclude another fixed-term contract prior to the expiry of the current fixed-term contract in accordance with the rules on contract extension, as amended from time to time, the Subscriber will be entitled to use the service from the 15th day of the month following the expiry of the fixed-term for the fees of the Small Enterprise Base Tariffs, unless otherwise agreed on by the parties.

Kiegészítő Adat (supplemental option) for Business MultiNet subscription contracts:

Kiegészítő Adat option may be purchased for the Business MultiNet tariff packages anytime within the billing cycle, described in detail in the following table. The Kiegészítő Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the Business MultiNet subscription belongs.

Available Kiegészítő Adat option After 1 June 2016	Domestic data volume included	Fee (gross)	Service package
Kiegészítő Adat 500 MB	500 MB	HUF 826.77	Business MultiNet Standard Business MultiNet Premium
Kiegészítő Adat 1 GB	1 GB	HUF 1,653.54	
Kiegészítő Adat 5 GB	5 GB	HUF 4,133.87	

If a Kiegészítő Adat option is not completely used by the time of purchasing the next Kiegészítő Adat option, the unused remaining data traffic will be lost. The Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of Kiegészítő Adat options can be purchased in a billing cycle. Kiegészítő Adat is a non-renewable option that has to be repurchased in every billing cycle, if needed.

Monthly renewable Kedvezményes (Preferential) Kiegészítő Adat (supplemental option) for Business MultiNet subscription contracts

A monthly renewable Kedvezményes (Preferential) Kiegészítő Adat option may be purchased to the Business MultiNet tariff packages, which supplemental option is a renewable option, reactivated every billing cycle, i.e. it will not have to be reordered. The monthly renewable Kedvezményes Kiegészítő Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the Business MultiNet subscription belongs.

By purchasing the Kedvezményes Kiegészítő Adat option (supplemental option) the Subscriber agrees that during the fixed term associated with its Business MultiNet Standard or Business MultiNet Premium subscription it shall also maintain the supplemental option, and the option shall not be cancelled during this period due to reasons arising within the Subscriber's scope of interest. If the above conditions are not met, the Subscriber shall pay liquidated damages in the amount of the discount calculated versus the Kiegészítő Adat option available to the Subscriber, as detailed in Section 12.7 of the GTC.

In case of Preferential Kiegészítő Adat 1 GB option, the discount versus Kiegészítő Adat 1 GB (HUF 1,858.26) option is: HUF 929.13 per month.

In case of Preferential Kiegészítő Adat 5 GB option, the discount versus Kiegészítő Adat 5 GB (HUF 4,645.67) option is: HUF 929.13 per month.

In case of Preferential Kiegészítő Adat 10 GB option, the discount versus the proportional fee taking into account the domestic data volume included in the Kiegészítő Adat 5 GB (HUF 4,645.67) option is: HUF 3,716.54 per month.

Kedvezményes (Preferential) Kiegészítő Adat data option available versions after 1 June 2016	Domestic data volume included	Fee (gross)	Service package
Kedvezményes Kiegészítő Adat 1 GB	1 GB	HUF 826.77	Business MultiNet Standard Business MultiNet Premium
Kedvezményes Kiegészítő Adat 5 GB	5 GB	HUF 3,307.10	
Kedvezményes Kiegészítő Adat 10 GB	10 GB	HUF 4,960.64	

If the monthly renewable Kedvezményes Kiegészítő Adat is not completely used in the given billing period, its unused remaining data traffic will be lost. The monthly renewable Kedvezményes Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of Kiegészítő Adat option may be purchased in addition to the monthly renewable Kedvezményes Kiegészítő Adat option in a given billing period.

PluszAdat and Kiegészítő Adat (supplemental option):

Supplemental data options can be purchased for the Vodafone Red EU service packages, whose detailed description is contained in the following table. Supplemental options may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which Vodafone Red EU subscription belongs.

Available PluszAdat	Domestic data volume included	Fee (gross)	Service package
PluszAdat 150 MB	150 MB	HUF 620.08	Red Basic EU (SIM, X, A, B, C, D, E)
PluszAdat 500 MB	500 MB	HUF 1,240.16	
PluszAdat 1 GB	1 GB	HUF 1,653.54	

In case of Business Red EU Basic Subscription Contracts concluded after 1 April 2016:

Available Kiegészítő Adat data options after 1 June 2016	Domestic data volume included	Fee (gross)	Service package
Kiegészítő Adat 500 MB	500 MB	HUF 826.77	Business Red EU Basic
Kiegészítő Adat 1 GB	1 GB	HUF 1,653.54	
Kiegészítő Adat 5 GB	5 GB	HUF 4,133.87	

If a Supplemental option is not completely used by the time of purchasing the next Kiegészítő Adat option, the unused remaining data traffic of the existing supplemental option will be lost. The Supplemental option may exclusively be used by the end of the given billing cycle. Any number of Kiegészítő Adat options can be purchased in a billing cycle. The PluszAdat and the Kiegészítő Adat options are non-renewable options that have to be repurchased in every billing cycle, if needed.

Monthly renewable PluszAdat (supplemental option) with Red Basic EU Subscription Contracts:

Monthly Renewable PluszAdat option may be purchased by the Subscriber to its Vodafone Red EU service packages, which supplemental option is a renewable option, reactivated every billing cycle, i.e. it will not have to be reordered. Monthly Renewable PluszAdat may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which Vodafone Red EU subscription belongs.

Available Monthly Renewable PluszAdat	Domestic data volume included	Fee (gross)	Service package
Monthly Renewable PluszAdat 1 GB	1 GB	HUF 1,240.16	Red Basic EU (SIM, X, A, B,C,D,E)

If the Monthly Renewable PluszAdat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The Monthly Renewable PluszAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat option may be purchased in addition to the Monthly Renewable PluszAdat option in a given billing period.

Monthly renewable Kedvezményes (Preferential) Kiegészítő Adat (supplemental option):

The Subscriber may purchase a Kedvezményes (Preferential) Kiegészítő Adat option to its Business Red EU Basic service package concluded after 1 April 2016, which is a renewable option, reactivated every billing cycle, i.e. it will not have to be reordered. The Kedvezményes Kiegészítő Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the Business Red EU Basic subscription belongs.

By purchasing the Kedvezményes Kiegészítő Adat option (supplemental option) the Subscriber agrees that during the fixed term associated with its Business Red EU Basic subscription it shall also maintain the supplemental option, and the option shall not be cancelled during this period due to reasons arising within the Subscriber's scope of interest. If the above conditions are not met, the Subscriber shall pay liquidated damages in the amount of the discount calculated versus the Kiegészítő Adat option available to the Subscriber, as detailed in Section 12.7 of the GTC.

In case of Preferential Kiegészítő Adat 1 GB option, the discount versus Kiegészítő Adat 1 GB (HUF 1,653.54) option is: HUF 826.77 per month.

In case of Preferential Kiegészítő Adat 5 GB option, the discount versus Kiegészítő Adat 5 GB (HUF 4,133.87) option is: HUF 826.77 per month.

In case of Preferential Kiegészítő Adat 10 GB option, the discount versus the proportional fee taking into account the domestic data volume included in the Kiegészítő Adat 5 GB (HUF 4,133.87) option is: HUF 3,307.10 per month.

Available Kedvezményes (Preferential) Kiegészítő Adat option After 1 June 2016	Domestic data volume included	Fee (gross)	Service package
Kedvezményes Kiegészítő Adat 1 GB	1 GB	HUF 826.77	Business Red EU Basic
Kedvezményes Kiegészítő Adat 5 GB	5 GB	HUF 3,307.10	
Kedvezményes Kiegészítő Adat 10 GB	10 GB	HUF 4,960.64	

The domestic data traffic included in the Kedvezményes (Preferential) Kiegészítő Adat option available for Business Red EU Basic packages can be fully divided between two SIM cards (one voice and data based card and one exclusively mobile internet based card).

If the Kedvezményes Kiegészítő Adat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The Kedvezményes Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of Kiegészítő Adat option may be purchased in addition to the Kedvezményes Kiegészítő Adat option in a given billing period.

Osztható (Divisible) Kiegészítő Adat (supplemental option)

In case of Subscription Contracts concluded after 1 April 2016, supplemental divisible data option (Kiegészítő Adat) can be purchased for Business Red EU Standard and Business Red EU Premium service packages, the data quantity of which may be used with the SIM card of the Business Red EU Standard and Business Red EU Premium packages and the SIM card of the MultiNet tariff.

Kiegészítő Adat can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and handset to which the Business Red EU Standard and Business Red EU Premium or MultiNet subscription belongs.

The fee of the Kiegészítő Adat supplemental option is charged in all cases to the voice based subscription, that is, the Business Red EU Standard or Business Red EU Premium package.

Available Kiegészítő Data option After 1 June 2016:	Domestic data volume included	Fee (gross)	Service package
Kiegészítő Adat 500 MB	500 MB	HUF 826.77	Primary SIM belonging to Business Red EU Standard and Business EU Premium tariffs, and secondary SIM belonging to Business MultiNet tariff
Kiegészítő Adat 1 GB	1 GB	HUF 1,653.54	
Kiegészítő Adat 5 GB	5 GB	HUF 4,133.87	

If a Kiegészítő Adat option is not completely used by the time of purchasing the next Kiegészítő Adat option, the unused remaining data traffic of the existing supplemental option will be lost. The Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of Kiegészítő Adat options can be purchased in a billing cycle. The Kiegészítő Adat option is a non-renewable option that has to be repurchased in every billing cycle, if needed.

Monthly renewable, divisible Kedvezményes (Preferential) Kiegészítő Adat (supplemental option):

in case of Subscription Contracts concluded after 1 April 2016: Renewable Preferential Kiegészítő Adat supplemental option may be ordered to a Business EU Standard or Business EU Premium package, which is reactivated every billing cycle, i.e. it will not have to be reordered. Kedvezményes Kiegészítő Adat supplemental option can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from both the primary SIM card belonging to the Business Red EU Standard or Business Red EU Premium package and the secondary MultiNet Business MultiNet SIM card.

Available Kedvezményes (Preferential) Kiegészítő Data option After 1 June 2016	Domestic data volume included	Fee (gross)	Service package
Kedvezményes Kiegészítő Adat 1 GB	1 GB	HUF 826.77	Primary SIM belonging to Business Red EU Standard and Business Red EU Premium tariffs, and secondary SIM belonging to MultiNet tariff
Kedvezményes Kiegészítő Adat 5 GB	5 GB	HUF 3,307.10	
Kedvezményes Kiegészítő Adat 10 GB	10 GB	HUF 4,960.64	

By purchasing the Kedvezményes Kiegészítő Adat option the Subscriber agrees that during the fixed term associated with its Business Red EU Standard or Business Red EU Premium subscription it shall also maintain the supplemental option, and the option shall not be cancelled during this period due to reasons arising within the Subscriber's scope of interest. If the

above conditions are not met, the Subscriber shall pay liquidated damages in the amount of the discount calculated versus the Kiegészítő Adat option available to the Subscriber, as detailed in Section 12.7 of the GTC.

In case of Preferential Kiegészítő Adat 1 GB option, the discount versus Kiegészítő Adat 1 GB (HUF 1,653.54) option is: HUF 826.77 per month.

In case of Preferential Kiegészítő Adat 5 GB option, the discount versus Kiegészítő Adat 5 GB (HUF 4,133.87) option is: HUF 826.77 per month.

In case of Preferential Kiegészítő Adat 10 GB option, the discount versus the proportional fee taking into account the domestic data volume included in the Kiegészítő Adat 5 GB (HUF 4,133.87) option is: HUF 3,307.10 per month.

If the Kedvezményes Kiegészítő Adat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The Kedvezményes Kiegészítő Adat option may exclusively be used by the end of the given billing cycle.

In the case of specific subscription contracts concluded after 1 July 2015, Business MultiNet Standard (mobile internet based) tariff packages are available for the Business Red EU Standard service package, which may only be used with the Business Red EU Standard service package, as secondary SIM cards. In case of Business Red EU Standard service packages with divisible data traffic (primary SIM), data traffic may be used, after the Vodafone EU Roaming service is activated, in the associated Business MultiNet Standard tariff packages (secondary SIM) domestically and within the area of validity of the Vodafone EU Roaming service.

The prices indicated in the following tables are net prices, which do not include VAT.

Business MultiNet Standard packages available for subscription contracts concluded after 1 June 2016:

	Business MultiNet Standard Mifi	Business MultiNet Standard SIM
Initial costs		
Entry fee (HUF)	-	-
Monthly fees		
Monthly subscription fee (HUF) with an indefinite term contract	7,874	7,874
Monthly subscription fee (HUF) with contracts of a 2-year fixed term	0	0
Domestic data traffic included in the monthly fee	Same as in Business Red EU Standard package, shared therewith	
Offered bandwidth above monthly divisible data traffic (download/upload, Mbit/s)	0/0	0/0
Guaranteed speed	in accordance with section 4.1 of the GTC	
SMS to any domestic network (HUF)	24	24

For subscription contracts concluded after 1 June 2016, Business MultiNet Standard packages are available without handset purchase. In case of handset purchase, the Subscriber shall choose from the following supplemental options:

Supplemental option	Monthly subscription fee of the option (HUF) with contracts of a 2-year fixed term	Content of the option for Business MultiNet Standard tariffs
S supplemental option	787.4	Basic handset insurance
M supplemental option	1,574.8	Basic handset insurance + Sending 15 MMS messages free of charge to any domestic, standard rate network
L supplemental option	3,937,	Basic handset insurance + Sending 15 MMS messages free of charge to any domestic, standard rate network + 10% monthly fee discount from the monthly fee of any Office 365 service
XL supplemental option	6,299.21	Basic handset insurance + Sending 15 MMS messages free of charge to any domestic, standard rate network + 10% monthly fee discount from the monthly fee of any Office 365 service + 1 x free Világ (World) Daily Ticket per billing cycle

MultiNet Premium and Business MultiNet Premium (mobile internet based) tariff packages are available for the Business Red EU Premium service package, which may only be used with the above Business Red EU Premium service package, as secondary SIM cards. In case of Business Red EU Premium service packages with divisible data traffic (primary SIM), data traffic may be used, after the Vodafone EU Roaming service is activated, in the associated Business MultiNet Premium tariff packages (secondary SIM) domestically and within the area of validity of the Vodafone EU Roaming service.

Business MultiNet Premium packages available for subscription contracts concluded after 1 June 2016:

	Business MultiNet Premium Mifi	Business MultiNet Premium SIM
Initial costs		
Entry fee (HUF)	-	-
Monthly fees		
Monthly subscription fee (HUF) with an indefinite term contract	7,874	7,874
Monthly subscription fee (HUF) with contracts of a 2-year fixed term	0	0
Domestic data traffic included in the monthly fee	Same as in Business Red EU Premium package, shared therewith	
Offered bandwidth above monthly divisible data traffic (download/upload, Mbit/s)	0/0	0/0
Guaranteed speed	in accordance with section 4.1 of the GTC	
SMS to any domestic network (HUF)	24	24

For subscription contracts concluded after 1 June 2016, Business MultiNet Premium packages are available without handset purchase. In case of handset purchase, the Subscriber shall choose from the following supplemental options:

Supplemental option	Monthly subscription fee of the option (HUF) with contracts of a 2-year fixed term	Content of the option for Business MultiNet Premium tariffs
S supplemental option	787.4	Extra handset insurance
M supplemental option	1,574.8	Extra handset insurance + Sending 15 MMS messages free of charge to any domestic, standard rate network
L supplemental option	3,937.00	Extra handset insurance + Sending 15 MMS messages free of charge to any domestic, standard rate network + 10% monthly fee discount from the monthly fee of any Office 365 service
XL supplemental option	6,299.21	Extra handset insurance + Sending 15 MMS messages free of charge to any domestic, standard rate network + 10% monthly fee discount from the monthly fee of any Office 365 service + 1 x free Világ (World) Daily Ticket per billing cycle

Unlimited airtime minutes, SMS/MMS messages included in the monthly fee only apply to domestic standard-rate calls, sent SMS and MMS messages. Domestic standard-rate directions mean standard-rate calls made to the domestic network of Vodafone and other mobile service providers, standard-rate calls made to domestic fixed-line numbers, standard-rate SMS, standard-rate MMS, and in case of Vodafone Red EU service packages – as far as fees are concerned – domestic standard-rate directions also mean calls made to special-rate numbers (e.g. voicemail).

The limitlessness included in the monthly fee of the Business Red EU Premium service package that can be used within the area of validity of the Red EU International tariff zone shall apply only to standard-rate and special-rate domestic and standard-rate and special-rate (green numbers) international calls, and to standard-rate and special-rate SMS messages sent to a domestic network and standard-rate and special-rate (green numbers) SMS messages sent to an international network.

The area of the Red EU International tariff zone is defined in Annex 9 of this List of Rates.

In case of Subscription Contracts concluded after 1 April 2016, the Business Red EU Basic, Business Red EU Standard and Business Red EU Premium packages are not available with preferential handset purchase unless a Supplemental option is chosen (M, L, XL, XXL categories).

Data traffic included in the monthly fee applies only to domestic use. The monthly domestic data traffic included in the Business Red EU Standard and Business Red EU Premium packages can be fully divided between two SIM cards (one voice and data based card and one exclusively mobile internet based card). If the Subscriber does not use up the traffic limit included in the monthly fee, it cannot roll over the remaining part to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. Billing unit: 10 Kbyte.

In the case of Red Basic EU, Business Red EU Standard and Business Red EU Premium service packages, the slowdown that takes effect after exhausting the domestic data limit included in the monthly fee and that lasts until the end of the billing cycle shall be 0/0 Mbit/s, which means that in the case of the Red Basic EU, Business Red EU Standard and Business Red EU Premium service packages, after having exhausted the data traffic limit included in the monthly fee, a supplemental data option needs to be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

In the case of subscription contracts concluded after 1 July 2015, the Red Basic EU service packages are supplemented once per billing cycle with the Automatikus PluszAdat option containing 150 MB of domestic data traffic at the fee of which can be found in the tariff table. This option is activated automatically after the domestic data volume included in the monthly

fee is exhausted; or, if a supplemental data option has been purchased on the Netinfo site before the domestic data volume included in the monthly fee is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted; or, if one or more further supplemental data option(s) has (have) been purchased before the domestic data volume included in the supplemental data volume on the Netinfo site is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted. The data traffic of the Automatikus PluszAdat 150 MB option can be used until the end of the given billing cycle, and is not divisible. The Automatikus PluszAdat 150 MB option is renewed monthly but is only activated and billed upon continuing data use after the domestic data volume included in the monthly fee or supplemental data option(s) is exhausted. After the data volume included in the Automatikus PluszAdat 150 MB option, the speed will be slowed down to 0/0 Mbit/s.

After 1 June 2016, the Business Red EU Basic, Business Red EU Standard and Business EU Premium service packages concluded after 1 April 2016 are supplemented once per billing cycle with the Automatikus Kiegészítő Adat option containing 200 MB of domestic data traffic at a rate of HUF 393.7 net. This option is activated automatically after the domestic data volume included in the monthly fee is exhausted; or, if a supplemental data option has been purchased on the Netinfo site before the domestic data volume included in the monthly fee is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted; or, if one or more further supplemental data option(s) has (have) been purchased before the domestic data volume included in the supplemental data volume on the Netinfo site is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted. The data traffic of the Automatikus Kiegészítő Adat 200 MB option can be used until the end of the given billing cycle, and is not divisible. The Automatikus Kiegészítő Adat 200 MB option is renewed monthly but is only activated and billed upon continuing data use after the domestic data volume included in the monthly fee or supplemental data option(s) is exhausted. After the data volume included in the Automatikus Kiegészítő Adat 200 MB option, the speed will be slowed down to 0/0 Mbit/s.

Before using up the domestic data volume included in the monthly fee, or after using up the domestic data volume included in the Automatikus PluszAdat 150 MB or Automatikus Kiegészítő Adat option, a Kiegészítő Adat option needs to be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded after the domestic data volume included in the Automatikus PluszAdat 150 MB or Automatikus Kiegészítő Adat option is exhausted. If the Subscriber or the User has exhausted the domestic data volume included in the package and the Automatikus PluszAdat 150 MB or Automatikus Kiegészítő Adat option, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

The Business MultiNet card only provides data transmission service; no voice services are available thereon. Only customers who have subscriptions for Business Red EU Standard or Business Red EU Premium packages concluded after 1 July 2015 are eligible for Business MultiNet tariffs. Maximum 1 Business MultiNet package can be purchased in the offer with a single subscription for Business Red EU Standard or Business Red EU Premium. The Subscriber is eligible for the Business MultiNet package, as long as he maintains his fixed or indefinite-term Business Red EU Standard and Business Red EU Premium subscription. If the primary subscription concluded for Business Red EU Standard and Business Red EU Premium service packages is cancelled or changed, we will convert SIM card 2 to Internet Basic tariff.

In the case of the MultiNet tariffs, after using up the monthly data traffic limit, one or more of the following supplemental options need to be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure: Extra Adat (for SIM card belonging to a secondary MultiNet tariff) and/or Monthly Renewable Extra Adat (for SIM card belonging to a secondary MultiNet tariff) and/or Plusz Osztható Adat (for SIM cards belonging to a primary Business Red EU Standard or Business Red EU Premium tariff and SIM cards belonging to a secondary MultiNet tariff) and/or Monthly Renewable Plusz Osztható Adat (for SIM cards belonging to a primary Business Red EU Standard or Business Red EU Premium tariff and SIM cards belonging to a secondary MultiNet tariff) and/or Kiegészítő Adat (for SIM cards belonging to a primary Business Red EU Standard or Business Red EU Premium tariff and SIM cards belonging to a secondary MultiNet tariff) and/or Kedvezményes (Preferential) Kiegészítő Adat (for SIM cards belonging to a primary Business Red EU Standard or Business Red EU Premium tariff and SIM cards belonging to a secondary MultiNet tariff). Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber or the User has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle. Guaranteed speed above the data traffic included in the monthly subscription fee (download/upload Mbit/s) is determined in accordance with section 4.1 of the GTC.

In the case of the Business Red EU Standard and Business Red EU Premium service packages, the Subscriber or the User, who/which, after having exhausted the data limit included in the package, divides supplemental data options that can be ordered by the Subscriber or other users of secondary SIM card belonging to Business MultiNet tariffs as authorized by Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>) for continuing Internet use until account closure, is only able to monitor his own data use on the Netinfo page (<http://netinfo.vodafone.hu>), for technical reasons, and does not have any information on the specific amount of data traffic of the secondary SIM card that may use the divisible data volume. If the

user of the secondary SIM card belonging to the Business MultiNet tariff, who has been duly authorized by the Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>), orders a supplemental data option, the fee of the supplemental data option shall be invoiced to the subscription belonging to the primary SIM card.

The Red Basic EU, Business Red EU Standard and Business Red EU Premium service packages include the "Zárt Csoport" (Closed Group) option, which allows the settlement of voice traffic within the Vodafone Hungary network made between the SIM cards of the Medium and Large Enterprise Subscriber that were organized into a so-called "Closed Group" (in terms of pricing) at a minute charge of HUF 0, even if a member of this "Closed Group" does not have a Medium and Large Enterprise service package detailed in this section 2.5.24 but other Vodafone Individual Tariff Plan regulated in an Agreement concluded by and between the Service Provider and the Medium and Large Enterprise Subscriber.

For Red Basic EU, a Business Red EU Basic and Business Red EU Standard service packages, the monthly fee of the Supplemental options and the monthly fee of the Business MultiNet Standard tariff includes Basic handset insurance, while for Business Red EU Premium service package, the monthly fee of the Supplemental options and the monthly fee of the Business MultiNet Premium tariff includes Extra handset insurance. The terms of using the handset insurance service are specified in Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time. The handset insurance service is only provided for handsets purchased from Vodafone no more than 60 days to date, including for Medium and Large Enterprise Red packages, and Vodafone cannot provide this service otherwise. Terminating the handset insurance service in accordance with Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time, shall not result in the change of the monthly fee of the above mentioned service packages. If the criteria of using the handset insurance service have been met, a discount from the monthly fee of the tariff package is provided that equals to the monthly fee of the service.

If choosing tariff categories 3, 4 or 5, the monthly fee of the Red Basic EU service package contains Office 365 Small Enterprise package without Office licence service (for contracts concluded before 17 August 2015) and Office 365 Business Essentials package service (for contracts concluded after 17 August 2015). The terms of using these services are specified in Vodafone's General Terms and Conditions for Other Services, as amended from time to time. In the event of the cancellation of the Office 365 Small Enterprise package without Office licence service, of the Office 365 Large Enterprise package without Office licence service, as well as of the Office 365 Business Essentials package service as per Vodafone's General Terms and Conditions for Other Services, as amended from time to time, the monthly fee of the above service packages will not change. If the criteria of using the Office 365 Small Enterprise package without Office licence or the Office 365 Large Enterprise package without Office licence or the Office 365 Business Essentials package service are met, a discount will be provided from the monthly fee of the tariff package that equals the monthly fee of the service.

ReadyPay service:

Mobile payment card acceptance service. The Service enables acceptance of payment by magnetic stripe cards, chip cards and contactless cards, as well as mobile phones with the help of a smart device with access to the Internet and a mobile card reader terminal (mPOS).

The Service may only be used with the iCMP terminal available in the range of products offered by Vodafone. The sale and purchase of the iCMP mobile card acceptance terminal is subject to a separate contract of sale.

The ReadyPay service is otherwise governed by the Terms of Use for Other Services, the acceptance of which is specifically required to be able to use the ReadyPay service.

OneDrive for Business with Office Online:

If choosing tariff category 2, in the case of subscription contracts concluded after 17 August 2015, the OneDrive for Business with Office Online service –online storage space + Office Online (Word, Excel, Power Point) – is available free of charge with the Red Basic EU service package as per the General Terms and Conditions for Other Services, the acceptance of which terms and conditions is specifically required to be able to use the service.

The OneDrive for Business with Office Online service may generate data traffic, which is not part of the service. Data traffic generated while using the OneDrive for Business with Office Online service can be used by deducting it from the data traffic included in the Red Basic EU service package or other Internet access.

The description and terms of use of the Világ Napijegy (World Daily Ticket) tariff are contained in Section 5.2.2 of this Annex.

The Vodafone Red EU service packages can exclusively be used in compliance with the terms of use for Medium and Large Enterprise subscribers to satisfy the personal communication needs of natural person users (personal use). Intended

personal use does not include the following: if the Subscriber or user uses the SIM card pertaining to Medium and Large Enterprise Red service package inserted in a non-mobile phone; making automated calls that do not require the personal involvement of the user; making mass calls (the duration of which exceeds the 10% of the total duration of outgoing calls) to automated call receiving devices, equipment (such as, but not exclusively to IVR); making mass calls in order to test, make trial runs or to test the resilience or vulnerability etc. of services, technical instruments or equipment; making calls that regularly exceeds 180 minutes per day for the remote monitoring of people, structures, events, etc. (e.g. but not exclusively: asset protection, baby monitoring functions); making calls for establishing machine-to-machine connection (M2M); making or diverting calls in a total duration of more than 24 hours per day; making mass calls or sending bulk SMS of which the Service Provider has reasonable grounds to believe having been made to gain direct benefit by the Subscriber, the User or any other third parties at the expense of the Service Provider. It is strictly prohibited to use the service package with devices that do not have their own display, speaker, microphone and keyboard (including touch-screen keyboard), such as for example adapter, modem. The service packages shall not be used in an abusive manner, among others, for telemarketing, customer service activities or other business purposes. Abusive use shall include the behaviour of sending SMS and MMS messages in a manner contrary to the conditions of personal use, where the number of SMS/MMS messages sent via the subscription exceeds several hundred per day, or the proportion of the number of SMS/MMS messages sent via the subscription involved and that of their recipients exceeds 10%, or the proportion of the number of SMS/MMS messages and that of the replies to them is lower than 80%, or the SMS/MMS messages are sent by the subscriber typically from one location. In the event of abusive use, or the violation of the conditions of personal use, after prior notice from the Service Provider, the service will be available to the Subscriber according to the conditions of the Small Enterprise Basic Tariff.

The Red Basic EU and Business Red EU Basic packages without choosing a Supplemental option (tariff categories, 1, 2, 3, 4, 5) are not available with handset purchase.

The Car SIM Card service, the Conference call service, the Fixed-line area option, as well as the All fixed-line area option are not available with Vodafone Red EU service packages.
In foreign countries the valid Roaming tariffs will apply.

The charges of international calls and the zone classification of the countries that can be reached by international calls are contained in Section 9 of Annex 1 on Tariffs.

PluszAdat and Kiegészítő Adat (supplemental option):

In case of Subscription Contracts concluded after 1 April 2016, supplemental data options can be purchased for the Vodafone Red EU service packages, which are described in detail in the following table. Supplemental options may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which Vodafone Red EU subscription belongs.

Available PluszAdat	Domestic data volume included	Fee (net)	Service package
PluszAdat 150 MB	150 MB	HUF 590.55	Red Basic EU
PluszAdat 500 MB	500 MB	HUF 1,181.1	
PluszAdat 1 GB	1 GB	HUF 1,574.8	

Available Kiegészítő Adat data options after 1 June 2016	Domestic data volume included	Fee (net)	Service package
Kiegészítő Adat 500 MB	500 MB	HUF 787, 4	Business Red EU Basic
Kiegészítő Adat 1 GB	1 GB	HUF 1,574.8	
Kiegészítő Adat 5 GB	5 GB	HUF 3,937	

If a Supplemental option is not completely used by the time of purchasing the next Supplemental option, the unused remaining data traffic of the existing supplemental option will be lost. The Supplemental option may exclusively be used by the end of the given billing cycle. Any number of Supplemental options can be purchased in a billing cycle. The Supplemental option is a non-renewable option that has to be repurchased in every billing cycle, if needed.

Monthly Renewable PluszAdat (supplemental option)

Monthly Renewable PluszAdat option may be purchased by the Subscriber to its Vodafone Red EU service packages, which supplemental option is a renewable option, reactivated every billing cycle, i.e. it will not have to be reordered. Monthly Renewable PluszAdat may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the Red EU subscription belongs.

Available Monthly Renewable PluszAdat	Domestic data volume included	Fee (net)	Service package
Monthly Renewable PluszAdat 1 GB	1 GB	HUF 1,181.1	Red Basic EU

If the Monthly Renewable PluszAdat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The Monthly Renewable PluszAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat option may be purchased in addition to the Monthly Renewable PluszAdat option in a given billing period.

Monthly renewable Kedvezményes (Preferential) Kiegészítő Adat (supplemental option):

In case of Subscription Contracts concluded after 1 April 2016, the Subscriber may purchase a monthly renewable Preferential Kiegészítő Adat option to its Business Red EU Basic service package, which supplemental option is a renewable option, reactivated every billing cycle, i.e. it will not have to be reordered. The Monthly Renewable Kedvezményes (Preferential) Kiegészítő Adat may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which Vodafone Red EU subscription belongs.

By purchasing the Kedvezményes Kiegészítő Adat (supplemental option) the Subscriber agrees that during the fixed term associated with its Business Red EU Basic subscription it shall also maintain the supplemental option, and the option shall not be cancelled during this period due to reasons arising within the Subscriber's scope of interest. If the above conditions are not met, the Subscriber shall pay liquidated damages in the amount of the discount calculated versus the Kiegészítő Adat option available to the Subscriber, as detailed in Section 12.7 of the GTC.

In the case of Preferential Kiegészítő Adat 1 GB option, the discount versus Kiegészítő Adat 1 GB (HUF 1,574.8 net) option is: HUF 787.40 net per month.

In the case of Preferential Kiegészítő Adat 5 GB option, the discount versus Kiegészítő Adat 5 GB (HUF 3,937.01 net) option is: HUF 787.40 net per month.

In the case of Preferential Kiegészítő Adat 10 GB option, the discount versus the proportional fee taking into account the domestic data volume included in the Kiegészítő Adat 5 GB (HUF 3,937.01) option is: HUF 3,149.61 per month.

Available Kedvezményes (Preferential) Kiegészítő Adat option After 1 June 2016	Domestic data volume included	Fee (net)	Service package
Kedvezményes Kiegészítő Adat 1 GB	1 GB	HUF 787.40	Business Red EU Basic
Kedvezményes Kiegészítő Adat 5 GB	5 GB	HUF 3,149.61	
Kedvezményes Kiegészítő Adat 10 GB	10 GB	HUF 4,724.41	

If the monthly renewable Kedvezményes Kiegészítő Adat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The monthly renewable Kedvezményes Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of Kiegészítő Adat option may be purchased in addition to the monthly renewable Kedvezményes Kiegészítő Adat option in a given billing period.

Oszttható (Divisible) Kiegészítő Adat (supplemental option):

in case of Subscription Contracts concluded after 1 April 2016: Supplemental divisible data option (Kiegészítő Adat) can be purchased for Business Red EU Standard and Business Red EU Premium service packages, the data quantity of which may be used with the SIM card of the Business Red EU Standard and Business Red EU Premium packages and the SIM card of the Business MultiNet tariff.

Oszttható (Divisible) Kiegészítő Adat can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and handset to which the Business Red EU Standard and Business Red EU Premium or Business MultiNet subscription belongs.

The fee of the Kiegészítő Adat supplemental option is charged in all cases to the voice based subscription, that is, the Business Red EU Standard or Business Red EU Premium package.

Available Kiegészítő Data option After 1 June 2016:	Domestic data volume included	Fee (net)	Service package
Kiegészítő Adat 500 MB	500 MB	HUF 787, 4	Primary SIM belonging to Business Red EU Standard

Kiegészítő Adat 1 GB	1 GB	HUF 1,574.8	and Business EU Premium tariffs, and secondary SIM belonging to Business MultiNet tariff
Kiegészítő Adat 5 GB	5 GB	HUF 3,937	

If a divisible Kiegészítő Adat option is not completely used by the time of purchasing the next Kiegészítő Adat option, the unused remaining data traffic of the existing Kiegészítő Adat (supplemental option) option will be lost. The Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of Kiegészítő Adat options can be purchased in a billing cycle. The Kiegészítő Adat option is a non-renewable option that has to be repurchased in every billing cycle, if needed.

Monthly renewable, divisible Kedvezményes (Preferential) Kiegészítő Adat (supplemental option):

In case of Subscription Contracts concluded after 1 April 2016, monthly renewable, divisible Preferential Kiegészítő Adat data option (supplemental option) may be ordered to a Business EU Standard or Business EU Premium package, which is reactivated every billing cycle, i.e. it will not have to be reordered. Kedvezményes Kiegészítő Adat supplemental option can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from both the primary SIM card belonging to the Business Red EU Standard or Business Red EU Premium package and the secondary Business MultiNet SIM card.

Kedvezményes (Preferential) Kiegészítő Adat data option available versions after 1 June 2016	Domestic data volume included	Fee (net)	Service package
Kedvezményes Kiegészítő Adat 1 GB	1 GB	HUF 787.40	Primary SIM belonging to Business Red EU Standard and Business Red EU Premium tariffs, and secondary SIM belonging to MultiNet tariff
Kedvezményes Kiegészítő Adat 5 GB	5 GB	HUF 3,149.61	
Kedvezményes Kiegészítő Adat 10 GB	10 GB	HUF 4,724.41	

By purchasing the Kedvezményes Kiegészítő Adat (supplemental option) the Subscriber agrees that during the fixed term associated with its Business Red EU Standard and Business Red EU Premium subscription it shall also maintain the supplemental option, and the option shall not be cancelled during this period due to reasons arising within the Subscriber's scope of interest. If the above conditions are not met, the Subscriber shall pay liquidated damages in the amount of the discount calculated versus the Kiegészítő Adat option available to the Subscriber, as detailed in Section 12.7 of the GTC. In the case of Kedvezményes Kiegészítő Adat 1 GB option, the discount versus Kiegészítő Adat 1 GB (HUF 1,574.8 net) option is: HUF 787.40 net per month. In the case of Kedvezményes Kiegészítő Adat 5 GB option, the discount versus Kiegészítő Adat 5 GB (HUF 3,937 net) option is: HUF 787.40 net per month. In the case of Preferential Kiegészítő Adat 10 GB option, the discount versus the proportional fee taking into account the domestic data volume included in the Kiegészítő Adat 5 GB (HUF 3,937) option is: HUF 3,149.61 net.

If the Kedvezményes Kiegészítő Adat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The Kedvezményes Kiegészítő Adat option may exclusively be used by the end of the given billing cycle.

Kiegészítő Adat (supplemental option) for Business MultiNet subscription contracts concluded after 1 June 2016:

Kiegészítő Adat option may be purchased for the Business MultiNet tariff packages anytime within the billing cycle, described in detail in the following table. The Kiegészítő Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the Business MultiNet subscription belongs.

Available Kiegészítő Data option After 1 June 2016	Domestic data volume included	Fee (net)	Service package
Kiegészítő Adat 500 MB	500 MB	HUF 787, 4	Business MultiNet Standard Business MultiNet Premium
Kiegészítő Adat 1 GB	1 GB	HUF 1,574.8	
Kiegészítő Adat 5 GB	5 GB	HUF 3,937	

If a Kiegészítő Adat option is not completely used by the time of purchasing the next Kiegészítő Adat option, the unused remaining data traffic will be lost. The Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of Kiegészítő Adat options can be purchased in a billing cycle. Kiegészítő Adat is a non-renewable option that has to be repurchased in every billing cycle, if needed.

Monthly renewable Kedvezményes (Preferential) Kiegészítő Adat option for Business MultiNet subscription contracts concluded after 1 June 2016:

A monthly renewable Kedvezményes (Preferential) Kiegészítő Adat option may be purchased to the Business MultiNet tariff packages, which supplemental option is a renewable option, reactivated every billing cycle, i.e. it will not have to be reordered. The monthly renewable Kedvezményes Kiegészítő Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the Business MultiNet subscription belongs.

By purchasing the Kedvezményes Kiegészítő Adat (supplemental option) the Subscriber agrees that during the fixed term associated with its Business MultiNet Standard and Business MultiNet Premium subscription it shall also maintain the supplemental option, and the option shall not be cancelled during this period due to reasons arising within the Subscriber's scope of interest. If the above conditions are not met, the Subscriber shall pay liquidated damages in the amount of the discount calculated versus the Kiegészítő Adat option available to the Subscriber, as detailed in Section 12.7 of the GTC.

In the case of Kedvezményes Kiegészítő Adat 1 GB option, the discount versus Kiegészítő Adat 1 GB (HUF 1,574.8 net) option is: HUF 787.40 net per month

In the case of Kedvezményes Kiegészítő Adat 5 GB option, the discount versus Kiegészítő Adat 5 GB (HUF 3,937 net) option is: HUF 787.40 net per month

In the case of Preferential Kiegészítő Adat 10 GB option, the discount versus the proportional fee taking into account the domestic data volume included in the Kiegészítő Adat 5 GB (HUF 3,937) option is: HUF 3,149.61 net.

Kedvezményes (Preferential) Kiegészítő Adat data option available versions after 1 June 2016	Domestic data volume included	Fee (net)	Service package
Kedvezményes Kiegészítő Adat 1 GB	1 GB	HUF 787.40	Business MultiNet Standard Business MultiNet Premium
Kedvezményes Kiegészítő Adat 5 GB	5 GB	HUF 3,149.61	
Kedvezményes Kiegészítő Adat 10 GB	10 GB	HUF 4,724.41	

If the monthly renewable Kedvezményes Kiegészítő Adat is not completely used in the given billing period, its unused remaining data traffic will be lost. The monthly renewable Kedvezményes Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of Kiegészítő Adat option may be purchased in addition to the monthly renewable Kedvezményes Kiegészítő Adat option in a given billing period.

Those Subscribers who conclude new specific subscription contracts between 1 April 2015 and 30 June 2015 for Business Red EU Standard or Business Red EU Premium service package are eligible for a second SIM card in addition to their Business Red EU Standard or Business Red EU Premium service package.

On the second SIM card provided for the Business Red EU Standard service package, the following tariff packages are available as secondary Internet subscriptions: Red Tablet 2GB (A,B,C,D), Red MiFi 2GB, and Red MobilNet 2GB SIM.

	Red Tablet 2GB A	Red Tablet 2 GB B	Red Tablet 2 GB C	Red Tablet 2 GB D	Red MiFi 2 GB	Red MobilNet 2 GB SIM
Initial costs						
Entry fee				-		
Monthly fees						
Monthly subscription fee (HUF) with an indefinite term contract				7,874.02		
Monthly subscription fee (HUF) with contracts of a 2-year fixed term	6,299.21	3,937.01	2,362.2	1,574.8	0	0
Domestic data traffic included in the monthly fee				2 GB		
Handset insurance	Basic	Basic	Basic	Basic	-	-
Offered bandwidth (down/up, Mbit/s)				0.125/0.125		
Guaranteed speed				in accordance with section 4.1 of the GTC		
SMS to any domestic network (HUF)				24		

The prices indicated in the table are net prices not including VAT.

On the second SIM card provided for the Business Red EU Premium service package, the following tariff packages are available as secondary Internet subscriptions: RED Tablet 8GB (A,B,C,D), RED MiFi 8GB, and RED MobilNet 8 GB SIM.

	Red Tablet 8GB A	Red Tablet 8 GB B	Red Tablet 8 GB C	Red Tablet 8 GB D	Red MiFi 8 GB	Red MobilNet 8 GB SIM
Initial costs						
Entry fee	-					
Monthly fees						
Monthly subscription fee (HUF) with an indefinite term contract	7,874.02					
Monthly subscription fee (HUF) with contracts of a 2-year fixed term	6,299.21	3,937.01	2,362.2	1,574.8	0	0
Domestic data traffic included in the monthly fee	8 GB					
Handset insurance	Extra	Extra	Extra	Extra	-	-
Offered bandwidth (down/up, Mbit/s)	0.125/0.125					
Guaranteed speed	in accordance with section 4.1 of the GTC					
SMS to any domestic network (HUF)	24					

The prices indicated in the table are net prices not including VAT.

The tariff packages of the secondary SIM provide data transmission service only; they cannot be used for voice services. Data traffic refers to the aggregate amount of domestic sent and received data. Billing unit: 10 Kbyte.

The data volume included in the Business Red EU Standard and Business Red EU Premium packages and the data volume of the 2nd Sim card cannot be combined, nor can they be divided between each other. If the Subscriber does not use up the monthly traffic limit, the remaining part cannot be rolled over to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions.

The monthly fee of the Red Tablet 2GB (A,B,C,D) service packages also includes Basic handset insurance service, while the monthly fee of the Red Tablet 8GB (A B,C,D) service packages also includes Extra handset insurance service. The terms of using the handset insurance service are specified in Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time. The handset insurance service is only provided for handsets purchased from Vodafone no more than 60 days to date and Vodafone does not provide this service for devices purchased prior to the above date. Terminating the handset insurance service in accordance with Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time, shall not result in the change of the monthly fee of the above mentioned service packages. If the criteria of using the handset insurance service have been met, a discount from the monthly fee of the tariff package is provided that equals to the monthly fee of the service.

Maximum 1 secondary Internet subscription can be purchased in the offer with a single subscription for Business Red EU Standard or Business Red EU Premium. The Subscriber is eligible for the secondary Internet subscription as long as he maintains his fixed or indefinite-term Business Red EU Standard or Business Red EU Premium subscription. If the primary subscription concluded for Business Red EU Standard or Business Red EU Premium service packages is cancelled or changed, we will convert SIM card 2 to Internet Base tariff.

In the case of the tariffs in the above table, after using up the monthly data traffic limit, Extra Adat supplemental option must be purchased to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle. The Subscriber can order the supplemental data option on the Netinfo (<http://netinfo.vodafone.hu>) page.

Name of supplemental data option	ExtraAdat 100 MB	ExtraAdat 500 MB	ExtraAdat 1 GB
Fee	HUF 393.7	HUF 551.18	HUF 1181.1
Domestic data traffic included	0.097 GB	0.488 GB	1 GB
Offered bandwidth (down/up, Mbit/s)	Same as the tariff package of the secondary Internet subscription		
Guaranteed speed	See section 4.1 of the GTC		
Offered bandwidth above the included data traffic (download/upload, Mbit/s)	Same as the tariff package of the secondary Internet subscription		
Guaranteed speed above the included data traffic	See section 4.1 of the GTC		

If an ExtraAdat option is not completely used by the time of purchasing the next ExtraAdat option, the remaining data traffic will be lost. The ExtraAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of ExtraAdat options can be purchased in a billing cycle.

The ExtraAdat options are non-renewable options that have to be repurchased in every billing cycle where the Subscriber intends to use those

2.5.25. Business Red EU 30GB tariff packages

The prices indicated in the following tables are gross prices including VAT. In the service packages billing is performed in units of 1 second.

Other charges	
International SMS rate outside the Red EU International tariff zone (HUF)	40

Automatikus Kiegészítő Adat 200 MB option activated once per billing cycle after the domestic data limit is exhausted (HUF)	464.57
---	--------

The area of the Red EU International tariff zone is defined in Annex 9 of this List of Rates.

Business MultiNet (mobile Internet-based) tariff packages are available for Business Red EU 30GB tariff packages, which can be used exclusively together with the Business Red EU 30GB service package, as secondary SIM. In case of Business Red EU 30GB service packages with divisible data traffic (primary SIM), data traffic may be used, after the Vodafone EU Roaming service is activated, in the associated Business MultiNet tariff packages (secondary SIM) domestically and within the area of validity of the Vodafone EU Roaming service.

Business MultiNet packages:

	Business MultiNet Mifi	Business MultiNet SIM
Initial costs		
Entry fee (HUF)	10,000	10,000
Monthly fees		
Monthly subscription fee (HUF) with an indefinite term contract	8,267.72	8,267.72
Monthly subscription fee (HUF) with contracts of a 1-year fixed term	8,267.72	8,267.72
Monthly subscription fee (HUF) with contracts of a 2-year fixed term	0	0
Domestic data traffic included in the monthly fee	identical with Business Red EU 30GB packages, shared with these	
Offered bandwidth above monthly divisible data traffic (download/upload, Mbit/s)	0/0	0/0
Guaranteed speed	in accordance with section 4.1 of the GTC	
SMS to any domestic network (HUF)	30.48	30.48

Unlimited airtime minutes, SMS/MMS messages included in the monthly fee of the Business Red EU 30 GB and Business Red EU Superior tariff packages only apply to domestic standard-rate calls, sent SMS and MMS messages. Domestic standard-rate directions mean standard-rate calls made to the domestic network of Vodafone and other mobile service providers, standard-rate calls made to domestic fixed-line numbers, standard-rate SMS, standard-rate MMS, and in case of Vodafone Red EU service packages – as far as fees are concerned – domestic standard-rate directions also mean calls made to special-rate numbers (e.g. voicemail).

The limitlessness included in the monthly fee of the Business Red EU tariff packages that can be used within the area of validity of the Red EU International tariff zone shall apply only to standard-rate and special-rate domestic and standard-rate and special-rate (green numbers) international calls, and to standard-rate and special-rate SMS messages sent to a domestic network and standard-rate and special-rate (green numbers) SMS messages sent to an international network.

The area of the Red EU International tariff zone is defined in Annex 9 of this List of Rates.

Unless stated expressly that only a part of it may be used as free data volume in the Vodafone EU Roaming area, the domestic data volume included in the monthly fee can be used in the country and abroad as well according to the applicable Roaming charges.

The volume included in the monthly fee can be used during any part of the day without time restrictions. Billing unit: 10 Kbyte. Guaranteed speed according to Section 4.1 of the GTC.

In the case of Business Red EU 30GB tariff packages, if the Subscriber does not use up the monthly volume limit included in the monthly fee, the remaining part cannot be rolled over to the next billing cycle. When the data volume included in the monthly fee has been exhausted, the speed will be reduced to 0/0 Mbit/s until the end of the billing cycle.

Without prejudice to the domestic volume restrictions applicable, in the case of the unlimited data package specified in the Commission Implementing Regulation (EU) 2016/2286, we give roaming Subscribers the possibility to use in their periodic travels within the EU, at domestic retail prices, the retail data roaming service with at least twice as much volume than the full VAT-exclusive domestic retail charges for the full billing cycle of that unlimited data package divided by the wholesale charges for regulated data roaming services specified in Article 12 of Regulation (EU) 531/2012. After exhausting the specified data volume, the Service Provider is entitled to charge surcharges. The rate of surcharges shall be invoiced according to the applicable roaming regulations, based on the amount specified in Article 5.1 of this List of Rates.

If activating the Világ Napijegy (World Daily Ticket) service, 14 GB of the domestic data volume included in the Business Red EU Superior tariff package may be used free of charge within the Világ Napijegy validity area. After the free data volume has been used up, a gross surcharge of 55.74 HUF/MB is payable.

With the Business EU Superior service package, Subscribers get 480p video resolution for playing video content. This resolution provides quality optimised for mobile phones; on devices with larger screens, image quality may be less favourable. The optimisation can be cancelled by dialling 1270.

Data traffic included in the monthly fee applies only to domestic use. If the Subscriber does not use up the monthly traffic limit included in the monthly fee, the remaining part cannot be rolled over to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. Billing unit: 10 Kbyte.

When the data volume included in the monthly fee is exhausted, the speed will be reduced to 0/0 Mbit/s until the end of the billing cycle. Guaranteed speed as per Section 4.1 of the GTC.

Business Red EU 30GB tariff packages are supplemented once per billing cycle with the Automatikus Kiegészítő Adat option containing 200 MB of domestic data traffic at the fee of which can be found in the tariff table. This option is activated automatically after the domestic data volume included in the monthly fee is exhausted; or, if a supplemental data option has been purchased on the Netinfo site before the domestic data volume included in the monthly fee of the Business Red EU 30GB tariff packages is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted; or, if one or more further supplemental data option(s) has (have) been purchased before the domestic data volume included in the supplemental data volume on the Netinfo site is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted. The data traffic of the Automatikus Kiegészítő Adat 200 MB option can be used until the end of the given billing cycle, and is not divisible. The Automatikus Kiegészítő Adat 200 MB option is renewed monthly but is only activated and billed upon continuing data use after the domestic data volume included in the monthly fee or supplemental data option(s) is exhausted. After the data volume included in the Automatikus Kiegészítő Adat 200 MB option, the speed will be slowed down to 0/0 Mbit/s.

Before using up the domestic data volume included in the monthly fee, or after using up the domestic data volume included in the Automatikus Kiegészítő Adat option, a Kiegészítő Adat option needs to be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded after the domestic data volume included in the Automatikus Kiegészítő Adat option is exhausted. If the Subscriber has exhausted the domestic data volume included in the package and the Automatikus PluszAdat option, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

The Business MultiNet card only provides data transmission service; no voice services are available thereon. Only customers who have subscriptions for new or existing Business EU 30GB packages are eligible for Business MultiNet tariffs. Not more than 1 Business MultiNet package may be purchased for one Business Red EU 30GB subscription in the offer. The Subscriber is eligible for the Business MultiNet package, as long as he maintains his fixed or indefinite-term Business Red EU 30GB subscription. If the primary subscription concluded for the tariff packages is cancelled or changed, we will convert SIM card 2 to Internet Basic tariff.

In the case of the Business MultiNet tariffs, after using up the monthly data traffic limit, a supplemental option needs to be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle. Guaranteed speed above the data traffic included in the monthly subscription fee (download/upload Mbit/s) is determined in accordance with section 4.1 of the GTC.

In the case of the Business Red EU 30GB service packages, the Subscriber, who/which, after having exhausted the data limit included in the package, divides supplemental data options that can be ordered by the Subscriber or other users of secondary SIM card belonging to Business MultiNet tariffs as authorized by Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>) for continuing Internet use until account closure, is only able to monitor his own data use on the Netinfo page (<http://netinfo.vodafone.hu>), for technical reasons, and does not have any information on the specific amount of data traffic of the secondary SIM card that may use the divisible data volume. If the user of the secondary SIM card belonging to the Business MultiNet tariff, who has been duly authorized by the Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>), orders a supplemental data option, the fee or the supplemental data option shall be invoiced to and payable by the Subscriber of the primary SIM card.

The Business Red EU 30GB and Business Red EU Superior tariff packages can exclusively be used in compliance with the terms of use for Small Enterprise subscribers to satisfy the personal communication needs of natural person users (personal use). Intended personal use does not include the following: if the Subscriber or user uses the SIM card pertaining to service

packages inserted in a non-mobile phone; making automated calls that do not require the personal involvement of the user; making mass calls (the duration of which exceeds the total duration of outgoing calls by more than 10%) to automated call receiving devices, equipment (such as, but not exclusively to IVR); making mass calls in order to test, make trial runs or to test the resilience or vulnerability etc. of services, technical instruments or equipment; making calls that regularly exceeds 180 minutes per day for the remote monitoring of people, structures, events, etc. (e.g. but not exclusively: asset protection, baby monitoring functions); making calls for establishing machine-to-machine connection (M2M); making or diverting calls in a total duration of more than 24 hours per day; making mass calls or sending bulk SMS of which the Service Provider has reasonable grounds to believe having been made to gain direct benefit by the Subscriber, the User or any other third parties at the expense of the Service Provider. It is strictly prohibited to use the tariff package with devices that do not have their own display, speaker, microphone and keyboard (including touch-screen keyboard), such as for example adapter, modem. The service packages shall not be used in an abusive manner, among others, for telemarketing, customer service activities or other business purposes. Abusive use shall include the behaviour of sending SMS and MMS messages in a manner contrary to the conditions of personal use, where the number of SMS/MMS messages sent via the subscription exceeds several hundred per day, or the proportion of the number of SMS/MMS messages sent via the subscription involved and that of their recipients exceeds 10%, or the proportion of the number of SMS/MMS messages and that of the replies to them is lower than 80%, or the SMS/MMS messages are sent by the subscriber typically from one location. In the event of abusive use, or the violation of the conditions of personal use, after prior notice from the Service Provider, the service will be available to the Subscriber according to the conditions of the Small Enterprise Basic Tariff.

Conference Call Service is not available with Business Red EU tariff packages.

In foreign countries the valid Roaming tariffs will apply. Section 5.5. of this List of Rates contains the detailed description of Vodafone EU Roaming service.

The charges of international calls are contained in Section 9 of this Annex on Tariffs.

The Business Red EU 30GB tariff packages are available with the e-Pack service. In case of using the e-Pack service, the Subscriber agrees to fulfil the following conditions in every month while using the e-Pack service, in exchange for a more favourable monthly subscription fee:

- The Subscriber uses E-bills regarding all of his subscriptions under one client number with the content defined in section 7.1.2.4 of the GTC: Electronic Bill and Document Presentation (E-bill).
- The bill is settled by using one of the following payment options:
 - on the www.vodafone.hu/szamlabefizetes web page,
 - with Vodafone mobile application,
 - by bank transfer,
 - by direct debit order,
 - via ATM machines.
- The bill is settled by the payment deadline indicated in the bill.

If the Subscriber fails to meet any of the above conditions in a given month, a one-off fee of gross HUF 1,000 per subscription will be charged to the Subscriber in his next monthly bill. The fee payable for failing to fulfil the e-Pack conditions is only billed once per month even if the Subscriber fails to meet several e-Pack conditions in a given month.

If the Subscriber has multiple subscriptions and one of those is used with e-Pack, the Subscriber is required to settle the monthly bills of all subscriptions by satisfying the e-Pack conditions.

Should the Subscriber receive payment extension in a month and fail to settle his bill by the payment deadline indicated in the bill, the one-off fee payable for failing to meet the e-Pack conditions shall also be billed.

Cancelling the e-Pack service shall constitute a tariff change. Changing between the versions of the same tariff (with and without e-Pack) can be requested without being obligated to pay liquidated damages.

Egyszeri Kiegészítő Adat (supplemental option) for Business Red EU 30GB tariff package:

A supplemental data option may be purchased for Business Red EU 30GB tariff packages, which is contained in Section 2.4.2.1 of this List of Rates Annex.

2.5.26. Business Red EU 30GB tariff packages for Large Enterprise customer

The prices indicated in the following tables are net prices not including VAT.
In the service packages billing is performed in units of 1 second.

In the case of Subscription Contracts concluded before Tuesday, October 24, 2017:

Automatikus Kiegészítő Adat 200 MB option activated once per billing cycle after the domestic data limit is exhausted (HUF)	393,7

Business MultiNet (mobile Internet-based) tariff packages are available for the Business Red EU 30GB tariff packages, which can be used exclusively together with the Business Red EU 30GB service package, as secondary SIM. In case of Business Red EU 30GB service packages with divisible data traffic (primary SIM), data traffic may be used, after the Vodafone EU Roaming service is activated, in the associated Business MultiNet tariff packages (secondary SIM) domestically and within the area of validity of the Vodafone EU Roaming service.

Business MultiNet packages:

	Business MultiNet Mifi	Business MultiNet SIM
Initial costs		
Entry fee (HUF)	7 874	7 874
Monthly fees		
Total monthly subscription fee (HUF) with an indefinite-term, 1-year or 2-year fixed-term contract	0	0
Domestic data traffic included in the monthly fee	identical with Business Red EU 30GB packages, shared with these	
Offered bandwidth above monthly divisible data traffic (download/upload, Mbit/s)	0/0	0/0
Guaranteed speed	in accordance with section 4.1 of the GTC	
SMS to any domestic network (HUF)	24	24

Unlimited airtime minutes, SMS/MMS messages included in the monthly fee of the Business Red EU 30 GB tariff packages only apply to domestic standard-rate calls, sent SMS and MMS messages. Domestic standard-rate directions mean standard-rate calls made to the domestic network of Vodafone and other mobile service providers, standard-rate calls made to domestic fixed-line numbers, standard-rate SMS, standard-rate MMS, and in case of Vodafone Red EU service packages – as far as fees are concerned – domestic standard-rate directions also mean calls made to special-rate numbers (e.g. voicemail).

The limitlessness included in the monthly fee of the Business Red EU tariff packages that can be used within the area of validity of the Red EU International tariff zone shall apply only to standard-rate and special-rate domestic and standard-rate and special-rate (green numbers) international calls, and to standard-rate and special-rate SMS messages sent to a domestic network and standard-rate and special-rate (green numbers) SMS messages sent to an international network. The area of the Red EU International tariff zone is defined in Annex 9 of this List of Rates.

Unless stated expressly that only a part of it may be used as free data volume in the Vodafone EU Roaming area, the domestic data volume included in the monthly fee can be used in the country and abroad as well according to the applicable Roaming charges.

The volume included in the monthly fee can be used during any part of the day without time restrictions. Billing unit: 10 Kbyte. Guaranteed speed according to Section 4.1 of the GTC.

In the case of Business Red EU 30GB tariff packages, if the Subscriber does not use up the monthly volume limit included in the monthly fee, the remaining part cannot be rolled over to the next billing cycle. When the data volume included in the monthly fee has been exhausted, the speed will be reduced to 0/0 Mbit/s until the end of the billing cycle.

Without prejudice to the domestic volume restrictions applicable, in the case of the unlimited data package specified in the Commission Implementing Regulation (EU) 2016/2286, we give roaming Subscribers the possibility to use in their periodic travels within the EU, at domestic retail prices, the retail data roaming service with at least twice as much volume than the full VAT-exclusive domestic retail charges for the full billing cycle of that unlimited data package divided by the wholesale charges for regulated data roaming services specified in Article 12 of Regulation (EU) 531/2012. After exhausting the specified data volume, the Service Provider is entitled to charge surcharges. The rate of surcharges shall be invoiced according to the applicable roaming regulations, based on the amount specified in Article 5.1 of this List of Rates.

Data traffic included in the monthly fee applies only to domestic use. If the Subscriber does not use up the monthly traffic limit included in the monthly fee, the remaining part cannot be rolled over to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. Billing unit: 10 Kbyte.

When the data volume included in the monthly fee is exhausted, the speed will be reduced to 0/0 Mbit/s until the end of the billing cycle. Guaranteed speed as per Section 4.1 of the GTC.

Business Red EU 30GB tariff packages are supplemented once per billing cycle with the Automatikus Kiegészítő Adat option containing 200 MB of domestic data traffic at the fee of which can be found in the tariff table. This option is activated automatically after the domestic data volume included in the monthly fee is exhausted; or, if a supplemental data option has

been purchased on the Netinfo site before the domestic data volume included in the monthly fee of the Business Red EU 30GB tariff packages is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted; or, if one or more further supplemental data option(s) has (have) been purchased before the domestic data volume included in the supplemental data volume on the Netinfo site is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted. The data traffic of the Automatikus Kiegészítő Adat 200 MB option can be used until the end of the given billing cycle, and is not divisible. The Automatikus Kiegészítő Adat 200 MB option is renewed monthly but is only activated and billed upon continuing data use after the domestic data volume included in the monthly fee or supplemental data option(s) is exhausted. After the data volume included in the Automatikus Kiegészítő Adat 200 MB option, the speed will be slowed down to 0/0 Mbit/s.

Before using up the domestic data volume included in the monthly fee, or after using up the domestic data volume included in the Automatikus Kiegészítő Adat option, a Kiegészítő Adat option needs to be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded after the domestic data volume included in the Automatikus Kiegészítő Adat option is exhausted. If the Subscriber has exhausted the domestic data volume included in the package and the Automatikus PluszAdat option, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

The Business MultiNet card only provides data transmission service; no voice services are available thereon. Only customers who have subscriptions for new or existing Business EU 30GB packages are eligible for Business MultiNet tariffs. Not more than 1 Business MultiNet package may be purchased for one Business Red EU 30GB subscription in the offer. The Subscriber is eligible for the Business MultiNet package, as long as he maintains his fixed or indefinite-term Business Business Red EU 30GB subscription. If the primary subscription concluded for the tariff packages is cancelled or changed, we will convert SIM card 2 to Internet Basic tariff.

In the case of the Business MultiNet tariffs, after using up the monthly data traffic limit, a supplemental option needs to be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle. Guaranteed speed above the data traffic included in the monthly subscription fee (download/upload Mbit/s) is determined in accordance with section 4.1 of the GTC.

In the case of the Business Red EU 30GB service packages, the Subscriber, who/which, after having exhausted the data limit included in the package, divides supplemental data options that can be ordered by the Subscriber or other users of secondary SIM card belonging to Business MultiNet tariffs as authorized by Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>) for continuing Internet use until account closure, is only able to monitor his own data use on the Netinfo page (<http://netinfo.vodafone.hu>), for technical reasons, and does not have any information on the specific amount of data traffic of the secondary SIM card that may use the divisible data volume. If the user of the secondary SIM card belonging to the Business MultiNet tariff, who has been duly authorized by the Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>), orders a supplemental data option, the fee or the supplemental data option shall be invoiced to and payable by the Subscriber of the primary SIM card.

The Business Red EU 30GB tariff packages can exclusively be used in compliance with the terms of use for Small Enterprise subscribers to satisfy the personal communication needs of natural person users (personal use). Intended personal use does not include the following: if the Subscriber or user uses the SIM card pertaining to Business Red EU 30GB service packages inserted in a non-mobile phone; making automated calls that do not require the personal involvement of the user; making mass calls (the duration of which exceeds the total duration of outgoing calls by more than 10%) to automated call receiving devices, equipment (such as, but not exclusively to IVR); making mass calls in order to test, make trial runs or to test the resilience or vulnerability etc. of services, technical instruments or equipment; making calls that regularly exceeds 180 minutes per day for the remote monitoring of people, structures, events, etc. (e.g. but not exclusively: asset protection, baby monitoring functions); making calls for establishing machine-to-machine connection (M2M); making or diverting calls in a total duration of more than 24 hours per day; making mass calls or sending bulk SMS of which the Service Provider has reasonable grounds to believe having been made to gain direct benefit by the Subscriber, the User or any other third parties at the expense of the Service Provider. It is strictly prohibited to use the tariff package with devices that do not have their own display, speaker, microphone and keyboard (including touch-screen keyboard), such as for example adapter, modem. The service packages shall not be used in an abusive manner, among others, for telemarketing, customer service activities or other business purposes. Abusive use shall include the behaviour of sending SMS and MMS messages in a manner contrary to the conditions of personal use, where the number of SMS/MMS messages sent via the subscription exceeds several hundred per day, or the proportion of the number of SMS/MMS messages sent via the subscription involved and that of their recipients exceeds 10%, or the proportion of the number of SMS/MMS messages and that of the replies to them is lower than 80%, or the SMS/MMS messages are sent by the subscriber typically from one location. In the event of abusive use, or the violation of the conditions of personal use, after

prior notice from the Service Provider, the service will be available to the Subscriber according to the conditions of the Small Enterprise Basic Tariff.

Conference Call Service is not available with Business Red EU tariff packages.

In foreign countries the valid Roaming tariffs will apply. Section 5.5. of this List of Rates contains the detailed description of Vodafone EU Roaming service.

The charges of international calls are contained in Section 9 of this Annex on Tariffs.

Egyszeri Kiegészítő Adat (supplemental option) for Business Red EU 30GB tariff package:

A supplemental data option may be purchased for Business Red EU 30GB tariff packages, which is described in detail in Section 2.4.2.1 of this List of Rates Annex.

2.5.27. Business Red EU 2GB, Business Red EU 10GB, Business Red EU 30GB and Business Red EU Superior tariff packages

The Business Red EU 2GB, Business Red EU 10GB and Business Red EU Superior tariff packages were reclassified as commercially unavailable as of 1 July 2018.

The prices indicated in the following tables are gross prices including VAT. In the service packages billing is performed in units of 1 second.

In the case of Subscription Contracts concluded before Tuesday, October 24, 2017:

	Business Red EU 2GB	Business Red EU 10GB

Offered bandwidth above monthly divisible data traffic (download/upload, Mbit/s)	0/0	0/0
Guaranteed speed	in accordance with section 4.1 of the GTC	
SMS to any domestic network (HUF)	30.48	30.48

Unlimited airtime minutes, SMS/MMS messages included in the monthly fee of the Business Red EU 2GB, Business Red EU 10GB, Business Red EU 30 GB and Business Red EU Superior tariff packages only apply to domestic standard-rate calls, sent SMS and MMS messages. Domestic standard-rate directions mean standard-rate calls made to the domestic network of Vodafone and other mobile service providers, standard-rate calls made to domestic fixed-line numbers, standard-rate SMS, standard-rate MMS, and in case of Vodafone Red EU service packages – as far as fees are concerned – domestic standard-rate directions also mean calls made to special-rate numbers (e.g. voicemail).

The limitlessness included in the monthly fee of the Business Red EU tariff packages that can be used within the area of validity of the Red EU International tariff zone shall apply only to standard-rate and special-rate domestic and standard-rate and special-rate (green numbers) international calls, and to standard-rate and special-rate SMS messages sent to a domestic network and standard-rate and special-rate (green numbers) SMS messages sent to an international network.

The area of the Red EU International tariff zone is defined in Annex 9 of this List of Rates.

The current list of partner networks available on the area of validity of the Vodafone EU Roaming service can be found on the www.vodafone.hu/roaming website.

Unless stated expressly that only a part of it may be used as free data volume in the Vodafone EU Roaming area, the domestic data volume included in the monthly fee can be used in the country and abroad as well according to the applicable Roaming charges.

The volume included in the monthly fee can be used during any part of the day without time restrictions. Billing unit: 10 Kbyte. Guaranteed speed according to Section 4.1 of the GTC.

In the case of Business Red EU 2GB, Business Red EU 10GB and Business Red EU 30GB tariff packages, if the Subscriber does not use up the monthly volume limit included in the monthly fee, the remaining part cannot be rolled over to the next billing cycle. When the data volume included in the monthly fee has been exhausted, the speed will be reduced to 0/0 Mbit/s until the end of the billing cycle.

Without prejudice to the domestic volume restrictions applicable, in the case of the unlimited data package specified in the Commission Implementing Regulation (EU) 2016/2286, we give roaming Subscribers the possibility to use in their periodic travels within the EU, at domestic retail prices, the retail data roaming service with at least twice as much volume than the full VAT-exclusive domestic retail charges for the full billing cycle of that unlimited data package divided by the wholesale charges for regulated data roaming services specified in Article 12 of Regulation (EU) 531/2012. After exhausting the

specified data volume, the Service Provider is entitled to charge surcharges. The rate of surcharges shall be invoiced according to the applicable roaming regulations, based on the amount specified in Article 5.1 of this List of Rates.

If activating the Világ Napijegy (World Daily Ticket) service, 14 GB of the domestic data volume included in the Business Red EU Superior tariff package may be used free of charge within the Világ Napijegy validity area. After the free data volume has been used up, a gross surcharge of 55.74 HUF/MB is payable.

With the Business EU Superior service package, Subscribers get 480p video resolution for playing video content. This resolution provides quality optimised for mobile phones; on devices with larger screens, image quality may be less favourable. The optimisation can be cancelled by dialling 1270.

Data traffic included in the monthly fee applies only to domestic use. If the Subscriber does not use up the monthly traffic limit included in the monthly fee, the remaining part cannot be rolled over to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. Billing unit: 10 Kbyte.

When the data volume included in the monthly fee is exhausted, the speed will be reduced to 0/0 Mbit/s until the end of the billing cycle. Guaranteed speed as per Section 4.1 of the GTC.

Business Red EU 2GB, Business Red EU 10GB and Business Red EU 30GB tariff packages are supplemented once per billing cycle with the Automatikus Kiegészítő Adat option containing 200 MB of domestic data traffic at the fee of which can be found in the tariff table. This option is activated automatically after the domestic data volume included in the monthly fee is exhausted; or, if a supplemental data option has been purchased on the Netinfo site before the domestic data volume included in the monthly fee of the Business Red EU 2GB, Business Red EU 10GB and Business Red EU 30GB tariff packages is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted; or, if one or more further supplemental data option(s) has (have) been purchased before the domestic data volume included in the supplemental data volume on the Netinfo site is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted. The data traffic of the Automatikus Kiegészítő Adat 200 MB option can be used until the end of the given billing cycle, and is not divisible. The Automatikus Kiegészítő Adat 200 MB option is renewed monthly but is only activated and billed upon continuing data use after the domestic data volume included in the monthly fee or supplemental data option(s) is exhausted. After the data volume included in the Automatikus Kiegészítő Adat 200 MB option, the speed will be slowed down to 0/0 Mbit/s.

Before using up the domestic data volume included in the monthly fee, or after using up the domestic data volume included in the Automatikus Kiegészítő Adat option, a Kiegészítő Adat option needs to be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded after the domestic data volume included in the Automatikus Kiegészítő Adat option is exhausted. If the Subscriber has exhausted the domestic data volume included in the package and the Automatikus PluszAdat option, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

The Business MultiNet card only provides data transmission service; no voice services are available thereon. Only customers who have subscriptions for new or existing Business EU 500MB, Business EU 10GB or Business EU 30GB packages are eligible for Business MultiNet tariffs. Not more than 1 Business MultiNet package may be purchased for one Business Red EU 2GB, Business Red EU 10GB or Business Red EU 30GB subscription in the offer. The Subscriber is eligible for the Business MultiNet package, as long as he maintains his fixed or indefinite-term Business Red EU 2GB, Business Red EU 10GB or Business Red EU 30GB subscription. If the primary subscription concluded for the tariff packages is cancelled or changed, we will convert SIM card 2 to Internet Basic tariff.

In the case of the Business MultiNet tariffs, after using up the monthly data traffic limit, a supplemental option needs to be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle. Guaranteed speed above the data traffic included in the monthly subscription fee (download/upload Mbit/s) is determined in accordance with section 4.1 of the GTC.

In the case of the Business Red EU 2GB, Business Red EU 10GB and Business Red EU 30GB service packages, the Subscriber, who/which, after having exhausted the data limit included in the package, divides supplemental data options that can be ordered by the Subscriber or other users of secondary SIM card belonging to Business MultiNet tariffs as authorized by Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>) for continuing Internet use until account closure, is only able to monitor his own data use on the Netinfo page (<http://netinfo.vodafone.hu>), for technical reasons, and does not have any information on the specific amount of data traffic of the secondary SIM card that may use the divisible data volume. If the user of the secondary SIM card belonging to the Business MultiNet tariff, who has been duly authorized by the Subscriber

on the Netinfo page (<http://netinfo.vodafone.hu>), orders a supplemental data option, the fee or the supplemental data option shall be invoiced to and payable by the Subscriber of the primary SIM card.

The Business Red EU 2GB, Business Red EU 10GB and Business Red EU 30GB and Business Red EU Superior tariff packages can exclusively be used in compliance with the terms of use for Small Enterprise subscribers to satisfy the personal communication needs of natural person users (personal use). Intended personal use does not include the following: if the Subscriber or user uses the SIM card pertaining to service packages inserted in a non-mobile phone; making automated calls that do not require the personal involvement of the user; making mass calls (the duration of which exceeds the total duration of outgoing calls by more than 10%) to automated call receiving devices, equipment (such as, but not exclusively to IVR); making mass calls in order to test, make trial runs or to test the resilience or vulnerability etc. of services, technical instruments or equipment; making calls that regularly exceeds 180 minutes per day for the remote monitoring of people, structures, events, etc. (e.g. but not exclusively: asset protection, baby monitoring functions); making calls for establishing machine-to-machine connection (M2M); making or diverting calls in a total duration of more than 24 hours per day; making mass calls or sending bulk SMS of which the Service Provider has reasonable grounds to believe having been made to gain direct benefit by the Subscriber, the User or any other third parties at the expense of the Service Provider. It is strictly prohibited to use the tariff package with devices that do not have their own display, speaker, microphone and keyboard (including touch-screen keyboard), such as for example adapter, modem. The service packages shall not be used in an abusive manner, among others, for telemarketing, customer service activities or other business purposes. Abusive use shall include the behaviour of sending SMS and MMS messages in a manner contrary to the conditions of personal use, where the number of SMS/MMS messages sent via the subscription exceeds several hundred per day, or the proportion of the number of SMS/MMS messages sent via the subscription involved and that of their recipients exceeds 10%, or the proportion of the number of SMS/MMS messages and that of the replies to them is lower than 80%, or the SMS/MMS messages are sent by the subscriber typically from one location. In the event of abusive use, or the violation of the conditions of personal use, after prior notice from the Service Provider, the service will be available to the Subscriber according to the conditions of the Small Enterprise Basic Tariff.

Conference Call Service is not available with Business Red EU tariff packages.

In foreign countries the valid Roaming tariffs will apply. Section 5.5. of this List of Rates contains the detailed description of Vodafone EU Roaming service.

The charges of international calls are contained in Section 9 of this Annex on Tariffs.

Egyszeri Kiegészítő Adat (supplemental option) for Business Red EU 2GB, Business Red EU 10GB and Business Red EU 30GB tariff package:

A supplemental data option may be purchased for Business Red EU 2GB, Business Red EU 10GB and Business Red EU 30GB tariff packages, which is described in Section 2.4.2.1 of this List of Rates Annex.

2.5.28. Business Red EU 2GB, Business Red EU 10GB, Business Red EU 30GB tariff packages for Large Enterprise customer

The Business Red EU 2GB, Business Red EU 10GB and Business Red EU Superior tariff packages were reclassified as commercially unavailable as of 1 July 2018

The prices indicated in the following tables are net prices not including VAT.

In the service packages billing is performed in units of 1 second.

Offered bandwidth above monthly divisible data traffic (download/upload, Mbit/s)	0/0	0/0
Guaranteed speed	in accordance with section 4.1 of the GTC	
SMS to any domestic network (HUF)	24	24

Unlimited airtime minutes, SMS/MMS messages included in the monthly fee of the Business Red EU 2GB, Business Red EU 10 GB, Business Red EU 30 GB and Business Red EU Superior tariff packages only apply to domestic standard-rate calls, sent SMS and MMS messages. Domestic standard-rate directions mean standard-rate calls made to the domestic network of Vodafone and other mobile service providers, standard-rate calls made to domestic fixed-line numbers, standard-rate SMS, standard-rate MMS, and in case of Vodafone Red EU service packages – as far as fees are concerned – domestic standard-rate directions also mean calls made to special-rate numbers (e.g. voicemail).

The limitlessness included in the monthly fee of the Business Red EU tariff packages that can be used within the area of validity of the Red EU International tariff zone shall apply only to standard-rate and special-rate domestic and standard-rate and special-rate (green numbers) international calls, and to standard-rate and special-rate SMS messages sent to a domestic network and standard-rate and special-rate (green numbers) SMS messages sent to an international network. The area of the Red EU International tariff zone is defined in Annex 9 of this List of Rates.

The current list of partner networks available on the area of validity of the Vodafone EU Roaming service can be found on the www.vodafone.hu/roaming website.

Unless stated expressly that only a part of it may be used as free data volume in the Vodafone EU Roaming area, the domestic data volume included in the monthly fee can be used in the country and abroad as well according to the applicable Roaming charges.

The volume included in the monthly fee can be used during any part of the day without time restrictions. Billing unit: 10 Kbyte. Guaranteed speed according to Section 4.1 of the GTC.

In the case of Business Red EU 2GB, Business Red EU 10GB and Business Red EU 30GB tariff packages, if the Subscriber does not use up the monthly volume limit included in the monthly fee, the remaining part cannot be rolled over to the next billing cycle. When the data volume included in the monthly fee has been exhausted, the speed will be reduced to 0/0 Mbit/s until the end of the billing cycle.

Without prejudice to the domestic volume restrictions applicable, in the case of the unlimited data package specified in the Commission Implementing Regulation (EU) 2016/2286, we give roaming Subscribers the possibility to use in their periodic travels within the EU, at domestic retail prices, the retail data roaming service with at least twice as much volume than the full VAT-exclusive domestic retail charges for the full billing cycle of that unlimited data package divided by the wholesale charges for regulated data roaming services specified in Article 12 of Regulation (EU) 531/2012. After exhausting the specified data volume, the Service Provider is entitled to charge surcharges. The rate of surcharges shall be invoiced according to the applicable roaming regulations, based on the amount specified in Article 5.1 of this List of Rates.

If activating the Világ Napijegy (World Daily Ticket) service, 14 GB of the domestic data volume included in the Business Red EU Superior tariff package may be used free of charge within the Világ Napijegy validity area. After the free data volume has been used up, a gross surcharge of 55.74 HUF/MB is payable.

With the Business EU Superior service package, Subscribers get 480p video resolution for playing video content. This resolution provides quality optimised for mobile phones; on devices with larger screens, image quality may be less favourable. The optimisation can be cancelled by dialling 1270.

Data traffic included in the monthly fee applies only to domestic use. If the Subscriber does not use up the monthly traffic limit included in the monthly fee, the remaining part cannot be rolled over to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. Billing unit: 10 Kbyte.

When the data volume included in the monthly fee is exhausted, the speed will be reduced to 0/0 Mbit/s until the end of the billing cycle. Guaranteed speed as per Section 4.1 of the GTC.

Business Red EU 2GB, Business Red EU 10GB and Business Red EU 30GB tariff packages are supplemented once per billing cycle with the Automatikus Kiegészítő Adat option containing 200 MB of domestic data traffic at the fee of which can be found in the tariff table. This option is activated automatically after the domestic data volume included in the monthly fee is exhausted; or, if a supplemental data option has been purchased on the Netinfo site before the domestic data volume included in the monthly fee of the Business Red EU 2GB, Business Red EU 10GB and Business Red EU 30GB tariff packages is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted; or, if one or more further supplemental data option(s) has (have) been purchased before the domestic data volume included in the supplemental data volume on the Netinfo site is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted. The data traffic of the Automatikus Kiegészítő Adat 200 MB option can be used until the end of the given billing cycle, and is not divisible. The Automatikus Kiegészítő Adat 200 MB option is renewed monthly but is only activated and billed upon continuing data use after the domestic data volume included in the monthly fee or supplemental data option(s) is exhausted. After the data volume included in the Automatikus Kiegészítő Adat 200 MB option, the speed will be slowed down to 0/0 Mbit/s.

Before using up the domestic data volume included in the monthly fee, or after using up the domestic data volume included in the Automatikus Kiegészítő Adat option, a Kiegészítő Adat option needs to be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded after the domestic data volume included in the Automatikus Kiegészítő Adat option is exhausted. If the Subscriber has exhausted the domestic data volume included in the package and the Automatikus PluszAdat option, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

The Business MultiNet card only provides data transmission service; no voice services are available thereon. Only customers who have subscriptions for new or existing Business EU 500MB, Business EU 10GB or Business EU 30GB packages are eligible for Business MultiNet tariffs. Not more than 1 Business MultiNet package may be purchased for one Business Red EU 2GB, Business Red EU 10GB or Business Red EU 30GB subscription in the offer. The Subscriber is eligible for the Business MultiNet package, as long as he maintains his fixed or indefinite-term Business Red EU 2GB, Business Red EU 10GB or Business Red EU 30GB subscription. If the primary subscription concluded for the tariff packages is cancelled or changed, we will convert SIM card 2 to Internet Basic tariff.

In the case of the Business MultiNet tariffs, after using up the monthly data traffic limit, a supplemental option needs to be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle. Guaranteed speed above the data traffic included in the monthly subscription fee (download/upload Mbit/s) is determined in accordance with section 4.1 of the GTC.

In the case of the Business Red EU 2GB, Business Red EU 10GB and Business Red EU 30GB service packages, the Subscriber, who/which, after having exhausted the data limit included in the package, divides supplemental data options that can be ordered by the Subscriber or other users of secondary SIM card belonging to Business MultiNet tariffs as authorized by Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>) for continuing Internet use until account closure, is only able to monitor his own data use on the Netinfo page (<http://netinfo.vodafone.hu>), for technical reasons, and does not have any information on the specific amount of data traffic of the secondary SIM card that may use the divisible data volume. If the user of the secondary SIM card belonging to the Business MultiNet tariff, who has been duly authorized by the Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>), orders a supplemental data option, the fee or the supplemental data option shall be invoiced to and payable by the Subscriber of the primary SIM card.

The Business Red EU 2GB, Business Red EU 10GB and Business Red EU 30GB and Business Red EU Superior tariff packages can exclusively be used in compliance with the terms of use for Small Enterprise subscribers to satisfy the personal communication needs of natural person users (personal use). Intended personal use does not include the

following: if the Subscriber or user uses the SIM card pertaining to Business Red EU 2GB, Business Red EU 10GB or Business Red EU 30GB service packages inserted in a non-mobile phone; making automated calls that do not require the personal involvement of the user; making mass calls (the duration of which exceeds the total duration of outgoing calls by more than 10%) to automated call receiving devices, equipment (such as, but not exclusively to IVR); making mass calls in order to test, make trial runs or to test the resilience or vulnerability etc. of services, technical instruments or equipment; making calls that regularly exceeds 180 minutes per day for the remote monitoring of people, structures, events, etc. (e.g. but not exclusively: asset protection, baby monitoring functions); making calls for establishing machine-to-machine connection (M2M); making or diverting calls in a total duration of more than 24 hours per day; making mass calls or sending bulk SMS of which the Service Provider has reasonable grounds to believe having been made to gain direct benefit by the Subscriber, the User or any other third parties at the expense of the Service Provider. It is strictly prohibited to use the tariff package with devices that do not have their own display, speaker, microphone and keyboard (including touch-screen keyboard), such as for example adapter, modem. The service packages shall not be used in an abusive manner, among others, for telemarketing, customer service activities or other business purposes. Abusive use shall include the behaviour of sending SMS and MMS messages in a manner contrary to the conditions of personal use, where the number of SMS/MMS messages sent via the subscription exceeds several hundred per day, or the proportion of the number of SMS/MMS messages sent via the subscription involved and that of their recipients exceeds 10%, or the proportion of the number of SMS/MMS messages and that of the replies to them is lower than 80%, or the SMS/MMS messages are sent by the subscriber typically from one location. In the event of abusive use, or the violation of the conditions of personal use, after prior notice from the Service Provider, the service will be available to the Subscriber according to the conditions of the Small Enterprise Basic Tariff.

Conference Call Service is not available with Business Red EU tariff packages.

In foreign countries the valid Roaming tariffs will apply. Section 5.5. of this List of Rates contains the detailed description of Vodafone EU Roaming service.

The charges of international calls are contained in Section 9 of this Annex on Tariffs.

Egyszeri Kiegészítő Adat (supplemental option) for Business Red EU 2GB, Business Red EU 10GB and Business Red EU 30GB tariff package:

A supplemental data option may be purchased for Business Red EU 2GB, Business Red EU 10GB and Business Red EU 30GB tariff packages, which is described in detail in Section 2.4.2.2 of this List of Rates Annex.

2.5.29. Business EU Group tariff packages

The Business EU Group tariff packages were reclassified as commercially unavailable as of 1 July 2019.

The Business EU Group tariff packages are only available to (new and existing) Small Business subscribers signing a post-paid subscription contract. In case of the Business EU Group tariff packages the number of SIM cards specified in the following table can participate in a user group at most.

Voice calls are billed on the basis of 1 second. The billing unit of voicemail calls corresponds to the billing unit of the tariff package.

The prices indicated in the tables are gross prices including VAT:

	Business EU Group 5	Business EU Group 10	Business EU Group 15	Business EU Group 20	Business EU Group 30
Initial costs					
Registration fee (HUF)	10,000	10,000	10,000	10,000	10,000
Monthly fees					
Monthly subscription fee (HUF) with indefinite-term contracts or contracts of a 1- or 2-year fixed term	19,000	24,000	34,000	54,000	81,000
Airtime minutes for standard-rate calls made in any domestic network and internationally within the territory of the Red EU International tariff zone	600 minutes	1,000 minutes	2,000 minutes	4,000 minutes	7,000 minutes
Call charges into any domestic mobile or fixed-line, standard-rate network, abroad according to the applicable Roaming charges, or international calls within the area of validity of the Red EU International tariff zone (per minute)					
In any time period (HUF)	18	16	14	12	10
Voicemail calls					
In any time period (HUF)	25	25	25	25	25
Sending text messages (SMS) - domestically and, according to the applicable Roaming rates, abroad, to standard-rate numbers					
SMS to any domestic mobile network (HUF)	18	16	14	12	10
Card number in the user group	2-5	2-10	2-15	2-20	2-30
A divisible data plan with monthly fee, to be chosen compulsorily with the tariff package	✓	✓	✓	✓	✓
Free data traffic to be used individually, with secondary SIM cards	50 MB	50 MB	50 MB	50 MB	50 MB
Offered bandwidth above the data traffic included in the monthly subscription fee (download/upload speed – Mbit/s)	0/0	0/0	0/0	0/0	0/0
Guaranteed speed	See section 4.1 of the GTC				
Closed group option	Free of charge				
Vodafone EU Roaming	Vodafone EU Roaming can be activated free of charge; otherwise the applicable Roaming charges abroad apply.				
Other charges					
Charge for International SMS to countries within the area of validity of the RED EU International tariff zone (HUF)	in accordance with Section 9 of the GTC				20
Charge for International SMS to countries outside the preferential zone (HUF)	36	32	28	24	20

Divisible Business Group data plan to be chosen compulsorily with Business EU Group tariff packages:

Data plan	Data volume to be divided among no more than 20 SIM cards, included in the plan	Data volume to be used individually with the main card	Monthly subscription fee (HUF) with indefinite-term contracts or contracts of a 1- or 2-year fixed term
Business Group 1 GB	1 GB	500 MB	2,000
Business Group 5 GB	5 GB	1 GB	10,000
Business Group 10 GB	10 GB	2 GB	15,000
Business Group 20 GB	20 GB	2 GB	25,000
Business Group 50 GB	50 GB	5 GB	45,000

The Subscribers can use the services included in the monthly fee of the tariff package collectively as a group. The airtime minutes included in the monthly fee of the tariff packages apply to domestic calls and abroad, according to the applicable Roaming rates, with standard rates, and to international calls within the area of validity of the Red EU International tariff zone. The minutes and data traffic included in the monthly fee that are applicable to airtime or traffic, but which were not used cannot be rolled over to the next month or transferred to other persons or call members and cannot be used for other services.

The area of the Red EU International tariff zone is defined in Annex 9 of this List of Rates.

The charges of international calls outside the Red EU International tariff zone are contained in Section 9 of this Annex.

The main card is the subscription on which the shared data volume is activated, which can decide on who participates in the shared data group. It can change this group (add or exclude members) and may grant certain users the right (or revoke such right) to buy supplemental data (so-called top-up) after using up the shared data volume, within the given billing cycle, which will also be used jointly. The main card also has a data limit which can be used independently; its amount depends on what shared data limit was chosen when the contract was signed.

A secondary SIM card user may be a member of the shared data group or, via the main card, can have a possibility to buy supplemental data. The secondary SIM card has a data limit which can be used independently; its monthly renewable volume is 50MB (this quantity is available even if it is not a member of the shared data group).

The main and secondary SIM cards are parts of the same tariff group, the Business Group tariff package. The main card cannot include in the shared data group a subscription of another tariff group, and a subscription pertaining to another tariff package cannot be a secondary group in the Business Group data group.

The tariff package contains free monthly data traffic of 50 MB for the secondary SIM cards, which is part of the tariff package, so it cannot be cancelled.

The fee of the Zárt Csoport option included in the Business EU Group tariff package is covered by the monthly fee of the tariff and is not billed separately above the monthly fee. Further details regarding the Zárt csoport option are included in section 2.2 of this List of Rates.

In foreign countries the valid Roaming tariffs will apply. The detailed description of the Vodafone EU Roaming service is in point 5.5 of this Annex called List of Rates.

The Business EU Group package can only be purchased by choosing the Business Group data plan. Any Business Group data plan can be requested with a Business EU Group tariff packages, and will be activated for each subscription, and its monthly fee is payable on top of the monthly fee of the tariff package.

The monthly data volume available in the Business Group data plans can be fully divided between the SIM cards of the Business EU Group user group, up to no more than 20 cards. If the Subscriber does not use up the monthly volume limit included in the monthly fee, the remaining part cannot be rolled over to the next billing cycle. The volume included in the monthly fee can be used during any part of the day without time restrictions. Billing unit: 10 Kbyte.

In the case of the Business Group service packages, after using up the data volume included in the monthly fee, internet access is discontinued until the end of the billing cycle.

Guaranteed speed according to Section 4.1 of the GTC.

Before using up the data volume included in the monthly fee, a supplemental option must be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded after the data volume included in the tariff package and the data plan is exhausted. If the Subscriber has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. When the billing cycle ends, the service is restarted.

Kiegészítő Osztható Adat (supplemental option):

Kiegészítő Osztható Adat divisible supplemental data options can be purchased for the Business EU Group tariff packages and Business Group data plans, with data volume that can be divided among no more than 20 SIM cards.

The detailed description of the option is in point 2.4.2.1 of this Annex called List of Rates.

Kiegészítő Adat (supplemental option):

Kiegészítő Adat (supplemental data) options can be purchased for the Business EU Group traffic packages and Business EU Group data plans, the detailed description of which is contained in Section 2.4.2.1 of this List of Rates Annex.

Monthly renewable Kedvezményes (Preferential) Kiegészítő Adat (supplemental option):

The Subscriber can purchase a monthly renewable Kedvezményes Kiegészítő Adat option with the Business EU Group tariff packages and Business EU Group data plans; this supplemental option is a renewable option, reactivated in every billing cycle, i.e. it will not have to be reordered in every billing cycle.

The detailed description of the option is in point 2.4.2.1 of this Annex called List of Rates.

2.5.30. Business EU 1GB, Business EU 3GB and Business EU 12GB packages

The Business EU tariff packages were reclassified as commercially unavailable as of 1 July 2019.

The following tariff packages are only available to (new and existing) Small Business subscribers signing a post-paid subscription contract.

Voice calls are billed on the basis of 1 second. The billing unit of voicemail calls corresponds to the billing unit of the tariff package.

The prices indicated in the table are gross prices including VAT.

	Business EU 1GB	Business EU 3GB	Business EU 12GB
--	-----------------	-----------------	------------------

Charge for International SMS to countries within the area of validity of the RED EU International tariff zone (HUF)	20	20	20
Charge for International SMS to countries outside the preferential zone (HUF)	40	40	40
Activated once per billing cycle after the domestic data limit is exhausted Automatikus Kiegészítő Adat 200 MB (HUF)	413.39	413.39	413.39

With Business EU 1GB, Business EU 3GB and Business EU 12GB tariff packages, Business MultiNet (mobile internet based) tariff packages are available, which can be used only with the service packages above, as secondary Sims. In case of Business EU 1GB, Business EU 1GB, Business EU 3GB and Business EU 12GB tariff packages with divisible data traffic (primary SIM), in the associated Business MultiNet tariff packages (secondary SIM), the data traffic may be used domestically, and also abroad according to the applicable Roaming rates, and, if the Vodafone EU Roaming service is activated, in the territory where the Vodafone EU Roaming service is valid.

Business MultiNet packages:

	Business MultiNet Mifi	Business MultiNet SIM
Initial costs		
Registration fee (HUF)	10,000	10,000
Monthly fees		
Monthly subscription fee (HUF) with indefinite-term contract	8,267.72	8,267.72
Monthly subscription fee (HUF) with contracts of a 1-year fixed term	0	0
Monthly subscription fee (HUF) with contracts of a 2-year fixed term	0	0
Data traffic included in the monthly fee	the same as a Business EU 1GB, Business EU 3GB and Business EU 12GB package, divided with it	
Offered bandwidth above the divisible data traffic per month (download and upload speed – Mbit/s)	0/0	0/0
Guaranteed speed	See section 4.1 of the GTC	
SMS to any domestic	30.48	30.48

network (HUF)		
---------------	--	--

In the case of Business EU 1GB, Business EU 3GB and Business EU 12GB tariff packages, after using up the data volume included in the monthly fee, internet access is discontinued until the end of the billing cycle. Guaranteed speed according to Section 4.1 of the GTC.

After using up the data volume included in the monthly fee, or if prior to using up the data volume included in the monthly fee, a supplemental data option or options is/are purchased once or several times on the Netinfo page, after using up the data volume included in such supplemental data option then in the monthly fee, an automatically activated Automatikus Kiegészítő Adat option is associated with the Business EU 1GB, Business EU 3GB or Business EU 12GB tariff packages, once per billing cycle, the fee of which can be found in the tariff table. The data traffic of the Automatikus Kiegészítő Adat option can be used until the end of the given billing cycle, and is not divisible. The Automatikus Kiegészítő Adat option is renewed monthly but is only activated and billed upon continuing data use after the data volume included in the monthly fee or supplemental data option(s) is exhausted. After the data volume included in the Automatikus Kiegészítő Adat option is used up, the internet service is discontinued.

Before using up the data volume included in the monthly fee, or after using up the data volume included in the Automatikus Kiegészítő Adat option, a Kiegészítő Adat option needs to be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded after the data volume included in the Automatikus Kiegészítő Adat option is exhausted. If the Subscriber has exhausted the data volume included in the package and the Automatikus Kiegészítő Adat option, Internet service will not be available for it until the end of the billing cycle. When the billing cycle ends, the service is restarted.

The Business MultiNet card only provides data transmission service; no voice services are available thereon. Only customers who have subscriptions for new or existing Business EU 1GB, Business EU 3GB or Business EU 12GB packages are eligible for Business MultiNet tariffs. Maximum 1 Business MultiNet package can be purchased in the offer with a single subscription for Business EU 1GB, Business EU 3GB or Business EU 12GB. The Subscriber is eligible for the Business MultiNet package, as long as he maintains his fixed or indefinite-term Business EU 1GB, Business EU 3GB or Business EU 12GB subscription. If the primary subscription concluded for the tariff packages is cancelled or changed, we will convert SIM card 2 to Internet Basic tariff.

In the case of the Business MultiNet tariffs, after using up the monthly data traffic limit, a supplemental option needs to be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. When the billing cycle ends, the service is restarted. Guaranteed speed according to Section 4.1 of the GTC.

In the case of the Business EU 1GB, Business EU 3GB és Business EU 12GB tariff packages, the Subscriber, who/which, after having exhausted the data limit included in the package, divides the divisible supplemental data options that can be ordered by the Subscriber or other users of secondary SIM card belonging to Business MultiNet tariffs as authorized by Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>) for continuing Internet use until account closure, is only able to monitor his own data use on the Netinfo page (<http://netinfo.vodafone.hu>), for technical reasons, and does not have any information on the specific amount of data traffic of the secondary SIM card that may use the divisible data volume. If the user of the secondary SIM card belonging to the Business MultiNet tariff, who has been duly authorized by the Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>), orders a supplemental data option, the fee or the supplemental data option shall be invoiced to and payable by the Subscriber of the primary SIM card.

The fee of the Zárt Csoport option included in the tariff package is covered by the monthly fee of the tariff and is not billed separately above the monthly fee. Further details regarding the Zárt csoport option are included in section 2.2 of this List of Rates.

The minutes and data traffic included in the monthly fee that are applicable to airtime or traffic, but which were not used cannot be rolled over to the next month or transferred to other persons or call members and cannot be used for other services.

The Conference Call service is not available with Business EU packages.

In foreign countries the valid Roaming tariffs will apply. The detailed description of the Vodafone EU Roaming service is in point 5.5 of this Annex called List of Rates.

With the Red EU international service, which is part of the Business EU Red rates, Subscribers can call the standard-rate numbers of the countries specified in Section 9 of this List of Rates (Red EU International tariff zone) from the Vodafone

Hungarian network with the conditions above, and can send standard-rate SMS messages to such numbers with the conditions above.

The charges of international calls outside the Red EU International tariff zone are contained in Section 9 of this Annex.

Egyszeri (Once-off) Kiegészítő Adat (supplemental data option)

A supplemental data option (Egyszeri Kiegészítő Adat) can be purchased for the Business EU tariff packages, the detailed description of which is contained in the following table.

Available Egyszeri (One-off) Kiegészítő Adat option	Data volume included	Fee (gross)	Available for the following tariffs
Kiegészítő Adat 1GB	1 GB	HUF 1,500	Business EU 1GB Business EU 3 GB Business EU 12 GB
Kiegészítő Adat 3 GB	3 GB	HUF 3,500	Business EU 3 GB Business EU 12 GB
Kiegészítő Adat 12 GB	12 GB	HUF 6,499.99	Business EU 12 GB

The Egyszeri Kiegészítő Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the subscription belongs.

If the supplemental data option is not completely used by the time of purchasing the next supplemental data option, the unused remaining data traffic of the existing supplemental data option will be lost. The Egyszeri Kiegészítő Adat option is not divisible, and may be used until the end of the billing cycle, with the same terms as those applicable to the data traffic included in the monthly fee of the service package. Any number of Egyszeri Kiegészítő Adat options can be purchased in a billing cycle. The Egyszeri Kiegészítő Adat option is a non-renewable option that has to be repurchased in every billing cycle, if needed.

2.5.31. Business EU Red 3GB, Business EU Red 12GB and Business EU Red Superior tariff packages for Small Enterprise customers

The Business EU Red tariff packages were reclassified as commercially unavailable as of 1 July 2019.

The prices indicated in the following tables are gross prices including VAT. In the service packages billing is performed in units of 1 second.

With Business EU Red 3GB, Business EU Red 12GB tariff packages, Business MultiNet (mobile internet based) tariff packages are available, which can be used only with the Business EU Red 3GB or Business EU Red 12GB service package, as secondary SIMs. In case of Business EU Red 3GB and Business EU Red 12GB tariff packages with divisible data traffic (primary SIM), in the associated Business MultiNet tariff packages (secondary SIM), the data traffic may be used domestically, and also abroad according to the applicable Roaming rates, and, if the Vodafone EU Roaming service is activated, in the territory where the Vodafone EU Roaming service is valid.

Business MultiNet packages:

	Business MultiNet Mifi	Business MultiNet SIM
Initial costs		
Registration fee (HUF)	10,000	10,000
Monthly fees		
Monthly subscription fee (HUF) with indefinite-term contract	8,267.72	8,267.72
Monthly subscription fee (HUF) with contracts of a 1-year fixed term	0	0
Monthly subscription fee (HUF) with contracts of a 2-year fixed term	0	0
Data traffic included in the monthly fee	the same as a Business EU Red 3GB or Business EU Red 12GB package, divided with it	
Offered bandwidth above the divisible data traffic per month (download and upload speed – Mbit/s)	0/0	0/0
Guaranteed speed	See section 4.1 of the GTC	
SMS to any domestic network (HUF)	30.48	30.48

The unlimited airtime minutes and SMS/MMS messages included in the monthly fee of the Business EU Red 3GB, Business EU Red 12GB and Business EU Red Superior tariff packages apply to standard-rate calls and sent SMS and MMS messages domestically and abroad according to the applicable Roaming rates. Domestic standard-rate directions mean standard-rate calls made to the domestic network of Vodafone and other mobile service providers, standard-rate calls made to domestic fixed-line numbers, standard-rate SMS messages, standard-rate MMS messages, and in case of Business EU Red service packages – as far as fees are concerned – domestic standard-rate directions also mean calls made to special-rate numbers (e.g. voicemail).

The limitlessness included in the monthly fee of the Business EU Red tariff packages shall apply only to standard-rate and special-rate domestic and standard-rate and special-rate (green numbers) international calls to the Red EU International tariff zone, and to standard-rate and special-rate SMS messages sent to a domestic network and standard-rate and special-rate (green numbers) SMS messages sent to the Red EU international network. The area of the Red EU International tariff zone is defined in Annex 9 of this List of Rates.

The charges of international calls outside the Red EU International tariff zone are contained in Section 9 of this Annex.

The data traffic included in the monthly charge can be used domestically and, according to the applicable Roaming charges, abroad.

The volume included in the monthly fee can be used during any part of the day without time restrictions. Billing unit: 10 Kbyte. Guaranteed speed according to Section 4.1 of the GTC.

In the case of Business Red 3GB and Business Red 12GB tariff packages, if the Subscriber does not use up the monthly volume limit included in the monthly fee, the remaining part cannot be rolled over to the next billing cycle. After using up the data volume included in the monthly fee, internet access is discontinued until the end of the billing cycle.

With the Business EU Red Superior service package, Subscribers get 480p video resolution for playing video content. This resolution provides quality optimised for mobile phones; on devices with larger screens, image quality may be less favourable. The optimisation can be cancelled by dialling 1270.

After using up the data volume included in the Business EU Red 3GB and Business EU Red 12GB monthly fee, and if prior to using up the data volume included in the monthly fee, a supplemental data option or options is/are purchased once or several times on the Netinfo page, after using up the data volume included in such supplemental data option then in the monthly fee, an automatically activated Automatikus Kiegészítő Adat option containing 200 MB data traffic is associated with the Business EU Red 3GB and Business EU Red 12GB tariff packages, once per billing cycle, the fee of which can be found in the tariff table. The data traffic of the Automatikus Kiegészítő Adat 200 MB option can be used until the end of the given billing cycle, and is not divisible. The Automatikus Kiegészítő Adat 200 MB option is renewed monthly but is only activated and billed upon continuing data use after the data volume included in the monthly fee or supplemental data option(s) is exhausted. After the data volume included in the Automatikus Kiegészítő Adat 200 MB option is used up, the internet service is discontinued.

Before using up the data volume included in the monthly fee, or after using up the domestic data volume included in the Automatikus Kiegészítő Adat option, a Kiegészítő Adat option needs to be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded after the data volume included in the Automatikus Kiegészítő Adat option is exhausted. If the Subscriber has exhausted the data volume included in the package and the Automatikus Kiegészítő Adat option, Internet service will not be available for it until the end of the billing cycle. When the billing cycle ends, the service is restarted.

The Business MultiNet card only provides data transmission service; no voice services are available thereon. Only customers who have subscriptions for new or existing Business EU Red 3GB or Business EU Red 12GB packages are eligible for Business MultiNet tariffs. Maximum 1 Business MultiNet package can be purchased in the offer with a single subscription for Business EU Red 3GB or Business EU Red 12GB. The Subscriber is eligible for the Business MultiNet package, as long as he maintains his fixed or indefinite-term Business EU Red 3GB or Business EU Red 12GB subscription. If the primary subscription concluded for the tariff packages is cancelled or changed, we will convert SIM card 2 to Internet Basic tariff.

In the case of the Business MultiNet tariffs, after using up the monthly data traffic limit, a supplemental option needs to be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. When the billing cycle ends, the service is restarted. Guaranteed speed according to Section 4.1 of the GTC.

In the case of the Business EU Red 3GB and Business EU Red 12GB tariff packages, the Subscriber, who/which, after having exhausted the data limit included in the package, divides the divisible supplemental data options that can be ordered by the Subscriber or other users of secondary SIM card belonging to Business MultiNet tariffs as authorized by Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>) for continuing Internet use until account closure, is only able to monitor his own data use on the Netinfo page (<http://netinfo.vodafone.hu>), for technical reasons, and does not have any information on the specific amount of data traffic of the secondary SIM card that may use the divisible data volume. If the user of the secondary SIM card belonging to the Business MultiNet tariff, who has been duly authorized by the Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>), orders a supplemental data option, the fee or the supplemental data option shall be invoiced to and payable by the Subscriber of the primary SIM card.

The Business EU Red 3GB, Business EU Red 12 GB and Business EU Red Superior tariff packages can only be used in compliance with the terms of use for Small Enterprise Subscribers, to satisfy the personal communication needs of natural person users (personal use). Intended personal use does not include the following: if the Subscriber or user uses the SIM card pertaining to the tariff package inserted in a non-mobile phone; making automated calls that do not require the personal involvement of the user; making mass calls (the duration of which exceeds the 10% of the total duration of outgoing calls) to automated call receiving devices, equipment (such as, but not exclusively to IVR); making mass calls in order to test, make trial runs or to test the resilience or vulnerability etc. of services, technical instruments or equipment; making calls that regularly exceed 180 minutes per day for the remote monitoring of people, structures, events, etc. (e.g. but not exclusively: asset protection, baby monitoring functions); making calls for establishing machine-to-machine connection (M2M); making or diverting calls in a total duration of more than 24 hours per day; making mass calls or sending bulk SMS of which the Service Provider has reasonable grounds to believe having been made to gain direct benefit by the Subscriber, the User or any other third parties at the expense of the Service Provider. It is strictly prohibited to use the tariff package with devices

that do not have their own display, speaker, microphone and keyboard (including touch-screen keyboard), such as for example adapter, modem. The service packages shall not be used in an abusive manner, among others, for telemarketing, customer service activities or other business purposes. Abusive use shall include the behaviour of sending SMS and MMS messages in a manner contrary to the conditions of personal use, where the number of SMS/MMS messages sent via the subscription exceeds several hundred per day, or the proportion of the number of SMS/MMS messages sent via the subscription involved and that of their recipients exceeds 10%, or the proportion of the number of SMS/MMS messages and that of the replies to them is lower than 80%, or the SMS/MMS messages are sent by the subscriber typically from one location. In the event of abusive use, or the violation of the conditions of personal use, after prior notice from the Service Provider, the service will be available to the Subscriber according to the conditions of the Small Enterprise Basic Tariff.

The Conference Call service is not available with Business EU Red tariff packages.

In foreign countries the valid Roaming tariffs will apply. The detailed description of the Vodafone EU Roaming service is in point 5.5 of this Annex called List of Rates.

The charges of international calls are contained in Section 9 of this Annex.

Egyszeri Kiegészítő Adat (supplemental option)

Supplemental data options can be purchased for the Business EU Red 3GB and Business EU Red 12GB tariff packages, the detailed description of which is contained in the following table. Supplemental options may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the Business EU Red subscription belongs.

Available Kiegészítő Data option	Data volume included	Fee (gross)	Service package for which it is available:
Kiegészítő Adat 1 GB	1 GB	HUF 1,500	Business EU Red 3GB, Business EU Red 12GB
Kiegészítő Adat 3 GB	3 GB	HUF 3,500	Business EU Red 3GB, Business EU Red 12GB
Kiegészítő Adat 12 GB	12 GB	HUF 6,499.99	Business EU Red 12GB

If an Egyszeri Kiegészítő Adat option is not completely used by the time of purchasing the next Egyszeri Kiegészítő Adat option, the unused remaining data traffic of the existing supplemental data option will be lost. The supplemental data option may be used until the end of the billing cycle, with the same terms as those applicable to the data traffic included in the monthly fee of the service package. Within a billing cycle, any number of Egyszeri Kiegészítő Adat option can be purchased, which is a non-renewable option that has to be repurchased in every billing cycle, if needed.

2.5.32. Business EU Red 3GB, Business EU Red 12GB and Business EU Red Superior tariff packages for Medium and Large Enterprise Subscribers

The Business EU Red tariff packages were reclassified as commercially unavailable as of 1 July 2019.

The prices indicated in the following tables are net prices, not including VAT. In the service packages billing is performed in units of 1 second.

	Business EU Red 3GB	Business EU Red 12GB	Business EU Red Superior

With Business EU Red 3GB and Business EU Red 12GB tariff packages, Business MultiNet (mobile internet based) tariff packages are available, which can be used only with the Business EU Red 3GB or Business EU Red 12GB service package, as secondary SIMs. In case of Business EU Red 3GB and Business EU Red 12GB tariff packages with divisible data traffic (primary SIM), in the associated Business MultiNet tariff packages (secondary SIM), the data traffic may be used domestically, and also abroad according to the applicable Roaming rates, and, if the Vodafone EU Roaming service is activated, in the territory where the Vodafone EU Roaming service is valid.

Business MultiNet packages:

	Business MultiNet Mifi	Business MultiNet SIM
Initial costs		
Registration fee (HUF)	-	-
Monthly fees		
Monthly subscription fee (HUF) with indefinite-term contract, contracts of a 1 or 2-year fixed term	0	0
Data traffic included in the monthly fee	the same as a Business EU Red 3GB or Business EU Red 12GB package, divided with it	
Offered bandwidth above the divisible data traffic per month (download and upload speed – Mbit/s)	0/0	0/0
Guaranteed speed	See section 4.1 of the GTC	
SMS to any domestic network (HUF)	24	24

The unlimited airtime minutes and SMS/MMS messages included in the monthly fee of the Business EU Red 3GB, Business EU Red 12GB and Business EU Red Superior tariff packages apply to standard-rate calls and sent SMS and MMS messages domestically and abroad according to the applicable Roaming rates. Domestic standard-rate directions mean standard-rate calls made to the domestic network of Vodafone and other mobile service providers, standard-rate calls made to domestic fixed-line numbers, standard-rate SMS messages, standard-rate MMS messages, and in case of Business EU Red service packages – as far as fees are concerned – domestic standard-rate directions also mean calls made to special-rate numbers (e.g. voicemail).

The limitlessness included in the monthly fee of the Business EU Red tariff packages shall apply only to standard-rate and special-rate domestic and standard-rate and special-rate (green numbers) international calls to the Red EU International tariff zone, and to standard-rate and special-rate SMS messages sent to a domestic network and standard-rate and special-rate (green numbers) SMS messages sent to the Red EU international network. The area of the Red EU International tariff zone is defined in Annex 9 of this List of Rates. The charges of international calls outside the Red EU International tariff zone are contained in Section 9 of this Annex.

The domestic data traffic included in the monthly charge can be used domestically and, according to the applicable Roaming charges, abroad.

The volume included in the monthly fee can be used during any part of the day without time restrictions. Billing unit: 10 Kbyte. Guaranteed speed according to Section 4.1 of the GTC.

The monthly data traffic included in the Business EU Red 3GB and Business EU Red 12GB tariff packages can be fully divided between two SIM cards (one voice and data-based card and one exclusively mobile internet-based card). If the Subscriber does not use up the monthly volume limit included in the monthly fee, the remaining part cannot be rolled over to the next billing cycle. After using up the data volume included in the monthly fee, internet access is discontinued until the end of the billing cycle.

With the Business EU Red Superior service package, Subscribers get 480p video resolution for playing video content. This resolution provides quality optimised for mobile phones; on devices with larger screens, image quality may be less favourable. The optimisation can be cancelled by dialling 1270.

After using up the data volume included in the Business EU Red 3GB and Business EU Red 12GB monthly fee, and if prior to using up the data volume included in the monthly fee, a supplemental data option or options is/are purchased once or several times on the Netinfo page, after using up the data volume included in such supplemental data option then in the monthly fee, an automatically activated Automatikus Kiegészítő Adat option containing 200 MB data traffic is associated with the Business EU Red 3GB and Business EU Red 12GB tariff packages, once per billing cycle, the fee of which can be found in the tariff table. The data traffic of the Automatikus Kiegészítő Adat 200 MB option can be used until the end of the given billing cycle, and is not divisible. The Automatikus Kiegészítő Adat 200 MB option is renewed monthly but is only activated and billed upon continuing data use after the data volume included in the monthly fee or supplemental data option(s) is exhausted. After the data volume included in the Automatikus Kiegészítő Adat 200 MB option is used up, the internet service is discontinued.

Before using up the data volume included in the monthly fee, or after using up the data volume included in the Automatikus Kiegészítő Adat option, a Kiegészítő Adat option needs to be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded after the data volume included in the Automatikus Kiegészítő Adat option is exhausted. If the Subscriber has exhausted the data volume included in the package and the Automatikus Kiegészítő Adat option, Internet service will not be available for it until the end of the billing cycle. When the billing cycle ends, the service is restarted.

The Business MultiNet card only provides data transmission service; no voice services are available thereon. Only customers who have subscriptions for new or existing Business EU Red 3GB or Business EU Red 12GB packages are eligible for Business MultiNet tariffs. Maximum 1 Business MultiNet package can be purchased in the offer with a single subscription for Business EU Red 3GB or Business EU Red 12GB. The Subscriber is eligible for the Business MultiNet package, as long as he maintains his fixed or indefinite-term Business EU Red 3GB or Business EU Red 12GB subscription. If the primary subscription concluded for the tariff packages is cancelled or changed, we will convert SIM card 2 to Internet Basic tariff.

In the case of the Business MultiNet tariffs, after using up the monthly data traffic limit, a supplemental option needs to be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. When the billing cycle ends, the service is restarted. Guaranteed speed according to Section 4.1 of the GTC.

In the case of the Business EU Red 3GB and Business EU Red 12GB tariff packages, the Subscriber, who/which, after having exhausted the data limit included in the package, divides the divisible supplemental data options that can be ordered by the Subscriber or other users of secondary SIM card belonging to Business MultiNet tariffs as authorized by Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>) for continuing Internet use until account closure, is only able to monitor his own data use on the Netinfo page (<http://netinfo.vodafone.hu>), for technical reasons, and does not have any information on the specific amount of data traffic of the secondary SIM card that may use the divisible data volume. If the user of the secondary SIM card belonging to the Business MultiNet tariff, who has been duly authorized by the Subscriber on the Netinfo page (<http://netinfo.vodafone.hu>), orders a supplemental data option, the fee or the supplemental data option shall be invoiced to and payable by the Subscriber of the primary SIM card.

The Business EU Red 3GB, Business EU Red 12 GB and Business EU Red Superior tariff packages can only be used in compliance with the terms of use for Medium and Large Enterprise Subscribers, to satisfy the personal communication needs of natural person users (personal use). Intended personal use does not include the following: if the Subscriber or user uses the SIM card pertaining to the tariff package inserted in a non-mobile phone; making automated calls that do not

require the personal involvement of the user; making mass calls (the duration of which exceeds the 10 % of the total duration of outgoing calls) to automated call receiving devices, equipment (such as, but not exclusively to IVR); making mass calls in order to test, make trial runs or to test the resilience or vulnerability etc. of services, technical instruments or equipment; making calls that regularly exceed 180 minutes per day for the remote monitoring of people, structures, events, etc. (e.g. but not exclusively: asset protection, baby monitoring functions); making calls for establishing machine-to-machine connection (M2M); making or diverting calls in a total duration of more than 24 hours per day; making mass calls or sending bulk SMS of which the Service Provider has reasonable grounds to believe having been made to gain direct benefit by the Subscriber, the User or any other third parties at the expense of the Service Provider. It is strictly prohibited to use the tariff packages with devices that do not have their own display, speaker, microphone and keyboard (including touch-screen keyboard), such as for example adapter, modem. The service packages shall not be used in an abusive manner, among others, for telemarketing, customer service activities or other business purposes. Abusive use shall include the behaviour of sending SMS and MMS messages in a manner contrary to the conditions of personal use, where the number of SMS/MMS messages sent via the subscription exceeds several hundred per day, or the proportion of the number of SMS/MMS messages sent via the subscription involved and that of their recipients exceeds 10%, or the proportion of the number of SMS/MMS messages and that of the replies to them is lower than 80%, or the SMS/MMS messages are sent by the subscriber typically from one location. In the event of abusive use, or the violation of the conditions of personal use, after prior notice from the Service Provider, the service will be available to the Subscriber according to the conditions of the Medium and Large Enterprise Basic Tariff.

The Conference Call service is not available with Business EU Red tariff packages.

In foreign countries the valid Roaming tariffs will apply. The detailed description of the Vodafone EU Roaming service is in point 5.5 of this Annex called List of Rates.

The charges of international calls are contained in Section 9 of Annex 1 on Tariffs.

Egyszeri Kiegészítő Adat (supplemental option):

Supplemental data options can be purchased for the Business EU Red 3GB and Business EU Red 12GB tariff packages, the detailed description of which is contained in the following table. Supplemental options may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the Business EU Red 3GB or Business EU Red 12GB subscription belongs.

Available Kiegészítő Data option	Data volume included	Fee (net)	Service package for which it is available
Kiegészítő Adat 1 GB	1 GB	HUF 1428.58	Business EU Red 3GB, Business EU Red 12GB
Kiegészítő Adat 3 GB	3 GB	HUF 3333.34	Business EU Red 3GB, Business EU Red 12GB
Kiegészítő Adat 12 GB	12 GB	HUF 6190.47	Business EU Red 12GB

If an Egyszeri Kiegészítő Adat option is not completely used by the time of purchasing the next Egyszeri Kiegészítő Adat option, the unused remaining data traffic of the existing supplemental data option will be lost. The supplemental data option may exclusively be used by the end of the given billing cycle. Within a billing cycle, any number of Egyszeri Kiegészítő Adat option can be purchased, which is a non-renewable option that has to be repurchased in every billing cycle, if needed.

2.6. Options commercially not available

The following options can be retained subject to the conditions specified for each tariff package. It is not possible to order them.

2.6.1. Reserved for editing purposes

2.6.2. Fixed-line option

A gross option fee of HUF 528,32 per phone number, in addition to the monthly subscription fee, enables the Subscriber to call fixed-line phone numbers at a discounted rate of HUF 7.32 / min gross. Calls are subject to per-minute billing.

2.6.3. SMS 30 option

A gross option fee of HUF 396.88 per phone number, in addition to the monthly subscription fee, enables the customer to send 30 (non-premium rate) text messages to any domestic mobile network, in any time period. Text messages above the limit of 30 are billed according to the standard base rate of the tariff package.

2.6.4. SMS 100 option

A gross option fee of HUF 1,320.8 per phone number, in addition to the monthly subscription fee, enables the customer to send 100 (non-premium rate) text messages to any domestic mobile network, in any time period. Text messages above the limit of 100 are billed according to the standard base rate of the tariff package.

2.6.5. Wireless Office option

A gross option fee of HUF 2,413 per phone number, in addition to the monthly subscription fee, enables HUF 0 minute rates to be used between the Subscriber and other SIM cards belonging to the same group within the network of Vodafone Magyarország Zrt.; this option is only applicable to voice calls. Furthermore, the option also contains the free-of-charge Voicemail and Conference Call services. The Wireless Office option (option fee, discounted minute rate) is only valid for the various subscriptions of the Subscriber within the given tariff package. If the Wireless Office option is purchased, the service fee is included in the monthly option fee. This option must be continuously maintained for all SIM cards belonging to the Subscriber's group.

2.6.6. Zárt Felhasználói Csoport (Closed User Group) option

A gross option fee of HUF 508 per phone number, in addition to the monthly subscription fee, enables discounted minute rates to be used between the Subscriber and phone numbers from the given Closed User Group. The minute rate of such calls is HUF 7.62 gross; calls are subject to per-minute billing. Text messages sent within the Closed User Group cost HUF 6.35. This option must be purchased for all SIM cards belonging to the Subscriber's Closed User Group.

2.6.7. Vodafone business fixed-line number option

The Vodafone Üzleti Fixed-line number service is not available in commerce as of 1 April, 2014; new subscriptions cannot be concluded for the service from the above date. The change does not affect the currently valid individual subscriptions for the concerned service, we continue to provide the already used service under the following unchanged conditions.

The gross monthly fee of the option is HUF 3,750, which includes the following services:

- the use of one geographical (hereinafter referred to as fixed-line) phone number, which enables the Subscriber to receive his fixed-line calls via his mobile phone,
- furthermore, a credit of 1,000 airtime minutes, which may be used for standard, non-premium rate calls into fixed-line (stationary) telephone networks.

This option is available without paying an entry fee.

The 1000 minutes included in the option are billed with the billing unit of the tariff package. Any unused call minutes may not be carried over to the following month. After the 1,000 minutes have been exhausted, further calls, as well as all calls to other directions (from the beginning of the billing period) are invoiced according to the base rate and billing unit of the tariff package.

Provisions regarding the Vodafone business fixed-line number option:

- The fixed-line number is provided, and determined, by the Service Provider in accordance with the mailing address specified by the Subscriber. (Calls received on the fixed-line number are automatically redirected to the mobile device.)
- Fixed-line numbers provided to Subscribers during the use of the service are not portable, those are the property of Vodafone. Should you have any questions about the current status of number portability, please contact our Customer Service.
- Vodafone provides fixed-line numbers in cooperation with its telecommunication partners, thus parties calling a Vodafone Subscriber who uses the option – when calling a fixed-line number – will pay a fee equalling to the fee of calls directed to the telecommunication partner's network in accordance with the charges of the calling party's tariff package.

- It is not possible to redirect calls received on the fixed-line phone number to another number.
- Calls received on the fixed-line phone number can be received via the mobile phone; however, it is not possible to initiate calls from the fixed-line number. Calls are always initiated from the mobile number, at rates according to the Subscriber's (mobile) tariff package.
- If the Subscriber moves from the specified geographical address (and therefore his address changes), this entails a modification in the geographical numbering area, i.e. a change in the area code. The Service Provider assigns a new fixed-line number to the Subscriber, and informs the Subscriber accordingly by text message or phone. In this case, the change of numbers is free of charge.
- If a Subscriber asks for a new fixed-line phone number for a reason other than that described above (moving), the charge of such change is identical with that of a standard number change for mobile phones specified in the General Terms and Conditions.
- The fixed-line phone number is not listed in the telephone directory or with the directory assistance services.
- The fixed-line phone number provided by Vodafone cannot be further ported.
- Vodafone renders the service using mobile phone/UMTS (mobile) technology; therefore:
 - a fax device cannot be connected using the fixed-line phone number.
 - no fixed-line Internet access is possible. (E.g. dial-up Internet access, ADSL, etc.)
 - No alarm system can be connected.
- If the service is suspended, it is deactivated for both the mobile and the fixed-line phone number.
- If a Subscriber requests a transfer of the subscription associated with the mobile number, the fixed-line phone number associated with the subscription will be replaced automatically, and the original fixed-line number cannot be retained.
- If the Subscriber
 - cancels the option, or
 - terminates his subscriber relationship,
 the Service Provider also withdraws the fixed-line number.
- The use of SIM cards belonging to this option in mobile phone adapters is prohibited. Failing to comply with this requirement leads to the termination of the provision of the option, and in this case the Subscriber is not entitled to claim back any monthly fees already paid.
- The Vodafone Üzleti Fixed-line number option may be cancelled anytime by sending the code "XVO" to phone number 1270 in a free SMS. The Subscriber can inquire about the Vodafone Üzleti fixed-line number option in free status-query SMS by sending the code "SVO" to phone number 1270.

2.6.8. Cross-border option – Romania

For a gross option fee of HUF 1,300 per phone number in addition to the monthly subscription fee, the customer may initiate standard international and calls to the Romanian fixed-line network and to Vodafone's Romanian network for HUF 40 gross. Calls are subject to per-minute billing. The discounted minute rate provided in this option is not applicable to roaming calls.

2.6.9 SMS Mini option

The SMS Mini option tariff packages were reclassified as commercially unavailable as of 30 April, 2016.

A gross option fee of HUF 600 per phone number, in addition to the monthly subscription fee, enables the customer to send 30 (non-premium rate) text messages to any domestic mobile network, in any time period. Text messages above the limit of 30 are billed according to the standard base rate of the tariff package.

2.6.10. SMS Maxi option

The SMS Maxi option was reclassified as commercially unavailable as of 30 April 2016.

A gross option fee of HUF 1,700 per phone number, in addition to the monthly subscription fee, enables the customer to send 100 (non-premium rate) text messages to any domestic mobile network, in any time period. Text messages above the limit of 100 are billed according to the standard base rate of the tariff package

2.6.11. Weekend minutes option

The Weekend minutes option was reclassified as commercially unavailable as of 30 April 2016.

This option includes a credit of 1,000 airtime minutes, which may be used for standard, non-premium rate calls within the network of Vodafone Magyarország Zrt- or into fixed-line (stationary) telephone networks at weekends (Saturday-Sunday from 0-24 o'clock, except for weekend days appointed as working days), as well as on holidays and other non-working days. The gross monthly fee of the option is HUF 1,700, which must be paid for each phone number in addition to the monthly

subscription fee. The billing unit is identical with that used in the tariff package. Any unused call minutes may not be carried over to the following billing period. After the 1,000 minutes have been exhausted, further calls are billed according to the base rate of the tariff package. If this option is purchased, no conference calls can be made.

2.6.12. Evening minutes option

The Evening minutes option was reclassified as commercially unavailable as of 30 April 2016.

This option includes a credit of 1,000 airtime minutes, which may be used for standard, non-premium rate calls within the network of Vodafone Magyarország Zrt. or into fixed-line (stationary) telephone networks from 9 pm to 7 am on working days. The gross monthly fee of the option is HUF 1,100, which must be paid for each phone number in addition to the monthly subscription fee. The billing unit is identical with that used in the tariff package. Any unused call minutes may not be carried over to the following billing period. After the 1,000 minutes have been exhausted, further calls are billed according to the base rate of the tariff package. If this option is purchased, no conference calls can be made.

2.6.13. Supplemental options available for Okos Rádás service packages until 01 June 2016:

PluszAdat (supplemental option) for Okos Rádás Red EU Standard and Okos Rádás Red EU Premium packages

supplemental data option (PluszAdat) can be purchased for Okos Rádás Red EU Standard and Okos Rádás Red EU Premium service packages, the detailed description of which is included in the below table.

XL supplemental option	8,000	Sending 30 SMS messages free of charge to any domestic, standard rate network + Sending 15 MMS messages free of charge to any domestic, standard rate network + 10% monthly fee discount from the monthly fee of any Office 365 service + 1 x free Európa (Europe) Daily Ticket per billing cycle

The Business MultiNet card (secondary SIM) only provides data transmission service, while voice services are not available therewith. If the primary subscription is cancelled or changed, then we will convert SIM card 2 to Internet Basic tariff.

In case of a Business MultiNet option, the Subscriber, who/which shares the domestic data limit included in the tariff (or purchased additionally by the Subscriber or other users of the secondary Business MultiNet tariff) is only able to monitor his own data use on the Netinfo page (<http://netinfo.vodafone.hu>), for technical reasons, i.e., the data use related to the primary SIM card. Accordingly, he does not have any information on the actual extent of the data use of the secondary SIM card (cards) that may also use the divisible data volume. If the user of secondary Business MultiNet tariff purchases a supplemental option on the Netinfo page (<http://netinfo.vodafone.hu>), the fee of the option shall be paid by the Subscriber of the MultiNet option. The user of secondary Business MultiNet SIM card can only purchase a supplemental option, if he has been duly authorized by the Subscriber of the MultiNet option on the Netinfo page (<http://netinfo.vodafone.hu>). Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle. Guaranteed speed above the data traffic included in the monthly subscription fee (download/upload Mbit/s) is determined in accordance with section 4.1 of the GTC.

In case of the MultiNet options, Subscriptions having MultiNet options with divisible data traffic (primary SIM) on the roaming networks determined by the Service Provider, and Világ Napijegy on the related Business MultiNet tariff packages (secondary SIM) are billed automatically per SIM card, on the basis of the first billable event generated by the Subscriber on

the SIM card (call initiated or received, SMS sent, or data downloaded or uploaded in a roaming environment) on the concerned calendar day, and subsequently the Subscriber can make phone calls, send SMS and use the available data volume on the SIM card in question at favourable rates (section 5.2). Subscribers who are entitled to use the Netinfo page (<http://netinfo.vodafone.hu>) thanks to their tariffs or data option can conduct data traffic abroad up to and from their data limit that is allowed by their tariffs in a domestic relation. Within the validity period, after exhausting the data limit, data options can be purchased, otherwise we will slow down the speed of internet access to 0/0 Mbit/s.

The description and terms of use of the Világ Napijegy (World Daily Ticket) are contained in Section 5.2.2 of this Annex 1.

Plusz Osztható Adat (supplemental option)

Supplemental divisible data option (Plusz Osztható Adat) can be purchased for the MultiNet option, the data quantity of which may be used with the SIM card of the MultiNet option and the SIM card of MultiNet tariff.

Plusz Osztható Adat can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and handset to which the MultiNet option or MultiNet subscription belongs.

The fee of the Plusz Osztható Adat supplemental option is charged in all cases to the voice-based subscription, that is, the package that orders the MultiNet option.

Available Plusz Osztható Adat	Domestic data volume included	Fee (gross)	Service package
Plusz Osztható Adat 100 MB	100 MB	HUF 620.13	MultiNet 3 GB MultiNet 8 GB MultiNet 12 GB MultiNet 20 GB
Plusz Osztható Adat 1 GB	1 GB	HUF 1,653.54	
Plusz Osztható Adat 3 GB	3 GB	HUF 2472.05	MultiNet 8 GB MultiNet 12 GB MultiNet 20 GB

If a Plusz Osztható Adat option is not completely used by the time of purchasing the next Plusz Osztható Adat option, the unused remaining data traffic of the existing Plusz Osztható Adat (supplemental option) will be lost. The Plusz Osztható Adat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat options can be purchased in a billing cycle. PluszAdat options are non-renewable options that have to be repurchased in every billing cycle, if needed.

Kiegészítő Adat (supplemental option) for Business MultiNet Basic subscription contracts concluded after 1 June 2016:

Kiegészítő Adat option may be purchased for the Business MultiNet Basic tariff packages anytime within the billing cycle, described in detail in the following table. The Kiegészítő Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the Business MultiNet subscription belongs.

Available Kiegészítő Data option From 1 June 2016:	Domestic data volume included	Fee (gross)
Kiegészítő Adat 500 MB	500 MB	HUF 826.77
Kiegészítő Adat 1 GB	1 GB	HUF 1,653.54
Kiegészítő Adat 5 GB	5 GB	HUF 4,133.87

If a Kiegészítő Adat option is not completely used by the time of purchasing the next Kiegészítő Adat option, the unused remaining data traffic will be lost. The Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of Kiegészítő Adat options can be purchased in a billing cycle. Kiegészítő Adat is a non-renewable option that has to be repurchased in every billing cycle, if needed.

Monthly renewable Kedvezményes (Preferential) Kiegészítő Adat (supplemental option) for Business MultiNet subscription contracts concluded after 1 June 2016:

A monthly renewable Kedvezményes (Preferential) Kiegészítő Adat option may be purchased to the Business MultiNet Basic tariff packages, which supplemental option is a renewable option, reactivated every billing cycle, i.e. it will not have to be reordered. The monthly renewable Kedvezményes Kiegészítő Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the Business MultiNet subscription belongs.

By purchasing the Kedvezményes Kiegészítő Adat option (supplemental option) the Subscriber agrees that during the fixed term associated with its Business MultiNet Basic subscription it shall also maintain the supplemental option, and the option

shall not be cancelled during this period due to reasons arising within the Subscriber's scope of interest. If the above conditions are not met, the Subscriber shall pay liquidated damages in the amount of the discount calculated versus the Kiegészítő Adat option available to the Subscriber, as detailed in Section 12.7 of the GTC.

In case of Preferential Kiegészítő Adat 1 GB option, the discount versus Kiegészítő Adat 1 GB (HUF 1,653.54) option is: HUF 826.77 per month.

In case of Preferential Kiegészítő Adat 5 GB option, the discount versus Kiegészítő Adat 5 GB (HUF 4,133.87) option is: HUF 826.77 per month.

In case of Preferential Kiegészítő Adat 10 GB option, the discount versus the proportional fee taking into account the domestic data volume included in the Kiegészítő Adat 5 GB (HUF 4,133.87) option is: HUF 3,307.10 per month.

Available Kedvezményes (Preferential) Kiegészítő Adat option After 1 June 2016	Domestic data volume included	Fee (gross)
Kedvezményes Kiegészítő Adat 1 GB	1 GB	HUF 826.77
Kedvezményes Kiegészítő Adat 5 GB	5 GB	HUF 3,307.10
Kedvezményes Kiegészítő Adat 10 GB	10 GB	HUF 4,960.64

If the monthly renewable Kedvezményes Kiegészítő Adat is not completely used in the given billing period, its unused remaining data traffic will be lost. The monthly renewable Kedvezményes Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of Kiegészítő Adat option may be purchased in addition to the monthly renewable Kedvezményes Kiegészítő Adat option in a given billing period.

2.6.14.2. MultiNet options available to Medium and Large Enterprise Subscribers

The MultiNet options available for Middle and Large Enterprise Subscribers may be used with the commercially available Red and Ready Business service packages, as well as with those Internet options including non-divisible data traffic with which the Netinfo page is allowed to be used.

Maximum 1 MultiNet option can be activated for a single subscription.

The prices indicated in the tables of this section are net prices, not including VAT.

The available MultiNet options are included in the following table.

MultiNet option	Net monthly fee (HUF) with 2-year fixed-term contract	Data quantity included in the option above the monthly fee of the tariff
MultiNet 3 GB option	2,354.33	3 GB
MultiNet 8 GB option	3,141.73	8 GB
MultiNet 12 GB option	4,322.83	12 GB
MultiNet 20 GB option	5,897.64	20 GB

If the Subscriber does not use up the monthly traffic limit included in the monthly fee, the remaining part cannot be rolled over to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. Billing unit: 10 Kbyte.

The Business MultiNet (mobile internet based) tariff packages included in the following table are available for the MultiNet option, which may only be used with the above MultiNet option, as secondary SIM cards, by sharing the domestic data traffic included in the MultiNet option:

Business MultiNet Base tariffs available after 1 June 2016:

	Business MultiNet Basic Mifi	Business MultiNet Basic SIM
Initial costs		
Entry fee (HUF)	-	-
Monthly fees		
Monthly subscription fee (HUF) with an indefinite term contract	7,874	7,874
Monthly subscription fee (HUF) with contracts of a 2-year fixed term	393.7	393.7
Domestic data traffic included in the monthly fee	same as in MultiNet option, shared therewith	
Offered bandwidth above monthly divisible data traffic (download/upload, Mbit/s)	0/0	0/0
Guaranteed speed	in accordance with section 4.1 of the GTC	
SMS to any domestic network (HUF)	24	30.48

For subscription contracts concluded after 1 June 2016, Business MultiNet Basic packages are available without handset purchase. In case of handset purchase, the Subscriber shall choose from the following supplemental options:

Supplemental option	Monthly subscription fee of the option (HUF) with contracts of a 2-year fixed term	Content of the option for Business MultiNet Basic tariffs
S supplemental option	787.4	Sending 30 SMS messages free of charge to any domestic, standard rate network
M supplemental option	1,574.8	Sending 30 SMS messages free of charge to any domestic, standard rate network + Sending 15 MMS messages free of charge to any domestic, standard rate network
L supplemental option	3,937.00	Sending 30 SMS messages free of charge to any domestic, standard rate network + Sending 15 MMS messages free of charge to any domestic, standard rate network + 10% monthly fee discount from the monthly fee of any Office 365 service
XL supplemental option	6,299.21	Sending 30 SMS messages free of charge to any domestic, standard rate network + Sending 15 MMS messages free of charge to any domestic, standard rate network + 10% monthly fee discount from the monthly fee of any Office 365 service + 1 x free Világ (World) Daily Ticket per billing cycle

The Business MultiNet card (secondary SIM) only provides data transmission service, while voice services are not available therewith. If the primary subscription is cancelled or changed, then we will convert SIM card 2 to Internet Basic tariff.

In case of a MultiNet option, the Subscriber or the User, who/which shares the domestic data limit included in the tariff (or purchased additionally by the Subscriber or other users of the secondary Business MultiNet tariff) is only able to monitor his own data use on the Netinfo page (<http://netinfo.vodafone.hu>), for technical reasons, i.e., the data use related to the primary SIM card. Accordingly, he does not have any information on the actual extent of the data use of the secondary SIM card that he may also use the divisible data volume. If the user of secondary Business MultiNet tariff purchases a supplemental option on the Netinfo page (<http://netinfo.vodafone.hu>), the fee of the option shall be paid by the Subscriber of the MultiNet option. The user of secondary Business MultiNet SIM card can only purchase a supplemental option, if he has been duly authorized by the Subscriber of the MultiNet option on the Netinfo page (<http://netinfo.vodafone.hu>). Without purchasing a data option, the data traffic cannot be exceeded. If the Subscriber has exhausted the data volume included in the package, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle. Guaranteed speed above the data traffic included in the monthly subscription fee (download/upload Mbit/s) is determined in accordance with section 4.1 of the GTC.

In case of the MultiNet options, Subscriptions having MultiNet options with divisible data traffic (primary SIM) on the roaming networks determined by the Service Provider, and Világ Napijegy on the related Business MultiNet tariff packages (secondary SIM) are billed automatically per SIM card, on the basis of the first billable event generated by the Subscriber on the SIM card (call initiated or received, SMS sent, or data downloaded or uploaded in a roaming environment) on the concerned calendar day, and subsequently the Subscriber can make phone calls, send SMS and use the available data volume on the SIM card in question at favourable rates (section 5.2). Subscribers who are entitled to use the Netinfo page (<http://netinfo.vodafone.hu>) thanks to their tariffs or data option can conduct data traffic abroad up to and from their data limit that is allowed by their tariffs in a domestic relation. Within the validity period, after exhausting the data limit, data options can be purchased, otherwise we will slow down the speed of internet access to 0/0 Mbit/s.

The description and terms of use of the Világ Napijegy (World Daily Ticket) are contained in Section 5.2.2 of this Annex 1.

Plusz Osztható Adat (supplemental option)

Supplemental divisible data option (Plusz Osztható Adat) can be purchased for the MultiNet option, the data quantity of which may be used with the SIM card of the MultiNet option and the SIM card of MultiNet tariff.

Plusz Osztható Adat can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and device, to which the MultiNet option or MultiNet subscription belongs.

The fee of the Plusz Osztható Adat supplemental option is charged in all cases to the voice-based subscription, that is, the package that orders the MultiNet option.

Available Plusz Osztható Adat	Domestic data volume included	Fee (net)	Service package
Plusz Osztható Adat 100 MB	100 MB	HUF 590.6	MultiNet 3 GB MultiNet 8 GB MultiNet 12 GB MultiNet 20 GB
Plusz Osztható Adat 1 GB	1 GB	HUF 1574.8	
Plusz Osztható Adat 3 GB	3 GB	HUF 2354.3	MultiNet 8 GB MultiNet 12 GB MultiNet 20 GB

If a Plusz Osztható Adat option is not completely used by the time of purchasing the next Plusz Osztható Adat option, the unused remaining data traffic of the existing Plusz Osztható Adat (supplemental option) will be lost. The Plusz Osztható Adat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat options can be purchased in a billing cycle. PluszAdat options are non-renewable options that have to be repurchased in every billing cycle, if needed.

Kiegészítő Adat (supplemental option) for Business MultiNet subscription contracts concluded after 1 June 2016:

Kiegészítő Adat option may be purchased for the Business MultiNet tariff packages anytime within the billing cycle, described in detail in the following table. The Kiegészítő Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the Business MultiNet subscription belongs.

Available Kiegészítő Data option After 1 June 2016	Domestic data volume included	Fee (net)
Kiegészítő Adat 500 MB	500 MB	HUF 787.4
Kiegészítő Adat 1 GB	1 GB	HUF 1,574.8
Kiegészítő Adat 5 GB	5 GB	HUF 3,937

If a Kiegészítő Adat option is not completely used by the time of purchasing the next Kiegészítő Adat option, the unused remaining data traffic will be lost. The Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of Kiegészítő Adat options can be purchased in a billing cycle. Kiegészítő Adat is a non-renewable option that has to be repurchased in every billing cycle, if needed.

Monthly renewable Kedvezményes (Preferential) Kiegészítő Adat (supplemental option) for Business MultiNet subscription contracts concluded after 1 June 2016:

A monthly renewable Kedvezményes (Preferential) Kiegészítő Adat option may be purchased to the Business MultiNet tariff packages, which supplemental option is a renewable option, reactivated every billing cycle, i.e. it will not have to be reordered. The monthly renewable Kedvezményes Kiegészítő Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the Business MultiNet subscription belongs.

By purchasing the Kedvezményes Kiegészítő Adat option (supplemental option) the Subscriber agrees that during the fixed term associated with its Business MultiNet Basic subscription it shall also maintain the supplemental option, and the option shall not be cancelled during this period due to reasons arising within the Subscriber's scope of interest. If the above conditions are not met, the Subscriber shall pay liquidated damages in the amount of the discount calculated versus the Kiegészítő Adat option available to the Subscriber, as detailed in Section 12.7 of the GTC.

In case of Kedvezményes Kiegészítő Adat 1 GB option, the discount versus Kiegészítő Adat 1 GB (HUF 1,574.8 net) option is: HUF 787.4 net per month

In case of Kedvezményes Kiegészítő Adat 5 GB option, the discount versus Kiegészítő Adat 5 GB (HUF 3,937 net) option is: HUF 787.4 net per month

In case of Kedvezményes Kiegészítő Adat 10 GB option, the discount versus the proportional fee taking into account the domestic data volume included in the Kiegészítő Adat 5 GB (HUF 3,937) option is: HUF 3,149.61 net per month

Kedvezményes (Preferential) Kiegészítő Adat data option available versions after 1 June 2016	Domestic data volume included	Fee (net)	Service package
Kedvezményes Kiegészítő Adat 1 GB	1 GB	HUF 787.4	Business MultiNet Basic
Kedvezményes Kiegészítő Adat 5 GB	5 GB	HUF 3,937	
Kedvezményes Kiegészítő Adat 10 GB	10 GB	HUF 4,724.41	

If the monthly renewable Kedvezményes Kiegészítő Adat is not completely used in the given billing period, its unused remaining data traffic will be lost. The monthly renewable Kedvezményes Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of Kiegészítő Adat option may be purchased in addition to the monthly renewable Kedvezményes Kiegészítő Adat option in a given billing period.

2.6.15. Mandatory supplementary options for Business EU 500MB, Business EU 2GB and Business EU 10GB tariff packages in the case of a handset purchase

The following mandatory supplementary options available for Business EU 500MB, Business EU 2GB and Business EU 10GB tariff packages in the case of a handset purchase are not marketed as of 1 February 2018.

The Business EU 500MB, Business EU 2GB and Business EU 10GB tariff packages offered for tariff packages are available without any handset purchase. In the case of a handset purchase, the Subscriber shall choose from the following supplementary options

The monthly fees for the Supplemental option of the EU 500MB, Business EU 2GB and Business EU 10GB tariff package also include handset insurance service, as indicated in the above service package table. The terms of using the handset insurance service are specified in Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time. The handset insurance service is only provided for handsets purchased from Vodafone no more than 60 days to date (including Vodafone Red EU packages), and Vodafone does not provide this service for devices purchased prior to the above date. Terminating the handset insurance service in accordance with Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time, shall not result in the change of the monthly fee of the above mentioned service packages. If the criteria of using the handset insurance service have been met, a discount from the monthly fee of the tariff package is provided that equals to the monthly fee of the service. Terminating the handset insurance service in accordance with Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time, shall not result in the change of the monthly fee of the tariff package.

The description and terms of use of the Vezetékes telefonszám 1000 (Fixed-line phone number 1000) option are contained in Section 3.15 of this List of Rates.

The description and conditions of use of the Office 365 corporate basic package (a cloud-based O365 service only available online) (Microsoft name: Office 365 Business Essentials) are provided in section 12 of the Contractual Terms and Conditions of Other Services.

2.6.16. Mandatory supplementary options for Small Business Red EU 2GB, Business Red EU 10GB and Business Red EU 30GB tariff packages in the case of a handset purchase

The following mandatory supplementary options available for Small Business Red EU 2GB, Business Red EU 10GB and Business Red EU 30GB tariff packages in the case of a handset purchase are not marketed as of 1 February 2018.

Business Red EU 2GB, Business Red EU 10GB and Business Red EU 30GB tariff packages are available without handset purchase. In case of handset purchase, the Subscriber shall choose from supplemental options.

Supplemental option	The monthly subscription fee of the option (HUF) With contracts of a 2-year fixed term	Content of the option for Business Red EU 2GB tariff	Content of the option for Business Red EU 10GB tariff	Content of the option for Business Red EU 30GB tariff

--	--	---	--	--

The Business MultiNet (mobile internet based) tariff packages are available for the Business Red EU 2GB, Business Red EU 10GB and Business Red EU 30GB tariff packages

The Business MultiNet packages are available without handset purchase. In case of handset purchase, the Subscriber shall choose from the following supplemental options:

Supplemental option	Monthly subscription fee of the option (HUF) with contracts of a 2-year fixed term	Content of the option for Business MultiNet tariffs
S supplemental option	1,000	Basic handset insurance
M supplemental option	2,000	Basic handset insurance + Sending 15 MMS messages free of charge to any domestic, standard rate network
L supplemental option	5,000	Basic handset insurance + Sending 15 MMS messages free of charge to any domestic, standard rate network + 10% monthly fee discount from the monthly fee of any Office 365 service
XL supplemental option	8,000	Basic handset insurance + Sending 15 MMS messages free of charge to any domestic, standard rate network + 10% monthly fee discount from the monthly fee of any Office 365 service + 1 x free Világ (World) Daily Ticket per billing cycle

The monthly fees for the Supplemental option of the Business Red EU 2GB, Business Red EU 10GB and Business Red EU 30GB tariff packages also include handset insurance service, as indicated in the above service package table. The terms of using the handset insurance service are specified in Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time. The handset insurance service is only provided for handsets purchased from Vodafone no more than 60 days to date (including Vodafone Red EU packages), and Vodafone does not provide this service for devices purchased prior to the above date. Terminating the handset insurance service in accordance with Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time, shall not result in the change of the monthly fee of the above mentioned service packages. If the criteria of using the handset insurance service have been met, a discount from the monthly fee of the tariff package is provided that equals to the monthly fee of the service. Terminating the handset insurance service in accordance with Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time, shall not result in the change of the monthly fee of the tariff package.

ReadyPay service:

Mobile payment card acceptance service. The Service enables acceptance of payment by magnetic stripe cards, chip cards and contactless cards, as well as mobile phones with the help of a smart device with access to the Internet and a mobile card reader terminal (mPOS).

The Service may only be used with the iCMP terminal available in the range of products offered by Vodafone.

The sale and purchase of the iCMP mobile card acceptance terminal is subject to a separate contract of sale.

The ReadyPay service is otherwise governed by the Terms of Use for Other Services, the acceptance of which is specifically required to be able to use the ReadyPay service.

The description and terms of use of the Világ Napijegy (World Daily Ticket) tariff are contained in Section 5.2.2 of this Annex.

The description and terms of use of the Vezetékes telefonszám 1000 (Fixed-line phone number 1000) option are contained in Section 3.15 of this List of Rates.

The description and conditions of use of the Office 365 corporate basic package (a cloud-based O365 service only available online) (Microsoft name: Office 365 Business Essentials) are provided in section 12 of the Contractual Terms and Conditions of Other Services.

2.6.17. Mandatory supplementary options for Medium and Large Business Red EU 2GB, Business Red EU 10GB and Business Red EU 30GB tariff packages in the case of a handset purchase

The following mandatory supplementary options for Medium and Large Business Red EU 2GB, Business Red EU 10GB and Business Red EU 30GB tariff packages in the case of a handset purchase are not marketed as of 1 February 2018.

Business Red EU 2GB, Business Red EU 10GB and Business Red EU 30GB tariff packages are available without handset purchase. In case of handset purchase, the Subscriber shall choose from supplemental options.

Supplemental option	The monthly subscription fee of the option (HUF) With contracts of a 2-year fixed term	Content of the option for Business Red EU 2GB tariff	Content of the option for Business Red EU 10GB tariff	Content of the option for Business Red EU 30GB tariff

The Business MultiNet (mobile internet based) tariff packages are available for the Business Red EU 2GB, Business Red EU 10GB and Business Red EU 30GB tariff packages

The Business MultiNet packages are available without handset purchase. In case of handset purchase, the Subscriber shall choose from the following supplemental options:

Supplemental option	Monthly subscription fee of the option (HUF) with contracts of a 2-year fixed term	Content of the option for Business MultiNet tariffs
S supplemental option	787,4	Basic handset insurance
M supplemental option	1 574,8	Basic handset insurance + Sending 15 MMS messages free of charge to any domestic, standard rate network
L supplemental option	3 937	Basic handset insurance + Sending 15 MMS messages free of charge to any domestic, standard rate network + 10% monthly fee discount from the monthly fee of any Office 365 service
XL supplemental option	6 299,21	Basic handset insurance + Sending 15 MMS messages free of charge to any domestic, standard rate network + 10% monthly fee discount from the monthly fee of any Office 365 service + 1 x free Világ (World) Daily Ticket per billing cycle

The monthly fees for the Supplemental option of the Business Red EU 2GB, Business Red EU 10GB and Business Red EU 30GB tariff packages also include handset insurance service, as indicated in the above service package table. The terms of using the handset insurance service are specified in Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time. The handset insurance service is only provided for handsets purchased from Vodafone no more than 60 days to date (including Vodafone Red EU packages), and Vodafone does not provide this service for devices purchased prior to the above date. Terminating the handset insurance service in accordance with Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time, shall not result in the change of the monthly fee of the above mentioned service packages. If the criteria of using the handset insurance service have been met, a discount from the monthly fee of the tariff package is provided that equals to the monthly fee of the service. Terminating the handset insurance service in accordance with Vodafone's Handset Insurance Information for Customers and the General Terms and Conditions, as amended from time to time, shall not result in the change of the monthly fee of the tariff package.

ReadyPay service:

Mobile payment card acceptance service. The Service enables acceptance of payment by magnetic stripe cards, chip cards and contactless cards, as well as mobile phones with the help of a smart device with access to the Internet and a mobile card reader terminal (mPOS).

The Service may only be used with the iCMP terminal available in the range of products offered by Vodafone.

The sale and purchase of the iCMP mobile card acceptance terminal is subject to a separate contract of sale.

The ReadyPay service is otherwise governed by the Terms of Use for Other Services, the acceptance of which is specifically required to be able to use the ReadyPay service.

The description and terms of use of the Világ Napijegy (World Daily Ticket) tariff are contained in Section 5.2.2 of this Annex.

The description and terms of use of the Vezetékes telefonszám 1000 (Fixed-line phone number 1000) option are contained in Section 3.15 of this List of Rates.

The description and conditions of use of the Office 365 corporate basic package (a cloud-based O365 service only available online) (Microsoft name: Office 365 Business Essentials) are provided in section 12 of the Contractual Terms and Conditions of Other Services.

2.6.18 Mandatory supplementary options for MultiNet options offered to Small Business and Medium and Large Corporate Subscribers in the case of a handset purchase

The following supplementary options available for MultiNet options for Small, Medium and Large Business Subscribers upon the purchase of a handset are not marketed as of 1 February 2018.

For subscription contracts concluded after 1 June 2016, Subscribers must choose from the following supplementary options when they purchase a handset for the Business MultiNet Basic packages:

Supplementary option	Monthly subscription fee of the option (HUF) with contracts of a 2-year fixed term (net)	Monthly subscription fee of the option (HUF) with contracts of a 2-year fixed term (gross)	Content of the option for Business MultiNet Basic tariffs
S supplementary option	787.4	1,000	Sending 30 SMS messages free of charge to any domestic, standard-rate network
M supplementary option	1,574.8	2,000	Sending 30 SMS messages free of charge to any domestic, standard rate network + Sending 15 MMS messages free of charge to any domestic, standard-rate network
L supplementary option	3,937.00	5,000	Sending 30 SMS messages free of charge to any domestic, standard rate network + Sending 15 MMS messages free of charge to any domestic, standard rate network + 10% monthly fee discount from the monthly fee of any Office 365 service
XL supplementary option	6,299.21	8,000	Sending 30 SMS messages free of charge to any domestic, standard rate network + Sending 15 MMS messages free of charge to any domestic, standard rate network + 10% monthly fee discount from the monthly fee of any Office 365 service + 1 x free Világ (World) Daily Ticket per billing cycle

The description and terms of use of the Világ Napijegy (World Daily Ticket) are contained in Section 5.2.2 of Annex 1. 'Business Rates' of the GTC.

2.6.19. Mandatory supplementary options for Small Business and Medium and Large Corporate Business Net tariff packages in the case of a handset purchase

The following mandatory supplementary options for Small Business and Medium and Large Corporate Business Net tariff packages in the case of a handset purchase are not marketed as of 1 February 2018.

The Business Net Start, Business Net Medium, Business Net Premium and Business Osztható Net packages are available without handset purchase. In case of handset purchase, the Subscriber shall choose from the following supplemental options:

Supplemental option	Monthly subscription fee of the option (HUF) with contracts of a 2-year fixed term	Content of the option for the Business Net tariffs
S supplemental option	787.4	Sending 30 SMS messages free of charge to any domestic, standard rate network
M supplemental option	1,574.8	Sending 30 SMS messages free of charge to any domestic, standard rate network + Sending 15 MMS messages free of charge to any domestic, standard rate network
L supplemental option	3,937	Sending 30 SMS messages free of charge to any domestic, standard rate network + Sending 15 MMS messages free of charge to any

		domestic, standard rate network + 10% monthly fee discount from the monthly fee of any Office 365 service
XL supplemental option	6,299.21	Sending 30 SMS messages free of charge to any domestic, standard rate network + Sending 15 MMS messages free of charge to any domestic, standard rate network + 10% monthly fee discount from the monthly fee of any Office 365 service + 1 x free Világ (World) Daily Ticket per billing cycle

The description and terms of use of the Office 365 service are contained in the General Terms and Conditions for Other Services of Vodafone, as amended from time to time. In the event of cancellation of the Office 365 service as specified in the General Terms and Conditions for Other Services, the monthly fee of the above tariff packages will not change. In case of handset purchase, if the Subscriber wishes to order the above tariff packages with supplemental option L or XL, and the conditions for using the Office 365 Business Essentials package are met, Vodafone provides 10% discount from the monthly fee thereof.

The description and terms of use of the Világ Napijegy (World Daily Ticket) tariff are contained in Section 5.2.2 of this Annex.

2.6.20. Extra data volume for internet options for Medium and Large Enterprise Customers

Our Medium and Large Enterprise customers can buy Extra data for internet tariffs that reduce speed after exhausting the commercially available data volume included in the monthly fee, for Internet options Internet Mini, Mini Plus, Maxi, Easy Comfort and Nonstop options and Internet 100, Internet 500 and Internet 1 GB options (section 2.8.4 of Annex 1. "List of Rates"), which allows the Subscriber – above the monthly fee of the internet option and the data volume included in the monthly fee – to use an additional monthly data volume for an additional monthly fee.

For subscription contracts concluded before 01.08.2015 extra data volume may be purchased by calling 1788, the phone number of the Large Enterprise customer service free of charge from Hungary within the network of Vodafone Magyarország Zrt. following necessary client identification. Extra data volume is a renewable monthly-fee option, which means that it does not have to be ordered in every billing cycle. The ordered Extra data is available for the Subscriber –and billed in addition to the monthly fee of the Subscriber's internet tariff/option– until he cancels the option by calling Large Enterprise customer service number 1788. For subscription contracts concluded after 1 August 2015, the ordering option of the different supplemental data volumes indicated on the Netinfo site is default. At the same time, for subscription contracts concluded after 1 August 2015, in addition to the use of the Netinfo site (<http://netinfo.vodafone.hu>) Subscriber, Subscriber's authorized contact person and users who are in possession of the client security code belonging to the subscription contract may authorize or block the use of functions on the Netinfo site regarding certain individual subscriptions free of charge. Authorization or blocking can be activated on the interface of the Vodafone Vállalati Online Ügyfélszolgálati Alkalmazás (Vodafone Corporate Online Customer Service Application) and by calling 1788, the phone number of the Large Enterprise customer service, free of charge, as a domestic call, within the network of Vodafone Magyarország Zrt. network.

The prices indicated in the following tables are net prices, not including VAT.

Extra data volume 200 MB	
Net monthly fee	HUF 900
Data volume included in the net monthly fee	200 MB
Extra data volume 500 MB	
Net monthly fee	HUF 1,200
Data volume included in the net monthly fee	500 MB
Extra data volume 2 GB	
Net monthly fee	HUF 2,300
Data volume included in the net monthly fee	2 GB
Extra data volume 4 GB	

Net monthly fee	HUF 3,400
Data volume included in the net monthly fee	4 GB

Extra data volume can be used until the end of the billing cycle in question, cannot be rolled over to the next billing cycle or transferred to other persons. Extra (Kiegészítő) data volume is only usable in domestic networks. Extra data volume can only be ordered and cancelled once in a given billing cycle.

Ordering Extra data volume does not entail the modification of the Subscriber's own parameters of the active internet tariff/option relative to speed limitation, that is, after exhausting the monthly allowed data volume and the Extra data volume, the internet service will be slowed down in accordance with the speed limit of the internet tariff/option. After the expiry of the billing cycle the slowdown is terminated and from that time the data volume included in the monthly fee of the internet tariff/option and the ordered and not cancelled Extra data volume can be used combined.

Ordering Extra data volume does not mean the lifting of an already active speed limit of the internet service. Accordingly, if the Subscriber's existing internet tariff/option has already been slowed down in the current billing cycle and the Subscriber orders Extra data volume during the slowdown, then he will only be able to use the received Extra data volume slowed down until the expiry of the billing cycle.

Should the Customer switch to other monthly prepaid options or paying by prepaid card, the purchased Extra data volume will be lost, unless the newly ordered tariff/option is usable with Extra data volume in accordance with the above provisions.

2.7. Internet tariffs not marketed

2.7.1. Internet tariffs not marketed as of 1 October 2015

In case of the below tariff packages, data traffic refers to the aggregate amount of domestic sent and received data, with a billing unit of 10 Kb. In addition to Internet and packet-switched WAP service, the tariff packages include SMS service too, subject to the rates included in the tables below. Internet and packet-switched WAP data traffic abroad is subject to different rules (price, billing unit).

If the Subscriber does not use up the traffic limit included in the monthly fee, it cannot roll over the remaining part to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. After the traffic quota included in the monthly fee has been exhausted, the service may be used subject to the following usage fees. From the activation of the tariff package to the closing of the invoice, or, in case of changing tariff packages, from the beginning of the billing period to the change of the tariff, or from the change of the tariff package to the closing of the billing period, a pro-rata fractional monthly fee will be billed, based on the full monthly fee, and the full traffic limit can also be used on a pro-rata basis.

Except for the tariff packages Vodafone Internet 200 Plusz, Vodafone Internet 10G and Vodafone Internet Light, for the following tariff packages, any data transmission within the same billing period in excess of the amount included in the monthly fee will lead to a reduction in transmission speed. After the end of the billing period, the original speed is restored. Maximum amount of speed reduction: 0,125 Mbit/s download and upload. Guaranteed download and upload speed during slowdowns: as specified in section 4.1 of the GTC. For the tariff packages Vodafone Internet 200 Plusz, Vodafone Internet 10G and Vodafone Internet Light, the additional fees indicated in the tables below are charged after the data limit included in the monthly fee has been reached.

The below tariff packages only provide data transmission services, so no voice services can be used based on the above tariff packages, except for the Tablet Mini Easy, Tablet Mini Comfort, Tablet Maxi Easy and Tablet Maxi Comfort tariff packages, which can also be used for voice services. The charges associated with voice services are included in the following table; a precondition for using voice services within these tariff packages is a device capable of voice services.

In the case of Netbook MobilNet 7, Netbook MobilNet 14, Netbook MobilNet 21, MobilNet 7, MobilNet 14, MobilNet 21, MobilNet Premium, MobilNet Plusz, MobilNet S, Tablet MobilNet 7, Tablet MobilNet 14, Tablet MobilNet 21 tariff packages, after the data volume contained in the monthly fee has been used up, supplemental data option (ExtraAdat) can be purchased on the Netinfo site (<http://netinfo.vodafone.hu>).

The tables contain both net and gross prices; gross prices include VAT.

Vodafone Internet 200 Plusz	Net fee	Gross fee

Only those Flotta customers are entitled to the MobilNet Plusz package who have at least 500 Mb mandatory data option in their new or existing Flotta voice subscription. Maximum 2 MobilNet Plusz packages can be purchased for a Flotta voice subscription in the offer. The Subscriber is entitled to the MobilNet Plusz package as long as he maintains his Flotta voice subscription of definite or indefinite term including minimum 500MB mandatory data option.

In the case of Netbook MobilNet 7, Netbook MobilNet 14, Netbook MobilNet 21, MobilNet 7, MobilNet 14, MobilNet 21, MobilNet Premium, MobilNet Plusz, MobilNet S, Tablet MobilNet 7, Tablet MobilNet 14, Tablet MobilNet 21 tariff packages, after the data volume contained in the monthly fee has been used up, supplemental data option (ExtraAdat) can be purchased on the Netinfo site (<http://netinfo.vodafone.hu>). ExtraAdat can be purchased through our telephone customer service, personally in our stores and –with the exception of ExtraAdat 10GB– on the <http://netinfo.vodafone.hu> page. If the <http://netinfo.vodafone.hu> option is selected the purchase can only be made from the SIM card and device to which the MobilNet subscription belongs.

If an ExtraAdat option is not completely used by the time of purchasing the next ExtraAdat option, the remaining data traffic will be lost. The ExtraAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of ExtraAdat options can be purchased in a billing cycle.

The ExtraAdat options are non-renewable options that have to be repurchased in every billing cycle where the Customer intends to use those.

Small Enterprise Subscribers may use the following ExtraAdat options:

Name of supplemental data option	ExtraAdat 500 MB	ExtraAdat 1 GB	ExtraAdat 10 GB
Fee	HUF 578.74	HUF 826.77	HUF 4,051.18
Data traffic included in the option	0.488 GB	1 GB	10 GB ³
ExtraAdat is available with the following tariff packages	MobilNet Plusz, MobilNet 7, MobilNet 14, MobilNet 21, MobilNet Premium, Tablet MobilNet 7, Tablet MobilNet 14, Tablet MobilNet 21, Netbook MobilNet 7, Netbook MobilNet 14, Netbook MobilNet 21, MobilNet S	MobilNet 7, MobilNet 14, MobilNet 21, MobilNet Premium, Tablet MobilNet 7, Tablet MobilNet 14, Tablet MobilNet 21, Netbook MobilNet 7, Netbook MobilNet 14, Netbook MobilNet 21, MobilNet S	MobilNet S
Offered bandwidth	Same as with MobilNet tariff package		
Guaranteed download and upload speed	See section 4.1 of the GTC		
Offered bandwidth above the data traffic included	Same as with MobilNet tariff package		
Guaranteed download and upload speed above the data traffic included	See section 4.1 of the GTC		

ExtraAdat options available for Medium and Large Enterprise Subscribers for Tablet MobilNet 7, Tablet MobilNet 14 and Tablet MobilNet 21 tariff packages are included in the following table:

Name of supplemental data option	Vállalati ExtraAdat 2GB	Vállalati ExtraAdat 5GB
Net fee	HUF 1600	HUF 2400
Data traffic included in the option	2 GB	5 GB
Tariff package to which ExtraAdat is available	Tablet MobilNet 7, Tablet MobilNet 14, Tablet MobilNet 21	
Offered bandwidth	Same as with MobilNet tariff package	
Guaranteed download and upload speed	See section 4.1 of the GTC	
Offered bandwidth above the included data traffic	Same as with MobilNet tariff package	
Guaranteed download and upload speed above the data traffic monthly divisible data traffic	See section 4.1 of the GTC	

1: ONLY marketed to Medium and Large enterprise customers according to Section 2.3.3 of this List of Rates.

2: ONLY marketed to Fleet customers according to Section 2.3.2 of this List of Rates.

3: Supplemental data option available only for Small business subscribers.

2.7.2. Internet tariffs not marketed as of 1 October 2015

In the case of the tariff packages below, the uniform initial costs are charged as follows:

- Entry fee:
 - Net: HUF 7,874.01
 - Gross: HUF 10,000.

In case of the below tariff packages, data traffic refers to the aggregate amount of domestic sent and received data, with a billing unit of 10 Kb. In addition to Internet and packet-switched WAP service, the tariff packages include SMS service, too, subject to the rates included in the tables below. Internet and packet-switched WAP data traffic abroad is subject to different rules (price, billing unit).

If the Subscriber does not use up the traffic limit included in the monthly fee, it cannot roll over the remaining part to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. After the traffic quota included in the monthly fee has been exhausted, the service may be used subject to the following usage fees. From the activation of the tariff package to the closing of the invoice, or, in case of changing tariff packages, from the beginning of the billing period to the change of the tariff, or from the change of the tariff package to the closing of the billing period, a pro-rata fractional monthly fee will be billed, based on the full monthly fee, and the full traffic limit can also be used on a pro-rata basis.

In case of the Vodafone Internet 1G, Vodafone Internet 5G, Internet 1 GB and Internet 5GB tariff packages an additional fee is charged for the data traffic above the data volume included in the monthly fee, as indicated in the following tables.

In case of the MobilNet Basic, MobilNet M, MobilNet L, MobilNet XL, Flotta Osztható MobilNet 10GB, the Üzleti Osztható MobilNet 5 GB, Üzleti Osztható MobilNet 10 GB, Üzleti Osztható MobilNet 20 GB and the Üzleti Osztható MobilNet 40 GB tariff packages concluded before 01 June 2015, after using the data volume included in the monthly fee the speed is slowed down until the end of the billing cycle. After the end of the billing period, the original speed is restored. The bandwidth (download and upload speed) value offered during slowdowns is 0.125 Mbit/s; in case of MobilNet Basic package is 0.016/0.016 Mbit/s. Guaranteed download and upload speed during slowdowns: as specified in section 4.1 of the GTC.

In the case of subscription contracts concluded after 01 June 2015 by Small Enterprise Subscribers for tariff packages MobilNet Basic (SIM, A, B, C, D, E), MobilNet M, MobilNet L (SIM, A, B, C, D, E), MobilNet XL and by Fleet (Flotta) Subscribers for tariff packages MobilNet Basic (SIM, A, B, C, D, E), MobilNet M, MobilNet L, after exhausting the data quantity included in the monthly fee, the speed shall be limited to 0/0 Mbit/s until the end of the billing cycle. Guaranteed speed as per Section 4.1 of the GTC.

In case of the MobilNet Basic, MobilNet M, MobilNet L, MobilNet XL tariff packages, after using the data volume included in the monthly fee, the ExtraAdat option (supplemental data option) may be purchased on the Netinfo page (<http://netinfo.vodafone.hu>).

The following tariff packages only provide data transmission service, voice service is not available with the MobilNet Basic, MobilNet M, MobilNet L, MobilNet XL, Flotta Osztható MobilNet 10GB, Vodafone Internet 1G, Vodafone Internet 5G, Internet 1 GB, Internet 5GB, and the Üzleti Osztható MobilNet 5 GB, Üzleti Osztható MobilNet 10 GB, Üzleti Osztható MobilNet 20 GB and the Üzleti Osztható MobilNet 40 GB tariff packages.

Monthly gross subscription fee in case of indefinite term	HUF4,960.64
Minimum - Maximum card number in the user group	2 - 3
Excess traffic charge for every 10 Kb started above the data traffic included in the monthly subscription fee	HUF 0
Gross fee of the SMS service in domestic network	HUF 30.48

Üzleti Osztható MobilNet 10 GB	
Domestic data volume that can be used by the user group	10 GB
Offered bandwidth above the additional 250MB per card that have been provided free of charge for the cards participating in the user group after using the data volume included in the monthly subscription fee (download / upload speed – Mbit/s)	0.125/0.125
Guaranteed speed	in accordance with section 4.1 of the GTC
Monthly gross subscription fee in case of indefinite term	HUF 9,921.27
Minimum - Maximum card number in the user group	2 - 5
Excess traffic charge for every 10 Kb started above the data traffic included in the monthly subscription fee	0
Gross fee of the SMS service in domestic network	HUF 30.48

Üzleti Osztható MobilNet 20 GB	
Domestic data volume that can be used by the user group	20 GB
Offered bandwidth above the additional 250MB per card that have been provided free of charge for the cards participating in the user group after using the data volume included in the monthly subscription fee (download / upload speed – Mbit/s)	0.125/0.125
Guaranteed speed	in accordance with section 4.1 of the GTC
Monthly gross subscription fee in case of indefinite term	HUF 19,842.53
Minimum - Maximum card number in the user group	2 - 10
Excess traffic charge for every 10 Kb started above the data traffic included in the monthly subscription fee	0
Gross fee of the SMS service in domestic network	HUF 30.48

Üzleti Osztható MobilNet 40 GB	
Domestic data volume that can be used by the user group	40 GB
Offered bandwidth above the additional 250MB per card that have been provided free of charge for the cards participating in the user group after using the data volume included in the monthly subscription fee (download / upload speed – Mbit/s)	0.125/0.125
Guaranteed speed	in accordance with section 4.1 of the GTC
Monthly gross subscription fee in case of indefinite term	HUF 39,685.04
Minimum - Maximum card number in the user group	2 - 20
Excess traffic charge for every 10 Kb started above the data traffic included in the monthly subscription fee	0
Gross fee of the SMS service in domestic network	HUF 30.48

In case of subscriptions purchased after 1 July, 2012 a monthly divisibility fee is charged for each card. The amount of the divisibility fee is specified in the following table.

Üzleti Osztható MobilNet package	
Monthly divisibility fee charged per SIM card for the subscriptions belonging to the user group (gross)	HUF 990

In case of the Üzleti Divisible MobilNet tariff packages the Subscribers may use the domestic data volume collectively as a group. The following table specifies the maximum number of cards that can participate in the user group in case of the given Üzleti Divisible MobilNet tariff package.

The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. If the Subscriber (the user group) does not use the traffic limit included in the monthly fee, he cannot roll over the remaining part to the next billing cycle.

Data traffic refers to the aggregate amount of domestic sent and received data. Billing unit: 10 Kb. Data traffic conducted abroad are charged by applying different rates.

You may receive information on the cards involved in the user group at the customer service and such information is included in the current invoices. Should you want to expand the user group, you are free to do so up to the maximum card number included in the ordered tariff package.

The shared data volume can be used collectively by the user group, that is, any subscriber number belonging to the user group can access the total data volume included in the monthly fee of the service or the data volume still available in the concerned billing cycle. The user group does not use the shared data volume in proportion to the number of its users. For information on the data volume available in the given billing cycle, please contact the customer service.

After exhausting the shared data volume, all cards participating in the user group will be entitled to use free of charge further 250 MB domestic data traffic per card in Hungary in the remaining part of the billing cycle. The members of the user group receive SMS notification of this fact after the first 10 Kb traffic used subsequent to the exhaustion of the shared data volume. After using 250 MB the members of the user group receive another SMS notification on the commencement of the slowdown. The Service Provider notifies the Subscriber that above the additional 250 MB traffic per card that have been provided for the cards of the user group free of charge after using the data volume included in the monthly subscription fee and was reached in the billing cycle of the Üzleti Divisible MobilNet tariffs, the speed of the data traffic shall be reduced on all cards belonging to the user group for the remaining part of the billing cycle. After the end of the billing period, the original speed is restored. The maximum value of the slowdown in case of the Üzleti Osztható MobilNet tariffs is 0.125 Mbit/s for download and upload. Guaranteed download and upload speed during slowdowns: as specified in section 4.1 of the GTC.

The deactivation of the above services ensures the Subscriber that the cards which are not connected to the user group cannot access the shared data volume allowed by the Üzleti Divisible MobilNet tariff and thus the Subscriber – himself – can define the scope of users. By requesting the Üzleti Divisible MobilNet tariff, the Subscriber acknowledges and accepts the conditions of the General Terms and Conditions specified in this section.

We provide 1 GB VodaMail storage service, as bonus, for all cards involved in Üzleti Osztható MobilNet tariff packages by 31 March, 2014. For further details on the VodaMail service please refer to section 4.1. of this List of Rates.

In the case of MobilNet Basic (SIM, A, B, C, D, E), MobilNet M, MobilNet L (SIM, A, B, C, D, E), MobilNet XL subscription contracts concluded after 01 June 2015, the MobilNet Basic (SIM, A, B, C, D, E), MobilNet M, MobilNet L (SIM, A, B, C, D, E), MobilNet XL service packages are supplemented once per billing cycle with the Automatikus ExtraAdat option containing 1 GB of domestic data traffic at a rate of HUF 826.77 gross. This option is activated automatically after the domestic data volume included in the monthly fee is exhausted; or, if a supplemental data option has been purchased on the Netinfo site before the domestic data volume included in the monthly fee is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted; or, if one or more further supplemental data option(s) has (have) been purchased before the domestic data volume included in the supplemental data volume on the Netinfo site is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted. The data traffic of the Automatikus ExtraAdat 1 GB option can be used until the end of the given billing cycle, and is not divisible. The Automatikus ExtraAdat 1 GB option is renewed monthly but is only activated and billed upon continuing data use after the domestic data volume included in the monthly fee or supplemental data option(s) is exhausted. In the case of MobilNet Basic (SIM, A, B, C, D, E), MobilNet M, MobilNet L (SIM, A, B, C, D, E), MobilNet XL tariff packages, after using the data volume included in the Automatikus ExtraAdat 1 GB option, the speed shall be limited to 0/0 Mbit/s.

Before using up the domestic data volume included in the monthly fee, or after using up the domestic data volume included in the Automatikus ExtraAdat 1 GB option, a supplemental data option (ExtraAdat) must be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded after the domestic data volume included in the Automatikus ExtraAdat 1 GB option is exhausted. If the Subscriber has exhausted the domestic data volume included in the package and the Automatikus ExtraAdat 1 GB option, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

The e-Pack service is available for Subscribers with MobilNet Basic (SIM, A, B, C, D, E) or MobilNet M, MobilNet L (SIM, A, B, C, D, E), MobilNet XL service packages concluded after 01 June 2015 and purchased with 2-year fixed-term contracts. In case of using the e-Pack service, the Subscriber agrees to fulfil the following conditions in every month while using the e-Pack service, in exchange for a more favourable monthly subscription fee:

- Subscriber uses E-bills regarding all of his subscriptions under one client number with the content defined in section 7.1.2.4. of the GTC: Electronic Bill and Document Presentation (E-bill).
- The bill is settled by using one of the following payment options:
 - on the www.vodafone.hu/szamlabefizetes web page,
 - with Vodafone mobile application,
 - by bank transfer,
 - by direct debit order,
 - via ATM machines.
- The bill is settled by the payment deadline indicated in the bill.

If the Subscriber fails to meet any of the above conditions in a given month, in the case of MobilNet Basic (SIM, A, B, C, D, E) and MobilNet M tariff packages concluded after 01 June 2015, a one-off fee of HUF 413.39 gross will be charged to the Subscriber in his next monthly bill, while in the case of MobilNet L (SIM, A, B, C, D, E) and MobilNet XL tariff packages concluded after 01 June 2015, this amount shall be HUF 826.77 gross. The fee payable for failing to fulfil the e-Pack conditions is only billed once per month, even if the Subscriber fails to meet several e-Pack conditions in a given month.

If the Subscriber has multiple subscriptions and one of those is used with e-Pack, the Subscriber is required to settle the monthly bills of all subscriptions by satisfying the e-Pack conditions.

Should the Subscriber receive payment extension in a month and fail to settle his bill by the payment deadline indicated in the bill, the one-off fee payable for failing to meet the e-Pack conditions shall also be billed.

Cancelling the e-Pack service shall constitute a tariff change. Changing between the versions of the same tariff –with and without e-Pack- can be requested without being obligated to pay liquidated damages.

Supplemental data options (ExtraAdat) can be purchased for MobilNet Basic, MobilNet M, MobilNet L, MobilNet XL tariff packages, the detailed description of which is included in the following table. ExtraAdat can be purchased through

our telephone customer service, personally in our stores and –with the exception of ExtraAdat 10GB– on the <http://netinfo.vodafone.hupage>. If the <http://netinfo.vodafone.hu> option is selected the purchase can only be made from the SIM card and device to which the MobilNet subscription belongs.

If an ExtraAdat option is not completely used by the time of purchasing the next ExtraAdat option, the remaining data traffic will be lost. The ExtraAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of ExtraAdat options can be purchased in a billing cycle.

The ExtraAdat options are non-renewable options that have to be repurchased in every billing cycle where the Customer intends to use those.

ExtraAdat (supplemental option) for MobilNet Basic (SIM, A, B, C, D, E), MobilNet M, MobilNet L (SIM, A, B, C, D, E), MobilNet XL subscription contracts concluded before 01 June 2015

Name of supplemental data option	ExtraAdat 100 MB	ExtraAdat 1 GB	ExtraAdat 500 MB	ExtraAdat 1 GB	ExtraAdat 10 GB
Fee	HUF 413.39	HUF 1,240.16	HUF 578.74	HUF 826.77	HUF 4,051.18
Data traffic included in the option	0.097 GB	1 GB	0.488 GB	1 GB	10 GB
ExtraAdat is available with the following tariff packages	MobilNet Basic (SIM, A, B, C, D, E)	MobilNet Basic (SIM, A, B, C, D, E)	MobilNet M, MobilNet L (SIM, A, B, C, D, E), MobilNet XL	MobilNet M, MobilNet L (SIM, A, B, C, D, E), MobilNet XL	MobilNet M, MobilNet L (SIM, A, B, C, D, E), MobilNet XL
Offered bandwidth	Same as with MobilNet tariff package				
Guaranteed download and upload speed	See section 4.1 of the GTC				
Offered bandwidth above the data traffic included	Same as with MobilNet tariff package				
Guaranteed download and upload speed above the data traffic included	See section 4.1 of the GTC				

ExtraAdat (supplemental option) for MobilNet Basic (SIM, A, B, C, D, E), MobilNet M, MobilNet L (SIM, A, B, C, D, E), MobilNet XL subscription contracts concluded after 01 June 2015

ExtraAdat (supplemental option) may be purchased for the MobilNet tariff packages anytime within the billing cycle, described in detail in the following table. ExtraAdat can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and device to which the MobilNet subscription belongs.

Available ExtraAdat	Domestic data volume included	Fee (gross)	Service package
ExtraAdat 200 MB	200 MB	HUF 413.39	MobilNet Basic (SIM, A, B, C, D, E), MobilNet M, MobilNet L (SIM, A, B, C, D, E), MobilNet XL
ExtraAdat 1 GB	1 GB	HUF 1,653.54	

If an ExtraAdat option is not completely used by the time of purchasing the next ExtraAdat option, the unused remaining data traffic will be lost. The ExtraAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of Extra Adat option may be purchased in a given billing period, except for Automatikus ExtraAdat 1 GB option, which is only activated once per billing cycle. ExtraAdat is a non-renewable option that has to be repurchased in every billing cycle, if needed.

Gross fee of the SMS service in domestic network	HUF 30.48

	Flotta Osztható MobilNet 10 GB
Domestic data volume that can be used by the user group	10 GB
Offered bandwidth above the additional 250MB per card that have been provided free of charge for the cards participating in the user group after using the data volume included in the monthly subscription fee (download / upload speed – Mbit/s)	0.125/0.125
Guaranteed speed	in accordance with section 4.1 of the GTC
Monthly gross subscription fee in case of indefinite term	HUF 8,267.72
Minimum - Maximum card number in the user group	2 - 3
Excess traffic charge for every 10 Kb started above the data traffic included in the monthly subscription fee	HUF 0
Gross fee of the SMS service in domestic network	HUF 30.48

In case of the Flotta Osztható MobilNet tariff packages the Fleet Subscribers may use the domestic data volume collectively as a group.

You may receive information on the cards involved in the user group at the customer service and such information is included in the current invoices. Should you want to expand the user group, you are free to do so flexibly up to the maximum card number (which is 3) included in the ordered Flotta tariff package.

The shared data volume can be used collectively by the user group, that is, any subscriber number belonging to the user group can access the total data volume included in the monthly fee of the service or the data volume still available in the concerned billing cycle. The user group does not use the shared data volume in proportion to the number of its users. For information on the data volume available in the given billing cycle, please contact the customer service.

After exhausting the shared data volume, all cards participating in the user group will be entitled to use free of charge further 250 MB domestic data traffic per card in Hungary in the remaining part of the billing cycle. The members of the user group receive SMS notification of this fact after the first 10 Kb traffic used subsequent to the exhaustion of the shared data volume. After using 250 MB the members of the user group receive another SMS notification on the commencement of the slowdown. The Service Provider warns the Subscriber that in case of exhausting the additional 250 MB traffic per card that have been provided for the cards of the user group free of charge –after using the data volume included in the monthly subscription fee and was reached in the billing cycle of the Flotta Osztható MobilNet tariff– the speed of the data traffic will be reduced on all cards belonging to the user group for the remaining part of the billing cycle. After the end of the billing period, the original speed is restored. The maximum value of the slowdown in case of the Flotta Osztható MobilNet tariffs is 0.125 Mbit/s for download and upload. Guaranteed download and upload speed during slowdowns: as specified in section 4.1 of the GTC.

In the case of MobilNet Basic (SIM, A, B, C, D, E), MobilNet M, MobilNet L subscription packages concluded after 01 June 2015, the MobilNet Basic (SIM, A, B, C, D, E), MobilNet M, MobilNet L service package is supplemented once per billing cycle with the Automatikus ExtraAdat option containing 1 GB of domestic data traffic at a rate of HUF 826.77 gross. This option is activated automatically after the domestic data volume included in the monthly fee is exhausted; or, if a supplemental data option has been purchased on the Netinfo site before the domestic data volume included in the monthly fee is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted; or, if one or more further supplemental data option(s) has (have) been purchased before the domestic data volume included in the supplemental data volume on the Netinfo site is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted. The data traffic of the Automatikus ExtraAdat 1 GB option can be used until the end of the given billing cycle, and is not divisible. The Automatikus ExtraAdat 1 GB option is renewed monthly but is only activated and billed upon continuing data use after the domestic data volume included in the monthly fee or supplemental data option(s) is exhausted. In the case of MobilNet Basic (SIM, A, B, C, D, E), MobilNet M, MobilNet L tariff packages, after using the data volume included in the Automatikus ExtraAdat 1 GB option, the speed shall be limited to 0/0 Mbit/s.

Before using up the domestic data volume included in the monthly fee, or after using up the domestic data volume included in the Automatikus ExtraAdat 1 GB option, a supplemental data option (ExtraAdat) must be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded after the domestic data volume included in the Automatikus ExtraAdat 1 GB option is exhausted. If the Subscriber has exhausted the domestic data volume included in the package and the Automatikus ExtraAdat 1 GB option, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

The e-Pack service is available for Subscribers with MobilNet Basic (SIM, A, B, C, D, E) or MobilNet M, MobilNet L service packages concluded after 01 June 2015 and purchased with 2-year fixed-term contracts. In case of using the e-Pack service, the Subscriber agrees to fulfil the following conditions in every month while using the e-Pack service, in exchange for a more favourable monthly subscription fee:

- Subscriber uses E-bills regarding all of his subscriptions under one client number with the content defined in section 7.1.2.4. of the GTC: Electronic Bill and Document Presentation (E-bill).
- The bill is settled by using one of the following payment options:
 - on the www.vodafone.hu/szamlabefizetes web page,
 - with Vodafone mobile application,
 - by bank transfer,
 - by direct debit order,
 - via ATM machines.
- The bill is settled by the payment deadline indicated in the bill.

If the Subscriber fails to meet any of the above conditions in a given month, in the case of MobilNet Basic (SIM, A, B, C, D, E) and MobilNet M tariff packages concluded after 01 June 2015, a one-off fee of HUF 413.39 gross will be charged to the Subscriber in his next monthly bill, while in the case of MobilNet L tariff packages concluded after 01 June 2015, this amount shall be HUF 826.77 gross. The fee payable for failing to fulfil the e-Pack conditions is only billed once per month, even if the Subscriber fails to meet several e-Pack conditions in a given month.

If the Subscriber has multiple subscriptions and one of those is used with e-Pack, the Subscriber is required to settle the monthly bills of all subscriptions by satisfying the e-Pack conditions.

Should the Subscriber receive payment extension in a month and fail to settle his bill by the payment deadline indicated in the bill, the one-off fee payable for failing to meet the e-Pack conditions shall also be billed.

Cancelling the e-Pack service shall constitute a tariff change. Changing between the versions of the same tariff –with and without e-Pack- can be requested without being obligated to pay liquidated damages.

In case of MobilNet Basic (SIM, A, B, C, D, E) and MobilNet M tariff packages, after exhausting the data quantity included in the monthly fee, ExtraAdat option (supplemental option) can be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) for continued internet access until account closure, otherwise we will slow down the speed of internet access until the end of the billing cycle. Maximum value of the slowdown: in the case of MobilNet Basic (SIM, A, B, C, D, E) service packages is 0.016 Mbit/s for download and upload, and in case of MobilNet M tariff is 0.125 Mbit/s for download and upload. Without buying ExtraAdat option the data traffic cannot be exceeded.

In the case of the Internet Basic tariff package if the Subscriber exhausted the data volume included in the package, he will not be able to access the Internet service until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

If the Subscriber has used up the data quantity included in the MobilNet L and Flotta Osztható MobilNet 10 GB service packages, speed will be slowed down until the end of the billing cycle. Maximum value of the slowdown: 0.125 Mbit/s for download and upload.

Supplemental data options (ExtraAdat) can be purchased for MobilNet Basic, and MobilNet M tariff packages, the detailed description of which is included in the following table. ExtraAdat can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and device to which the MobilNet subscription belongs.

If an ExtraAdat option is not completely used by the time of purchasing the next ExtraAdat option, the remaining data traffic will be lost. The ExtraAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of ExtraAdat options can be purchased in a billing cycle.

The ExtraAdat options are non-renewable options that have to be repurchased in every billing cycle where the Customer intends to use those.

ExtraAdat (supplemental option) for MobilNet Basic (SIM, A, B, C, D, E), MobilNet M subscription contracts concluded before 01 June 2015

Name of supplemental data option	ExtraAdat 100 MB	ExtraAdat 1 GB	ExtraAdat 500 MB	ExtraAdat 1 GB
Fee	HUF 413.39	HUF 1,240.16	HUF 578.74	HUF 826.77
Data traffic included in the option	0.097 GB	1 GB	0.488 GB	1 GB
ExtraAdat is available with the following tariff packages	MobilNet Basic (SIM, A, B, C, D, E)	MobilNet Basic (SIM, A, B, C, D, E)	MobilNet M	MobilNet M
Offered bandwidth	Same as with MobilNet tariff package			
Guaranteed download and upload speed	See section 4.1 of the GTC			
Offered bandwidth above the data traffic included	Same as with MobilNet tariff package			
Guaranteed download and upload speed above the data traffic included	See section 4.1 of the GTC			

ExtraAdat (supplemental option) for MobilNet Basic (SIM, A, B, C, D, E), MobilNet M, MobilNet L subscription contracts concluded after 01 June 2015

ExtraAdat (supplemental option) may be purchased for the MobilNet tariff packages anytime within the billing cycle, described in detail in the following table. ExtraAdat can be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and device to which the MobilNet subscription belongs.

Available ExtraAdat	Domestic data volume included	Fee (gross)	Service package
ExtraAdat 200 MB	200 MB	HUF 413.39	MobilNet Basic (SIM, A, B, C, D, E), MobilNet M, MobilNet L
ExtraAdat 1 GB	1 GB	HUF 1,653.54	

If an ExtraAdat option is not completely used by the time of purchasing the next ExtraAdat option, the unused remaining data traffic will be lost. The ExtraAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of Extra Adat option may be purchased in a given billing period, except for Automatikus ExtraAdat 1 GB option, which is only activated once per billing cycle. ExtraAdat is a non-renewable option that has to be repurchased in every billing cycle, if needed.

2.7.2.3. Medium and Large Enterprise Internet tariffs

The prices indicated in the following tables are net prices, not including VAT.

Minimum - Maximum card number in the user group	2 - 20
Excess traffic charge for every 10 Kb started above the data traffic included in the monthly subscription fee	0
Net fee of the SMS service in domestic network	HUF 24

In case of subscriptions purchased after 1 July, 2012 a monthly divisibility fee is charged for each card. The amount of the divisibility fee is specified in the following table.

Üzleti Osztható MobilNet package	
Monthly divisibility fee charged per SIM card for the subscriptions belonging to the user group	HUF 779.52

In case of the Üzleti Divisible MobilNet tariff packages the Subscribers may use the domestic data volume collectively as a group. The following table specifies the maximum number of cards that can participate in the user group in case of the given Üzleti Divisible MobilNet tariff package.

The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. If the Subscriber (the user group) does not use the traffic limit included in the monthly fee, he cannot roll over the remaining part to the next billing cycle.

Data traffic refers to the aggregate amount of domestic sent and received data. Billing unit: 10 Kb. Data traffic conducted abroad are charged by applying different rates.

You may receive information on the cards involved in the user group at the customer service and such information is included in the current invoices. Should you want to expand the user group, you are free to do so up to the maximum card number included in the ordered tariff package.

The shared data volume can be used collectively by the user group, that is, any subscriber number belonging to the user group can access the total data volume included in the monthly fee of the service or the data volume still available in the concerned billing cycle. The user group does not use the shared data volume in proportion to the number of its users. For information on the data volume available in the given billing cycle, please contact the customer service.

After exhausting the shared data volume, all cards participating in the user group will be entitled to use free of charge further 250 MB domestic data traffic per card in Hungary in the remaining part of the billing cycle. The members of the user group receive SMS notification of this fact after the first 10 Kb traffic used subsequent to the exhaustion of the shared data volume. After using 250 MB the members of the user group receive another SMS notification on the commencement of the slowdown. The Service Provider notifies the Subscriber that above the additional 250 MB traffic per card that have been provided for the cards of the user group free of charge after using the data volume included in the monthly subscription fee and was reached in the billing cycle of the Üzleti Divisible MobilNet tariffs, the speed of the data traffic shall be reduced on all cards belonging to the user group for the remaining part of the billing cycle. After the end of the billing period, the original speed is restored. The maximum value of the slowdown in case of the Üzleti Osztható MobilNet

tariffs is 0.125 Mbit/s for download and upload. Guaranteed download and upload speed during slowdowns: as specified in section 4.1 of the GTC.

The deactivation of the above services ensures the Subscriber that the cards which are not connected to the user group cannot access the shared data volume allowed by the Üzleti Divisible MobilNet tariff and thus the Subscriber – himself – can define the scope of users. By requesting the Üzleti Divisible MobilNet tariff, the Subscriber acknowledges and accepts the conditions of the General Terms and Conditions specified in this section.

We provide 1 GB VodaMail storage service, as bonus, for all cards involved in Üzleti Osztható MobilNet tariff packages by 31 March, 2014. For further details on the VodaMail service please refer to section 4.1. of this List of Rates.

Supplemental data options (ExtraAdat) can be purchased for the MobilNet Basic SIM, MobilNet Basic A, MobilNet Basic B, MobilNet Basic C, MobilNet Basic D, MobilNet Basic E tariff packages. ExtraAdat may be purchased by calling 1788, the phone number of the Large Enterprise customer service, free of charge as a domestic call within the network of Vodafone Magyarország Zrt. following necessary client identification.

If an ExtraAdat option is not completely used by the time of purchasing the next ExtraAdat option, the remaining data traffic will be lost. The ExtraAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of ExtraAdat options can be purchased in a billing cycle.

The ExtraAdat options are non-renewable options that have to be repurchased in every billing cycle where the Customer intends to use those.

The following supplemental data options (ExtraAdat) can be purchased for the MobilNet Basic SIM, MobilNet Basic A, MobilNet Basic B, MobilNet Basic C, MobilNet Basic D, MobilNet Basic E tariff packages:

Name of supplemental data option	ExtraAdat 100 MB	ExtraAdat 1 GB
Net fee	HUF 393.7	HUF 1181.1
Data traffic included in the option	0.097 GB	1 GB
ExtraAdat is available with the following tariff packages	MobilNet Basic (SIM, A, B, C, D, E)	MobilNet Basic (SIM, A, B, C, D, E)
Offered bandwidth	Same as with MobilNet tariff package	
Guaranteed download and upload speed	See section 4.1 of the GTC	
Offered bandwidth above the data traffic included	Same as with MobilNet tariff package	
Guaranteed download and upload speed above the data traffic included	See section 4.1 of the GTC	

The following supplemental data options (ExtraAdat) can be purchased for the MobilNet L SIM, MobilNet L A, MobilNet L B, MobilNet L C, MobilNet L D, MobilNet L E tariff packages:

Name of supplemental data option	ExtraAdat 500 MB	ExtraAdat 1 GB
Net fee	HUF 551.18	HUF 787.4
Data traffic included in the option	0.488 GB	1 GB
ExtraAdat is available with the following tariff packages	MobilNet L SIM MobilNet L A MobilNet L B MobilNet L C MobilNet L D MobilNet L E	MobilNet L SIM MobilNet L A MobilNet L B MobilNet L C MobilNet L D MobilNet L E
Offered bandwidth	Same as with MobilNet L tariff package	
Offered bandwidth above the data traffic included	Same as with MobilNet L tariff package	
Guaranteed download and upload speed	See section 4.1 of the GTC	

2.7.3. Vállalati MobilNet tariffs

The Vállalati MobilNet tariff packages were reclassified as commercially unavailable as of 30 April 2016.

The prices indicated in the following tables are net prices, not including VAT.

Vállalati MobilNet S	
Net monthly fee	HUF 2, 598
Domestic data traffic included in the monthly fee	3 GB
Offered bandwidth above the 3 GB data traffic per month (download/upload speed – Mbit/s)	0.125/0.125
Guaranteed speed	in accordance with section 4.1 of the GTC
Net fee of SMS service within the domestic network	HUF 24

Vállalati MobilNet M	
Net monthly fee	HUF 3, 929
Domestic data traffic included in the monthly fee	8 GB
Offered bandwidth above the 8 GB data traffic per month (download/upload speed – Mbit/s)	0.125/0.125
Guaranteed speed	in accordance with section 4.1 of the GTC
Net fee of SMS service within the domestic network	HUF 24

Vállalati MobilNet L	
Net monthly fee	HUF 5, 346
Domestic data traffic included in the monthly fee	12 GB
Offered bandwidth above the 12 GB data traffic per month (download/upload speed – Mbit/s)	0.125/0.125
Guaranteed speed	in accordance with section 4.1 of the GTC
Net fee of SMS service within the domestic network	HUF 24

Vállalati MobilNet XL	
Net monthly fee	HUF 7, 165
Domestic data traffic included in the monthly fee	20 GB
Offered bandwidth above the 20 GB data traffic per month (download/upload speed – Mbit/s)	0.125/0.125
Guaranteed speed	in accordance with section 4.1 of the GTC
Net fee of SMS service within the domestic network	HUF 24

Supplemental data options (ExtraAdat) can be purchased for Vállalati MobilNet S, Vállalati MobilNet M, Vállalati MobilNet L, Vállalati MobilNet XL tariff packages.

If an ExtraAdat option is not completely used by the time of purchasing the next ExtraAdat option, the remaining data traffic will be lost. The ExtraAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of ExtraAdat options can be purchased in a billing cycle.

The ExtraAdat options are non-renewable options that have to be repurchased in every billing cycle where the Customer intends to use those.

Supplemental data options (ExtraAdat) for Vállalati MobilNet S, Vállalati MobilNet M, Vállalati MobilNet L, Vállalati MobilNet XL tariff packages concluded before 01.08.2015:

Name of supplemental data option	Vállalati ExtraAdat 2GB	Vállalati ExtraAdat 5GB	Vállalati ExtraAdat 10 GB	Vállalati ExtraAdat 20 GB
Net fee	HUF 1600	HUF 2400	HUF 3900	HUF 5500
Data traffic included in the option	2 GB	5 GB	10 GB	20 GB
Tariff package to which ExtraAdat is available	Vállalati MobilNet S, Vállalati MobilNet M, Vállalati MobilNet L, Vállalati MobilNet XL		Vállalati MobilNet S, Vállalati MobilNet M, Vállalati MobilNet L, Vállalati MobilNet XL	Vállalati MobilNet S, Vállalati MobilNet M, Vállalati MobilNet L, Vállalati MobilNet XL
Offered bandwidth	Same as with MobilNet tariff package			
Guaranteed download and upload speed	See section 4.1 of the GTC			
Offered bandwidth above the included data traffic	Same as with MobilNet tariff package			
Guaranteed download and upload speed above the data traffic included	See section 4.1 of the GTC			

After 01 August 2015, for Vállalati MobilNet S, Vállalati MobilNet M, Vállalati MobilNet L és Vállalati MobilNet XL tariff packages - irrespective of the date of contract conclusion - the following ExtraAdat options are available on the Netinfo page (<http://netinfo.vodafone.hu>):

Available ExtraAdat	Domestic data volume included	Fee (net)
One-time ExtraAdat 200 MB	200 MB	HUF 393.7
One-time ExtraAdat 1 GB	1 GB	HUF 1574.8

For subscription contracts concluded after 01 August 2015, the ordering option of the different supplemental data volumes indicated on the Netinfo site is default. At the same time, for subscription contracts concluded after 1 August 2015, in addition to the use of the Netinfo site (<http://netinfo.vodafone.hu>) Subscriber, Subscriber's authorized contact person and users who are in possession of the client security code belonging to the subscription contract may authorize or block the use of functions on the Netinfo site regarding certain individual subscriptions free of charge. Authorization or blocking can be activated on the interface of the Vodafone Vállalati Online Ügyfélszolgálati Alkalmazás (Vodafone Corporate Online Customer Service Application) and by calling the Large Enterprise customer service 1788, (which is free of charge if called from Hungary within the network of Vodafone Magyarország Zrt.), after the necessary client identification.

ExtraAdat as indicated in the above table may be purchased by calling 1788, the phone number of the Large Enterprise customer service, free of charge as a domestic call within the network of Vodafone Magyarország Zrt. following necessary client identification.

2.7.4 Üzleti (Business) MobilNet tariffs

Üzleti (Business) MobilNet tariffs were reclassified as commercially unavailable as of 1 October 2017

The prices indicated in the tables are gross prices including VAT.

Charges of SMS service in a domestic network	HUF 30.48	HUF 30.48	HUF 30.48	HUF 30.48	HUF 30.48

	Üzleti Osztható MobilNet Standard	Üzleti Osztható MobilNet Premium
Monthly fees		
Monthly subscription fee (HUF) with an indefinite term contract	23,141.34	29,342.13
Monthly subscription fee (HUF) with contracts of a 1-year fixed term	23,141.34	29,342.13
Monthly subscription fee (HUF) with contracts of a 2-year fixed term	6,605.90	12,806.70
Monthly subscription fee (HUF) with 2-year fixed-term contract and e-Pack	6,192.52	12,393.30
Content included in the monthly fee		
Domestic data volume that can be used by the user group	20 GB	40 GB
Offered bandwidth above the data volume included in the monthly subscription fee (download/upload speed – Mbit/s)	0/0	0/0
Guaranteed speed	in accordance with section 4.1 of the GTC	
Minimum - Maximum card number in the user group	2 - 3	2 - 5
Charges of SMS service in a domestic network	HUF 30.48	HUF 30.48

The shared domestic data volume can be used collectively by the user group, that is, any subscriber number belonging to the user group can access the total data volume included in the monthly fee of the service or the data volume still available in the concerned billing cycle. The user group does not use the shared data volume in proportion to the number of its users. The above table specifies the maximum number of cards that can participate in the user group in case of the given Üzleti Divisible MobilNet tariff package. For information on the data volume available in the given billing cycle, the Subscriber may contact the customer service.

In case of subscriptions purchased for the Üzleti Osztható MobilNet packages, a monthly divisibility fee is charged for each card. The amount of the divisibility fee is specified in the following table.

Üzleti Osztható MobilNet package	
Monthly divisibility fee charged per SIM card for the subscriptions belonging to the user group	HUF 1000 Gross

The Üzleti MobilNet Start, Üzleti MobilNet Medium, Üzleti MobilNet Pro, Üzleti MobilNet Standard, Üzleti MobilNet Premium and Üzleti Osztható MobilNet packages are available without handset purchase. In case of handset purchase, the Subscriber shall choose from the following supplemental options:

Supplemental option	Monthly subscription fee for the option (HUF) with a 2-year fixed-term contract	The content of the option for Business MobileNet tariffs
Supplemental option S	1,000	Sending 30 SMS messages free of charge to any domestic standard-rate network
Supplemental option M	2,000	Sending 30 SMS messages free of charge to any domestic standard-rate network + Sending 15 MMS messages free of charge to any domestic standard-rate network
Supplemental option L	5,000	Sending 30 SMS messages free of charge to any domestic standard-rate network + Sending 15 MMS messages free of charge to any domestic standard-rate network + 10% discount from the monthly fee for any Office 365 service
Supplemental option XL	8,000	Sending 30 SMS messages free of charge to any domestic standard-rate network + Sending 15 MMS messages free of charge to any domestic standard-rate network + 10% discount from the monthly fee for any Office 365 service

The prices indicated in the table are gross prices, inclusive of VAT.

The traffic included in the monthly fee can be used at any time of day without limitation. If the Subscriber or, in the case of Business Divisible MobileNet packages, the user group does not use up the traffic included in the monthly fee, the remaining part cannot be rolled over to the next billing cycle.

Data traffic shall mean the total volume of data sent and received domestically. Billing unit: 10 Kb. Data traffic abroad is subject to different charges.

For Business MobileNet subscription contracts a 1 GB Automatic ExtraData Option is automatically activated once in a billing cycle for the Business MobileNet service packages after the domestic data volume included in the monthly fee is exhausted, or if a supplemental data option has been purchased on the Netinfo site before exhausting the domestic data volume included in the monthly fee, after the domestic data volume included in the supplemental data option, then that included in the monthly fee is exhausted, or if one or more further supplemental data option(s) has (have) been purchased on the Netinfo site before exhausting the domestic data volume included in the supplemental data option purchased on the Netinfo site, then after the domestic data volume included in the supplemental data options, then that included in the monthly fee is exhausted, for a fee of gross HUF 826.77. The data traffic included in the 1 GB Automatic ExtraData option can be used until the end of the given billing cycle, and is not divisible. The 1 GB Automatic ExtraData option is renewed monthly, but is only activated and billed upon continued data used after the domestic data volume included in the monthly fee or in the supplemental option(s) is exhausted. After the data volume included in the 1 GB Automatic ExtraData option is exhausted, the speed will be limited to 0/0 Mbit/s.

For continued Internet access until the closing of the billing cycle, (for Business Divisible MobileNet Standard and Business Divisible MobileNet Premium subscription contracts) before exhausting the domestic data volume included in the monthly fee or after exhausting the domestic data volume included in the 1 GB Automatic ExtraData option, an ExtraData and/or Monthly Renewable Extra Data and/or Plus Divisible Data supplemental data option needs to be purchased on the Netinfo site (<http://netinfo.vodafone.hu>). Without the purchase of a data option, no further data traffic will be possible after exhausting the domestic data volume included in the 1 GB Automatic ExtraData option, so if the Subscriber exhausts the domestic data volume included in the package and in the 1 GB Automatic ExtraData option, it will not have access to the Internet until the end of the billing cycle. The service is renewed upon the closing of the billing cycle.

For the description and the terms and conditions of use of the Office 365 service, see the current General Terms and Conditions for Other Services (GTCOS) of Vodafone. In the event of the termination of the Office 365 service as specified in the GTCOS, the monthly fee for the above tariff packages will not change. In the case of the purchase of devices, if the Subscriber wishes to order the above tariff packages with supplemental options L or XL, and the conditions for using the Office 365 package chosen by it are met, Vodafone will provide a 10% discount from the monthly fee thereof.

The e-Pack service is available with the Üzleti MobilNet service packages purchased with 2-year fixed-term contracts. In case of using the e-Pack service, the Subscriber agrees to fulfil the following conditions in every month while using the e-Pack service, in exchange for a more favourable monthly subscription fee:

- Subscriber uses E-bills regarding all of his subscriptions under one client number with the content defined in section 7.1.2.4. of the GTC: Electronic Bill and Document Presentation (E-bill).
- The bill is settled by using one of the following payment options:
 - on the www.vodafone.hu/szamlabefizetes web page,
 - with Vodafone mobile application,
 - by bank transfer,
 - by direct debit order,
 - via ATM machines.
- The bill is settled by the payment deadline indicated in the bill.

If the Subscriber fails to meet any of the above conditions in a given month, a one-off fee of gross HUF 413.39 will be charged to the Subscriber in his next monthly bill. The fee payable for failing to fulfil the e-Pack conditions is only billed once per month, even if the Subscriber fails to meet several e-Pack conditions in a given month.

If the Subscriber has multiple subscriptions and one of those is used with e-Pack, the Subscriber is required to settle the monthly bills of all subscriptions by satisfying the e-Pack conditions.

Should the Subscriber receive payment extension in a month and fail to settle his bill by the payment deadline indicated in the bill, the one-off fee payable for failing to meet the e-Pack conditions shall also be billed.

Cancelling the e-Pack service shall constitute a tariff change. Changing between the versions of the same tariff –with and without e-Pack- can be requested without being obligated to pay liquidated damages.

Supplemental data options (ExtraAdat) can be purchased for the Üzleti MobilNet tariff packages, the detailed description of which is included in the following table. ExtraAdat option may be purchased by calling our phone customer service number 1270 (free of charge within the network of Vodafone Magyarország Zrt.), personally in our shops, or on the Netinfo (<http://netinfo.vodafone.hu>) page. Purchases may be initiated on the Netinfo page only with the SIM card and device to which the Üzleti MobilNet subscription belongs.

If an ExtraAdat option is not completely used by the time of purchasing the next ExtraAdat option, the remaining data traffic will be lost. The ExtraAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of ExtraAdat options can be purchased in a billing cycle.

The ExtraAdat options are non-renewable options. They have to be repurchased in each billing cycle in which the Subscriber wishes to use them.

ExtraAdat (supplemental option) in case of Üzleti MobilNet Start, Üzleti MobilNet Medium, Üzleti MobilNet Pro, Üzleti MobilNet Standard, Üzleti MobilNet Premium, Üzleti Osztható MobilNet Standard and Üzleti Osztható MobilNet Premium subscription contracts

ExtraAdat (supplemental option) options may be purchased for the MobilNet tariff packages anytime within the billing cycle, described in detail in the following table. The ExtraAdat options may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the MobilNet subscription belongs.

Available ExtraAdat	Domestic data volume included	Fee (gross)	Service package
ExtraAdat 200 MB	200 MB	HUF 413.39	Üzleti MobilNet Start Üzleti MobilNet Medium Üzleti MobilNet Pro Üzleti MobilNet Standard Üzleti MobilNet Premium Üzleti Osztható MobilNet Standard Üzleti Osztható MobilNet Premium
ExtraAdat 1 GB	1 GB	HUF 1,653.54	

If an ExtraAdat option is not completely used by the time of purchasing the next ExtraAdat option, the unused remaining data traffic will be lost. The ExtraAdat option may exclusively be used by the end of the given billing cycle in domestic

networks. Any number of Extra Adat option may be purchased in a given billing period, except for Automatikus ExtraAdat 1 GB option, which is only activated once per billing cycle. ExtraAdat is a non-renewable option that has to be repurchased in every billing cycle, if needed.

Monthly Renewable ExtraAdat (supplemental option) in case of Üzleti MobilNet Start, Üzleti MobilNet Medium, Üzleti MobilNet Pro, Üzleti MobilNet Standard, Üzleti MobilNet Premium, Üzleti Osztható MobilNet Standard and Üzleti Osztható MobilNet Premium subscription contracts

A monthly renewable Extra Adat (supplemental option) option may be purchased to the MobilNet tariff packages, which supplemental option is a renewable option, reactivated every billing cycle, i.e. it will not have to be reordered. The monthly renewable Extra Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the MobilNet subscription belongs.

Available Monthly Renewable ExtraAdat	Domestic data volume included	Fee (gross)	Service package
Monthly Renewable ExtraAdat 1 GB	1 GB	HUF 1,240.16	Üzleti MobilNet Start, Üzleti MobilNet Medium, Üzleti MobilNet Pro, Üzleti MobilNet Standard, Üzleti MobilNet Premium, Üzleti Osztható MobilNet Standard, Üzleti Osztható MobilNet Premium

If the Monthly Renewable Extra Adat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The Monthly Renewable Extra Adat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of Extra Adat option may be purchased in addition to the Monthly Renewable Adat option in a given billing period.

Plusz Osztható Adat (supplemental option) in case of Üzleti Osztható MobilNet Standard and Üzleti Osztható MobilNet Premium subscription contracts

It is possible to purchase supplemental divisible data option (Plusz Osztható Adat) to the Üzleti Osztható MobilNet Standard and Üzleti Osztható MobilNet Premium service packages, whose data volume may be used by the SIM card of the Üzleti Osztható MobilNet Standard and Üzleti Osztható MobilNet Premium package and the SIM card of the subscriptions belonging to the user group.

Plusz Osztható Adat may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and device to which the Üzleti Osztható MobilNet Standard or Üzleti Osztható MobilNet Premium subscription belongs, as well as from the SIM card and device belonging to the Üzleti Osztható MobilNet Standard or Üzleti Osztható MobilNet Premium user group.

The fee of the Plusz Osztható Adat supplemental option is always charged on the Üzleti Osztható MobilNet Standard or Üzleti Osztható MobilNet Premium subscription.

Available Plusz Osztható Adat	Domestic data volume included	Fee (gross)	Service package
Plusz Osztható Adat 1 GB	1 GB	HUF 1,653.54	Üzleti Osztható MobilNet Standard and the Üzleti Osztható MobilNet Premium
Plusz Osztható Adat 3 GB	3 GB	HUF 2472.05	
Plusz Osztható Adat 8 GB	8 GB	HUF 3,298.82	

If a Plusz Osztható Adat option is not completely used by the time of purchasing the next Plusz Osztható Adat option, the unused remaining data traffic of the existing Plusz Osztható Adat (supplemental option) will be lost. The Plusz Osztható Adat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat options can be purchased in a billing cycle. PluszAdat options are non-renewable options that have to be repurchased in every billing cycle, if needed.

The Plusz Osztható Adat 8 GB supplemental option can only be used in Hungary. The service is not available abroad

2.7.5. Vodafone MobilNet Office service package

Vodafone MobilNet Office service package was reclassified as commercially unavailable as of 1 October 2017

The prices indicated in the table are gross prices including VAT.

	Vodafone MobilNet Office service package
Monthly fees	
Monthly subscription fee (HUF) with an indefinite term contract	8 809.32
Monthly subscription fee (HUF) with contracts of a 1-year fixed term	8 809.32
Monthly subscription fee (HUF) with contracts of a 2-year fixed term	9,282.05
Monthly subscription fee (HUF) with 2-year fixed-term contract and e-Pack	8,352.91
Content included in the monthly fee	
Domestic data traffic included in the monthly fee	3 GB
Offered bandwidth above the data traffic included in the monthly fee (download/upload speed – Mbit/s)	0/0
Guaranteed speed	in accordance with section 4.1 of the GTC
Office 365 Business Premium package	✓
Other charges	
Automatikus ExtraAdat 1 GB option activated once per billing cycle after the domestic data limit is exhausted (HUF)	826.77
Charges of SMS service (HUF) in a domestic network	30.48

The Vodafone MobilNet Office service package is not available without handset purchase.

The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. If the Subscriber does not use up the traffic limit included in the monthly fee, it cannot roll over the remaining part to the next billing cycle.

Data traffic refers to the aggregate amount of domestic sent and received data. Billing unit: 10 Kb. Data traffic conducted abroad are charged by applying different rates.

In the case of Vodafone MobilNet Office subscription contracts, the Vodafone MobilNet Office service package is supplemented once per billing cycle with the Automatikus ExtraAdat option containing 1 GB of domestic data traffic at a rate of HUF 826.77 gross. This option is activated automatically after the domestic data volume included in the monthly fee is exhausted; or, if a supplemental data option has been purchased on the Netinfo site before the domestic data volume included in the monthly fee is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted; or, if one or more further supplemental data option(s) has (have) been purchased before the domestic data volume included in the supplemental data volume on the Netinfo site is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted. The data traffic of the Automatikus ExtraAdat 1 GB option can be used until the end of the given billing cycle, and is not divisible. The Automatikus ExtraAdat 1 GB option is renewed monthly but is only activated and billed upon continuing data use after the domestic data volume included in the monthly fee or supplemental data option(s) is exhausted. After the data volume included in the Automatikus ExtraAdat 1 GB option, the speed will be slowed down to 0/0 Mbit/s.

Before using up the domestic data volume included in the monthly fee, or after using up the domestic data volume included in the Automatikus ExtraAdat 1 GB option, an ExtraAdat and/or Havonta Megújuló ExtraAdat supplemental data option needs to be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded after the domestic data volume included in the Automatikus ExtraAdat 1 GB option is exhausted. If the Subscriber has exhausted the domestic data volume included in the package and the Automatikus ExtraAdat 1 GB option, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

The description and terms of use of the Office 365 Business Premium service are contained in the General Terms and Conditions for Other Services of Vodafone, as amended from time to time. If the conditions for using the Office 365

Business Premium package are met, Vodafone will provide 100% discount from the monthly fee thereof. In the event of cancellation of the Office 365 service as specified in the General Terms and Conditions for Other Services, the monthly fee of the above tariff package will not change.

The e-Pack service is available with the Vodafone MobilNet Office service package purchased with 2-year fixed-term contracts. In case of using the e-Pack service, the Subscriber agrees to fulfil the following conditions in every month while using the e-Pack service, in exchange for a more favourable monthly subscription fee:

- Subscriber uses E-bills regarding all of his subscriptions under one client number with the content defined in section 7.1.2.4. of the GTC: Electronic Bill and Document Presentation (E-bill).
- The bill is settled by using one of the following payment options:
 - on the www.vodafone.hu/szamlabefizetés web page,
 - with Vodafone mobile application,
 - by bank transfer,
 - by direct debit order,
 - via ATM machines.
- The bill is settled by the payment deadline indicated in the bill.

If the Subscriber fails to meet any of the above conditions in a given month, a one-off fee of gross HUF 826.77 will be charged to the Subscriber in his next monthly bill. The fee payable for failing to fulfil the e-Pack conditions is only billed once per month, even if the Subscriber fails to meet several e-Pack conditions in a given month.

If the Subscriber has multiple subscriptions and one of those is used with e-Pack, the Subscriber is required to settle the monthly bills of all subscriptions by satisfying the e-Pack conditions.

Should the Subscriber receive payment extension in a month and fail to settle his bill by the payment deadline indicated in the bill, the one-off fee payable for failing to meet the e-Pack conditions shall also be billed.

Cancelling the e-Pack service shall constitute a tariff change. Changing between the versions of the same tariff –with and without e-Pack- can be requested without being obligated to pay liquidated damages.

Supplemental data options (ExtraAdat) can be purchased for the Vodafone MobilNet Office service package, the detailed description of which is included in the following tables. ExtraAdat may be purchased from the network of Vodafone Magyarország Zrt. and on the Netinfo page only with the SIM card and device to which the Vodafone MobilNet Office subscription belongs.

ExtraAdat (supplemental option)

Supplemental data options (ExtraAdat) can be purchased for the Vodafone MobilNet Office service package anytime within the billing cycle, the detailed description of which is included in the following table. Purchases may be initiated on the Netinfo page only with the SIM card and device to which the Vodafone MobilNet Office subscription belongs.

Available ExtraAdat	Domestic data volume included	Fee (gross)
ExtraAdat 200 MB	200 MB	HUF 413.39
ExtraAdat 1 GB	1 GB	HUF 1,653.54

If an ExtraAdat option is not completely used by the time of purchasing the next ExtraAdat option, the unused remaining data traffic will be lost. The ExtraAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of Extra Adat option may be purchased in a given billing period, except for Automatikus ExtraAdat 1 GB option, which is only activated once per billing cycle. ExtraAdat is a non-renewable option that has to be repurchased in every billing cycle, if needed.

Monthly Renewable ExtraAdat (supplemental option)

A Monthly Renewable ExtraAdat (supplemental option) option may be purchased to the Vodafone MobilNet Office service package, which supplemental option is a renewable option, reactivated every billing cycle, i.e. it will not have to be reordered. Monthly Renewable ExtraAdat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which Vodafone MobilNet Office subscription belongs.

Available Monthly Renewable ExtraAdat	Domestic data volume included	Fee (gross)
Monthly Renewable ExtraAdat 1 GB	1 GB	HUF 1,240.16

If the Monthly Renewable Extra Adat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The Monthly Renewable ExtraAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of ExtraAdat option may be purchased in addition to the Monthly Renewable ExtraAdat option in a given billing period.

2.7.6. Üzleti (Business) MobilNet tariffs

Üzleti (Business) MobilNet tariffs available for Medium and Large Enterprise customers were reclassified as commercially unavailable as of 24 October 2017

The prices indicated in the following tables are net prices, not including VAT.

	Üzleti MobilNet Start	Üzleti MobilNet Medium	Üzleti MobilNet Pro	Üzleti MobilNet Standard	Üzleti MobilNet Premium

Monthly subscription fee (HUF) with contracts of a 2-year fixed term	2,748.03	3,535.43	4,716.53	6,291.33	12,196.85
Monthly fee discount (HUF) with 2-year fixed-term contract	393.70	393.70	393.70	393.70	393.70
Content included in the monthly fee					
Domestic data traffic included in the monthly fee	3 GB	8 GB	12 GB	20 GB	40 GB
Offered bandwidth above the data traffic included in the monthly fee (download/upload speed – Mbit/s)	0/0	0/0	0/0	0/0	0/0
Guaranteed speed	in accordance with section 4.1 of the GTC				
Other charges					
Automatikus ExtraAdat 1 GB option activated once per billing cycle after the domestic data limit is exhausted (HUF)	787.4	787.4	787.4	787.4	787.4
Charges of SMS service in a domestic network	24	24	24	24	24

*The Subscriber receives the monthly fee allowance for 24 months after activation for Üzleti MobilNet tariffs signed for a 2-year fixed term. The allowance is automatically deleted after 24 months.

	Üzleti Osztható MobilNet Standard	Üzleti Osztható MobilNet Premium
Monthly fees		
Monthly subscription fee (HUF) with an indefinite term contract	22,039.37	27,944.88
Monthly subscription fee (HUF) with contracts of a 2-year fixed term	6,291.33	12,196.85
Monthly fee discount (HUF) with 2-year fixed-term contract	393.70	393.70
Content included in the monthly fee		
Domestic data volume that can be used by the user group	20 GB	40 GB
Offered bandwidth above the data volume included in the monthly subscription fee (download/upload speed – Mbit/s)	0/0	0/0
Guaranteed speed	in accordance with section 4.1 of the GTC	
Minimum - Maximum card number in the user group	2 - 3	2 - 5
Charges of SMS service in a domestic network	24	24

*The Subscriber receives the monthly fee allowance for 24 months after activation for Üzleti Osztható MobilNet Standard and Üzleti Osztható MobilNet Premium tariffs signed for a 2-year fixed term. The allowance is automatically deleted after 24 months.

The shared domestic data volume can be used collectively by the user group, that is, any subscriber number belonging to the user group can access the total data volume included in the monthly fee of the service or the data volume still available in the concerned billing cycle. The user group does not use the shared data volume in proportion to the number of its users. The above table specifies the maximum number of cards that can participate in the user group in case of the given Üzleti Osztható MobilNet tariff package. For information on the data volume available in the given billing cycle, the Subscriber may contact the customer service.

In case of subscriptions purchased for the Üzleti Osztható MobilNet packages, a monthly divisibility fee is charged for each card. The amount of the divisibility fee is specified in the following table.

Üzleti Osztható MobilNet package	
Monthly divisibility fee charged per SIM card for the subscriptions belonging to the user group	HUF 787.4 Net

The Üzleti MobilNet Start, Üzleti MobilNet Medium, Üzleti MobilNet Pro, Üzleti MobilNet Standard, Üzleti MobilNet Premium and Üzleti Osztható MobilNet packages are available without handset purchase. In case of handset purchase, the Subscriber shall choose from the following supplemental options:

Supplemental option	Monthly subscription fee of the option (HUF) with contracts of a 2-year fixed term	Content of the option for the Üzleti MobilNet tariffs
S supplemental option	787.4	Sending 30 SMS messages free of charge to any domestic, standard rate network
M supplemental option	1,574.8	Sending 30 SMS messages free of charge to any domestic, standard rate network + Sending 15 MMS messages free of charge to any domestic, standard rate network
L supplemental option	3,937.00	Sending 30 SMS messages free of charge to any domestic, standard rate network + Sending 15 MMS messages free of charge to any domestic, standard rate network + 10% monthly fee discount from the monthly fee of any Office 365 service
XL supplemental option	6,299.21	Sending 30 SMS messages free of charge to any domestic, standard rate network + Sending 15 MMS messages free of charge to any domestic, standard rate network + 10% monthly fee discount from the monthly fee of any Office 365 service + 1 x free Európa (Europe) Daily Ticket per billing cycle

The prices indicated in the table are net prices not including VAT.

The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. If the Subscriber, or in the case of Üzleti Osztható MobilNet packages, the user group does not use the traffic limit included in the monthly fee, he cannot roll over the remaining part to the next billing cycle.

Data traffic refers to the aggregate amount of domestic sent and received data. Billing unit: 10 Kb. Data traffic conducted abroad are charged by applying different rates.

In the case of Üzleti MobilNet subscription contracts, the Üzleti MobilNet service packages are supplemented once per billing cycle with the Automatikus ExtraAdat option containing 1 GB of domestic data traffic at a rate of HUF 787.4 net. This option is activated automatically after the domestic data volume included in the monthly fee is exhausted; or, if a supplemental data option has been purchased on the Netinfo site before the domestic data volume included in the monthly fee is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted; or, if one or more further supplemental data option(s) has (have) been purchased before the domestic data volume included in the supplemental data volume on the Netinfo site is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted. The data traffic of the Automatikus ExtraAdat 1 GB option can be used until the end of the given billing cycle, and is not divisible. The Automatikus ExtraAdat 1 GB option is renewed monthly but is only activated and billed upon continuing data use after the domestic data volume included in the monthly fee or supplemental data option(s) is exhausted. After the data volume included in the Automatikus ExtraAdat 1 GB option, the speed will be slowed down to 0/0 Mbit/s.

Before using up the domestic data volume included in the monthly fee, or after using up the domestic data volume included in the Automatikus ExtraAdat 1 GB option, ExtraAdat and/or Monthly Renewable Extra Adat and/or Plusz Osztható Adat (in case of Üzleti Osztható MobilNet Standard and Üzleti Osztható MobilNet Premium subscription contracts) supplemental

data option must be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded after the domestic data volume included in the Automatikus ExtraAdat 1 GB option is exhausted. If the Subscriber has exhausted the domestic data volume included in the package and the Automatikus ExtraAdat 1 GB option, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

The description and terms of use of the Office 365 service are contained in the General Terms and Conditions for Other Services of Vodafone, as amended from time to time. In the event of cancellation of the Office 365 service as specified in the General Terms and Conditions for Other Services, the monthly fee of the above tariff packages will not change. In case of handset purchase, if the Subscriber wishes to order the above tariff packages with supplemental option L or XL, and the conditions for using the Office 365 Business Essentials package are met, Vodafone provides 10% discount from the monthly fee thereof.

Supplemental data options (ExtraAdat) can be purchased for the Üzleti MobilNet tariff packages, the detailed description of which is included in the following table. ExtraAdat may be purchased on the Netinfo site (<http://netinfo.vodafone.hu>).

The ordering option of the different supplemental data volumes indicated on the Netinfo site is default. In addition to the use of the Netinfo site (<http://netinfo.vodafone.hu>) Subscriber, Subscriber's authorized contact person and users who are in possession of the client security code belonging to the subscription contract may authorize or block the use of functions on the Netinfo site regarding certain individual subscriptions free of charge. Authorization or blocking can be activated on the interface of the Vodafone Vállalati Online Ügyfélszolgálati Alkalmazás (Vodafone Corporate Online Customer Service Application) and by calling the Large Enterprise customer service 1788, (which is free of charge if called from Hungary within the network of Vodafone Magyarország Zrt.), after the necessary client identification.

Purchases may be initiated on the Netinfo page only with the SIM card and device to which the Üzleti MobilNet subscription belongs.

If an ExtraAdat option is not completely used by the time of purchasing the next ExtraAdat option, the remaining data traffic will be lost. The ExtraAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of ExtraAdat options can be purchased in a billing cycle.

The ExtraAdat options are non-renewable options. They have to be repurchased in each billing cycle in which the Subscriber wishes to use them.

ExtraAdat (supplemental option) in case of Üzleti MobilNet Start, Üzleti MobilNet Medium, Üzleti MobilNet Pro, Üzleti MobilNet Standard, Üzleti MobilNet Premium, Üzleti Osztható MobilNet Standard and Üzleti Osztható MobilNet Premium subscription contracts

ExtraAdat (supplemental option) options may be purchased for the MobilNet tariff packages anytime within the billing cycle, described in detail in the following table. The ExtraAdat options may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the MobilNet subscription belongs.

Available ExtraAdat	Domestic data volume included	Fee (net)	Service package
ExtraAdat 200 MB	200 MB	HUF 393.7	Üzleti MobilNet Start Üzleti MobilNet Medium Üzleti MobilNet Pro Üzleti MobilNet Standard Üzleti MobilNet Premium Üzleti Osztható MobilNet Standard Üzleti Osztható MobilNet Premium
ExtraAdat 1 GB	1 GB	HUF 1574.8	

If an ExtraAdat option is not completely used by the time of purchasing the next ExtraAdat option, the unused remaining data traffic will be lost. The ExtraAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of Extra Adat option may be purchased in a given billing period, except for Automatikus ExtraAdat 1 GB option, which is only activated once per billing cycle. ExtraAdat is a non-renewable option that has to be repurchased in every billing cycle, if needed.

Monthly Renewable ExtraAdat (supplemental option) in case of Üzleti MobilNet Start, Üzleti MobilNet Medium, Üzleti MobilNet Pro, Üzleti MobilNet Standard, Üzleti MobilNet Premium, Üzleti Osztható MobilNet Standard and Üzleti Osztható MobilNet Premium subscription contracts

A monthly renewable Extra Adat (supplemental option) option may be purchased to the MobilNet tariff packages, which supplemental option is a renewable option, reactivated every billing cycle, i.e. it will not have to be reordered. The monthly renewable Extra Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the MobilNet subscription belongs.

Available Monthly Renewable ExtraAdat	Domestic data volume included	Fee (net)	Service package
Monthly Renewable ExtraAdat 1 GB	1 GB	HUF 1181.1	Üzleti MobilNet Start, Üzleti MobilNet Medium, Üzleti MobilNet Pro, Üzleti MobilNet Standard, Üzleti MobilNet Premium, Üzleti Osztható MobilNet Standard, Üzleti Osztható MobilNet Premium

If the Monthly Renewable Extra Adat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The Monthly Renewable Extra Adat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of Extra Adat option may be purchased in addition to the Monthly Renewable Adat option in a given billing period.

Plusz Osztható Adat (supplemental option) in case of Üzleti Osztható MobilNet Standard and Üzleti Osztható MobilNet Premium subscription contracts

It is possible to purchase supplemental divisible data option (Plusz Osztható Adat) to the Üzleti Osztható MobilNet Standard and Üzleti Osztható MobilNet Premium service packages, whose data volume may be used by the SIM card of the Üzleti Osztható MobilNet Standard and Üzleti Osztható MobilNet Premium package and the SIM card of the subscriptions belonging to the user group.

Plusz Osztható Adat may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) page from the SIM card and device to which the Üzleti Osztható MobilNet Standard or Üzleti Osztható MobilNet Premium subscription belongs, as well as from the SIM card and device belonging to the Üzleti Osztható MobilNet Standard or Üzleti Osztható MobilNet Premium user group.

The fee of the Plusz Osztható Adat supplemental option is always charged on the Üzleti Osztható MobilNet Standard or Üzleti Osztható MobilNet Premium subscription.

Available Plusz Osztható Adat	Domestic data volume included	Fee (net)	Service package
Plusz Osztható Adat 1 GB	1 GB	HUF 1574.8	Üzleti Osztható MobilNet Standard and the Üzleti Osztható MobilNet Premium
Plusz Osztható Adat 3 GB	3 GB	HUF 2354.3	
Plusz Osztható Adat 8 GB	8 GB	HUF 3141.7	

If a Plusz Osztható Adat option is not completely used by the time of purchasing the next Plusz Osztható Adat option, the unused remaining data traffic of the existing Plusz Osztható Adat (supplemental option) will be lost. The Plusz Osztható Adat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat options can be purchased in a billing cycle. PluszAdat options are non-renewable options that have to be repurchased in every billing cycle, if needed.

The Plusz Osztható Adat 8 GB supplemental option can only be used in Hungary. The service is not available abroad

2.7.7. Vodafone MobilNet Office service package

Vodafone MobilNet Office service package for Medium and Large Enterprise customers was reclassified as commercially unavailable as of 24 October 2017

The prices indicated in the table are net prices not including VAT.

	Vodafone MobilNet Office service package
Monthly fees	
Monthly subscription fee (HUF) with contracts of a 2-year fixed term	7, 866.14
Monthly fee discount (HUF) with 2-year fixed-term contract	787.4
Content included in the monthly fee	
Domestic data traffic included in the monthly fee	3 GB
Offered bandwidth above the data traffic included in the monthly fee (download/upload speed – Mbit/s)	0/0
Guaranteed speed	in accordance with section 4.1 of the GTC
Office 365 Business Premium package	✓
Other charges	
Automatikus ExtraAdat 1 GB option activated once per billing cycle after the domestic data limit is exhausted (HUF)	787.4
Charges of SMS service (HUF) in a domestic network	24

The Vodafone MobilNet Office service package is not available with indefinite-term contracts or without handset purchase.

The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. If the Subscriber does not use up the traffic limit included in the monthly fee, it cannot roll over the remaining part to the next billing cycle.

Data traffic refers to the aggregate amount of domestic sent and received data. Billing unit: 10 Kb. Data traffic conducted abroad are charged by applying different rates.

In the case of Vodafone MobilNet Office subscription contracts, the Vodafone MobilNet Office service package is supplemented once per billing cycle with the Automatikus ExtraAdat option containing 1 GB of domestic data traffic at a rate of HUF 787.4 net. This option is activated automatically after the domestic data volume included in the monthly fee is exhausted; or, if a supplemental data option has been purchased on the Netinfo site before the domestic data volume included in the monthly fee is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted; or, if one or more further supplemental data option(s) has (have) been purchased before the domestic data volume included in the supplemental data volume on the Netinfo site is exhausted, after the domestic data volume included in the supplemental data option, then in the monthly fee is exhausted. The data traffic of the Automatikus ExtraAdat 1 GB option can be used until the end of the given billing cycle, and is not divisible. The Automatikus ExtraAdat 1 GB option is renewed monthly but is only activated and billed upon continuing data use after the domestic data volume included in the monthly fee or supplemental data option(s) is exhausted. After the data volume included in the Automatikus ExtraAdat 1 GB option, the speed will be slowed down to 0/0 Mbit/s.

Before using up the domestic data volume included in the monthly fee, or after using up the domestic data volume included in the Automatikus ExtraAdat 1 GB option, an ExtraAdat and/or Havonta Megújuló ExtraAdat supplemental data option needs to be purchased on the Netinfo page (<http://netinfo.vodafone.hu>) to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded after the domestic data volume included in the Automatikus ExtraAdat 1 GB option is exhausted. If the Subscriber has exhausted the domestic data volume included in the package and the Automatikus ExtraAdat 1 GB option, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

The description and terms of use of the Office 365 Business Premium service are contained in the General Terms and Conditions for Other Services of Vodafone, as amended from time to time. If the conditions for using the Office 365 Business Premium package are met, Vodafone will provide 100% discount from the monthly fee thereof. In the event of

cancellation of the Office 365 service as specified in the General Terms and Conditions for Other Services, the monthly fee of the above tariff package will not change.

ExtraAdat (supplemental option)

ExtraAdat (supplemental option) options may be purchased for the Vodafone MobilNet Office package anytime within the billing cycle, described in detail in the following table. The ExtraAdat options may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the Vodafone MobilNet Office subscription belongs.

The ordering option of the different supplemental data volumes indicated on the Netinfo site is default. In addition to the use of the Netinfo site (<http://netinfo.vodafone.hu>) Subscriber, Subscriber's authorized contact person and users who are in possession of the client security code belonging to the subscription contract may authorize or block the use of functions on the Netinfo site regarding certain individual subscriptions free of charge. Authorization or blocking can be activated on the interface of the Vodafone Vállalati Online Ügyfélszolgálati Alkalmazás (Vodafone Corporate Online Customer Service Application) and by calling 1788, the phone number of the Large Enterprise customer service, free of charge, within the network of Vodafone Magyarország Zrt. network.

Available ExtraAdat	Domestic data volume included	Fee (net)
ExtraAdat 200 MB	200 MB	HUF 393.7
ExtraAdat 1 GB	1 GB	HUF 1574.8

If an ExtraAdat option is not completely used by the time of purchasing the next ExtraAdat option, the unused remaining data traffic will be lost. The ExtraAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of Extra Adat option may be purchased in a given billing period, except for Automatikus ExtraAdat 1 GB option, which is only activated once per billing cycle. ExtraAdat is a non-renewable option that has to be repurchased in every billing cycle, if needed.

Monthly Renewable Extra Adat (supplemental option)

A Havonta Megújuló Extra Adat (Monthly Renewable Extra Adat) (supplemental option) option may be purchased to the Vodafone MobilNet Office service package, which supplemental option is a renewable option, reactivated in every billing cycle, i.e. it will not have to be reordered. Havonta Megújuló Extra Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which Vodafone MobilNet Office subscription belongs.

Available Monthly Renewable ExtraAdat	Domestic data volume included	Fee (net)
Monthly Renewable ExtraAdat 1 GB	1 GB	HUF 1181.1

If the Monthly Renewable Extra Adat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The Monthly Renewable Extra Adat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of Extra Adat option may be purchased in addition to the Monthly Renewable Adat option in a given billing period.

2.7.8. OfficeNet tariff package for Small Enterprise customers

The OfficeNet tariff package was reclassified as commercially unavailable as of 1 July 2018.

In the case of Subscription Contracts concluded before Tuesday, October 24, 2017:

	OfficeNet
Initial costs	
Entry fee (HUF)	10,000
Monthly fees	
Monthly subscription fee (HUF) with an indefinite term contract	23,554.73
Monthly subscription fee (HUF) with contracts of a 1-year fixed term	23,554.73
Monthly subscription fee (HUF) with contracts of a 2-year fixed term	7,019.30
Domestic data traffic included in the monthly fee	75 GB
Offered bandwidth above the data traffic included in the monthly traffic	download speed: 0.03125 Mbit/s upload speed 0.03125 Mbit/s
Guaranteed download and upload speed	in accordance with section 4.1 of the GTC
Services and their fees in addition to the monthly fee	
SMS to any domestic network (HUF)	30.48
Charge for International SMS to countries within the area of validity of the RED EU International tariff zone (HUF)	in accordance with Section 9 of the GTC
Charge for International SMS to countries outside the preferential zone (HUF)	60.96

For subscription contracts concluded after 24 October 2017:

	OfficeNet
Initial costs	
Entry fee (HUF)	10,000
Monthly fees	
Total monthly subscription fee (HUF) with an indefinite-term, 1-year or 2-year fixed-term contract	7,019.30
Domestic data traffic included in the monthly fee	75 GB
Offered bandwidth above the data traffic included in the monthly traffic	download speed: 0.03125 Mbit/s upload speed 0.03125 Mbit/s
Guaranteed download and upload speed	in accordance with section 4.1 of the GTC
Services and their fees in addition to the monthly fee	
SMS to any domestic network (HUF)	30.48
Charge for International SMS to countries within the area of validity of the RED EU International tariff zone (HUF)	in accordance with Section 9 of the GTC
Charge for International SMS to countries outside the preferential zone (HUF)	60.96

The prices indicated in the table are gross prices including VAT.

The OfficeNet tariff package only provides data transmission service; voice services are not available with the above tariff package. Data traffic refers to the aggregate amount of domestic sent and received data. Billing of the data traffic included in

the tariff is performed in units of 10 Kbytes. In addition to Internet the tariff packages include SMS service too, subject to the rates included in the table above. The receipt of SMS messages is free of charge.

Mobile Internet is not available abroad with OfficeNet service package.

If the Subscriber does not use up the traffic limit included in the monthly fee, it cannot roll over the remaining part to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions.

From the date of activation of the tariff package until the date of invoice closing a proportionate fraction of the full monthly fee and traffic limit will be billed. In case of changing tariff packages for tariff packages including monthly data traffic limit, from the beginning of the billing period to the change of the tariff, or from the change of the tariff package to the closing of the billing period, a pro-rata fractional monthly fee will be billed, based on the full monthly fee, and the full traffic limit can also be used on a pro-rata basis.

In the case of OfficeNet service package, after the data volume contained in the monthly fee has been used up, supplemental data option may be purchased on the Netinfo site (<http://netinfo.vodafone.hu>), otherwise the speed will be slowed down until the end of the billing cycle. After the end of the billing period, the original speed is restored. The value of the slowdown is 0.03125 Mbit/s for download and upload; the guaranteed speed defined in section 4.1 of the GTC.

OfficeNet tariff package is only available with the purchase of an Internet sharing device designated by Vodafone, and the subscription may be used with the device purchased in this package with the SIM card provided for the service. The service is not available with any other device or SIM card. The SIM card guaranteed in the OfficeNet tariff package subscription contract may not be used with any other device. In the case of improper use (for example, but not limited to cases where Subscriber requests the service without the device purchased with the package or without the SIM card included in the OfficeNet tariff package, or if Subscriber uses the SIM card included in the OfficeNet tariff package with another device) Vodafone reserves the right to restrict (the value of the slowdown is 0/0 Mbit/s) or terminate the service, after providing prior warning, or to convert the subscription to Internet Base Tariff after providing prior notice in SMS.

2.7.9. OfficeNet tariff package for Medium and Large Enterprise Customers

The OfficeNet tariff package was reclassified as commercially unavailable as of 1 July 2018

In the case of Subscription Contracts concluded before Tuesday, October 24, 2017:

	OfficeNet
Initial costs	
Entry fee (HUF)	-
Monthly fees	
Monthly subscription fee (HUF) with an indefinite term contract	22,433.07
Monthly subscription fee (HUF) with contracts of a 2-year fixed term	6,685.04
Monthly fee discount (HUF) with 2-year fixed-term contract	393.7
Domestic data traffic included in the monthly fee	75 GB
Offered bandwidth above the data traffic included in the monthly traffic	download speed: 0.03125 Mbit/s upload speed 0.03125 Mbit/s
Guaranteed download and upload speed	in accordance with section 4.1 of the GTC
Services and their fees in addition to the monthly fee	
SMS to any domestic network (HUF)	24
Charge for International SMS to countries within the area of validity of the RED EU International tariff zone (HUF)	in accordance with Section 9 of the GTC
Charge for International SMS to countries outside the preferential zone (HUF)	48

For subscription contracts concluded after 24 October 2017:

	OfficeNet
Initial costs	
Entry fee (HUF)	-
Monthly fees	
Monthly subscription fee (HUF) with an indefinite-term or 2-year fixed-term contract	22,433.07
Domestic data traffic included in the monthly fee	75 GB
Offered bandwidth above the data traffic included in the monthly traffic	download speed: 0.03125 Mbit/s upload speed 0.03125 Mbit/s
Guaranteed download and upload speed	in accordance with section 4.1 of the GTC
Services and their fees in addition to the monthly fee	
SMS to any domestic network (HUF)	24
Charge for International SMS to countries within the area of validity of the RED EU International tariff zone (HUF)	in accordance with Section 9 of the GTC
Charge for International SMS to countries outside the preferential zone (HUF)	48

The prices indicated in the table are net prices, which do not include VAT.

The OfficeNet tariff package only provides data transmission service; voice services are not available with the above tariff package. Data traffic refers to the aggregate amount of domestic sent and received data. Billing of the data traffic included in the tariff is performed in units of 10 Kbytes. In addition to Internet the tariff packages include SMS service too, subject to the rates included in the table above. The receipt of SMS messages is free of charge.

Mobile Internet is not available abroad with OfficeNet service package.

If the Subscriber does not use up the traffic limit included in the monthly fee, it cannot roll over the remaining part to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions.

From the date of activation of the tariff package until the date of invoice closing a proportionate fraction of the full monthly fee and traffic limit will be billed. In case of changing tariff packages for tariff packages including monthly data traffic limit, from the beginning of the billing period to the change of the tariff, or from the change of the tariff package to the closing of the billing period, a pro-rata fractional monthly fee will be billed, based on the full monthly fee, and the full traffic limit can also be used on a pro-rata basis.

In the case of OfficeNet service package, after the data volume contained in the monthly fee has been used up, supplemental data option may be purchased on the Netinfo site (<http://netinfo.vodafone.hu>), otherwise the speed will be slowed down until the end of the billing cycle. After the end of the billing period, the original speed is restored. The value of the slowdown is 0.03125 Mbit/s for download and upload; the guaranteed speed defined in section 4.1 of the GTC.

OfficeNet tariff package is only available with the purchase of an Internet sharing device designated by Vodafone, and the subscription may be used with the device purchased in this package with the SIM card provided for the service. The service is not available with any other device or SIM card. The SIM card guaranteed in the OfficeNet tariff package subscription contract may not be used with any other device. In the case of improper use (for example, but not limited to cases where Subscriber requests the service without the device purchased with the package or without the SIM card included in the OfficeNet tariff package, or if Subscriber uses the SIM card included in the OfficeNet tariff package with another device) Vodafone reserves the right to restrict (the value of the slowdown is 0/0 Mbit/s) or terminate the service, after providing prior warning, or to convert the subscription to Internet Base Tariff after providing prior notice in SMS.

OfficeNet service includes a download bandwidth of 75 Mbit/s and an upload bandwidth of 25 Mbit/s on 4G network, a download bandwidth of 42 Mbit/s and an upload bandwidth of 5.7 Mbit/s of 3G network.

With reference to OfficeNet service package Subscribers Vodafone applies the Dynamic service quality regulation (QoS) described in section 4.2. (b) of the GTC, according to the standards no. 3GPP TS 23.107 and ETSI TS 123 107 V.9.0.0. in each billing cycle when allocating network resources, from starting the use of data traffic (from 0 GB data traffic) continuously (the description of the referenced standards can be found at the following websites: www.3gpp.org and www.etsi.org). As a consequence, OfficeNet service Subscribers enter a lower priority level when starting the use of data traffic than the other Subscribers and at the time of network overload the other Subscribers are more likely to properly reach the network resources than OfficeNet service package Subscribers i.e. other Subscribers will, at the time of network overload and under identical circumstances, be allowed data communication at a higher speed than an OfficeNet service package Subscriber. With normal network load, an OfficeNet service package Subscriber is not discriminated against other Subscribers and may use the network at the same speed as other users. The Service Provider will provide the guaranteed download and upload speed specified in Section 4.1. of the General Terms and Conditions regardless of the cause of limitation.

The following supplemental options are available for the OfficeNet tariff package:

Kiegészítő Adat (supplemental option):

Supplemental data options can be purchased for the OfficeNet tariff packages, the detailed description of which is contained in the following table. Kiegészítő Adat option may be purchased on the Netinfo site (<http://netinfo.vodafone.hu>). Purchases may be initiated on the Netinfo page only with the SIM card and device to which the OfficeNet subscription belongs.

Available Kiegészítő Data option	Domestic data volume included	Fee (net)
Kiegészítő Adat 500 MB	500 MB	HUF 787.4
Kiegészítő Adat 1 GB	1 GB	HUF 1,574.8
Kiegészítő Adat 5 GB	5 GB	HUF 3,937.01

If a Kiegészítő Adat option is not completely used by the time of purchasing the next Kiegészítő Adat option, the remaining data traffic will be lost. The Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of Kiegészítő Adat options can be purchased in a billing cycle.

The Kiegészítő Adat options are non-renewable options. They have to be repurchased in each billing cycle in which the Subscriber wishes to use them.

Monthly renewable Kedvezményes (Preferential) Kiegészítő Adat (supplemental option):

A monthly renewable Kedvezményes Kiegészítő Adat option may be purchased to the OfficeNet tariff packages, which supplemental option is a renewable option, reactivated in every billing cycle, i.e. it will not have to be reordered. The monthly renewable Kedvezményes Kiegészítő Adat option may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the OfficeNet subscription belongs.

By purchasing the Kedvezményes Kiegészítő Adat option (supplemental option) the Subscriber agrees that during the fixed term associated with its OfficeNet subscription it shall also maintain the supplemental option, and the option shall not be cancelled during this period due to reasons arising within the Subscriber's scope of interest. If the above conditions are not met, the Subscriber shall pay liquidated damages in the amount of the discount calculated versus the Kiegészítő Adat option available to the Subscriber, as detailed in Section 12.7 of the GTC.

In case of Kedvezményes Kiegészítő Adat 1 GB option, the discount versus Kiegészítő Adat 1 GB (HUF 1,574.8 net) option is: HUF 787.4 net per month.

In case of Kedvezményes Kiegészítő Adat 5 GB option, the discount versus Kiegészítő Adat 5 GB (HUF 3,937 net) option is: HUF 787.4 net per month.

In the case of Kedvezményes Kiegészítő Adat 10 GB option, the discount versus the proportional fee taking into account the domestic data volume included in the Kiegészítő Adat 5 GB (HUF 3,937) option is: HUF 3,149.61 net.

Available Kedvezményes (Preferential) Kiegészítő Adat option	Domestic data volume included	Fee (net)
Kedvezményes Kiegészítő Adat 1GB	1 GB	HUF 787.4
Kedvezményes Kiegészítő Adat 5 GB	5 GB	HUF 3,149.61
Kedvezményes Kiegészítő Adat 10 GB	10 GB	HUF 4,724.41

If the monthly renewable Kedvezményes Kiegészítő Adat is not completely used in the given billing period, its unused remaining data traffic will be lost. The monthly renewable Kedvezményes Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of Kiegészítő Adat option may be purchased in addition to the monthly renewable Kedvezményes Kiegészítő Adat option in a given billing period.

2.8. Internet options not marketed

In case of the below options, data traffic refers to the aggregate amount of domestic sent and received data, with a billing unit of 10 Kb. The options contain Internet and packet-switched WAP services, subject to the rates included in the tables below. Internet and packet-switched WAP data traffic abroad is subject to different rules (price, billing unit).

If the Subscriber does not use up the traffic limit included in the monthly fee, it cannot roll over the remaining part to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. After the traffic quota included in the monthly fee has been exhausted, the service may be used subject to the following usage fees, except for the MobilWeb Classic, MobilWeb Basic, MobilWeb Medium, MobilWeb Hobbi and MobilWeb Profi options. For the MobilWeb Classic, MobilWeb Basic, MobilWeb Medium, MobilWeb Hobbi and MobilWeb Profi options, after the traffic quota included in the monthly fee has been exhausted, the speed of the service will be reduced; after the end of the billing period, the original speed is restored.

From the activation of the options to the closing of the invoice, or, in case of changing options, from the beginning of the billing period to the change of the option, or from the change of the option to the closing of the billing period, a pro-rata fractional monthly fee will be billed, based on the full monthly fee, and the full traffic quota can also be used on a pro-rata basis.

The tables contain both net and gross prices; gross prices include VAT.

WAP ¹		Net fee	Gross fee
WAP monthly fee - up to 10 MB data traffic per month		HUF 560	HUF 888.00
WAP additional fee	In excess of 10 MB data traffic per month, but max. up to 50 MB	HUF 833.33	HUF 875
	In excess of 50 MB data traffic per month, but max. up to 100 MB	HUF 833.33	HUF 875
	In excess of 100 MB data traffic per month, for each started 50 MB	HUF 833.33	HUF 875

¹: The WAP service is not available with the Data Card tariff package.

¹: ONLY marketed to Small Enterprise customers according to Section 2.4.2 of this List of Rates.

2.8.1. Reserved for editing purposes

2.8.2. Small Enterprise Vodafone Internet 1G and 5G options

The Vodafone Internet 1G and 5G Internet options were reclassified as commercially unavailable as of 1 October 2015.

The prices indicated in the tables are gross prices including VAT.

Vodafone Internet 1G option	
Gross monthly fee (up to 1 GB data traffic per month)	HUF 2,480.31
Gross additional fee in excess of 1 GB data traffic per month for each started 10 Kb	HUF 0.29

Vodafone Internet 5G option	
Gross monthly fee (up to 5 GB data traffic per month)	HUF 4,547.25
Gross additional fee in excess of 5 GB data traffic per month for each started 10 Kb	HUF 0.06

Data traffic refers to the aggregate amount of domestic sent and received data. Billing unit: 10 Kb. Internet and packet-switched WAP data traffic conducted abroad are charged by applying different rates. The options contain Internet and packet-switched WAP services, subject to the rates specified in the above tables.

If the Subscriber does not use up the traffic limit included in the monthly fee, it cannot roll over the remaining part to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions. After the traffic limit included in the monthly fee has been exhausted, the service may be used subject to the traffic charge specified above.

From the activation of the options to the closing of the invoice, or, in case of changing options, from the beginning of the billing period to the change of the option, or from the change of the option to the closing of the billing period, a pro-rata fractional monthly fee will be billed, based on the full monthly fee, and the full traffic quota can also be used on a pro-rata basis.

2.8.3. Medium and Large Enterprise Internet 5GB option

Internet 5GB option	
Net monthly fee (up to 5 GB data traffic per month)	HUF 4,000
Net additional fee in excess of 5 GB data traffic per month for each started 10 Kb	HUF 0.1

Data traffic refers to the aggregate amount of domestic sent and received data. Billing unit: 10 Kb. Internet and packet-switched WAP data traffic conducted abroad are charged by applying different rates. The option includes Internet and WAP packet-switched services, subject to the rates specified in the table above.

If the Subscriber does not use up the traffic limit included in the monthly fee, it cannot roll over the remaining part to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions.

Upon exceeding the data volume included in the monthly fee, the additional fee specified in the above table shall be charged.

In case of changing options, from the beginning of the billing period to the change of the option, or from the change of the option to the closing of the billing period, a pro-rata fractional monthly fee will be billed, based on the full monthly fee, and the full traffic limit can also be used on a pro-rata basis.

2.8.4. Medium and Large Enterprise Internet options

The Internet 100, Internet 500, Internet Mini, Internet Mini Plus Internet Maxi, Internet Easy, Internet Comfort, Internet Nonstop, Internet 1GB internet options will not be commercially available as of 1 September 2016.

The prices indicated in the following tables are net prices, not including VAT.

Internet 100 option	
Net monthly fee	HUF 640
Additional net fee in excess of 100 MB data traffic per month	HUF 0
Offered bandwidth above the 100 MB data traffic included in the monthly subscription fee (download/upload speed - Mbit/s)	0.009/0.009
Guaranteed speed above the data traffic included in the monthly subscription fee	in accordance with section 4.1 of the GTC

Internet 500 option	
Net monthly fee	HUF 1, 280
Additional net fee in excess of 500 MB data traffic per month	HUF 0
Offered bandwidth above the 500 MB data traffic included in the monthly subscription fee (download/upload speed - Mbit/s)	0.009/0.009
Guaranteed speed above the data traffic included in the monthly subscription fee	in accordance with section 4.1 of the GTC

Internet Mini option	
Net monthly fee	HUF 440
Additional net fee in excess of 50 MB data traffic per month	HUF 0
Offered bandwidth above the 50 MB data traffic included in the monthly subscription fee (download/upload speed - Mbit/s)	0.009/0.009
Guaranteed speed above the data traffic included in the monthly subscription fee	in accordance with section 4.1 of the GTC

Internet Mini Plus option	
Net monthly fee	HUF 960
Additional net fee in excess of 200 MB data traffic per month	HUF 0
Offered bandwidth above the 200 MB data traffic included in the monthly subscription fee (download/upload speed - Mbit/s)	0.009/0.009
Guaranteed speed above the data traffic included in the monthly subscription fee	in accordance with section 4.1 of the GTC

Internet Maxi option	
Net monthly fee	HUF 1, 600
Additional net fee in excess of 500 MB data traffic per month	HUF 0
Offered bandwidth above the 500 MB data traffic included in the monthly subscription fee (download/upload speed - Mbit/s)	0.009/0.009
Guaranteed speed above the data traffic included in the monthly subscription fee	in accordance with section 4.1 of the GTC

Internet Easy option	
Net monthly fee	HUF 2, 400
Additional net fee in excess of 2 GB data traffic per month	HUF 0
Offered bandwidth above the 2 GB data traffic included in the monthly subscription fee (download/upload speed - Mbit/s)	0.009/0.009
Guaranteed speed above the data traffic included in the monthly subscription fee	in accordance with section 4.1 of the GTC

Internet Comfort option	
Net monthly fee	HUF 3, 600
Additional net fee in excess of 4 GB data traffic per month	HUF 0
Offered bandwidth above the 4 GB data traffic included in the monthly subscription fee (download/upload speed - Mbit/s)	0.009/0.009
Guaranteed speed above the data traffic included in the monthly subscription fee	in accordance with section 4.1 of the GTC

Internet Nonstop option	
Net monthly fee	HUF 4,800
Additional net fee in excess of 8 GB data traffic per month	HUF 0
Offered bandwidth above the 8 GB data traffic included in the monthly subscription fee (download/upload speed - Mbit/s)	0.009/0.009
Guaranteed speed above the data traffic included in the monthly subscription fee	in accordance with section 4.1 of the GTC

Internet 1GB option	
Net monthly fee (up to 1 GB data traffic per month)	HUF 2,000
Net additional fee in excess of 1 GB data traffic per month for each started 10 Kb	HUF 0.1

Data traffic refers to the aggregate amount of domestic sent and received data. Billing unit: 10 Kb. Internet and packet-switched WAP data traffic conducted abroad are charged by applying different rates. The options contain Internet and packet-switched WAP services, subject to the rates specified in the above tables.

If the Subscriber does not use up the traffic limit included in the monthly fee, it cannot roll over the remaining part to the next billing cycle. The traffic limit included in the monthly fee can be used during any part of the day without time restrictions.

Except for the Internet 1GB options, any data transmission within the same billing period in excess of the amount included in the monthly fee will lead to a reduction in transmission speed in the case of the above options. After the end of the billing period, the original speed is restored. Maximum value of the slowdown: 9.6 Kbit/s (0.009 Mbit/s) download and upload. In the case of Internet 1GB, upon exceeding the data volume included in the monthly fee, the additional fee specified in the above tables shall be charged.

From the activation of the options to the closing of the invoice, or, in case of changing options, from the beginning of the billing period to the change of the option, or from the change of the option to the closing of the billing period, a pro-rata fractional monthly fee will be billed, based on the full monthly fee, and the full traffic quota can also be used on a pro-rata basis.

Plusz Adat (supplemental option):

A supplemental data option (PluszAdat) can be purchased for the Internet options, the detailed description of which is contained in the following table. PluszAdat and Kiegészítő Adat options may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the Internet option belongs.

Available PluszAdat	Domestic data volume included	Fee (net)	Option
PluszAdat 150 MB	150 MB	HUF 595.5	Internet Mini option, Internet Mini Plus option, Internet Maxi option, Internet 1G option, Internet Easy option, Internet Comfort option, Internet Nonstop option, Internet Ultimate option
PluszAdat 1 GB	1 GB	HUF 1,574.8	Internet 1G option, Internet Easy option, Internet Comfort option, Internet Nonstop option, Internet Ultimate option

If a PluszAdat option has not been used up fully until the moment of the purchase of the next PluszAdat option, then the unused remaining data traffic of the existing PluszAdat option will be lost. The PluszAdat option may exclusively be used by the end of the given billing cycle in domestic networks. Any number of PluszAdat options can be purchased in a billing cycle. PluszAdat options are non-renewable options that have to be repurchased in every billing cycle, if needed.

Monthly Renewable PluszAdat (supplemental option):

A Monthly Renewable PluszAdat can be purchased to the Internet options detailed in the table below, which supplemental option is reactivated in every billing cycle, i.e. it will not have to be reordered. Monthly Renewable PluszAdat may be purchased on the Netinfo (<http://netinfo.vodafone.hu>) site, from the SIM card and device to which the Internet option belongs.

Available Monthly Renewable PluszAdat	Domestic data volume included	Fee (net)	Option
Monthly Renewable PluszAdat 1 GB	1 GB	HUF 1,181.1	Internet 1G option, Internet Easy option, Internet Comfort option, Internet Nonstop option, Internet Ultimate option

If the Monthly Renewable PluszAdat or Kedvezményes Kiegészítő Adat option is not completely used in the given billing period, the unused remaining data traffic will be lost. The Monthly Renewable PluszAdat option may exclusively be used by the end of the given billing cycle in domestic networks. The Kedvezményes Kiegészítő Adat option may exclusively be used by the end of the given billing cycle. Any number of PluszAdat or Kiegészítő Adat option may be purchased in addition to the Monthly Renewable PluszAdat or Kedvezményes Kiegészítő Adat option in a given billing period.

For subscription contracts concluded after 1 August 2015, the ordering option of the different supplemental options indicated on the Netinfo site is default. At the same time, for subscription contracts concluded after 1 August 2015, in addition to the use of the Netinfo site (<http://netinfo.vodafone.hu>) Subscriber, Subscriber's authorized contact person and users who are in possession of the client security code belonging to the subscription contract may authorize or block the use of functions on the Netinfo site regarding certain individual subscriptions free of charge. Authorization or blocking can be activated on the interface of the Vodafone Vállalati Online Ügyfélszolgálati Alkalmazás (Vodafone Corporate Online Customer Service Application) and by calling the Large Enterprise customer service 1788, (which is free of charge if called from Hungary within the network of Vodafone Magyarország Zrt.), after the necessary client identification.

3. Service fees

3.1. Charges for other services

Other per-minute charges for domestic calls	
Customer service (from a Vodafone number)	Free of charge
Emergency calls	Free of charge
Domestic green numbers	Free of charge
Basic services	
Voicemail	Free of charge
Call waiting	Free of charge
Call holding	Free of charge
Call diversion	Free of charge
Caller ID display	Free of charge
Restriction of caller identification	Free of charge
Professional voicemail service	
Monthly fee of professional voicemail service	HUF 0
Monthly fee of professional voicemail and fax	HUF 700
Other services	
Monthly fee of conference calls	HUF 600
Call barring	Free of charge
Domestic minute charge of voicemail calls	
In case of monthly fee-based (post-paid) packages NB: Certain tariff packages may contain different rates from the above; such rates are listed below the given tariff packages.	HUF 25

The prices indicated in the table are gross prices including VAT.

Other notes:

- Call diversion: **HUF 50 / min** if diverting calls to domestic, standard rate directions (billing unit: 1 minute); to other numbers, pricing is in accordance with the rates of the relevant tariff package. During international roaming the service of call diversion to international numbers is not available.
- For Voicemail:
 - When using the "call-back from voicemail" service, pricing is in accordance with the call directions of the relevant tariff package.
 - When using the Call notification service, pricing is in accordance with the call directions of the relevant tariff package.
- The Professional Voicemail and Faxmail service is commercially unavailable as of 1 July 2015, i.e. no new subscription contracts may be concluded for the service. The change does not affect the currently valid individual subscriptions for the concerned service, Vodafone will continue to provide the already used service for the Subscriber under the following unchanged conditions:
 - The Fax forwarding service is available for Subscribers contracting for the professional Voicemail and Faxmail service before 1 July 2015. With this service, forwarding to domestic, standard rate directions the charge shall be **HUF 50/min** (billing unit: 1 minute); to other directions, pricing is in accordance with the rates of the relevant tariff package.

3.2. Rates of SMS messages sent to +36 70 70 000 77

For the Referees wishing to take the opportunity provided by Vodafone's "Customer Recruitment" offer, the required registration via SMS message, the tracking of referrals and the notification about the recommended person's need for a discount (re-registration) via SMS are possible through the standard-rate SMS number +36 70 70 000 77 operated by Vodafone during the promotion period (hereinafter referred to as Registration SMS Centre). The Service Provider charges the price of a standard-rate SMS within the network of Vodafone Magyarország Zrt. for each text message sent to the Registration SMS Centre. SMS messages received from the Registration SMS Centre are free of charge.

3.3. Interactive voice services

In case of the interactive voice services, Vodafone shall always charge the incoming call according to the current minute rate of the given tariff package. For the current list of interactive voice services available from Vodafone's network, visit the Service Provider's website.

3.4. Reserved for editing purposes

3.5. Reserved for editing purposes

3.6. MMS service

MMS sending is billed based on successfully sent messages, regardless of the success of delivery. The MMS is considered successfully sent if it arrives to the message centre of the Service Provider, and the Service Provider made an attempt at delivery. The charge of MMS sent within the network of Vodafone Magyarország Zrt. also depends on the type of the message sent, while international MMS messages are not distinguished by type.

Charges for sending of MMS messages per message

Within the network of Vodafone Magyarország Zrt. or to an email address	
Text	HUF 50
Image / voice	HUF 100
Motion picture (video) / application	HUF 150
To other mobile network	
Text	HUF 100
Image / voice	HUF 150
Motion picture (video) / application	HUF 200
To an international network	
Uniformly	HUF 200

All prices are indicated in HUF and are gross prices, including VAT.

Maximum size of MMS messages: 300 KB. The carrying channel, the GPRS traffic is not billed for MMS messages.

If an MMS message consists of several parts of different types, the Service Provider always charges a price corresponding to the type of the highest-category part of the message. If it consists of several parts of the same type, the price corresponding to the given type is only charged once.

Explanation: An MMS message is considered a **Text** MMS message if it only consists of text-type parts. An MMS message is considered an **Image / Voice** MMS message if it contains either image or voice or both. An MMS message is considered a **Motion picture (video) / application** MMS message if it contains either motion picture (video) or an application or both.

Further details about the various types of MMS messages supported by the Service Provider (text, image, voice, motion picture, application) are described on the website www.vodafone.hu.

3.8. Voice over IP - VoIP

The VoIP service allows international calls to be made via the Internet Protocol, at much lower rates than the ones charged for traditional international calls. To use the service, dial the prefix +0 or 000; no activation fee or monthly fee is applied. VoIP calls are billed by the Service Provider using the billing unit according to the Subscriber's current tariff package.

The VoIP service is provided in four zones, subject to three different rates. For post-paid subscription contracts:

Zone	
Red EU International	HUF 76
1	HUF 40
2	HUF 80
3	HUF 100

The prices indicated in the table are gross prices including VAT.

The list and zone classification of countries available through the Voice over IP service:

- Voice over IP Red EU International zone: Austria, Belgium, Cyprus, Czech Republic, Denmark, United Kingdom, Finland, France, Gibraltar, Greece, the Netherlands, Croatia, Poland, Liechtenstein, Luxembourg, Malta, Monaco, Germany, Norway, Italy / Vatican City State, Portugal, Romania, Spain, Switzerland, Sweden, Slovakia, Slovenia, Bulgaria, Estonia, Iceland, Latvia, Lithuania, Turkey, Vatican
1. United States of America, Hong Kong, Canada, China, Russia,
 2. Andorra, Australia, Ireland, Israel, Kosovo, Montenegro, San Marino, Serbia, Ukraine
 3. Albania, Bosnia and Herzegovina, Belarus, Japan, the Republic of Korea, Libya, Macedonia, Mexico, Moldova

In case of calls to a foreign country, availability of the networks of different service providers depends on the current wholesale contracts.

Countries not listed above can only be called via international calls (using 00 or + as a prefix).

3.10. Vodafone Pass packages

The Vodafone Pass service packages are available with the Small Enterprise Subscriber packages EU 1GB, Business EU 3GB, Business EU 12GB, Business, Business EU 500MB, Business EU 2GB, Business EU 10GB, Business Red EU 2GB, Business Red EU 10GB, Business Red EU 30GB, Business Red EU Superior, EU Red 3 GB, Business EU Red 12GB, Business EU Red Superior, Business Group EU 5, Business Group EU 10, Business Group EU 15, Business Group EU 20, Business Group EU 30, Business EU Group 5, Business EU Group 10, Business EU Group 15, Business EU Group 20, Business EU Group 30, Business Start, Business Medium, Business Pro, Business Start EU, Business Medium EU, Business Pro EU, Business RED Basic, Business RED Standard, Business RED Premium, Business RED EU Basic, Business RED EU Standard, Business RED EU Premium, Vállalkozói osztható 10 000, Vállalkozói osztható 15 000, Vállalkozói osztható 20 000, Vállalkozói osztható 30 000, Vállalkozói osztható 45 000, Vállalkozói osztható 60 000, Vállalkozói osztható 75 000, Vállalkozói osztható 100 000, Okos Rádás Red Standard, Okos Rádás Red Premium, Okos Rádás Red EU Standard, Okos Rádás Red EU Premium, Vodafone Business RED 5GB, Vodafone Business RED 20GB, Vodafone Business Smart 3GB és Vodafone Business Smart 5GB.

The prices indicated in the table are gross prices including VAT.

Vodafone Pass packages	Content of the Vodafone Pass packages:	Monthly fee
Social Pass	With the service packages indicated, the Subscribers get internet access for the text and photo content of social media sites listed on the https://www.vodafone.hu/kisvallalkozasok/tarifak-es-opciok/pass website.	HUF 1,000
Connect Pass	With the service packages indicated, the Subscribers get internet access for the texting, voice and video call content of the online chat and phone service applications listed on the https://www.vodafone.hu/kisvallalkozasok/tarifak-es-opciok/pass website.	HUF 1,200
Video Pass	<p>With the service packages indicated, the Subscribers get internet access for the video watching applications listed on https://www.vodafone.hu/kisvallalkozasok/tarifak-es-opciok/pass website.</p> <p>The option gives Subscribers a 480p resolution for the video services of third parties indicated on the website. This resolution provides average quality optimised for mobile phones available at the start of the promotion; on devices with larger screens, image quality may be less favourable. There is no possibility to set a better image resolution in the Vodafone Pass packages.</p> <p>The option does not include access to premium functions available at a monthly fee from third-party video service providers; to use this paid content, a separate subscription with the video provider is required.</p>	HUF 5,000

The data volume of Vodafone Pass packages used for specified content does not consume the data volume included in the service package or extra data options. After using up the data volume included in the service package and the extra data option or the Automatikus Kiegészítő Adat (Automatic Extra Data) option, the Vodafone Pass packages will be available at

the offered bandwidth applicable to data volumes in excess of the volume included in the service package's monthly subscription fee.

The separation of data volume by traffic types determined by the options is roughly, but not guaranteed, 100%. It may occur that the data volume used cannot be identified clearly in each case or there may be a shorter or longer lead time during application updates by the content provider until the newest version of the application is available, and these cases use the data volume included in the service package.

The Vodafone Pass packages only apply to individual data usage, not shared data.

Vodafone is entitled to modify without notice the list of applications associated with the Vodafone Pass packages that are stated on the website. Applications listed here are typically services provided by third-party providers, and the third party providing the service shall be responsible for them. The free data volume does not include any other content than the relevant thematic content, e.g. data volume used for content or functions published, stored or operated by third parties linked in the Vodafone Pass service (e.g. registration, application download, update, embedded video, etc.).

Use of the Vodafone Pass packages requires downloading the provider's mobile application or using the official address where the service can be reached. The applications shall be governed by the terms of use defined by the specific service providers, Vodafone only provides internet access to these and has no impact on their terms of use. The normal display and usability of the applications may depend on the type of device, and Vodafone accepts no responsibility in relation to this. The Vodafone Pass packages are not available in other modes than the standard protocols (by proxy or through other encrypted networks) or virtual private networks (VPN).

If there is an active Vodafone EU Roaming option, the Vodafone Pass packages can be used abroad, as well, in the roaming networks and terms specified for the Vodafone EU Roaming service. For Subscribers who do not have an active Vodafone EU Roaming option, the applicable Regulated European Roaming charges shall apply to use of the thematic packages in roaming. To avoid any disputes relating to charges, please check the roaming settings of your device and package before using them abroad.

Vodafone Pass is available only through the APN internet.vodafone.net.

If the service is cancelled, the total fee of each started month must be paid, it is not possible to charge for fractional months.

3.14. Reserved for editing purposes

3.15. Fixed-line number service

The monthly fee of the fixed-line number service is included in the following table. The prices indicated in the table are gross prices including VAT.

	Fixed-line number 1000 service	Fixed-line number 200 service	Fixed-line number Basic service
Monthly subscription fee (HUF) with an indefinite term contract	4 000	2 990	1 990
Monthly subscription fee (HUF) with contracts of a 2-year fixed term	3 500	1 490	990
Content included in the monthly fee			
Calls made to domestic standard-rate fixed-line networks	1000 minutes	200 minutes	-

For subscription contracts concluded after 24 October 2017:

	Fixed-line number 1000 service	Fixed-line number 200 service	Fixed-line number Basic service
Monthly subscription fee (HUF) with an indefinite-term or 2-year fixed-term contract	4 000	2 990	1 990
Content included in the monthly fee			
Calls made to domestic standard-rate fixed-line networks	1000 minutes	200 minutes	-

The 1000 or 200 minutes included in the Fixed-line number 1000 or Fixed-line number 200 service, it may be used for standard rate domestic voice calls made to fixed-line networks, are billed with the billing unit of the tariff package. Unused minutes cannot be rolled over to the next billing cycle. Calls above the 1000 or 200 minutes and calls made in any other directions (from the start of the billing cycle) are billed in accordance with the minute charges and the billing unit of the tariff package.

In foreign countries the valid Roaming tariffs will apply.

Fixed-line number service and Fax in email service cannot be used on the same subscription number.

For the detailed description of the fixed-line number service please refer to section 3.1.2.38. of the main text of the Business GTC.

3.16. Fax in email service

The monthly fee of the Fax in e-mail service is included in the following table. The prices indicated in the table are gross prices including VAT.

	Fax in email service
Monthly subscription fee (HUF) with an indefinite term contract	3,500
Monthly subscription fee (HUF) with contracts of a 2-year fixed term	1,990
Content included in the monthly fee	
Minute charge (HUF) of fax sent to domestic standard-rate fixed-line networks that is included in the monthly fee up to 1000 minutes	0

For subscription contracts concluded after 24 October 2017:

	Fax in email service
Monthly subscription fee (HUF) with an indefinite-term or 2-year fixed-term contract	3,500
Content included in the monthly fee	
Minute charge (HUF) of fax sent to domestic standard-rate fixed-line networks that is included in the monthly fee up to 1000 minutes	0

The monthly fee of the option includes 1000 minutes per month that may be used for sending faxes to any domestic fixed-line networks in non-premium-rate directions. Minutes unused during the month cannot be rolled over to the next billing cycle. These minutes may not be converted to voice calls or used for voice calls. The 1000 minutes included in the option are billed with the billing unit of the tariff package.

Faxes sent above the content included in the monthly fee are charged at the following rates, depending on direction:

Direction of fax	
Within the network of Vodafone Magyarország Zrt.	HUF 20.32 / min
To other domestic mobile network	HUF 50.8 / min
To domestic fixed-line network	HUF 7.49 / min
To international tariff zone 1	HUF 100 / min
To international tariff zone 2	HUF 160 / min
To international tariff zone 3	HUF 220 / min
To international tariff zone 4	HUF 280 / min
To international tariff zone 5	HUF 340 / min

The prices indicated in the table are gross prices including VAT. Outgoing Fax calls are billed in a per second basis. The receipt of faxes is free of charge.

In foreign countries the valid Roaming tariffs will apply.

Fixed-line number service and Fax in email service cannot be used on the same subscription number.

For the detailed description of the Fax in email service please refer to section 3.1.2.39. of the main text of the Business GTC.

3.17. Reserved for editing purposes

3.18. Vodafone PBX service

3.18.1. Vodafone PBX service for Large Enterprise Subscribers

In case of Subscription Contracts concluded before 01 April 2016:

The fees of the service are included in the following table. The prices indicated in the table are net prices not including VAT.

	Net fee
One-off fee of the modification of call tree settings programmed for the Vodafone PBX (modifying the Call sequence, adding new extension, deleting existing extension, setting a new central number in addition to the existing one, change of existing central number)	Two modifications per billing cycle are free of charge, any further modification within the same billing cycle is HUF 10,000 per modification

One-off fee of the modification of the sound file in the sound menu (IVR) programmed for the Vodafone PBX (setting a new IVR voice file in addition to the existing one, change of existing IVR voice file)	HUF 10, 000

	If using existing subscription		HUF 20,000	
Modification of any of the IVR sound files	If sound file is provided by the Subscriber	1	HUF 10,000	
		each additional file	HUF 5,000	
Administrative modifications (Call Log login name, password and SMS notification number, voicemail notification SMS number(s), PBX voicemail SMS text modification, change of caller ID display for PBX central number)	Once in a month		Free of charge	
	Each additional modification per occasion		HUF 5,000	
Modification of the number of IVR channels			Free of charge	
Ordering or cancelling the Not losing a call option			Free of charge	
Changing the phone number of the Not losing a call option			HUF 5,000	

Engineer's hourly rate related to PBX modification and establishment, for performing tasks not included in the table of rates	HUF 10,000
---	---------------

Deadline undertaken for the modification items				
Adding new extensions to the call logic under the central number(s) (the extension becomes callable from outside, either via IVR or without IVR, in line with the set call logic)	If the new extension to be added is a new subscription		1 - 5	10 working days
			6 - 20	15 working days
			More than 20	15 - 30 working days
	If the extension to be added is an existing subscription	If added as a Contact Centre extension	1 - 5	10 working days
			6 - 20	15 working days
			More than 20	15 - 30 working days
		If not added as a Contact Centre extension	1 - 5	10 working days
			6 - 20	15 working days
Adding new extensions to the central number(s) with a short call number (through the central number, the extension becomes callable from outside with a 4-digit short call number)	If purchasing a new subscription		1 - 5	10 working days
			6 - 20	15 working days
			More than 20	15 - 30 working days
	If using existing subscription	1 - 5	10 working days	
		6 - 20	15 working days	
Reprogramming an existing non-Contact Centre extension to a Contact Centre extension				15 working days
Modifying some other parameter of an existing PBX extension (adding a short call number or mobile telephone number, or modification of the same)			1 - 5	10 working days
			6 - 20	15 working days
Adding PBX voicemail function to the private branch exchange	If purchasing a new subscription			10 working days
	If using existing subscription			10 working days

Modification of any of the IVR sound files	If sound file is provided by the Subscriber	1	10 working days
		each additional file	10 working days
Administrative modifications (Call Log login name, password and SMS notification number, voicemail notification SMS number(s), PBX voicemail SMS text modification, change of caller ID display for PBX central number)	Once in a month		15 working days
	Each additional modification per occasion		10 working days
Modification of the number of IVR channels			15 working days

The terms of use of the Fixed-line number service are governed by Section 3.1.2.38 of the GTC, as well as Section 3.15 of this List of Rates Annex with the addition that if airtime minutes are included in the Fixed-line number service, it cannot be used if belonging to the central phone number, considering the fact that, owing to the characteristics of the technical implementation of the Vodafone PBX service, Vodafone does not provide a SIM card for this service, i.e. only receiving calls is possible on the central fixed-line number.

If using the service in foreign countries, the valid Roaming tariffs will apply.

3.18.2. Vodafone Private Branch Exchange Service for Small Enterprise Subscribers

The fees of the service are included in the following table. The prices indicated in the table are gross prices including VAT

Name of the service	Gross fee
Monthly fee of PROF11 tariff with 2 IVR channels and no more than 4 central numbers – with a 2-year contract	HUF 13,000

Cancelling central number	Free of charge, according to conditions for liquidated damages within the loyalty period
Setting and change of working hours check	HUF 2,500/occasion
Deadline undertaken for the modification items: 5 working days	

In case of changing the phone numbers associated with the central number or extensions, the charge of such change is identical with that of a standard number change for mobile phones specified in the General Terms and Conditions. The deadline undertaken for the modification for Vodafone PBX service is 5 working days.

If the number of PBX extensions decreases, for any reason, to a number of extensions identical to the service that provides a smaller number of extensions, the service will not be converted automatically to the service with the smaller number of extensions. Likewise, the decrease of the quantity of central numbers, for any reason, shall not mean a change between the Profi1, Profi2 and Profi3 tariffs. If the Subscriber wishes to change the service, it must request it, taking into account the fixed term, if any.

The Service Provider advises the Subscriber that if the Subscriber wishes to provide a fixed-line number as the central number, the Subscriber will be required to use the Fixed-line number service for the Vodafone PBX service. The terms of use of the Fixed-line number service are governed by Section 3.1.2.38 of the GTC, as well as Section 3.15 of this List of Rates Annex with the addition that if airtime minutes are included in the Fixed-line number service, it cannot be used if belonging to the central phone number, considering the fact that, owing to the characteristics of the technical implementation of the Vodafone PBX service, Vodafone does not provide a SIM card for this service, i.e. only receiving calls is possible on the central fixed-line number.

If using the service in foreign countries, the current Roaming tariffs will apply.

For the detailed description of the Vodafone PBX service, please refer to section 3.1.2.40 of the Business GTC.

3.18.3. Voice Recording Service

The Voice recording service is only available for Medium and Large Enterprise Subscribers.

Name of service	Net fee (HUF)
Activation of voice recording (one-off fee)	50,000
Monthly subscription fee for voice recording	
1-4 simultaneous conversations	25,000
5-8 simultaneous conversations	40,000
9-12 simultaneous conversations	60,000
13-20 simultaneous conversations	90,000
21-30 simultaneous conversations	120,000
Other charges	
Monthly fee for retaining, storing incoming calls in excess of 6 months*	60,000
Monthly fee for multi-level authorisation	20,000

*Additional periods available in excess of 6 months: 3, 6, 12 or 18 months

For the detailed description of the Vodafone PBX service, please refer to section 3.1.2.40 of the main text of the Business GTC

3.19. PBX (Telephone Private Branch Exchange) Service

The fees for the service are included in the following table. The prices indicated in the table are net prices, exclusive of VAT.

PBX (Telephone Private Branch Exchange) Service	
Monthly fees	
Monthly subscription fee	HUF 200000
Supplementary monthly subscription fee (to be understood per mobile call number, not applicable to airtime minutes or data traffic)	HUF 2,500
Monthly fee for calls within a group per extension	HUF 400
Per-minute rates	
Calls within a group	HUF 19
Calls within the Vodafone network	HUF 19
Calls to other mobile network	HUF 30
Calls to fixed-line networks	HUF 5
Other	
Fee for establishing an encrypted VPN connection – one-off fee	HUF 1,000,000
Excess traffic charge	Per-minute rate Maximum amount billed
Excess traffic charge per call number	HUF 2 HUF 2,500
<p>The excess traffic charge is uniformly billed in units of 60 seconds, irrespective of the billing unit of the relevant tariff package. The billing of the excess traffic charge is based on all outgoing voice calls initiated from Hungary, and all SMS messages sent from Hungary, irrespective of direction (including calls initiated and SMS messages sent to international directions) with the exception of the following:</p> <ul style="list-style-type: none"> - emergency calls - calls to donation collecting numbers - messages to donation collecting numbers - test calls, test SMS messages. <p>Calls to number 1788 of the Vodafone Key Accounts Customer Service are toll-free for Vodafone subscribers, but in the determination of the excess traffic charge such calls are also included in the traffic for which the excess traffic charge is billed.</p>	

Calls are billed in units of 1 second.

From the private branch exchange (PBX), calls can be initiated to domestic and foreign numbers. In foreign countries, the current Roaming tariffs will apply.

The cost of calls made from the Vodafone network through the network service access point to extensions connected to the private branch exchange are borne by the calling party.

The cost of calls made from all (Vodafone) mobile call numbers belonging to the private branch exchange of the Subscriber through the network service access point to the Vodafone network are borne by the Subscriber.

Calls made to the Vodafone network through the network service access point are measured at the Vodafone switching centre. Measurement is made per call, starting when the called party answers the call. Traffic is measured daily, in units of seconds. The Subscriber shall accept the results measured at the Vodafone switching centre as authentic, in justified cases it shall be entitled to request their comparison with its own measurement results.

For a detailed description of the PBX (Telephone Private Branch Exchange) Service, see Section 3.1.2.42 of the Business GTC.

3.19.1. IPSEC PBX (Telephone Private Branch Exchange) Service

The fees for the service are included in the following table. The prices indicated in the table are net prices, exclusive of VAT.

	IPSEC PBX (Telephone Private Branch Exchange) Service	
Monthly fees		
Monthly subscription fee	HUF 200,000	
Supplementary monthly subscription fee (to be understood per mobile call number, not applicable to airtime minutes or data traffic)	HUF 2,500	
Monthly fee for calls within a group per extension	HUF 400	
Per-minute rates		
Calls within a group	HUF 19	
Calls within the Vodafone network	HUF 19	
Calls to other mobile networks	HUF 30	
Calls to fixed-line networks	HUF 5	
Other		
Fee for establishing an encrypted VPN connection – one-off fee	HUF 1,000,000	
Excess traffic charge	Per-minute rate	Maximum amount billed
Excess traffic charge per call number	HUF 2	HUF 2,500
<p>The excess traffic charge is uniformly billed in units of 60 seconds, irrespective of the billing unit of the relevant tariff package. The billing of the excess traffic charge is based on all outgoing voice calls initiated from Hungary, and all SMS messages sent from Hungary, irrespective of direction (including calls initiated and SMS messages sent to international directions) with the exception of the following:</p> <ul style="list-style-type: none">- emergency calls- calls to donation collecting numbers- messages to donation collecting numbers- test calls, test SMS messages. <p>Calls to number 1788 of the Vodafone Key Accounts Customer Service are toll-free for Vodafone subscribers, but in the determination of the excess traffic charge such calls are also included in the traffic for which the excess traffic charge is billed.</p>		

Calls are billed in units of 1 second.

From the private branch exchange (PBX) calls can be initiated to domestic and foreign numbers. In foreign countries, the current Roaming tariffs will apply.

The cost of calls made from the Vodafone network through the network service access point to extensions connected to the private branch exchange are borne by the calling party.

The cost of calls made from all (Vodafone) mobile call numbers belonging to the private branch exchange of the Subscriber through the network service access point to the Vodafone network are borne by the Subscriber.

Calls made to the Vodafone network through the network service access point are measured at the Vodafone switching centre. Measurement is made per call, starting when the called party answers the call. Traffic is measured daily, in units of seconds. The Subscriber shall accept the results measured at the Vodafone switching centre as authentic, in justified cases it shall be entitled to request their comparison with its own measurement results.

For a detailed description of the IPSEC PBX (Telephone Private Branch Exchange) Service see Section 3.1.2.42.1. of the Business GTC.

3.20. Bulk SMS Service for Medium and Large Enterprise Customers

The fees for the service are included in the following table. The prices indicated in the table are net prices, exclusive of VAT.

	Bulk SMS Service
One-off fees	
Connection and activation fee	HUF 60,000
Telephone number chosen by the Client (not a gold number)	HUF 40,000
Gold number chosen by the Client	HUF 80,000
Monthly fee	
Monthly fee for Bulk SMS messages (not applicable to data traffic)	HUF 75,000
Traffic charges	
Sending SMS messages within the network of Vodafone Magyarország Zrt.	HUF 25
Sending SMS messages to other domestic mobile networks	HUF 25
Receiving SMS messages	free of charge
Other charges	
Charge for International SMS to countries within the area of validity of the RED EU International tariff zone (HUF)	in accordance with Section 9 of the GTC
Charge for International SMS to countries outside the preferential zone (HUF)	HUF 40

For a detailed description of the Bulk SMS messages Service, see Section 3.1.2.43 of the Business GTC.

3.21. Bulk SMS (WebSMS) service for Small Enterprise Subscribers

The fees of the service are included in the following table. The prices indicated in the table are gross prices including VAT

	WebSMS Alap	WebSMS 1000	WebSMS 2000

Traffic charges			
Sending SMS within the network of Vodafone Magyarország Zrt., on top of the volume included in the package (HUF/SMS)	19.05	18.50	17.80
Sending SMS to other domestic mobile networks, on top of the volume included in the package (HUF/SMS)	21.59	21.59	20.32
Receiving SMS	free of charge		

Other charges			
Charge for International SMS to countries within the area of validity of the RED EU International tariff zone (HUF)	in accordance with Section 9 of the GTC		
Charge for International SMS to countries outside the preferential zone (HUF)	50.8		

For the detailed description of the WebSMS service, please refer to section 3.1.2.43.4 of the Business GTC.

3.22. Bulk SMS (Tömeges SMS) service for Handset control (Készülékkontroll) service

The service may be used exclusively by those Medium and Large Enterprise Subscribers who concurrently use the Handset control service. The detailed description of such service is included in Section 13 of the Terms and Conditions for Other Services. When using the service, Subscriber shall be entitled to send exclusively the SMSs necessary to use the Handset control service.

The fees of the service are included in the following table. The prices indicated in the table are net prices not including VAT.

	For Handset control Option2	For Handset control Option3	For Handset control Option4
Monthly fee of bulk SMSs	HUF 0/month	HUF 0/month	HUF 0/month
Traffic included in the monthly fee	a traffic fee of net HUF 50,000 per month	a traffic fee of net HUF 50,000 per month	a traffic fee of net HUF 50,000 per month
Traffic fees			
within the network	HUF 14/pcs	HUF 14/pcs	HUF 14/pcs
outside the network, domestic traffic	HUF 17/pcs	HUF 17/pcs	HUF 17/pcs
outside the network, international traffic	HUF 38/pcs	HUF 38/pcs	HUF 38/pcs

For the detailed description of the Bulk SMS service, please refer to section 3.1.2.43 of the GTC of Business.

4. Services not marketed

4.1. VodaMail service

The Vodamail service is not available commercially as of 15 March 2014. New subscriptions cannot be concluded for the service from the above date. The change does not affect the currently valid individual subscriptions for the concerned service, we continue to provide the already used service under the following unchanged conditions.

Post-paid subscribers pay a monthly fee for the use of the service as follows:

Service	
VodaMail with 1 GB storage (basic monthly fee)	HUF 600
Additional fee in addition to the basic monthly fee for storage expansion to 5GB	HUF 600
Additional fee of ActiveSync in addition to the basic monthly fee and the storage expansion monthly fee	HUF 600
Creation of a company sub-domain	Free of charge
Fax service	Free of charge

The prices indicated in the table are gross prices including VAT.

After the activation of the VodaMail service or any service component, at least one monthly fee will be billed (plus the monthly fee of additional service if applicable). If the service is cancelled, the total fee of each started month must be paid, no fractional months are billed.

In case of accessing the service via Outlook WebApp or a mobile device, the rates of the Vodafone Internet or mobile Internet tariff package used by the subscriber are applicable.

Vodafone does not charge a monthly fee for the use of the Fax service. Depending on the direction, faxes can be sent subject to the following rates:

Direction of fax	
Within the network of Vodafone Magyarország Zrt.	HUF 20.32
To other domestic mobile network	HUF 50.8
To domestic fixed-line network	HUF 7.49
To international tariff zone 1	HUF 100
To international tariff zone 2	HUF 160
To international tariff zone 3	HUF 220
To international tariff zone 4	HUF 280
To international tariff zone 5	HUF 340

The prices indicated in the table are gross prices including VAT. Outgoing Fax calls are billed in a per second basis. The receipt of faxes is free of charge.

If a Subscriber does not use the service for 60 days through either of the access methods (the web-based login interface or a mobile device), **the service may be automatically cancelled from the system**, which may result in the loss of all messages and personal settings within the mailbox. The Subscriber may request the re-activation of the service at the customer service.

4.2. Reserved for editing purposes

4.3. Music Pass

The Music Pass service is not available commercially as of 1 August 2019.
The prices indicated in the table are gross prices including VAT.

Music Pass	With the service packages indicated, the Subscribers get internet access for the music content of social media sites listed on the https://www.vodafone.hu/kisvallalkozasok/tarifak-es-opciok/pass website.	HUF 1,000
	The option does not include access to premium functions available at a monthly fee from third-party music service providers; to use this paid content, a separate subscription with the music provider is required.	

The data volume of Vodafone Pass packages used for specified content does not consume the data volume included in the service package or extra data options. After using up the data volume included in the service package and the extra data option or the Automatikus Kiegészítő Adat (Automatic Extra Data) option, the Vodafone Pass packages will be available at the offered bandwidth applicable to data volumes in excess of the volume included in the service package's monthly subscription fee.

The separation of data volume by traffic types determined by the options is roughly, but not guaranteed, 100%. It may occur that the data volume used cannot be identified clearly in each case or there may be a shorter or longer lead time during application updates by the content provider until the newest version of the application is available, and these cases use the data volume included in the service package.

The Vodafone Pass packages only apply to individual data usage, not shared data.

Vodafone is entitled to modify without notice the list of applications associated with the Vodafone Pass packages that are stated on the website. Applications listed here are typically services provided by third-party providers, and the third party providing the service shall be responsible for them. The free data volume does not include any other content than the relevant thematic content, e.g. data volume used for content or functions published, stored or operated by third parties linked in the Vodafone Pass service (e.g. registration, application download, update, embedded video, etc.).

Use of the Vodafone Pass packages requires downloading the provider's mobile application or using the official address where the service can be reached. The applications shall be governed by the terms of use defined by the specific service providers, Vodafone only provides internet access to these and has no impact on their terms of use. The normal display and usability of the applications may depend on the type of device, and Vodafone accepts no responsibility in relation to this. The Vodafone Pass packages are not available in other modes than the standard protocols (by proxy or through other encrypted networks) or virtual private networks (VPN).

If there is an active Vodafone EU Roaming option, the Vodafone Pass packages can be used abroad, as well, in the roaming networks and terms specified for the Vodafone EU Roaming service. For Subscribers who do not have an active Vodafone EU Roaming option, the applicable Regulated European Roaming charges shall apply to use of the thematic packages in roaming. To avoid any disputes relating to charges, please check the roaming settings of your device and package before using them abroad.

Vodafone Pass is available only through the APN internet.vodafone.net.

If the service is cancelled, the total fee of each started month must be paid, it is not possible to charge for fractional months.

4.4. Video calls

Monthly fee		HUF 0
Entry fee		HUF 0
Within the network of Vodafone Magyarország Zrt.	Peak period	HUF 90 / min
	Off-peak period	HUF 90 / min
Outside the Vodafone network	Peak period	HUF 90 / min
	Off-peak period	HUF 90 / min

The prices indicated in the table are gross prices including VAT. Billing is per-minute based.

5. International roaming and mobile use on foreign networks

By purchasing international roaming service the Subscriber can also use his mobile phone abroad, if his device is suitable for using the network in question. During international roaming the service of call diversion to international numbers is not available. International roaming service is available on the network of providers listed on the www.vodafone.hu/roaming page. The Service Provider provides updated information to Subscribers relevant to the currently available roaming networks and the services available on the specific networks via its website.

5.1. Traffic-based roaming call and SMS tariffs

The Service Provider provides international roaming service to post-paid subscribers in accordance with the conditions of the traffic-based roaming call and SMS tariffs, as amended from time to time. For new subscribers the Service Provider activates the traffic-based roaming call and SMS tariffs as default roaming service. The roaming service is activated free of charge.

The roaming tariffs assign the countries of the world to 7 roaming tariff zones and distinguishes the Satellite (maritime and aeroplane on-board) networks. The current classification is available on the Service Provider's website (www.vodafone.hu/roaming). The pricing of the roaming tariff zone 1 of the roaming tariffs corresponds to the Regulated European Roaming tariff specified in the current legal regulations. The Regulated European Roaming tariff can be activated by ordering the roaming service and is implemented by the Service Provider within 24 hours of requesting the activation.

Subscribers may receive information on the current roaming charges applicable in the European Union at phone number +3670 7001702. The information line may be called free of charge from the EU countries.

5.1.1. Traffic-based roaming call, SMS and MMS tariffs

Regulated European Roaming tariff:

Roaming tariff zone 1 includes the following countries:

Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, French Guyana, Germany, Gibraltar, Greece, Guadeloupe, Iceland, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Martinique, Netherlands, Norway, Poland, Portugal, Réunion, Romania, Slovakia, Slovenia, Spain, Sweden, United Kingdom.

As of 15 June 2017, the charges of initiating/receiving calls, as well as sending and receiving SMS/MMS messages in traffic-based roaming are contained in the Regulated European Roaming tariffs as regards countries of roaming tariff zone 1:

Initiating calls to a mobile network in Hungary: The domestic out-of-network mobile call charge of the Subscriber's tariff package applicable in Hungary.

Initiating calls to a fixed-line network in Hungary: The domestic fixed-line call charge of the Subscriber's tariff package applicable in Hungary.

Initiating calls to the countries of roaming tariff zone 1: The domestic out-of-network mobile call charge of the Subscriber's tariff package applicable in Hungary

Receiving calls: Free of charge

Sending SMS to a mobile network in Hungary: The domestic out-of-network SMS charge of the Subscriber's tariff package applicable in Hungary.

Sending SMS message to the countries of roaming tariff zone 1: The domestic out-of-network SMS charge of the Subscriber's tariff package applicable in Hungary.

Sending SMS messages to numbers of a third country (not to a Hungarian number or numbers in the countries of roaming tariff zone 1) and to Satellite networks: the SMS charge of SMSs sent from Hungary to abroad as per the Subscriber's service package per the billing unit of the international directions.

Sending MMS to a mobile network in Hungary: The domestic out-of-network MMS charge of the Subscriber's tariff package applicable in Hungary.

Sending MMS to the countries of roaming tariff zone 1: The domestic out-of-network MMS charge of the Subscriber's tariff package applicable in Hungary.

Sending MMS messages to numbers of a third country (not to a Hungarian number or numbers in the countries of roaming tariff zone 1) and to Satellite networks: the MMS charge of MMSs sent from Hungary to abroad as per the Subscriber's service package per the billing unit of the international directions.

Receiving SMS and MMS messages is free of charge

The following table includes the tariffs applicable to making and receiving traffic-based roaming calls and sending SMS messages.

	Initiating calls	Receiving calls	Sending SMS	Sending MMS
Roaming tariff zone 2	HUF 369 / min (HUF 290.56 / min net)	HUF 139 / min (HUF 109.45 / min net)	HUF 109 / SMS (HUF 85.83 / SMS net)	HUF 249/MMS (HUF 196.06 / MMS net)
Roaming tariff zone 3	HUF 469 / min (HUF 369.3 / min net)	HUF 169 / min (HUF 133.08 / min net)	HUF 129 / SMS (HUF 101.58 / SMS net)	HUF 249/MMS (HUF 196.06 / MMS net)
Roaming tariff zone 4	HUF 699 / min (HUF 550.4 / min net)	HUF 249 / min (HUF 196.07 / min net)	HUF 209 / SMS (HUF 164.57 / SMS net)	HUF 249/MMS (HUF 196.06 / MMS net)
Roaming tariff zone 5	HUF 889 / min (HUF 700 / min net)	HUF 299 / min (HUF 235.44 / min net)	HUF 219 / SMS (HUF 172.45 / SMS net)	HUF 249/MMS (HUF 196.06 / MMS net)
Roaming tariff zone 6	HUF 999 / min (HUF 786.62 / min net)	HUF 329 / min (HUF 259.06 / min net)	HUF 239 / SMS (HUF 188.19 / SMS net)	HUF 249/MMS (HUF 196.06 / MMS net)
Satellite networks on board of water-, and aircrafts (Roaming tariff zone 7)	HUF 1599 / min (HUF 1259.06 / min net)	HUF 1099 / min (HUF 865.36 / min net)	HUF 299 / SMS (HUF 235.44 / SMS net)	HUF 249/MMS (HUF 196.06 / MMS net)
Roaming tariff zone 8	369 Ft/perc	139 Ft/perc	109 Ft/SMS	249 Ft/MMS

The tariffs set in the Regulated European Roaming tariff can be used by roaming Subscribers on their temporary travels within the European Union who have their usual place of residence in Hungary or have close relations with Hungary during which they need to stay in Hungary frequently and for significant periods. In case of Corporate Subscribers, the close relationship may be based on the place of incorporation or registered seat of the company; the place of the actual performance of the main activity of the company; or a location where the specific employees using the given SIM card perform their tasks, as evidenced by official documents. The Provider is entitled to request such certificates during the validity of the Subscriber Agreement.

During utilisation for temporary travel purposes, the number of calls, SMS and MMS messages initiated and sent to Hungarian call numbers and the amount of data used in roaming zone 1 may not exceed the mean value of domestic use according to four months of invoicing data. Moreover, during the examined period, the number of days spent using the network of the roaming partner in a country under the regulation may not exceed the number of days spent using the network of Vodafone Hungary (fair use). In case the conditions of fair use are not met, we inform the Subscriber thereof in an SMS message warning them about the conditions of fair use. If the Subscriber fails to change their pattern of actual consumption or presence within two weeks after the warning is issued, the Provider is entitled to apply an extra fee under Section 6. e of Directive 531/2012/EU starting from the day of the warning.

Rate of the additional charge:

Initiating calls to the countries of roaming tariff zone 1: HUF 12.56 / min (HUF 9.89 / min net);
Sending SMS message to the countries of roaming tariff zone 1: HUF 3.92 /SMS (HUF 3.09 / SMS net);
Sending MMS to the countries of roaming tariff zone 1: HUF 3.02/MMS (HUF 2.38 / MMS net);
Data traffic in the countries of roaming tariff zone 1: HUF 2.50/MB (HUF 2.38/MB net).

Regarding the roaming traffic, unlimited data package is meant by the following, under Regulation (EU) 2016/2286 of the Commission:

“Unlimited Data Package”: a tariff package related to the provision of one or more commercial mobile services which does not limit the data traffic of the retail mobile service included therein against the payment of a regular and fixed fee; or in which the domestic unit price of the retail mobile service, which is to be calculated by dividing the domestic retail price less VAT of the mobile services of the whole invoicing period with the total amount of the data traffic of the retail mobile service domestically available, is lower than the maximum wholesale roaming fee as regulated in Section 12 of Directive 531/2012/EU;

Without prejudice to the applicable domestic quantity restrictions, in case of the above determined unlimited data package, we ensure for the Subscriber the possibility to use at least double the volume of the retail roaming data transmission service than the total domestic retail price less the VAT for the mobile services of the whole invoicing period of the given unlimited data package divided by the wholesale fee of the regulated roaming data transmission services as mentioned in Section 12 of Directive 531/2012/EU.

5.1.2. Invoicing

- **Calls initiated** in roaming tariff zone 1, if a call is made to a Hungarian network or a country in roaming tariff zone 1, billing is performed as follows:
 - the domestic out-of-network mobile minute charge shall be billed as per the billing unit applicable domestically in the Subscriber's tariff package;

- If the call is made to a number of a third country (not to a Hungarian number or numbers in the countries of roaming tariff zone 1) or to Satellite networks, calls are billed in 60-second units.
- **Calls received** in roaming tariff zone 1 are billed in units of 1 second,
- Calls **initiated and received** in a third country (not in Hungary and not in the countries of roaming tariff zone 1) or on a Satellite network are accounted in 60-second units.
- The call initiation charges of roaming tariff zone 1 apply if a call is initiated from a country in roaming tariff zone 1 to a Hungarian network or to a country in roaming tariff zone 1.
- If the call is made from roaming tariff zone 1 to a number of a third country (not to a Hungarian number or numbers in the countries of roaming tariff zone 1) or a Satellite network, the charge of calls for **calls initiated** from Hungary to abroad as per the Subscriber's service package will be charged per the billing unit of the international directions.
- In case of calls **initiated and received** in a third country (not in Hungary and not in the countries of roaming tariff zone 1) or on Satellite networks, the price exclusively depends on which zone the Customer is staying in.
- Data traffic is billed in units of 1kB in roaming tariff zone 1, and every started connection is considered at least as one unit. During Internet use in a foreign country, the sum of downloaded and uploaded data traffic is used for billing.

When roaming, SMS messages can be received free of charge.

5.2. Preferential roaming daily tickets

5.2.1. Reserved for editing purposes

5.2.2. Világ Napijegy (World Daily Ticket)

The Világ Napijegy service is valid in the validity territory determined by the Service Provider and the roaming networks specified by the Service Provider. In the case of the Aktiv Világ Napijegy service, the roaming service can be accessed by Post-pay Subscribers solely on the Provider-specified networks of the validity territory specified by the Service Provider. The list of countries in the validity territory of the Világ Napijegy service and the current list of partner networks in this validity territory are available on the webpage <https://www.vodafone.hu/kisvallalkozasok/roaming/vilag-napijegy>.

Világ Napijegy can be ordered on condition that the Subscriber has an active roaming service prior to commencing to use the service. The Világ Napijegy service is activated free of charge. The service may be activated by SMS, by sending the VJEGY code to 1270. The SMS sent from the network of Vodafone Magyarország Zrt. is free of charge, and if sent from abroad, the SMS charge included in the current roaming tariff must be paid. The service can be activated personally in the Vodafone shops, Online and with the help of the telephone Customer Service. After successfully ordering the service, it will remain active until cancellation. The service can be cancelled through the above mentioned channels and the cancellation requires the XVJEGY SMS code.

The Világ Napijegy (World Daily Ticket) service is a part of the following tariffs and service packages, i.e. prior activation is not necessary, the fee of the service shall be added to the monthly fee of the tariff:

- **Business EU 500MB, Business EU 1GB, Business EU 2GB, Business EU 3GB, Business EU 10GB and Business EU 12GB tariff packages as well as Business MultiNet (mobile Internet-based) tariff packages** available for these tariff packages
- **Irodai (Office) tariff package**
- **Business Group EU tariff packages**
- **Business EU Group tariff packages**
- **Business Red EU 2GB, Business Red EU 10GB, Business Red EU 30GB and Business Red EU Superior tariff packages as well as Business MultiNet (mobile Internet-based) tariff packages** available for these tariff packages
- **Business EU Red 3GB, Business EU Red 12GB és Business EU Red Superior tarifacsomagok as well as Business MultiNet (mobile Internet-based) tariff packages** available for these tariff packages
- **MultiNet options**
- **Business Net tariff packages**
- **Vállalkozói Fix tariff packages**
- **Vodafone Business Smart és Vodafone Business RED tariff packages** except the Vodafone Business RED World tariff package

The Világ Napijegy is billed automatically based on the first billable event generated by the Subscriber on the concerned calendar day counted according to the time in Hungary (call initiated or received, SMS sent, or data downloaded or uploaded in a roaming environment) and subsequently the Subscriber can make phone calls, send SMS and use the available data quantity at preferential rates (see the following table).

The validity period lasts until 12.00 pm (Hungarian time) on the day corresponding to the day of billing for the given Világ Napijegy, i.e., the Világ Napijegy is valid for the concerned calendar day. The Service Provider does not send notification on the expiry of the validity. Should the Subscriber generate further billable traffic after the expiry of the validity of the Világ Napijegy (the calendar day), another Világ Napijegy will be invoiced. Events that have been started, but terminate after the expiry of the validity period (call, SMS, or data traffic) trigger the billing of the Világ Napijegy for the next calendar day as well. The fee of the Világ Napijegy will not be billed if emergency numbers and +36707001702 are called.

Daily fee of Világ Napijegy:

Rates of the Világ Napijegy service		
In case of post-paid voice Subscribers who are entitled to use the Netinfo page during the use of their tariffs or data option	<ul style="list-style-type: none"> The daily fee of Világ Napijegy - America is gross HUF 1,990 (net HUF 1,566.92) The daily fee of Világ Napijegy - Africa is gross HUF 1,990 (net HUF 1,566.92) The daily fee of Világ Napijegy - Eastern Europe/Asia is gross HUF 2,990 (net HUF 2,354.33) 	
	<ul style="list-style-type: none"> The daily fee of Világ Napijegy - America is gross HUF 1,923.47 (net HUF 1,566.92) 	
	Fee of voice traffic	HUF 1,605.99 gross (HUF 1,264.56 net)
In case of post-paid voice Subscribers who are not entitled to use the Netinfo page during the use of their tariffs or data option	Fee of data traffic	HUF 317.48 gross (HUF 302.36 net)
	<ul style="list-style-type: none"> The daily fee of Világ Napijegy - Africa is gross HUF 1,923.47 (net HUF 1,566.92) 	
	Fee of voice traffic	HUF 1,605.99 gross (HUF 1,264.56 net)
	Fee of data traffic	HUF 317.48 gross (HUF 302.36 net)
	<ul style="list-style-type: none"> The daily fee of Világ Napijegy - Eastern Europe/Asia is gross HUF 2,923.48 (net HUF 2,354.33) 	
	Fee of voice traffic	HUF 2,606 gross (HUF 2,051.97 net)
	Fee of data traffic	HUF 317.48 gross (HUF 302.36 net)

For call traffic exceeding 1,440 minutes per day, the Service Provider will charge an excess traffic fee, the rate of which is HUF 50 gross (HUF 39.37 net)/ min

These 1,440 minutes of call traffic shall be determined for a day lasting from 0 hours 00 minutes to 23 hours 59 minutes in the GMT+1 time zone, and shall include the traffic of both received and initiated calls. The excess traffic fee shall be accounted in 1-second units in case of received calls, while in case of initiated calls in the units of the domestic pricing plan.

It is strictly prohibited to use the Világ Napijegy tariff with devices that do not have their own display, speaker, microphone and keyboard (including touch-screen keyboard), such as for example adapter, modem. The service packages shall not be used in an abusive manner, among others, for telemarketing, customer service activities or other business purposes. Abusive use shall include the behaviour of sending SMS and MMS messages in a manner contrary to the conditions of personal use, where the number of SMS/MMS messages sent via the subscription exceeds several hundred a day, or the proportion of the number of SMS/MMS messages sent via the subscription involved and that of their recipients exceeds 10%, or the proportion of the number of SMS/MMS messages and that of the replies to them is lower than 80%, or the SMS/MMS messages are sent by the subscriber typically from one location.

Preferential roaming charges when using the Világ Napijegy:

1. In case of standard rate calls and SMS messages to Hungarian call numbers:
The domestic call/SMS charge of the Subscriber's tariff package applied in the network of Vodafone Hungary, per billing unit (in-network and out-of-network calls and calls made during and outside of peak periods are distinguished, if applicable for the given tariff package).
2. In the case roaming in any of the designated countries and making calls or sending SMS to any mobile or fixed-line numbers of the same country:
The call/SMS charge of the Subscriber's tariff package valid in Hungary for domestic out-of-network calls, per the billing unit of the tariff package.
3. In case of calls and SMS messages to numbers of a third country (that is, not to a Hungarian number or numbers of the country where the Subscriber roams):
The call/SMS charge of calls initiated from Hungary to abroad or SMS sent from Hungary to abroad, per the billing unit of the international directions
4. In case of received calls (calls received while roaming in any of the networks in the list):
Free, in accordance with the rates of the Subscriber's tariff package applicable to calls received on the network of Vodafone Hungary.
5. When data roaming is used
Subscribers who are entitled to use the Netinfo page thanks to their tariffs or data option can conduct data traffic abroad up to and from their data limit allowed domestically by their tariffs. Within the validity period, after exhausting the data limit, we will slow down the speed of internet access to 0/0 kbit/s. The first 100MB on the given calendar day is provided free of charge for all other Subscribers. During the validity period, the Service Provider bills the traffic that exceeds the preferential data volume in the designated network in gross HUF 49.60/MB (net HUF 47.24/MB) units.

Miscellaneous rules

The airtime minutes and monthly fee applicable to airtime according to the Subscriber's tariff package and other allowances may also be used for Világ Napijegy calls. The allowances of the Closed group and Wireless Office options shall not apply to Világ Napijegy calls.

Post-paid voice Subscribers who are entitled to use the Netinfo page during the use of their tariffs or data option can use their domestic data limit abroad. In the event of exhausting the domestic data limit, the speed of data access abroad will be slowed down to 0/0 Mbit/s until the end of the given billing cycle, and this slowdown will be modified upon returning to Hungary in accordance with the rules of the Subscriber Contract. After using up the data limit, the Post-paid Subscriber can purchase supplemental data limit on the Netinfo page at the prices and the under the condition applicable in Hungary. The traffic slowdown is terminated upon closing the billing cycle or the purchase of supplemental data limit. Post-paid Subscribers who use an internet option or internet tariff with traffic-based fee, excess traffic charge, special (individual) access point name (APN). He receives 100 MB data traffic allowance abroad per calendar day from the Világ Napijegy.

While using Világ Napijegy (World Daily Ticket), multiple data connections may be established until the preferential data volume is reached. The details of using the domestic data limit correspond with the domestic terms of use. For customers using daily 100 MB data limit, data traffic means the aggregate sum of the data quantity sent and received. Billing unit: 100 kB. The data traffic may be used for internet and WAP services, as well as for Black Berry Mobile Email services for customers with 100 MB data limit abroad. The 100 MB data traffic not used on the given calendar day cannot be rolled over to the next discount period and may not be used domestically. The Subscriber receives SMS notification when exhausting 80% and 100% of the available data volume. Due to technical reasons notification SMS messages may be sent only after closing the data connection. The daily fee of Világ Napijegy is not counted in towards the data roaming billing limit (section 5.6 of the List of Rates Annex 1 to the Business GTC).

In case of Okos Rádás Red, Okos Rádás Red Premium, Okos Rádás Red EU Standard, Okos Rádás Red EU Premium, as well as Business Red EU Standard, Business Red EU Premium packages, Világ Napijegy is billed on the roaming networks determined by the Service Provider on Okos Rádás Red, Okos Rádás Red Premium, Okos Rádás Red EU Standard, Okos Rádás Red EU Premium, as well as Business Red EU Standard, Business Red EU Premium packages with divisible data traffic (primary SIM) and on the related MultiNet tariff packages (secondary SIM) automatically per SIM card, on the basis of the first billable event generated by the Subscriber on the SIM card on the concerned calendar day (call initiated or received, SMS sent, or data downloaded or uploaded in a roaming environment) and subsequently the

Subscriber can make phone calls, send SMS and use the available data quantity on the SIM card in question at preferential rates.

Világ Napijegy cannot be activated for subscriptions with active data roaming option concluded with a definite-term contract, or if the Subscriber has a tariff package the monthly subscription of which includes roaming traffic (airtime minutes, SMS or data traffic usable during roaming) as well. Furthermore, Világ Napijegy cannot be activated for phone numbers connected to the Car SIM Card service.

When using Világ Napijegy, voice calls, sent SMS and data traffic, as well as the daily fee will be billed according to the Hungarian time zone.

5.2.2.1. Adat Világ Napijegy (Data World Daily Ticket)

The Adat Világ Napijegy tariff is valid in the validity territory determined by the Service Provider and the roaming networks specified by the Service Provider. In the case of the Aktiv Világ Napijegy service, the roaming service can be accessed by Post-pay Subscribers solely on the Provider-specified networks of the validity territory specified by the Service Provider. The list of countries in the validity territory of the Világ Napijegy service and the current list of partner networks in this validity territory are available on the webpage <https://www.vodafone.hu/kisvallalkozasok/roaming/vilag-napijegy>.

Adat Világ Napijegy can be ordered on condition that the Subscriber has an active roaming service prior to commencing to use the service. The Világ Napijegy service is activated free of charge. The service may be activated by SMS, by sending the ADATVJEGY code to 1270. The SMS sent from the network of Vodafone Magyarország Zrt. is free of charge, and if sent from abroad, the SMS charge included in the current roaming tariff must be paid. The service can be activated personally in the Vodafone shops, Online and with the help of the telephone Customer Service. After successfully ordering the service, it will remain active until cancellation. The service can be cancelled through the above mentioned channels and the cancellation requires the XADATVJEGY SMS code. The Adat Világ Napijegy is billed automatically based on the first billable event generated by the Subscriber on the concerned calendar day (downloaded or uploaded data) and subsequently the Subscriber can use the available data volume at preferential rates. The validity period lasts until 12.00 pm (Hungarian time) on the day corresponding to the day of billing the given Adat Világ Napijegy, i.e., the Adat Világ Napijegy is valid for the concerned calendar day. The Service Provider does not send notification on the expiry of the validity. Should the Subscriber generate further billable traffic after the expiry of the validity of the Adat Világ Napijegy (the calendar day), another Adat Világ Napijegy will be invoiced. Events that have been started, but terminate after the expiry of the validity period (data traffic) trigger the billing of the Adat Világ Napijegy for the next calendar day as well.

The rates of Adat Világ Napijegy are as follows:

- The daily fee of Adat Világ Napijegy - America is gross HUF 1,645.27 (net HUF 1,566.92)
- The daily fee of Adat Világ Napijegy - Africa is gross HUF 1,645.27 (net HUF 1,566.92)
- The daily fee of Adat Világ Napijegy - Eastern Europe/Asia is gross HUF 2,472.05 (net HUF 2,354.33)

Preferential data roaming rates when using the Adat Világ Napijegy service: on the given calendar day, the first 100 MB is free of charge. During the validity period, the Service Provider bills the traffic that exceeds the preferential data volume in the designated network in gross HUF 49.83/MB (net HUF 47.46/MB) units.

Miscellaneous rules

While using Adat Világ Napijegy (Data World Daily Ticket), multiple data connections may be established until the preferential data volume is reached. Data traffic means the aggregate sum of sent and received data volume. Billing unit: 100 Kbyte. The data traffic can be used for roaming Internet and WAP services. Data traffic not used on the given calendar day cannot be rolled over to the next discount period and may not be used domestically. The Subscriber receives SMS notification when exhausting 80% and 100% of the daily data volume. Due to technical reasons notification SMS messages may be sent only after closing the data connection. The fee of Adat Világ Napijegy is not counted against the data roaming billing limit.

The validity period of the daily ticket, the billing of the downloaded and uploaded data, as well as the billing of the fee of the daily ticket are according to the Hungarian time zone.

It is strictly prohibited to use the Adat Világ Napijegy tariff with devices that do not have their own display, speaker, microphone and keyboard (including touch-screen keyboard), such as for example adapter, modem. The service packages shall not be used in an abusive manner, among others, for telemarketing, customer service activities or other business purposes. Abusive use shall include the behaviour of sending SMS and MMS messages in a manner contrary to the conditions of personal use, where the number of SMS/MMS messages sent via the subscription exceeds several hundred a day, or the proportion of the number of SMS/MMS messages sent via the subscription involved and that of their recipients

exceeds 10%, or the proportion of the number of SMS/MMS messages and that of the replies to them is lower than 80%, or the SMS/MMS messages are sent by the subscriber typically from one location

Adat Világ Napijegy cannot be activated for subscriptions with active data roaming option concluded with a definite-term contract, or if the Subscriber has a tariff package the monthly subscription of which includes roaming traffic (airtime minutes, SMS or data traffic usable during roaming) as well. Furthermore, Világ Napijegy cannot be activated for phone numbers connected to the Car SIM Card service.

5.3. Calls to special numbers during roaming

The rates for calls to the following numbers from abroad are identical with those charged for calls to Hungary according to the roaming tariff package of the Subscriber:

- Customer service
- Domestic green number
- International toll-free number called in a domestic format
- International toll-free number

5.4. Internet use abroad (GPRS, EDGE, HSDPA, 3G, 4G/LTE based services)

During international roaming, the subscriber may also initiate an Internet connection in the networks of our partner providers. For a current list of roaming networks providing Internet access abroad, visit the www.vodafone.hu/roaming website.

A precondition for the use of the Internet abroad is that the Subscriber has an active option or tariff ensuring domestic Internet access, as well as an active Roaming service.

5.4.1. Data roaming base rate

Internet access in a foreign country is normally provided by the Service Provider to its Subscribers in a data traffic-based billing system. The table below includes the gross fees of Internet use abroad:

As of 3 September 2018, the charges of traffic-based data roaming are contained in the Regulated European Data Roaming tariff as regards countries of roaming tariff zone 1:

Roaming tariff zone 1 (Regulated European Data Roaming)	The domestic data limit of the Subscriber's tariff package applicable in Hungary
Roaming tariff zone 2	HUF 1,984.26/MB (HUF 1,889.77/MB net)
Roaming tariff zones 3, 4, 5, 6	HUF 2,893.71/MB (HUF 2,755.91/MB net)
Satellite networks on board of water-, and aircrafts (Roaming tariff zone 7)	HUF 4,547.25/MB (HUF 4330.71/MB net)
Roaming tariff zone 8	HUF 32,13/MB (HUF30,60 /MB net)
Fee of Regulated Retail Limit:	HUF 71.18/MB (HUF 60.31 / MB net)

The applied zone classification corresponds to the classification applied in case of traffic-based roaming charges (section 5.1).

Subscribers who use the Telemetry Service in a Closed Access Point Name (APN) can use internet access in the roaming tariff zone 1 at the price of HUF 76.59/MB (net HUF 60.31/MB), and outside the roaming tariff zone 1, at the price of HUF 3175/MB (net HUF 2500/MB), unless they have a custom roaming offer.

For the Internet and packet-switched WAP, data traffic is billed in units of 100 kB; in the roaming tariff zone 1 (Regulated Data Roaming) and in the case of using the Telemetry Service via a Closed Access Point Name (APN), in units of 1kB, and every started connection shall be counted as at least as one unit..

5.5. Vodafone EU Roaming service

Vodafone EU Roaming service for Okos Rádás Red EU Standard, Okos Rádás Red EU Premium, Business Start EU, Business Medium EU, Business Pro EU, Business Group EU or Small and Large Enterprise Red Basic EU, Business Red EU Basic, Business Red EU Standard, Business Red EU Premium or Ready Business More, Ready Business Most, Ready Business Everything or Business Group EU, Business EU 500MB, Business EU 2GB, Business EU 10 GB, Business Red EU 2GB, Business Red EU 10GB, Business Red EU 30GB , Business Red EU Superior, Business EU 1GB, Business EU 3GB, Business EU 12 GB és a Business EU Red 3 GB, Business EU Red 12 GB és Business EU Red Superior, Business EU Group 5, Business EU Group 10, Business EU Group 15, Business EU Group 20, Business EU Group 30, Vodafone Business RED or Vodafone Business Smart packages in case of Subscription Contracts concluded for the above service packages:

The Vodafone EU Roaming service is available on the roaming networks specified by the Service Provider. The current list of partner networks can be found on the www.vodafone.hu/eu website. In case of active Vodafone EU Roaming, the Subscribers can access the roaming service in the countries of the partner networks listed on the www.vodafone.hu/eu website exclusively in the designated networks.

There is no separate fee payable for the activation of Vodafone EU Roaming service. After successfully ordering the service, it will remain active until cancellation.

Preferential roaming charges applicable to using the Vodafone EU Roaming:

1. In case of standard rate calls and SMS messages to Hungarian call numbers:
The domestic standard rate call/SMS/MMS charge of the Subscriber's service package applied in the network of Vodafone Hungary
2. When roaming in any of the specified countries, in the case of calls and SMS/MMS messages to any mobile or fixed-line number of the countries of roaming tariff zone 1:
Initiating calls to the countries of roaming tariff zone 1: The domestic out-of-network mobile call charge of the Subscriber's tariff package applicable in Hungary.
Sending SMS to the countries of roaming tariff zone 1: The domestic out-of-network SMS charge of the Subscriber's tariff package applicable in Hungary.
Sending MMS to the countries of roaming tariff zone 1: The domestic out-of-network MMS charge of the Subscriber's tariff package applicable in Hungary.
Initiating calls, sending SMS/MMS from Monaco, Switzerland or Turkey to the countries of roaming tariff zone 1: The charge of the Subscriber's tariff package applicable in Hungary for domestic out-of-network calls/SMS/MMS messages.
3. In the case of calls and SMS/MMS messages to any number of a third country (i.e. others than the countries of roaming tariff zone 1):
The call/SMS/MMS charge of calls initiated from Hungary to abroad or SMS/MMS sent from Hungary to abroad as per the Subscriber's tariff package, per the billing unit of the international directions
4. In case of received calls (calls, SMS/MMS received while roaming in any of the networks in the list):
Free of charge as per the Subscriber's tariff package applicable for calls/SMS/MMS received in the network of Vodafone Hungary.
5. When data roaming is used
The Subscriber may conduct data traffic up to and from the data limit allowed by its package applicable to domestic use. After the domestic data limit is exhausted, the Automatikus PluszAdat (Automatic Plus Data) 150 MB or Automatikus Kiegészítő Adat (Automatic Extra Data) 200 MB option will be activated in the same manner as in domestic conditions, and after the data limit included therein is also exhausted, unless the Subscriber purchases another extra data option, the speed of the international data access will be slowed down to the level stipulated in the tariff package until the end of the current billing cycle. When the billing cycle ends, the service is restarted..

Roaming tariff zone 1 includes the following countries:

Austria, Belgium, Bulgaria, Croatia, Cyprus, the Czech Republic, Denmark, Estonia, Finland, France, French Guyana, Germany, Gibraltar, Greece, Guadeloupe, Iceland, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Martinique, the Netherlands, , Norway, Poland, Portugal, Réunion, Romania, Slovakia, Slovenia, Spain, Sweden, UK.

Vodafone EU Roaming is also available in Monaco, Switzerland and Turkey.

The currently valid classification of the countries into the different zones can be found on the www.vodafone.hu/roaming site.

The Vodafone EU Roaming service may only be used in compliance with the rules applicable to the proportionate use for travel purposes, to satisfy the personal communication needs of natural person users (ad-hoc use for travel purposes), i.e. Vodafone EU Roaming is available for permanent residents of Hungary, during travels. While Vodafone EU Roaming is used, the number of calls/SMS/MMS messages to Hungarian numbers from abroad, as well as the data volume used abroad (the sum of data traffic included in the tariff and the supplemental data options) may not exceed the average of four months' domestic use, and during the evaluated period, the days on the roaming partner's network of the country subject to the provisions may not exceed the number of days on the network of Vodafone Hungary (fair usage). If Subscriber fails to comply with the terms and conditions of fair usage, he/she shall be notified via SMS, and shall also be warned to comply with the terms and conditions of fair usage. If within two weeks following the warning, the pattern of use concerning the Subscriber's actual consumption or presence is not changed, then the Service Provider is entitled to apply additional charges according to Article 6 e of Regulation (EU) 531/2012 as of the day of the notification.

Rate of the additional charge:

Initiating calls to the countries of roaming tariff zone 1: HUF 12.56 / min (HUF 9.89 / min net);

Sending SMS message to the countries of roaming tariff zone 1: HUF 3.92 /SMS (HUF 3.09 / SMS net);

Sending MMS to the countries of roaming tariff zone 1: HUF 3.02/MMS (HUF 2.38 / MMS net);

Data traffic in the countries of roaming tariff zone 1: HUF 2.50/MB (HUF 2.38/MB net).

For Switzerland, Turkey and Monaco, we examine the conditions of fairness separately from the countries of roaming zone 1. During the use of Vodafone EU roaming, the number of calls made and SMS and MMS messages sent to foreign and Hungarian call numbers as well as the amount of data used abroad (the data traffic included in the tariff and the additional options inclusive) may not exceed the mean value of domestic use according to four months of invoicing data. Moreover, during the examined period, the number of days spent using the network of the roaming partner in a country under the regulation may not exceed the number of days spent using the network of Vodafone Hungary (fair use). In case the conditions of fair use are not met, we inform the Subscriber thereof in an SMS message warning them about the conditions of fair use. If the Subscriber fails to change their pattern of actual consumption or presence within two weeks after the warning is issued, the Provider is entitled to apply an extra fee starting from the day of the warning.

Rate of the additional charge:

Initiating calls to the countries of roaming tariff zone 1: HUF 12.56 / min (HUF 9.89 / min net);

Sending SMS message to the countries of roaming tariff zone 1: HUF 3.92 /SMS (HUF 3.09 / SMS net);

Sending MMS to the countries of roaming tariff zone 1: HUF 3.02/MMS (HUF 2.38 / MMS net);

Data traffic in the countries of roaming tariff zone 1: HUF 2.50/MB (HUF 2.38/MB net).

In the event of improper use, i.e. if Subscriber violates any of the rules applicable to use for private travels, Vodafone reserves the right to cancel the Vodafone EU Roaming service for the given subscription, after sending prior notice to this end. In case of cancellation, the service will not be available for reactivation. Customers whose Vodafone EU Roaming service has been cancelled on their subscription may use their device abroad according to the traffic-based roaming charges as amended from time to time, and pursuant to the terms and conditions of the Regulated European Roaming charges in the territory of the European Economic Area.

Before using up the data volume included in the monthly fee, or after using up the data volume included in the Automatikus PluszAdat or Automatikus Kiegészítő Adat option, a supplemental data option needs to be purchased on the Netinfo page (<http://netinfo.vodafone.hu>), according to the same prices and terms that apply to Hungarian purchases, to be able to use the Internet until account closure. Without purchasing a data option, the data traffic cannot be exceeded after the data volume included in the Automatikus PluszAdat or Automatikus Kiegészítő Adat option is exhausted. If the Subscriber has exhausted the data volume included in the package and the Automatikus PluszAdat or Automatikus Kiegészítő Adat option, Internet service will not be available for it until the end of the billing cycle. The service is reinstated upon closing the billing cycle.

In case of service packages with divisible data traffic (primary SIM), data traffic may be used, after the Vodafone EU Roaming service is activated, in the associated MultiNet tariff packages (secondary SIM) domestically and abroad, within the area of validity of the Vodafone EU Roaming service

While using the Vodafone EU Roaming service, several data connections can be established up to the available data volume. The technical details of using the domestic data limit in a roaming environment correspond with the domestic terms of use. The Subscriber receives SMS notification when exhausting 80% and 100% of the available data volume. Due to technical reasons notification SMS messages may be only sent after closing the data connection.

If the Subscriber wishes to activate the Vodafone EU Roaming service for a phone number where the data roaming option - concluded with an indefinite-term contract - is active, then the option previously activated on the subscription will be automatically deactivated, while Vodafone EU Roaming will be activated. The Service Provider notifies the Subscriber on the success of the activation via SMS.

The discounts of the Zárt Csoport option and the Wireless Office 2 option do not apply to Vodafone EU Roaming calls.

5.6. Data roaming limit (cost limit) service

The data roaming limit service allows the Subscriber to control his monthly costs associated with data roaming (costs arising in a billing period). If the monthly data roaming spending of a Subscriber reaches the designated limit, the data roaming service is suspended by the Service Provider.

The Service Provider offers three billing limits for the Subscribers:

1. HUF 2,4807.31 gross (HUF 2,362.2 net) per month,
2. HUF 16 390,5 gross (HUF 15.610 net), per month,
3. HUF 57,874.02 gross (HUF 55,118.11 net) per month.

For the purposes of the data roaming limit service, the summary only includes data roaming traffic fees. The daily, weekly or monthly fees of roaming options are not taken into account for the billing limit. The data roaming limit is valid within all partner networks of the Service Provider (except for satellite, maritime and aeroplane on-board providers).

In accordance with Regulation 544/2009/EC of the European Parliament and of the Council, the Service Provider automatically activates a default data roaming limit of HUF 16 390,5 gross (HUF 15.610 net) for post-paid subscribers. The Subscriber may request, free of charge, the modification of the data roaming limit service to another limit.

If the Subscriber's data roaming spending reaches 80% of the limit within a given billing period, he receives a text message notification about this fact. Another notification is sent by the Service Provider to the Subscriber when 100% of the billing limit is reached. After 100% has been reached, the Service Provider suspends the data roaming service for the Subscriber, who will not be allowed to further use the service in the remaining part of the billing period.

If the Subscriber's data roaming spending reaches 100% of the limit within a given billing period, after the suspension has been effected, the data roaming service may be further used if:

- the Subscriber requests a temporary suspension of the data roaming limit for the remaining part of the billing period (in this case, the limit service will be reactivated at the beginning of the next billing period), or
- the Subscriber cancels the service (in this case, he may use the data roaming service without limitation until the limit is activated again).

The activation of the service is free of charge, and may be ordered, suspended, modified or cancelled at the Service Provider's hotline or via an order by SMS message.

5.7. Reserved for editing purposes

5.8. Charges for video calls during roaming

The charge for video calls initiated during roaming is HUF 914.4 gross (HUF 720 net) per minute, irrespective of the time of day or the network. The uniform charge for video calls received during roaming is HUF 304.8 gross (HUF 240 net) per minute. For both charges, calls are subject to per-minute billing.

5.9. Roaming price information service

Using the roaming price information service, the subscriber can send a text message to the short number 1702 (with the name of the selected country), and receive, via SMS, information about the rates of initiating and receiving calls in the given country. Both in Hungary and abroad, the service is available in all networks with the operators of which Vodafone has an international roaming agreement. For a list of countries for which the roaming price information service is available, visit the www.vodafone.hu website.

Sending SMS messages to phone number 1702 is free from Hungary, from abroad it is billed in accordance with the traffic-based roaming charges. Information available on phone number 1702 is only provided for information purposes.

5.10. Terminated roaming services

5.10.1. Reserved for editing purposes

5.10.2. Reserved for editing purposes

5.10.3. Reserved for editing purposes

5.10.4. Reserved for editing purposes

5.10.5. Reserved for editing purposes

5.10.6. Data roaming options

Data roaming options provide discounted Internet access in a roaming environment within the designated networks. For a current list of designated networks, visit the www.vodafone.hu/roaming website.

A precondition for ordering these options is that, prior to starting the use of the service, the Subscriber has active services ensuring domestic Internet access and roaming. If, after ordering the data roaming option, the service providing domestic Internet access is cancelled, the data roaming option is also terminated.

One Subscriber may have a maximum of one active data roaming option at a time. For the Internet and packet-switched WAP, data traffic is billed in units of 100 Kb, and every started connection is considered at least as one unit. During Internet use in a foreign country, the sum of downloaded and uploaded data traffic is used for billing.

After exhausting the discounted traffic provided under the data roaming options, before the expiry of the term of validity - on the designated networks - the fee of data roaming is HUF 8.26 gross / MB (HUF 7.87 / MB net). The discounted data traffic can be used for roaming Internet, packet-switched WAP.

5.10.6.1. Data roaming daily tickets and weekly ticket

The activation of daily and weekly tickets is free of charge. The option can be activated via the customer service number 1270, or via text message by sending the appropriate code to the phone number 1270. The sending of such text messages is free of charge from the network of Vodafone Magyarország Zrt., while from abroad the charge applicable to the relevant zone classification must be paid.

	Fee	Discounted data volume	Ordering SMS-code
MobilWeb daily ticket abroad	HUF 570.48 gross HUF 543.31 net	25 MB	RNAPI
MobilWeb weekly ticket abroad	HUF 2,472.05 gross HUF 2,354.33 net	100 MB	RHETI
Internet daily ticket abroad	HUF 1,810.63 gross HUF 1,724.41 net	100 MB	RNAPI100

The daily fee is only charged if the Subscriber transmits any amount of data via any of the designated networks. The discounted data traffic may be used within a period of 24 hours. During the billing period started, several data connections can be established up to the discounted traffic limit. Any credit of data traffic not used within the validity period may not be carried over to the next period or used within Hungary.

If the subscriber transmits data again after the 24 hours have expired, a new daily fee will be charged.

The validity period starts when the roaming data traffic is started (not at the beginning of the given calendar day).

5.10.6.2. Monthly fee-based data roaming options

Monthly fee-based data roaming options may be ordered by Service Provider's agent, or personally from any Vodafone retailer or from the customer service. Monthly fee-based data roaming options may only be ordered for a post-paid subscriber service (mobile voice or mobile Internet).

Monthly fee-based data roaming options may not be cancelled within 1 year after they have been requested.

If the Subscription Contract is terminated for a reason within the Subscriber's control within 1 year after the commencement of the use of the monthly fee-based data roaming option, the Service Provider is entitled to claim from the Subscriber, as liquidated damages, the amount of discount used in relation to the data roaming base rate (from the date on which the option was ordered). The maximum amount of liquidated damages is HUF 40,000.

5.10.6.3. MobilWeb abroad option

The monthly fee of the service is HUF 1,645.28 gross (HUF 1,566.93 net). Within the designated networks, the service includes 50 MB discounted data traffic. Daily discounted traffic is billed on the basis of calendar days. During the billing period (calendar day) started, several data connections can be established up to the discounted traffic limit.

On a given calendar day, the charge to be paid for data traffic in excess of 50 MB is HUF 8.26/MB gross (HUF 7.87/MB net) while outside the designated networks a fee according to the data roaming base rate is charged (for details, see Section 5.4.1 of Annex 1 to the Business General Terms and Conditions entitled "List of Rates").

This rate is valid until 12:00 pm on the given calendar day (billed according to the Hungarian time zone); on the following day, the discounted data volume of 50 MB is available again. Any data volume available on a daily basis but remaining unused may not be carried over to the next period or used within Hungary.

If the option is ordered or cancelled, pro-rata fractional monthly fee and pro-rata fractional data volume are not available in the affected billing cycle.

5.10.6.4. Internet abroad option

The monthly fee of the service is HUF 4,538.97 gross (HUF 4,322.83 net). Within the designated networks, the service includes 1 GB discounted data traffic, within the Subscriber's billing period in the relevant month. The billing of discounted traffic varies among Subscribers, and is not based on calendar months. During the monthly billing period started, several data connections can be established up to the discounted traffic limit.

During a given billing period, the charge to be paid for data traffic in excess of 1 GB is HUF 8.26 / MB gross (HUF 7.87 / MB net) on the designated networks, while outside the designated networks a fee as per the data roaming base rate is charged (for details, see Section 5.4.1 of Annex 1 to the Business General Terms and Conditions entitled "List of Rates"). These rates are valid until 12:00 pm on the last day of the given billing period (billed according to the Hungarian time zone); in the following billing period, the discounted data volume of 1 GB is available again. If the option is ordered or cancelled pro-rata fractional monthly fee and pro-rata fractional data volume are not available in the affected billing cycle.

5.11. Call diversion to domestic number when using international roaming

In the case of international roaming, rates of call diversion to domestic numbers are as follows:

- If the Subscriber is not available:
 - o If the Subscriber's handset is turned off, call diversion will be charged according to the tariffs in domestic relation
 - o If the device of the Subscriber is switched on but cannot connect to the network (it is outside the coverage area), then in the case of a 2G/3G voice call, a received roaming call and an initiated roaming call, while in the case of a 4G voice call (VoLTE) a domestic diverted call will be billed
- If the Subscriber fails to answer the phone or it is busy: in the case of a 2G/3G voice call, a received roaming call and an initiated roaming call, while in the case of a 4G voice call (VoLTE) a domestic diverted call will be billed
- If the Subscriber divert his calls to the voicemail: Call diversion will be billed according to the tariffs in domestic relation.

6. Mobile purchase services

By using the mobile purchase service, the Subscriber acknowledges that he is obliged to pay the price of the product, the charge for the SMS messages sent in connection with the purchase, and the transaction or convenience fee, if it is separately charged.

When a product is purchased, Subscriber will be charged by Service Provider with the price of SMS messages sent in connection with the mobile purchase service within the framework of the communications service, based on the fee of standard-rate text messages within the network of Vodafone Magyarország Zrt. in the relevant tariff package.

The purchase prices of products are always determined by the Merchants and are published on their own website or in another form in accordance with the type of service, specified in the General Terms and Conditions for Other Services.

Transaction or convenience fees are included in the following table

Name of service	Party selling the service (Merchant)	Transaction fee /convenience fee (gross)
Purchase of the right to use the motorway	Nemzeti Mobilfizetési Zrt. Registered office: H-1027 Budapest, Kapás utca 6-12. Company registration number: 01-10-047569	HUF 160

The prices indicated in the table are gross prices including VAT. Satellite calls are billed by the Service Provider on a per-second basis.

International green number call options:

Number called	Service	Initial status	Rate of calls
+36 80 000 000 – 099 999	International green number that can be dialled in a domestic format	Available for calls	Free of charge
(00-800)	International (service-related) green numbers	Available for calls	HUF 49 / min

The charge for an SMS sent to the Red EU International tariff zone is HUF 24, except for tariff packages where the tariff table provides otherwise.

The rate of SMS messages sent to international direction outside of the Red EU International zone is for each tariff package twice the basic (domestic, out-of-network) SMS rate (where the rate of sent out-of-network SMS is HUF 0 tariff package charge), except for the Európa tariff package.

The charge for international video calls to the Red EU International tariff zone is HUF 76 per minute for all tariff packages. To countries outside the Red EU International tariff zone, it is HUF 290 per minute. Calls are billed on a per minute basis.

10. Other charges

10.1. Entry fee

The Subscriber must pay a one-time entry fee of **HUF 10,000** gross for being connected to the Service Provider's network.

10.2. Balance information fee

Vodafone provides information to the Subscriber on the available balance of the relevant subscription, as well as other data, via the phone number 1751 or by replying to a text message sent to the same number, after the Subscriber requesting the information and the authorization of the Subscriber has been verified. The charge to be paid for the call or SMS is **HUF 70** gross.

10.3. Unlocking the network lock of the device

After the expiry of a fixed-term Subscription Contract, the unlocking of the network lock of a device purchased with the Subscription Contract at the request of the Subscriber is free of charge.

After the expiry of a fixed-term Subscription Contract, if the unlocking of the network lock is requested not by the Subscriber, the fee for the unlocking of the network lock is gross HUF 10,000.

During the fixed-term of a Subscription Contract, after paying the penalties specified in the Subscription Contract and the amount of the device discount, the unlocking of the network lock at the request of the Subscriber is free of charge

Subscriber may request the unlocking of the network lock of the devices at Service Provider's brand representations or by calling 1270 within the network. The list of brand representations is displayed on the Service Provider's website (www.vodafone.hu). The network lock of the device is unlocked by the Subscriber after the Service Provider has sent the code necessary for unlocking the lock to the Subscriber at Subscriber's discretion (a) by mail (letter) or (b) by electronic mail or (c) on-site in case of brand representation request.

Service Provider undertakes

- a) - not including the case of number porting - to mail the letter including the code necessary for unlocking the network lock within 15 working days of having entered the fees paid in accordance with this List of Rates into the Service Provider's books. The Subscriber can perform the unlocking operation in possession of the code. Those devices are excepted from this provision for which the Subscriber cannot unlock the network lock due to the features of the device. In such cases the unlocking will be done by the manufacturer or the Service Provider within 30 working days.
- b) in case of number porting, after payment of the consideration of any devices sold for a definite term at a discount price or otherwise with favourable terms, or after the receipt of the relevant statement of the receiving service provider, the Service Provider will release the network lock of the device at the request of the Subscriber free of charge.

10.4. Suspension of a SIM card

A SIM card must be suspended if the Subscriber's phone is lost or stolen, the Subscriber has overdue debts, or when requested by the Subscriber.

10.4.1. Suspension

The Subscriber may request the suspension of the mobile phone service for a minimum of one (1) month and for a maximum of twelve (12) months in case of an indefinite-term contract, and for a maximum of six (6) months in case of a fixed-term contract. After the requested period of suspension (maximum 6 or 12 months) has expired, the Service Provider activates the Subscriber's SIM card, and continues issuing invoices for the monthly subscription fee. During the suspension, the Service Provider charges **25%** of the fees to be paid by the Subscriber (for each SIM card).

If the subscriber requests the suspension of the service due to a lost or stolen SIM card or phone, the procedure described in the General Terms and Conditions is applicable.

In the case of a subscription contract with a definite term, the term of the subscription contract will be extended by the duration of the suspension.

10.4.2. Limitation

During the limitation of the service, the Service Provider charges **50%** of the original monthly fee of the Subscriber.

10.5. Replacing a SIM card

The replacement of a SIM card is subject to a charge of **HUF 7,000 gross** in case of a lost, stolen or damaged card, or if a new card is requested although the old one is still working. All other SIM card replacements are free of charge.

10.6. Transfer of a subscription

The subscription can be transferred to another person according to the General Terms and Conditions. For post-paid Subscribers, the transfer is subject to a charge of **HUF 5,000 gross** for each subscription. The Service Provider will waive the payment of the transfer charges payable for each subscription or on a one-time basis in case of transfer due to legal succession. The new Subscriber must pay the above charge after a creditworthiness assessment.

10.7. Change of phone numbers

Post-paid Subscribers may request a change of their phone numbers, or choose a phone number when signing the Subscription Contract, subject to a one-time fee of **HUF 7,000 gross**.

10.8. Administration charge

If a Subscriber's outstanding debts are settled before a request for order of payment is submitted to the court, the administration charge is **HUF 22,000 gross**. If the above mentioned procedure is launched, the administration charge is increased by further HUF 10,000, resulting in **HUF 32,000 gross** in total.

10.9. Administration fee

The Service Provider charges an administrative fee in the following cases in accordance with the General Terms and Conditions:

- at the time of reinstating the full-scope service;
- in connection with the restriction of the service.

The administration fee is **HUF 4,000 gross** per SIM card.

10.10. Detailed call list

Subscribers may request a detailed call list about a billing period in a printed form any number of times within the time described in the General Terms and Conditions. For business subscribers, the first detailed call and data traffic list and each further list are subject to a charge of **HUF 1,000 / SIM card**. The monthly fee of the regular detailed call list is also **HUF 1,000 / month / SIM card**.

10.11. Additional invoice print-out service

The Subscriber may request an additional invoice print-out for a charge of **HUF 700 gross**.

10.12. Additional printout of a purchase invoice

The Subscriber may request an additional printout of purchase invoices. This is subject to a charge of **HUF 700 gross**.

10.13. Requesting a cash transfer order form

The Subscriber may request a blank cash transfer order form from the Service Provider. This is subject to a charge of **HUF 700 gross**.

10.14. Change of the billing period

The Subscriber may request a change in the closing date of his bills once in a billing period for a charge of **HUF 700 gross**.

10.15. Provision of access to the recordings of conversations with the Service Provider's customer service

The Subscriber / caller may request, if he is entitled to do that, access to the recordings of conversations with the Service Provider's customer service. This service is free of charge once per audio recording, while in all further cases the storage media (DVD) must be provided by the Subscriber / caller, and the service is rendered against a charge of **HUF**

10,000 gross. If the Service Provider is found responsible in the dispute concerning the contents of the audio recording, or if the Service Provider subsequently admits that the Subscriber / caller was right in the dispute, the Service Provider shall refund the charges to the Subscriber / caller.

10.16. Provision of a copy of the subscription contract

The Subscriber may request from the Service Provider the provision of a copy of the subscription contract. This service is free of charge once during a calendar year, while all further copies can be requested against a fee of **HUF 700** gross.

10.17. Fee of payment demand procedure

Should the Subscriber fail to meet his payment obligation towards the Service Provider by the relevant deadline, and the payment deadline set in the Service Provider's written notice pass without any results, the Service Provider will repeatedly demand payment from Subscriber (which may be provided in SMS, postal mail, email or voice call), the fee of the payment demand procedure - gross **HUF 600** - shall be borne by the Subscriber.

10.18. Issuing new invoice due to data change

If the Subscriber's data have changed, but Subscriber fails to comply with the reporting obligation regarding the changed data until the deadline defined in Section 13.4 of the General Terms and Conditions, Subscriber may request the reissuing of the invoices issued to it after the data change for the fee of gross **HUF 1,500** per invoice. The fee of reissuing the invoices is not subject to VAT.

10.19. Issue of PIN/PUK code

The PIN or PUK codes belonging to the SIM card can be issued at the Subscriber's request for **HUF 250** gross in each case.

10.20. Amending the client security code

Modifying the security code at the request of the Subscriber in the amount of **250 HUF** gross per bill payer and occasion

10.21. Current account extract

The Service Provider prepares a current account extract at the Subscriber's request submitted personally at the Service Provider's customer service, in writing or by phone for a one-time fee of **HUF 350** gross, which includes the amounts credited to and debited from the Subscriber's account, and the final amounts of the invoices issued by the Service Provider. The completed current account extract is delivered by mail.

10.22. Balance statement

The Service Provider prepares a balance statement at the Subscriber's request submitted personally at the Service Provider's customer service, in writing or by phone for a one-time fee of **HUF 350** gross, which includes the amounts credited to and debited from the Subscriber's account and the final amounts of the invoices issued by the Service Provider up to a time specified by the Subscriber. The completed balance statement is delivered by mail.

10.23. Fee of instalment payment benefit procedure

Should the Subscriber fail to meet his payment obligation toward the Service Provider by the relevant deadline, he may ask instalment payment benefit from the Service Provider, the fee of which is **HUF 2,500** gross in each case. This fee is payable upon the expiry of the instalment payment deadline, and is reflected in the closed invoice.

10.24. Fee of payment deadline extension procedure

Should the Subscriber fail to meet his payment obligation toward the Service Provider by the relevant deadline, he may ask for the extension of the payment deadline from the Service Provider, the fee of which is **HUF 2,500** gross in each case. This fee is payable upon the expiry of the extended payment deadline and is reflected in the closed invoice.

10.25. Fee of delivery by courier:

The fee of delivery by courier per delivery address and delivery is **HUF 1,257** gross in the territory of Hungary.

11. Miscellaneous provisions

The invoice issued by the Service Provider includes intermediated services as specified in Section 3(4) item 1 of Act C of 2000 on Accounting.
